Acrobat Reader may not allow you to save the form with the data you have typed in so you will have to print a hard copy and mail or fax it. If you are able to save this file to your computer (using Acrobat Professional), you can email it as an attachment. If you have the ability to print to a PDF (select printer: Adobe PDF), you can create a file by doing so and send that file as an attachment. Email as an attachment to wha@unm.edu or fax or mail the printed form.

Tab through or click on fields to complete form. Totals should automatically calculate.
