Transfer credit is broken out by school from which the credit applies and the career and program of the student. In the upper right of the screen (shown below) if the student has credit from multiple schools, you will see the listing indicator show something other than '1 of 1'. In this example '1 of 2' indicates that two schools with posted credit are on this student's record. You can either use the little arrow buttons to move from each school or click on the 'View All' link to list all the schools credit on one screen.
