

Whereas there has been discussion recently about faculty and student access to the primarily publicly funded Performing Art Center (PAC),

Whereas it appears that non-educational considerations are receiving priority over faculty and student events, classes, and productions.

Be it resolved that the UMSL Senate Committee on Physical Facilities, Space, and General Services (PF, S, & GS) be asked to look into issues, particularly but not limited to, the relocation of Theater, Dance and Media Studies faculty into the PAC, priority for student and faculty productions and other events, and the regular scheduling of Theater, Dance and Media Studies classes in the PAC.

And that the Chair of the Senate Committee (PF, S, & GS) report back its findings and recommendations at the November, 2006 meeting.
