Career Services at UMSL manages a biennial graduate survey of all undergraduate students except the College of Education (data received from DESE) and graduate students from the College of Business Administration. Graduates are contacted approximately four to six months after graduation by sending three emails to all graduates directing them to a website to complete the survey. Follow-up calls are made to increase the response rate. Of those graduates that were reachable, there was a 47% response rate for the December 2010, May 2011, August 2011 graduates.

76% of respondents describe their jobs as being directly or somewhat directly related to their major/career goals.

*There was a 47% response rate for the Dec 2010, May 2011, August 2011 reachable graduates.*
