

## Autumn's Learning Center

### Teacher Assistant Position

The teacher assistant position is a position for anyone who enjoys being around children ages 6 weeks-10 years old. The assistant will assist with taking children outside, sanitizing toys, cleaning with washing dishes, cleaning a small bathroom, sweeping and mopping floors. These duties will be done while children are napping. Assist teacher with group time for morning employees. Since this is a child care setting, there is a lot of cleaning. I am looking for individuals who are not afraid of hard work. I would prefer college students who are in the Early Childhood field, social service, nursing or this could be a great second job for someone who needs extra money. I hope this will help you. Thanks again.
