The China America Corner (CAC) 中美角

is a student organization focused on promoting the exchange of language and culture between Chinese and American students. American students learn and practice Chinese with Chinese students, who, in turn, learn and practice English with American students. Most importantly, they have fun by playing games, making friends and celebrating both Chinese and American festivals together to learn about each other's culture.

Join us to enjoy a whole semester of fun for $5 only!
