Academic Department

Undergraduate Advisors

We encourage you to contact your department advising coordinator to inquire about advising (see list below). The department advising coordinator can provide information on courses offered or any other information which will help you reach your educational goal. Students who maintain a relationship with their departments are more likely to persist. It also allows for greater opportunity to meet other students with similar interests. Students planning to further their education through a graduate program should be particularly careful to seek advice from a faculty member in the subject area.
