

N4310 – Senior Synthesis Student Evaluation of Preceptor

The purpose of this survey is to provide students an opportunity to evaluate the role of his/her preceptor in the synthesis clinical learning experience. Results are used to inform future decisions regarding student clinical placements and preceptor selections.

Preceptor Name _____

If you had more than one preceptor, please complete an evaluation of each preceptor.

Clinical Agency*(Hospital): _____

Clinical Unit: _____

Semester _____ Year _____

Instructions

1. Including your Name is optional
2. Check the box that best corresponds to your response to each item. Mark your answers according to the following scale: **SA=4 Strongly Agree; A=3 Agree; D=2 Disagree; SD=1 Strongly Disagree**

	SA (4)	A (3)	D (2)	SD (1)
1. Orientation to the unit was adequate to meet my needs.				
2. My preceptor was a role model of expert clinical practice.				
3. My preceptor was conducive to and supportive of student learning.				
4. My preceptor understood and supported goals for this experience.				
5. My preceptor was friendly, courteous, and showed enthusiasm for student learning.				
6. My preceptor was able and willing to provide explanations of the patient care we were providing.				
7. I felt my preceptor supported my development in professional clinical practice (allowed me to work on my own).				
8. My preceptor allowed me a variety of clinical experiences to meet personal learning objectives for this course.				
9. My preceptor found opportunities for me to collaborate with other members of the health care team.				
10. Considering your clinical experience, would you recommend this preceptor for future synthesis students?				

What were the strengths of your preceptor during your synthesis experience?

What were the limitations of your preceptor during your synthesis experience?
