The Student Association (SA) is the new Student Government at UMSL as the result of a student referendum. Replacing the Central Council, SA, as defined by its constitution, is to provide greater student participation in the general administration and government of UMSL. This is accomplished by working with faculty and administrators to maintain an institution of increasing service to students, alumni, the metropolitan community, and the state. The student government has a dual role. First, it represents the student body in all facets of university governance. Secondly, the student government provides services to the UMSL student by developing new programs, and sponsoring activities as well as helping other organizations provide services to the UMSL community.
