UMSL

Open Programming Competition 2015

The competition took place Friday, May 15 on the 3rd floor of ESH and was open to all UMSL students registered during the Spring 2015 semester. Students could bring their own computers or use the computers in our lab. Students had three hours to program 6 problems in a language of their choice (C, C++ or Java) and on a platform of their choice, with automated testing on Admiral.

Thirty participants took over the 3rd floor of ESH using the conference room, student computer lab, and faculty lounge.

Winners OPC 2015:

1. Dan Wilder (6 solved)
2. Alexander Pierce (6 solved)
3. Sharmila Thippabhotla (5 solved)
4. Vasudeva Cherukumilli, Drew Ryder, Patrick McNamara (4 solved)
