

# Open App Design/Proposal Competition 2017

*You may win \$1000*

The Department of **Mathematics and Computer Science** invites all UMSL students to propose a new app (iOS, Android and/or server based). It can be proposed as deployable, prototyped, or even just an idea that is sketched/designed. The app can include server support or be completely server-based via browser. The possible purposes of the app is wide open but preferably in some way will help university students, universities, or the community. General commercial app ideas are welcome as well. Proposals will be judged based on the novelty, usefulness, and potentials.

Selected proposal(s) may be further supported by the department for development and commercialization.

## Awards

Students/teams whose ideas are selected will receive an award of \$1,000. More than one award can be given.

## Eligibility

Open to **all current UMSL students**. Team submissions are welcome. Students whose proposals are awarded must agree to assign their IP rights on the project to the University for possible further development.

## To Enter

Students must submit their proposal by midnight on Dec. 18, 2017.
