
We will gather at 9:45 AM at the Daniel Boone home where we will have guided tours of the historic Boone home and three buildings in the village. At noon we will have lunch at Chandler Hill Winery. The winery is five minutes from the Boone Home. Following lunch participants will be provided maps of scenic foliage drives with optional stops at various local wineries.

The historic Boone home was restored by Randall Aundre. Mr. Aundre also created the village located behind the home by relocating log buildings in the region that were slated for demolition. He and his family operated the Boone property for approximately twenty years before giving it to Lindenwood University.

Last year the property was turned over to St Louis County Parks. The St Charles Parks Department provides guided tours of the facility to school groups and has general public admission on specified days.

Mr. Aundre is a personal friend of one of our members and has agreed to provide our group with a personal behind the scenes tour of the property. The tour will last approximately two hours and altogether will involve walking approximately one half mile. There are a few areas that are not handicap accessible, however, there are benches for those needing rest to sit on while waiting to rejoin the group.

At noon we will have lunch at the nearby Chandler Hill Winery. The restaurant seating, which has both indoor and outdoor options, overlooks a beautiful valley.

The optional afternoon drives on winding blacktop roads through the countryside provide some of the best foliage viewing in Missouri.

To get to the Boone Home take 40/61 West across the Boone Bridge. Exit at Hwy 94, travel eight miles South to Hwy F. Turn right, the home is located five miles on the left side of the road.

More information will follow. Pre-registration will be required. The tour of the Boone home will be limited to the first thirty registrants.
