sure...

I also sent a separate note to Glen...you might ask her to share it...and of course you could then use it as well.

Some very good things going on at UMSL

G

It is wonderful to have Jim at the helm of ITS. He's open to learning and supporting campus initiatives. Shala will tell you how long it took her to "get it" and that's a fabulous testament to tenacity and how tedious change is in higher ed.

We're always trying to capture feedback and supportive statements, George. May I pass along your message to my colleagues and could we quote you somewhere (anywhere and often)?

Peggy: It was so good to get a chance to spend some time with you and your terrific colleagues. That was a real treat.

I was very intrigued with both the Math lab and the learning studios. I'm impressed with the commitment to learning outcomes that undergirds both of these initiatives. It was interesting to think about the roles that both Shala and Jim play in these operations.

See you soon.

George
