

History of Online Courses at the University of Missouri-St Louis

Nursing Online Programming

With the exceptional need for nurses and nurse educators, the greatest need for approved distance education programs is in the College of Nursing. Current course offerings include the following:

Traditional BSN

- 3106 Health Assessment
- 3110 Pathophysiology
- 3111 Pharmacotherapeutics
- 3804 Ethical and Legal Dimensions
- 3807 Nursing Research
- 3808 Management and Leadership
- 3817 Information Management

PhD

- 7490 Adv. Quantitative Design
- 7491 Adv. Theory Development
- 7429 Adv. Quantitative Measurement

Since our PhD program is a collaborative degree with the University of Missouri-Columbia and the University of Missouri-Kansas City, it is necessary to offer courses online. The faculty, however, do not want to offer the entire PhD program online. These courses are listed to demonstrate the campus and college's commitment and capacity to offer other online programs. Upon approval by HLC, we anticipate that we'll start with the RN to BSN program online, increase the number of courses in the traditional BSN until it is offered entirely online, and then offer the MSN online.

College of Education

Education faculty are quite active in consulting abroad. This led to opportunities to recruit teachers in international schools to take online courses. Although we have no long-term documentation, the strong interest the first year is promising.
