Pre-Existing Conditions

Definition:

Any Injury, Sickness, or condition for which medical advice or treatment was received within 12 months prior to the Covered Person's effective date of insurance. If a Covered Person has continuous coverage under the Plan from one year to the next, an Accident or Sickness that first manifests itself during a prior year's coverage shall not be considered a Pre-Existing Condition.

Limitation:

Pre-Existing Conditions in excess of \$3,500 are not covered.

Preferred Provider Network

The Chickering Group has arranged for you to access a Preferred Provider Network in your local community. Provider and mental health networks are available nationally if you require hospitalization outside the immediate area of your school's campus.

The International Student/Scholar Accident and Sickness Insurance Plan for the 2006-2007 Policy Year has a Preferred Provider Organization (PPO) network through Aetna. To maximize your savings and reduce your out-of-pocket expenses, select a Preferred Provider. It is to your advantage to utilize a Preferred Provider because significant savings can be achieved from the substantially lower rates these providers have agreed to accept as payment for their services. Preferred Providers are independent contractors and are neither employees nor agents of University of Missouri System, Chickering Claims Administrators, Inc., or Aetna. Use Aetna's online DocFind service located at www.chickering.com. Click on "Find Your School" and enter either MU, UMKC, UMSL or UMR or school-specific Policy Number. You can use DocFind to find out whether a specific doctor belongs to Aetna's network or to find Preferred Providers practicing in your area.

Referral Requirements

International Students/Scholars (refer to your school-specific pamphlet for a listing of who is allowed to use the SHC) are expected to use the resources of the Student Health Center prior to seeking medical care outside. The SHC can administer treatment or issue a referral to a Preferred Provider.* A referral issued by the SHC must accompany the claim when submitted.

A SHC referral for outside care is not necessary only under the following conditions:

1. Medical emergency. The student must return to the SHC for necessary follow-up care;
2. When the Student Health Center is closed;
3. When service is rendered at another facility during break or vacation period;
4. Medical care received when the student is more than 50 miles from campus;
5. Medical care obtained when a student is no longer able to use the SHC due to a change in student status;
6. Maternity/Gynecology; or
7. Psychotherapy.

Dependents of the International Student/Scholars may not be eligible to use the SHC. Please refer to your school-specific pamphlet for additional information. The limitations and requirements do not apply to dependents.

Note: Description of the Student Health Center services is provided for informational purposes only. SHC is not affiliated with The Chickering Group.

*It is the student's responsibility to verify the provider's contract status at the time of service.

Inpatient Admission Pre-Certification Program

Pre-admission certification is designed to help you receive quality, cost-effective medical care.

All inpatient admissions, including length of stay, must be Pre-certified by contacting Chickering Claims Administrators, Inc.

Pre-certification does not guarantee the payment of benefits for your inpatient admission. Each claim is subject to medical policy review in accordance with the exclusions and limitations contained in the Policy, as well as a review of eligibility, adherence to notification guidelines, and benefit coverage under the International Student/Scholar Accident and Sickness Insurance Plan.

Pre-Certification of Non-Emergency Inpatient Admissions:

The patient, Physician, or hospital must telephone at least three business days prior to the planned admission.

Notification of Emergency Admissions:

The patient, patient's representative, Physician, or hospital must telephone within one business day following admission.

When both parents have group health plans that provide coverage as a dependent, the benefits of the plan of the parent whose birth date falls earlier in the year will be used first. The benefits available under this Plan may be coordinated with other benefits available to the Covered Person under any auto insurance, Workers’ Compensation, Medicare, or other coverage. The Plan pays in accordance with the rules set forth in the Policy.

It must be as likely to result in information that could affect the course of treatment as any alternative service or supply, both as to the Sickness or Injury involved and the person's overall health condition. It must be no more likely to produce a negative outcome than any alternative service or supply, both as to the Sickness or Injury involved and the person's overall health condition; and
- As to diagnosis, care, and treatment, be no more costly (taking into account all health expenses incurred in connection with the treatment, service, or supply) than any alternative service or supply to meet the above tests.

In determining if a service or supply is appropriate under the circumstances, Aetna will take into consideration:

- Information relating to the affected person's health status;
- Reports in peer reviewed medical literature;
- Reports and guidelines published by nationally recognized health care organizations that include supporting scientific data;
- Generally recognized professional standards of safety and effectiveness in the United States for diagnosis, care, or treatment;
- The opinion of health professionals in the generally recognized health specialty involved; and
- Any other relevant information brought to Aetna's attention.

In no event will the following services or supplies be considered to be Medically Necessary:

- Those that do not require the technical skills of a medical, mental health, or dental professional; or
- Those furnished mainly for the personal comfort or convenience of the person, any person who cares for him or her, or any person who is part of his or her family, any health care provider, or health care facility; or
- Those furnished solely because the person is an inpatient on any day on which the person's Sickness or Injury could safely and adequately be diagnosed or treated while not confined; or
- Those furnished solely because of the setting if the service or supply could safely and adequately be furnished in a Physician's or a dentist's office or other less costly setting.

Negotiated Charge: The maximum charge a Preferred Care Provider has agreed to make as to any service or supply for the purpose of the benefits under the Plan.

Non-Preferred Care: A health care service or supply furnished by a health care provider that is not a Preferred Care Provider if, as determined by Aetna: (a) the service or supply could have been provided by a Preferred Care Provider; and (b) the provider is of a type that falls into one or more of the categories of providers listed in the Directory.

Non-Preferred Care Provider: A health care provider that has not contracted to furnish services or supplies at a Negotiated Charge.

Non-Preferred Pharmacy: A Pharmacy not party to a contract with Aetna, or a Pharmacy that is party to such a contract but which does not dispense Prescription Drugs in accordance with its terms.

Pharmacy: An establishment where Prescription Drugs are legally dispensed.

Physician: A legally qualified Physician licensed by the state in which they practice, any other practitioner that must, by law, be recognized as a doctor legally qualified to render treatment, and, an Advance Practical Nurse acting within the scope of practice of such nurse.

Pre-Existing Condition: Any Injury, Sickness, or condition for which medical advice or treatment was received within 12 months prior to the Covered Person's effective date of insurance. If a Covered Person has continuous coverage under the International Student/Scholar Accident and Sickness Insurance Plan from one year to the next, an Injury or Sickness that first manifests itself during a prior year's coverage shall not be considered a Pre-Existing Condition.

Expenses incurred by a Covered Person as a result of a Pre-Existing Condition will not be considered a Covered Medical Expense unless (a) no charges are incurred or treatment rendered for the condition for a period of six months while covered under this Policy, or (b) the Covered Person has been covered under this Policy for 12 consecutive months, whichever happens first.

Preferred Care: Care provided by a Preferred Care Provider (or any health care provider for an Emergency Condition when travel to a Preferred Care Provider is not feasible).

Preferred Care Provider: A health care provider that has contracted to furnish services or supplies for a Negotiated Charge, but only if the provider is, with Aetna's consent, included in the Directory as a Preferred Care Provider for the service or supply involved, and the class of which the Covered Person is a member.

Preferred Pharmacy: A Pharmacy which is party to a contract with Aetna to dispense drugs to persons covered under the Policy, but only while the contract remains in effect, and when the Pharmacy dispenses a Prescription Drug under the terms of its contract with Aetna.

Prescription: An order of a prescriber for a Prescription Drug. If it is an oral order, it must be promptly put in writing by the Pharmacy.

Reasonable Charge: Only that part of a charge which is reasonable is covered. The Reasonable Charge for a service or supply is the lowest of:

- The provider's usual charge for furnishing it; and
- The charge Aetna determines to be appropriate, based on factors such as the cost of providing the same or a similar service or supply and the manner in which charges for the service or supply are made; and
- The charge Aetna determines to be the prevailing charge level made for it in the geographic area where it is furnished.

In some circumstances, Aetna may have an agreement, either directly or indirectly through a third party, with a provider which sets the rate that Aetna will pay for a service or supply. In these instances, in spite of the methodology described above, the Reasonable Charge is the rate established in such agreement.

In determining the Reasonable Charge for a service or supply that is:

- Unusual; or
- Not often provided in the area; or
- Provided by only a small number of providers in the area.

Aetna may take into account factors, such as:

- The complexity;
- The degree of skill needed;
- The type of specialty of the provider;
- The range of services or supplies provided by a facility; and
- The prevailing charge in other areas.

Sickness: A disease or illness including related conditions and recurrent symptoms of the Sickness. Sickness also includes pregnancy and complications of pregnancy.

In order for a treatment, service, or supply, to be considered Medically Necessary, the service or supply must:

- Be a diagnostic procedure which is indicated by the health status of the person, and be as likely to result in information that could affect the course of treatment as, and no more likely to produce a negative outcome than, any alternative service or supply, both as to the Sickness or Injury involved, and the person's overall health condition; and
- As to diagnosis, care, and treatment, be no more costly (taking into account all health expenses incurred in connection with the treatment, service, or supply), than any alternative service or supply to meet the above tests.

In no event will the following services or supplies be considered to be Medically Necessary:

- Those that do not require the technical skills of a medical, a mental health, or a dental professional; or
- Those furnished mainly for the personal comfort or convenience of the person, any person who cares for him or her, or any persons who is part of his or her family, any healthcare provider, or healthcare facility; or
- Those furnished solely because the person is an inpatient on any day on which the person's Sickness or Injury could safely, and adequately, be diagnosed, or treated, while not confined, or those furnished solely because of the setting, if the service or supply could safely and adequately be furnished in a Physician's or a dentist's office, or other less costly setting.

However, this exclusion will not apply with respect to services or supplies (other than drugs) received in connection with a disease, if Aetna determines that:

- The disease can be expected to cause death within one year, in the absence of effective treatment; and
- The care or treatment is effective for that disease, or shows promise of being effective for that disease, as demonstrated by scientific data. In making this determination, Aetna will take into account the results of a review by a panel of independent medical professionals. They will be selected by Aetna. This panel will include professionals who treat the type of disease involved.

Also, this exclusion will not apply with respect to drugs that:

- Have been granted treatment investigational new drug (IND), or Group c/treatment IND status; or
