Students, Faculty Mourn King's Death

The service was held at noon on the lawn in front of the Administration Building.

Dr. Masters Talks on Sex

The celebrated coauthor of the book, "Human Sexual Response," Dr. William H. Masters, will present a lecture on "Facts and Fallacies of Human Sexual Response" on Friday, May 3 in Room 105, Benton Hall.

The lecture is sponsored by the Biology Department and the Biology Club. Admission is 50 cents.

Proceeds of the lecture will be donated to the Reproductive Biology Research Foundation, St. Louis, of which Dr. Masters is the research director. Coauthor of "Human Sexual Response" was Mildred Masters, a research associate at the Foundation.

The book is the product of 11 years study of the anatomy and physiology of human sexual response and represents a major breakthrough in the knowledge of our sexuality, venturing beyond the efforts of Freud, Ellis, and Kinsey. Masters and Johnson have been able to record the physical reactions that occur when the human male and female respond to sexual stimulation.

Their scientific findings dispel many of the fantasies and fallacies about human sexuality that have been disseminated by ignorance, taboo, and pseudoscience throughout the ages.

"Human Sexual Response," the first published volume of the author's findings, is primarily concerned with the sexual response cycles of man and woman between the ages of 21 and 50, with emphasis on similarities in their sexual response patterns. Most of the text is devoted to male and female orgasmic expression. The authors' study of sexual response patterns in patients up to the age of 80 provides conclusive evidence that an increase in years does not necessarily mean a decline in sexual adequacy.
Orientation Needs Revision

If there are plans to hold an orientation session next fall, we think they should be scrapped.

First of all, we think the discussion of the novel and the movie ought to be scrapped entirely. After all, almost everybody has seen Aynle Murphy's film and seen the PBS television film. The library probably won't even offer this to you.
The Draft: Suggested Alternatives to the Present System

On examining the programs offered as alternatives to the present Selective Service System two things immediately came to mind. Each is concerned with equity and efficiency in using manpower. This efficiency includes maximizing a civilian as well as a military capacity. A proposal that has been given much publicity recently concerns the drafting of older men first, instead of the present draft of older men first, in an article "Globe-Democrat" of February 14, 1968 it was mentioned the average age group being drafted was between 20 and 21 years of age.

With the increasing draft calls and increasing numbers of men in Vietnam, most universities are seriously concerned about the situation of their graduate school enrollment and supply of instructors. Pertaining specifically to graduate schools, Mr. Reston then quoted these figures in his column: "Under the oldest first stipulation, according to statistics prepared by the Selective Service in the year beginning next July will be college graduates or those who have been in graduate school for one year. Pertaining specifically to graduate schools, Mr. Reston then quoted these figures in his column: "... in the country: "... in the college classes next year would be cut from a maximum of 15 per cent—the White House figure—to a maximum of 40 or even 50 per cent—the Council of Graduate Schools figure." Washington U. Hart

The following day February 16, in a front page article of the "Post," University News, "Draft," a Washington correspondent reported that on February 9, 1968, John F. Morse, director of a federal relations committee for the American Council of Education, presented to a special sub-committee the results of a study of Washington University, Indiana University, and Harvard University. Considering Washington U., as typical, it indicated that 65 per cent of the males in the Graduate School of Arts and Sciences for the 1960-61 year would probably be drafted. This is from a total of 525 first and second year male graduate students. This is clearly unfair, both to the students and the universities. To reduce the drain of graduate students, if not stop it, the Council of Graduate Schools appealed to Congress on February 27, to abolish all college draft deferments and implement a random lottery of 19-year-olds. With this method, it is argued, both college and non-college men would be almost equally eligible. Varying from this proposal Dr. John C. Weaver, University of Missouri president, was quoted in the "Globe" on February 28 as stating: "It makes more sense to place the burden on the total pool of young men aged 19 to 26 rather than concentrating the entire call on a single age group."

Both proposals have a type of equity and a type of efficiency. One would enable a student to fulfill his service obligations and then obtain an education without interruption. The other would place everyone in an equally uncertain position. Both would provide sufficient graduate students, but one would insure completion of studies. Neither would show the favoritism by subject area that now exists. The lottery, not a new method, has also been recommended, in essentially the same form, by Senators Edward Kennedy and Clifford P. Case, and the Marshall Report, Senator Kennedy's program consists of five parts:

1. Random selection plan to be set up by the President.
2. A limit of four year deferments for students of liberal arts, junior and business colleges and apprentice and vocational programs.
3. No student deferments of any form for one year if casualty rates reach per month, 10 percent of total men drafted for a consecutive month. This would discontinue deferments during the Vietnam war, if casualty rates remain at the present level.
4. Uniform interpretation of draft laws by all local boards.
5. No occupational deferments except by Presidential Specifications.

This program, similar to the one suggested by the Marshall report, would place students in the draft pool only during a time when casualties were relatively high and great numbers of new men were needed. Such a program would, indeed, by Don Schwalke place everyone under the spectre of the draft at critical times, but it is obviously not fair to those who would wish to enter college or would be enrolled in college. If such a condition existed, it would discourage male college enrollments after high school and cause great uncertainty for college students planning their future. Also, since the Vietnam conflict is not officially considered a major war comparable to World War II, and the present Selective Service System is currently furnishing sufficient manpower with the present deferments in effect, it could be speculated that provisonal numbers there may, in effect, discriminate against students, instead of providing for greater equality.

Don't you believe it.
The business of our business is the lively art of communications. It's a look-ahead, on-your-toes, make-it-happen business.

But dull?
Don't you believe it!
The University Players’ production of John Osborne’s Look Back in Anger April 5 and 6 was an important event in that group’s short history and could very well be more important to its future. Simply by presenting this play, they have expressed an ambitious desire to contribute something to the academic (rather than social) life of the university—pertinent serious theatre. It was a dangerous undertaking because of its experimental nature. The players do not yet have enough experience to give such a difficult play much more than an adequate production, but it is necessary to attempt serious drama in order to learn how to do it well. The biggest question was whether or not there was an audience at UMSL willing to support them while they grow. Audience response to Look Back in Anger seems to indicate that there is.

Involving and Exciting

Although the production was uneven, it was always involving and occasionally exciting. Much of the credit for this must go to John Nieman, who in the leading role of Jimmy Porter carried the heaviest load of dramatic responsibility. Look Back in Anger is Jimmy Porter’s play. In it, this sensitive and explosive young man from the English working class expresses his anger at an unfeeling and slow-changing society in which nobody wishes to understand anything or anybody, least of all himself. It is a long and artistically demanding role, and Nieman’s performance was strong and well controlled. It was a performance that any amateur could be proud of, but for college freshmen it was outstanding indeed. Nieman’s obvious talent will be a valuable asset for the University Players in the future.

The performances of Mary Lacey as Jimmy’s wife Allison and Stephen Heist as his best friend Cliff were even more fully realized (although their roles were less difficult). Lacey was able to make believable the great love for Jimmy in spite of his constant verbal and physical terror of her. For her society background, she achieved an admirable intensity of emotion without overacting. Heist provided much comic relief, as well as a fine dramatic characterization as a man who is forced to act as referee between two people, both of whom he loves.

Susan Klemper’s made her dramatic presence felt in spite of being miscast (both physically and temperamentally) as Allison’s friend Helena who eventually takes her place in Jimmy’s bed. Walter Heisong conveyed to the audience an understanding of the character of Allison’s slightly bewildered old-guard father, but he couldn’t convey the feeling of old age.

Robert Macek’s perceptive direction was evident in the performances as well as in his usually well-paced (there were a few slow spots) and well-balanced staging. Mike Jones’ realistic set had a great deal to do with the production’s success. Bev Nolte, who had leading roles in the last two University Players’ productions, gave valuable service to this one as assistant director and last-minute stage manager.

ATTENTION STUDENTS
If you are graduating or do not plan to return to University of Missouri St. Louis in the fall, please check with the Cashier’s Office before May 23rd.

SNEA Meets
Tues., April 30

The UMSL chapter of SNEA will hold an informal meeting on Tuesday, April 30th, to hold elections for officers and to interest education majors into joining the club. The meeting will last from 11:30 to 12:30 and will be held in room 208 in the Administration Building. A 20-minute film illustrating the goals and aims of SNEA in story form will be shown each hour, starting at 11:30. Also, coffee and doughnuts will be served.

According to Sue Winter, president, the meeting is for majors in both secondary and elementary education, as well as for freshmen and sophomores interested in majoring in education. This is the first meeting of the club since last December.

Benefit for Injured People

The University Players will present a benefit performance of George Bernard Shaw’s dramatic interlude Don Juan in Hell in room 105 Benton Hall, Sunday evening, May 5 at 8:00 p.m. All proceeds from the benefit will be given to UMSL student Stephen Heist, Heist, who played Cliff in the Players’ recent production of Look Back in Anger, was involved in a serious traffic accident, which resulted in the loss of his right leg, while on his way to the scheduled Sunday night performance of the play. Donations are $1.00 per ticket.

Krunchers, Marauders In Final

The spring session of intramural basketball began with snow and ended with rain. Games on four of the first seven days of play were postponed because of snow and rain. The last week of make-up games was played on schedule but the championship game, originally scheduled for April 19, was postponed by rain until Tuesday, April 25. Results of the game were not available at press time.

The game matched Gold League Champions Kal’s Krunchers against Red League winners Marauders, each with final records of 8-0. Kal’s Krunchers won their championship on April 2 when they upset the previously unbeaten Marauders 55-51 in an exciting game. Cary Hammond of the Krunchers pumped in 29 points to lead all scorers.

The Marauders qualified for the final game when they handed Sigma Pi their first defeat on April 4. Following are the final IM Basketball standings:

Golfers Now 2-4; Next Match Monday

By Jim Mantia

UMSL’s golf team has gotten off to a slow start in its inaugural season with a 2-4 record.

Opponent              Decision Score
SoW, Mo, State       L 11% + 3/5
Westmin, College     W 10-5
St. Louis U,        L 14-4
Wash. Univ.          L 16% - 1 1/5
McKen, College       W 23-1
Princ. College       L 14-4

Each match is made up of five or six individual contests between one UMSL player and one opponent player. One point is awarded for the low score on the first nine holes, one point for the low score on the back nine, and one point for the total low score.

Bon Brewer holds the team record for the best nine-hole score, 36, against Westminster on April 3, and also the low total score, 76, which he shot in the same match.

The next match will be April 29 at 1:00 at Hillcrest Country Club, where the Rivermen will face Southeast Mo. State. April 30 and May 2 will be home matches against Southern Illinois and St. Louis University respectively.

Good until May 30, 1968
Sports Future is Bright

In contrast to established schools such as Washington University, where the athletic program is dying, UMSL’s athletic program is gaining sports and facilities each year.

The athletic program at UMSL began with basketball and tennis in 1960-61, added cross country and golf that year, and hopes to add soccer and baseball next year for a total of six inter-collegiate sports. With the completion of athletic facilities in the early 1970’s, UMSL will add wrestling and track to its inter-collegiate sports schedule.

In addition to new sports, UMSL’s main sport, basketball, continues to grow. Next season’s UMSL’s main sport, basketball, continues to grow. Next season’s schedule includes games against Nebraska State, Nebraska State, and Little Rock University, plus home and away contests with SIU-Edwardsville, University of Illinois at Chicago, and Wayne State of Detroit, and Cleveland State. The athletic directors of the universities involved in the proposed league met last month and will get into serious discussion at a national coach’s conference in June. Coach Smith stated that, if approved, the league could not begin operation for a few years because of the football programs at Wayne State, UCSC and UWM which could cause problems in scheduling.

New Athletic Facilities

The biggest boost to UMSL’s athletic program will be the multi-purpose athletic field house to be constructed north of the softball diamond on the intramural field. The $3,000,000 multi-purpose structure will contain facilities for baseball, softball, wrestling, and gymnastics plus a swimming pool and 600 seat gymnasium. In addition to the multi-purpose building, UMSL’s athletic facilities will consist of a soccer field surrounded by a track, a large baseball field, new tennis courts and two new intramural fields.

According to John Perry, Director of UMSL’s physical plant, the final plans for the multi-purpose building have been approved by the Board of Curators and are now being studied by the U.S. Department of Health, Education and Welfare. Coach Smith said that there is no way of knowing how long it will take for the final approval. Once started, the building will take about 1 1/2 years to complete.

After the multi-purpose building is completed UMSL student-athletes can forget about Norman High Junior High, Concordia Seminary and playing intramural basketball in the snow.

Netmen Win First Matches

UMSL’s tennis team, ranked out of their first scheduled match of the season, won the first match that they played, 5-4 over Millikin University at Decatur, Illinois on April 4.

The Rivermen, who lost 5-4 to Millikin during last season’s 2-8 campaign, were led to victory by their leading player Jim Ramp who won his singles match and teamed with Don Brinkley to win a doubles contest. Brinkley also won his singles match as did Kevin Daugherty. Stuart Lerner teamed with Daugherty to win their doubles.

The Rivermen played and won their second match of the new season on April 22 when they defeated McKendree College 6-0.

The netmen’s next match will be tomorrow when they play host to Millikin at 2:00 in the tennis courts in front of the Administration Building. It will be UMSL’s first home match of the season.

Do all your banking at Friendly, Courteous, Neighborly...

REAL CONVENIENCE!!

Make deposits by mail to your checking or savings account at Normandy Bank. That's real convenience. Normandy Bank even pays the postage when you do your banking without going to the bank.

Also, don’t forget the additional convenience of Normandy Bank’s Drive-up and Walk-up window, both of which open at 8:00 A.M. daily and stay open after the main banking lobby closes. Phone for an Hours Card for more details.
