Varied Activities, Tight Scheduling for Homecoming
by Adrienne Beaudoin

Final details for homecoming were ironed out and the schedule of activities was determined at a Steamers Club meeting Wednesday, Feb. 5. The meeting was attended by Coach Larry Berres and Dr. Harold Eckhoff, Dean of Student Affairs.

Homecoming begins tonight with a bonfire that is scheduled to begin building spirit for the following day's activities. The cheerleaders will lead some cheers, the pep band will lend support to the cheerers, and all cheerleaders and queens will be present to introduce the bonfire. The bonfire will be ten to twelve feet high and will be burned somewhere in the recessed area between the two walkways to the parking garage.

The table displays will be judged by a faculty committee at 1:00 p.m., Friday, Feb. 14. Members of the judging committee are Miss Stephanie Kries, Director of Student Activities; Dr. Vladimir Butkoff, assistant professor of Russian; Mr. Hampton Davey, assistant professor of political science; Dr. William Malby, assistant professor of history; and Dr. William Saigh, associate professor of marketing.

Pep Rally
At 11:40 a.m., the Steamer's Club will sponsor a pep rally at the northeast corner of 15th and Locust, and as many of the team as are available will be there. The Steamers are also sponsoring a cheer contest among the organizations. Each organization is encouraged to write a cheer to be presented at the rally. The cheerleading directors will judge the cheers on originality, appropriateness, and the strength of support. The winning cheer will be done at the homecoming game.

Parade Route
The parade prior to the games will begin lining up at approximately 4:45 p.m, and will leave for the game at 5:00 p.m. The parade, as announced by Sigma Tau Gamma, will leave UMSL by the back entrance with a police escort. It will go down Florissant road to highway 70. Then it will go to the University of Kansas. It will then go to Bermuda Road to Paul Avenue, out Elizabeth Avenue to Pershing Road to Florissant Valley Community College. Finally, Sigma Tau Gamma expects signs and streamers on the cars, and perhaps flower boxes. Tomcat's in the parade, contact any member of Sigma Tau Gamma.

The site of the game was changed from Normandy High School to the junior college. Normandy's new gym was not finished by the Jan. 27 deadline, causing the transfer of all remaining home games to Florissant Valley. The junior varsity game against SIU-Edwardsville will begin at 6:00 p.m. The varsity game against Parkland College will begin at 8:00 p.m.

At halftime of the varsity game, the five candidates for homecoming queen and Miss UMSL, Miss LaRoyce Stevens, will be introduced. The team will be introduced individually similar to their introduction at "Meet the Rivermen's night." The dance will follow the game. It is scheduled from 10:00 p.m. until 1:00 a.m. in the Louis IX room of Union Station, Cecil Davis and the Epics will provide the music. The queen and her court will be crowned midway through the dance. The candidates and their sponsors are Mary Burton, Newmann Club; Tammanie Cannon, Alpha Phi Omega; Nancy Ross, Pi kappa Alpha; Evelyn Washington, Association of Black Collegians; and Judy Weinheker, Sigma Tau Gamma.

The Board of Curators awarded contracts for a four-story unit containing classrooms and lecture halls, and a 13-story tower for faculty and staff located on the west side of the campus, adjacent to the library. A total of $2 million in state and federal funds is available for the project.

One of the parking garages, to be located on the northwest section of the campus, will provide 507 spaces. The second garage, to be located on the southeast portion of campus, will accommodate 513 cars.

Curators Grant Fee Raise
by Doug Sutton, Managing Editor

At its Jan. 24 meeting, the Board of Curators approved an increase in the student activity fee for full-time students at UMSL to $20 per semester. The $5 increase will be effective at the start of the fall semester.

The measure came after UMSL's Chancellor James L. Bugg, Jr. recommended the increase at the board's last month. Dr. Bugg said, "The raise was in two parts: first, we had to find the funds on the multi-purpose building; and second, the advisory council recommended an increase in the fee for student activities."

"I took this matter up with the Central Council and its President, Dom Bonamore," Dr. Bugg continued, "and they approved the raise, with the condition that they would work with the advisors and the student council to determine how the additional money available for student activities would be allocated." The Board of Curators approved the recommendation by the advisors and the student council to allocate the fee increase toward additional funds available for the multi-purpose building. The advisors' and the student council's recommendation will be added to the Board of Curators' request for a five dollar per year increase Friday, January 24.

At 4:00 p.m., an estimated 800 students were pressed into a waiting line at the gym. Those inside finished an hour later.

In the fall the cards are worked out for three weeks before school opens because of spring pre-registration, Allen said.

The admissions department handled changes Friday for the last digits of 3, 4 and 5. Periodic announcements, beginning at 8:45 p.m., said digits of 6 and 7 would probably not be reached. No more students were appointed to the building after 4:30 p.m. Those inside finished an hour later.

At 4:00 p.m. an estimated 800 students were pressed into a waiting line for four or five abreast. The row stretched from the hallway before Room 120, past the stalls to Room 105, and back towards the former student lounge, Room 107.

On Monday morning any digits through 8 were handled first, while digits 9, 0, 1 and 2 were held back. The admissions employees worked through their lunch hour. By 4:00 p.m. the lines had disappeared.

"The existing procedure, although the crowds are always bad, is really the best from a student's standpoint," Allen said. "Every one seems to think of free change in the picture of a large group of students waiting for registration, with the lines of students going out the doors."

"We have cut out the checks from the checkbook and have cut out the money orders."

"The remaining $2.50 of the fee increase will go toward student activities. As yet, no decision as to how and where the money will be allocated has been made. Chancellor Bugg indicated that the deadlines for clubs and organizations to submit their budget requests will be in March, although no date has been set. At that time, he, Dr. Harold Eckhoff, Dean of Student Affairs, and a committee of the Central Council will study the requests, then submit final budget requests to the Board of Curators in May."

(continued page 4)

She will have activities fees for full-time students from $30 per year to $40 per year ($20 per semester).

Plans for the Social Sciences-Business-Education complex call for a four-story unit containing classrooms and lecture halls, and a 13-story tower for faculty and staff located on the west side of the campus, adjacent to the library. A total of $2 million in state and federal funds is available for the project.

Weaver Here
University President John C. Weaver will be on campus Friday, Feb. 14, 1969 to visit with faculty and students about problems, proposals, or any other appropriate university-related matters.
Editorials

The Mod Squad

At a recent raid on a Maryville College freshman mixer, a Bridgeport police officer reportedly had the audacity to pose as a photographer-reporter for a publication of the University of Missouri-St. Louis. While using this "front" he worked as an "inside man" for the raid and (according to many observers) seemed to encourage the consumption of liquor in order to secure sufficient evidence for prosecution.

According to some sources, this clever rascal does not (and has never) attended this school.

Although legal action against false representation is not feasible, the Current feels something should be done to enforce these responsible for this fiasco that such a thing cannot be tolerated.

It is a cheap tactic indeed to directly publicize the name of an Institution which had nothing to do with the whole affair.

As additional evidence regarding, this clever rascal does not (and has never) attended this school.

Regardless of what comes of the entire situation, the police involved can rest assured that no members of a UMSL publication will attempt to impersonate a member of their well-respected staff.

We couldn't stand the adverse publicity!

Petition Pains

Anyone who faced the unpleasant task of having to petition for course changes this past semester is aware of the need for a more efficient procedure for handling the matter.

The use of one room as a base for the operation seemed quite awkward, as it created a line which snaked through the ground floor of Benton Hall in a merry-go-round fashion.

In addition to the physical hassle, the police had to check student numbers to see if there was any in conflict with the list. Freshmen and seniors had an equal opportunity to secure vital courses for graduation.

Also, one can help but wonder why the procedures are not spread out over a few more days, with some staff personnel to accommodate for the crowded lines.

In addition to the problem of the department not having enough members to handle the number of petitions, it receives simply because it believes in the slipshod exercise they refer to as pre-registration.

Regardless of this fact however, petitioning will always be needed in some cases.

Therefore, steps should be taken to: (1) decentralize the procedure, (2) enforce class priority, (3) extend the period for petitioning, and (4) increase the advisors on duty.

In conclusion, the petitioning system should be changed to one which is more efficient and can handle the large number of students who attend this school.

Grade Dilemma

It is again that time of the year during which the students must begin to wait for the arrival of grades from the University.

The problem of the students is to find out what grades mean so much; never­
theless, it is the situation as such grades should be given to the students without a long delay.

Dear Editor,

On Friday, Jan. 31, an all­
together­famous scene was repeated in the first floor corridor of Benton Hall. It was the first of two designated days for course change petitioning and section changes. The students, who are anxious to be eligible for mass­
ly massive amounts of people wanting to get into Room 120 where these changes are to be performed. Making bad matters worse was the fact that the procedure did not begin until 1:00, instead of the scheduled time of 1000. For a good deal of the day, there was a computer breakdown in Columbus, where the course cards are made. I arrived shortly before 1200, and had to wait nearly two hours to make a section change. I am quite sure that others waited much longer.

I think that this situation could have been avoided, or at least lessened, by separating the various departments into several of the larger rooms in Benton Hall, using the sign of a department, not just the room number, and some will accept postcards from the students. However, there are some few who will not.

At this point, any future in trouble academically, this situation puts unnecessary pressure on the students. The new semester might start before students are informed of their academic status.

The University should realize the obligation it has to make every effort accepting students of their grades as soon as possible. There should never be a situation in which a student is either refused his grades by a professor until the University sends out grades or else has to wait for grades in come and the new semester to start to find out how he stands academically.

It is an unfortunate situation when grades mean so much; never­
theless, it is the situation as such grades should be given to the students without a long delay.

Dear Editor,

I'd like to suggest to the admin­istration that in the next general catalog more effort be made to give precise information - especially in the area of degree requirements. Ironically, this is the most important and at the same time the most ambiguous section. It is difficult to plan a program for oneself when one can't find this information as to what kind of course satisfies various requirements. Keeping in mind the needs, what courses are above the introductory level, and etc...

I am sending to the adminis­
tration three letters to the advisors I have, they've had but one reference on what to rely for the answers: the general catalog. Some effort is spent in improving the next cata­
log, I feel, will not only save time and mistakes for students but for their faculty advisors as well.

Misch Lehrer

Letters to the Editor

Dear News Editor,

In the January 9, 1969 edition of the UMSL Current, you published an article entitled "Dis­
appoining Production of Carousel." If you'll pardon my ex­
pression, I think that you have your wires crossed. The school paper, in my opinion, and I'm sure in the opinion of most of the viewing audience, is the work of some of the best producers that UMSL has ever produced. It was one of the best ever produced or staged by such an ambitious group of college students. These young men and women put in an awful lot of time and a great amount of work to reproduce a ren­
taining production of this famous musical story written by Rogers and Hammerstein, and you, a fellow student, turn around and cut them down. Is this the way to treat your fellow students? At the university your fellow students do not get rewarded as much as the others. Is this the way you want your fellow students and from their newspaper staff once told me that if you couldn't print something good or fair, then don't print it. Try it, the attitudes of outsiders who read your publication will change. Give these kids credit for a job well done - they deserve nothing but praise, most of all from their fellow students and from their own newspaper who is supposed to back them, not buck them.

In conclusion, I would like to thank you for taking the time to read this letter, if I have insulted you in any way, by something I have said, I'm very sorry. My only objective was to voice my opinion on the performance and to praise the kids for their work, time and effort. Thanks again.

Sincerely,

Kathy Jarzemkowski

Dear Editors:

Kudos to Dean Eickhoff for the pep rally, the fan support at ball games has improved at every game. As an outgrowth of the approximately 1000 students who attended the opening game against Southeast Missouri State, there are around 50 dedicated fans who have gotten so attached to the team that they have attended practically every game at home and on the road. The ladies of the Student Senate initiated this group of loyal fans at all games, but they are most appreciative when there are a few friendly faces in the crowd when playing away. On the last road trip when the Rivermen played the University of Illinois Chicago and Eastern Illinois at Charleston, a live­wire group of students better known as "Marty and his gang" rallied behind the team at both games, and the players and the coaches are convinced that the cheering, the beating of drums, and air horns blasts helped the Rivermen spur on to victory.

Please excuse the one editor­alizing as I am prejudiced toward this group of players, but they are the best team this school has ever had and I guarantee you if you come out and see them play, you might be bitten by the sports fan bug as others have been.

Don't miss a chance to see your Rivermen play at the next game on February 14 when the River­
men battle Peshaw College in the Homecoming Game attraction.

Bert Smith

Athletic Director and Head Basketball Coach
Curators Award Contracts For Building Complexes

The University Board of Curators acted on several measures on Jan. 24 to increase the capital improvements at UMSL.

The board awarded contracts totaling $3,669,450 for the construction of a Social Sciences-Business Education Building complex for UMSL. The complex will consist of a four-story unit containing classrooms and lecture halls and a 14-story tower for faculty and staff offices. It will be located on the west side of the campus, adjacent to the library.

Contracts were awarded to the Klaster Company of St. Louis, in the amount of $2,344,000 for general construction; to the Phil L. Miller Plumbing & Heating Company of Florissant for heating, air conditioning, plumbing and ventilation in the amount of $1,132,650; and to the John Ledbetter Electric Company of St. Louis totaling $252,800 for electrical work.

The $4.2 million appropriated for the complex includes $2.9 million granted by the Missouri General Assembly and $1.4 million in federal funds.

The board also authorized advertising for proposals for the design and construction of two parking garages for the St. Louis campus. Estimated cost of the garages is $1.6 million. One garage, to be located on the northwest section of the campus, will provide space for 597 vehicles. The other will be located on the southeast portion of the campus and will accommodate 513 cars.

The U.S. Office of Education has approved a $1 million grant to UMSL for the construction of a six-story Arts and Science classroom-office structure. The remaining funds for the $3.4 million facility were approved last year by the General Assembly.

The building, planned for north of the Math-Science Building, will contain classrooms and seminar space for 2,301 students and will house administrative offices for the deans of College of Arts and Science and Evening College and for the departments of English, history, philosophy, speech, art history and geography.

Students Violate Traffic Rules, Nelson Says

Security Chief James Nelson told the Current Monday, Feb. 10, that students have repeatedly violated two traffic regulations. Chief Nelson blamed failure to read these regulations for the high incidence of violations.

Each member of a car pool must fill out a registration card and return it to the Traffic & Security Office. The permit will then be issued and mounted on a plastic holder with the license numbers of the vehicles.

It is the responsibility of the driver to see that the permit is on his vehicle when the vehicle is parked on campus. If the permit is not on the vehicle, the car must be registered at the Cashier's Office, Room 120, Administration Building, upon arrival. The daily parking fee of $5.50 must be paid by the driver.

The car pool permit admits only one vehicle on campus at a time. If one of the car pool vehicles is brought on campus in addition to the one with the permit, the vehicle without the permit must be registered and the daily parking fee must be paid.

The owner of a vehicle that will be sold, traded, or for any reason no longer used by the owner, must turn in the parking permit sealed with the old sticker, and the daily parking fee will be refunded.

In cases where the owner of a vehicle that will be sold, traded, or for any reason no longer used by the owner, must turn in the parking permit sealed with the old sticker, and the daily parking fee will be refunded.

The owner of a vehicle that will be sold, traded, or for any reason no longer used by the owner, must turn in the parking permit sealed with the old sticker, and the daily parking fee will be refunded.

The owner of a vehicle that will be sold, traded, or for any reason no longer used by the owner, must turn in the parking permit sealed with the old sticker, and the daily parking fee will be refunded.
Bugg on Fee Increase
(continued from page 1)

“In consideration of this, some vital questions arise. For example, how important is the development of organizations as opposed to the development of a program in concerts and lectures? Ideally, we should have both,” the Chancellor said.

“Another question is, should we try to subsidize groups broadly, or should we try to subsidize them in depth? In the past, we have subsidized many groups, which has allowed them to have a few meetings to serve coffee and donuts and maybe bring in a speaker in the area, and that’s about all. Perhaps we should consider funding fewer groups, but in greater depth.

Council Discusses Constitution Questionnaire, Club Suspension

The important issues in the Jan. 26 and Feb. 6 meetings of the Central Council centered around the roundabout draft of the constitution, the questionnaire, and representation of a suspended campus organization.

Consideration of the constitution has twice been postponed, but Chairman Sam Bommarito hopes to raise the question at the next meeting. Bommarito said “the straw vote we took indicates that the majority of Council members favor ratification of the constitution by a general election.”

The issue of the questionnaire, which surfaced again Jan. 26, was not brought up again.

Politics Club

Further action at the Feb. 9 meeting was prevented by a rules hang-up. The issue centered on the Politics Club, whose recognition has been suspended. Club chairman Jerry Spector, requesting that the council recognize him as a member, admitted he refused to supply the required semi-annual report because he resented the threat implied in the form letter from administration.

Vince Schoemehl proposed that the council alone be responsible for membership criteria. Neil Friedman suggested the amendment that any member must first secure permanent or temporary official recognition for his organization. The Friedman amendment attempted to reverse the withdrawal, but failed to secure the necessary two-thirds majority.

A student traffic court was authorized, subject to replacement by such a court provided by the new constitution. As envisioned, this body would be composed of five students appointed by the Executive Committee and confirmed by the council at large. The five members would elect a chief justice from their members.

Student Interfaith Council

invites you to see the movie
"THE PARABLE"

Friday, February 28 - in the Benton Hall Lounge - 8:40-3:30 hourly

Donuts and Coffee will be served.

Value Showdown:

$147.00 less than last year's Camaro with comparable equipment.

Putting you first, keeps us first. '69 Chevrolet Camaro, "The Hugger"

Most of the cars that are competitive with Chevrolets are clamoring for you to buy them now.

Big deal. (You hope.)

Chevrolet offers something even better than hope. Many popular items are priced less than a year ago. Such as Powerglide and large V8s. Head restraints are now standard. New advanced-design power disc brakes are priced over a third less than our power disc brakes were last year.

So we’re offering a '69 Camaro Sport Coupe for less money than last year.

$147.00* less if you equip it with the new 350-cu.-in., 250-hp V8 (as compared with last year’s 327-cu.-in., 275-hp Eight), the Powerglide and power disc brakes, whitewalls and wheel covers.

Help us deflate inflation.

Show up at your Chevrolet dealer’s Showdown. You’ll win.

*Based on manufacturer’s suggested retail prices, excluding federal excise tax and suggested dealer invoice price.

Student and Faculty Members

Here’s how to save money on gasoline—Become a preferred customer of NOLTE PETROLEUM CO. 1342 Pennsylvania (Ask attendant at the station)

Sock some VISA to me

Clarinetist Warren Bellis, assistant professor of music, and pianist Evelyn Mitchell, and instructor in music, were the featured performers in the second concert of the Faculty Recital Series, Wednesday, in Room 105, Benton Hall.

The program included Paul Hindemith’s “Sonata”, Carl von Weber’s “Variations, Opus 33” and Gerald Finzi’s “Sonata”, both in E flat, and Hindemith’s “Piano,” “Sonata,” “Five Bagatelles for Clarinet and Piano,” a mixture of folk-like charm and contemporary idiom.

The recital closed with “Sonata in B flat, Opus 120 #2,” by Johannes Brahms, a major composition for clarinet and piano.
Unimaginative, Ponderous Shakespeare Production

When the first press announcements were made for Loretto-Hilton's production of Shakespeare's Much Ado About Nothing, Michael Flanagan was scheduled to play Benedick and James Bernardi in the role of Benedick. By the time the production opened, Peter Duncan was in the role of Benedick and Flanagan joined Bernardi as co-director. Personnel changes such as these, while a play is in rehearsal, usually signal that it is in trouble and efforts are being made to save it. In this particular case, either not enough effort was made or the production was beyond help.

The Bernardi-Flanagan staging of Much Ado is set in Sicily in 1600, and John Wright Stevens' set is clearly the best thing about the production. Were it not for this marvelous example of creative stage design, the production would be totally forgettable. It is marked by unimaginative direction and ponderous acting.

If a director insists on moving a Shakespearean play from Shakespearean (Elizabethan) setting, he should at least either retain the proper Shakespearean acting style or offer an interesting new kind of style of performance. This production does neither. The only parent reason for this updating is to reduce penalties for draft dodging and to grant state aid to students in parochial schools. However, a bill to eliminate the age restriction on drinking was endorsed unanimously.

Shakespeare combines in his plays comedy, low comedy, and melodrama (tragedomedy). The result is a tightly knit organic whole. The Loretto-Hilton production of it is as dull a professional dramatic performance as I have seen. This company has offered many evenings of theatrical excellence in its short existence. An occasional dud must be expected. It cannot, however, be forgiven.

UMSL Hosts Delegates To MISL Pre-Convention

Last Saturday night, Feb. 8, UMSL played host to the Missouri Intercollegiate Student Legislature Pre-Convention, Young Democrats and Young Republicans from eight St. Louis area colleges assembled outside Room 110, the Mathematics and Modern Languages Building, to register as official delegates to MISL. The credentials of several prospective Democratic delegates were challenged by the Republicans.

The assembly listened to addresses by several speakers, beginning with a preliminary speech by MISL president Bill Wilson on the state of the organization's affairs. Other speakers were Stephen Darst, Democratic candidate for president of the St. Louis Board of Aldermen, on urban problems; and Republican State Representative Anthony Dill, on government renewal.

Following these addresses, the pre-convention recessed for causes of the Democratic and Republican organisations in separate rooms. When the meeting was reconvened, an individual straw vote rejected proposed bills to restrain police from search and seizure, to reduce penalties for draft dodging and to grant state aid to students in parochial schools. However, a bill to eliminate the age restriction on drinking was endorsed unanimously.

Wine, Women . . .

"How to Select and Serve Wines," an evening of audience wine-tasting participation, was the featured attraction at the Tuesday evening meeting of UMSL women faculty at the Community Federal Building, 8944 St. Charles Rock Road. The session, conducted by Conrad, Incorporated, was also open to male faculty members.

Class Cancellation Policy Outlined

Chancellor James L. Bagg, Jr., has sent to the faculty and staff members the following memorandum, outlining the procedures if classes are cancelled due to bad weather.

"On occasion it becomes necessary, because of inclement weather, to cancel classes here at the University. Although the practice is unusual at resident universities, the fact that large numbers of our students commute by automobile appears to warrant such procedures in the interest of safety."

"If it becomes necessary to cancel classes, notice will be broadcast over radio and television, hopefully, by 6:00 a.m. This report, once given, will be repeated daily until conditions improve sufficiently to resume normal class schedules."

"In order that we may inform as many students as possible of this procedure, I would appreciate your reading this in all of your classes."

### Long Lines, Long Hours for Section

(continued from page 1)

...any place on this campus with sufficient room to control the crowd. Asked if the library would be suitable, he replied that it was "not a place for registration," since crowds threaten destruction of property.

Allen said section changes usually increase the second semester, mainly because freshmen make more changes. Withdrawals and additions of courses remain constant. Courses with multiple sections slow the procedure because more than one card is required. General Psychology 2 and Literary Types require two cards, while Introductory Chemistry requires three.

Two experiments are testing the use of one card for classes in which a laboratory class is required. Introductory history courses arrange the laboratory class after the first day of classes. Another course, Government in Modern Society, schedules a constant lecture time and a varying laboratory time. Allen said he preferred the history department system, but he noted that this arrangement "puts an extra burden on the faculty."

### Council Considers Legal Action

The Central Council is investigating the possibility of taking legal action against a person or persons who reportedly falsified a UMSL publication at a recent raid of a dance held by Maryville College.

Council member Yvace Schoemele told the Current that the Council may submit its case to the American Civil Liberties Union. If the ACLU decides to prosecute, it will announce selection of the case by the end of the month. Schoemele said that it must be determined whether the use of the University's name was the policy of the Divisig police or the action of an individual. According to reports, a young policeman (or policemen) posed as a photographer from the University of Missouri in order to gain entry to the dance and instigate the raid.

If the Council took action in this manner at this time it could possibly be in contempt of court for its interference.

### Library Committee Solicts Comments

As part of an investigation of Library practices, procedures and policies, the UMSL Library Committee is soliciting written student comments. All statements should be addressed to Dr. R. L. Allen, chairman, Room 102, Administration Building. The Library Committee will also conduct an open meeting to hear oral comments from students at the Noonday Forum, 11:45 to 1:15 Tuesday, Feb. 18 in Room 100, Math-Language Bldg.

---

### Playtex invents the first-day tampon™

(We took the inside out to show you how different it is.)

Outside: it's softer and silky (not cardboard). Inside: it's so extra absorbent... it even protects on your first day. Your worst day. Even in every test against the old cardboard kind... the Playtex tampon was always more absorbent. Actually 45% more absorbent on the average than the leading regular tampon.

Because it's different. Actually adjusts to you. It flows out. Fluffs out. Designed to protect every inch of you. So the chance of a mishap is almost zero.

Try it fast. Why live in the past?

If the Council took action in this manner at this time it could possibly be in contempt of court for its interference.

### Library Committee Solicts Comments

As part of an investigation of Library practices, procedures and policies, the UMSL Library Committee is soliciting written student comments. All statements should be addressed to Dr. R. L. Allen, chairman, Room 102, Administration Building. The Library Committee will also conduct an open meeting to hear oral comments from students at the Noonday Forum, 11:45 to 1:15 Tuesday, Feb. 18 in Room 100, Math-Language Bldg.

### Playtex invents the first-day tampon™

(We took the inside out to show you how different it is.)

Outside: it's softer and silky (not cardboard). Inside: it's so extra absorbent... it even protects on your first day. Your worst day. Even in every test against the old cardboard kind... the Playtex tampon was always more absorbent. Actually 45% more absorbent on the average than the leading regular tampon.

Because it's different. Actually adjusts to you. It flows out. Fluffs out. Designed to protect every inch of you. So the chance of a mishap is almost zero.

Try it fast. Why live in the past?

Curators, Fog Bump Cagers

by Marty Hendin, Sports Editor

It is easy to see who are the low men on the totem pole as far as the Missouri University system is concerned. They are the Rivermen. So far this basketball season the Rivermen have been scheduled to rent one of the University's private planes to fly two road games, and each time the University has managed to foil them up.

Over Christmas vacation, the Rivermen were to use a plane to fly to Kearney, Nebraska, for a tournament. However, the put to better use by flying the Board decided to rent one of the University de cided that the plane would be used for their trip to Milwaukee last week. The com­pany had been scheduled to leave Columbia to fly to st. Louis because of fog, however a heavy fog had closed the airport, and the Rivermen had to take the road drive to Columbia and leave them up.

If the 16 passenger plane was okay the Mizzou wrestling team to East Missouri, and the River­men will be using the University plane once more this February 10 the Generals

The Rivermen will be using the University plane once more this season, for a trip to Memphis and Mobile on Feb. 26 and 27. Hope­fully the University will not mess them up again.

Freethrow Contest

There will be a freethrow shoot­contest to be held at the Normandy Junior High gym at 4:30 p.m. on Monday Feb. 17. Each participant will shoot twenty-five freethrows and trophies will be awarded to the top contestants. All interested men are invited to par­ticipate.

Pershing Here For Homecoming

In the past two years the River­men have saved their most exciting game of the year for home­coming, and this year should be no exception as the UMSLians will take on a tough team from Pershing College of Beatrice, Nebraska, Friday at 8:01 at Florissant Valley. The Pershing Generals should be tired when they face UMSL Friday night because they will be playing at Rolla Thursday. The Nebras­kans should be physically tired from travelling and back-to-back games, and mentally tired from listening to the "gross green wave" as Rolla fanatics are lovingly called by opponents. And if two games in a row wasn't enough, The Generals will stay in St. Louis to face Harris Teacher's College Saturday night.

As of February 10 the Generals had a record of 17-3 including a ten-point victory over Rockhurst at Kansas City.

The Rivermen will be back at home on Monday, Feb. 17 when they will entertain Missouri Southern College of Joplin, Missouri. This will be UMSL's first meeting with the Lions who had a 9-18 record last year. The game will be played at Florissant Valley Community College starting at 8:30.

Win Streak Ends At Eight; Cagers Now 12-4

After an eight game winning streak that saw them win five straight on the road, the Rivermen traveled to Milwaukee where their streak was ended by a 100-98 UWM overtime win. The UMSL team now has a record of 14-10 including 7-0 in the SLans where they have traveled to Milwaukee.

The longest winning streak in UMSL history came to an end on February 6 when the Rivermen lost a 100-98 overtime heartbreaker to the University of Wisconsin-Milwaukee in a game played at Milwaukee.

Polls played an important part in the UMSL defeat as the Rivermen committed 31 to UWM's 20, and four Rivermen fouled out. Greg Daust was called for three fouls in the first eight minutes of the game, and held a 96-94 lead when Chuck Henson fouled out. They increased their advantage to 98-94 before Jack Stenner scored his 100th career point with 32 seconds left to narrow the gap to 98-96. Two Wisconsin free throws scored on Verle Sutton's fifth foul put the Panthers ahead 100-98 with three seconds to go. Point number 1002 for Stenner accounted for the final margin.

Each team put four players in double figures, UMSL's Verle Sutton came off the bench to lead all scorers with a career high of 35 points. Jack Stenner hit for 28 points, Greg Daust for 14 and Chuck Henson scored 10. Dexter Rieisch led Panther scorers with 28 points, Chet Edwards had 26, Tom Rekowski 21, and Randy Bureta 16.

Little Rock

UMSL hit the 100-point mark for the sixth time this season when they romped over Little Rock University 123-74 on February 3, as UMSL's 123 points was one less than their single game high of 124 set earlier this year against Kearney. The Rivermen's 68 second half points tied their mark for most points in a half also established against Kearney.

Jack Stenner seemed completely recovered from his injured ankle as he led all scorers with 32 points, Greg Daust scored 21 "Doody" Rohm 15, Joe Laskenker had 14 and Denny Caldwell scored 12 as all ten Rivermen scored with five hitting double figures. Daust and Rohm led a 51-30 UMSL rebounding edge with 21 and 11 bounds respectively.

Eastern Illinois

On Jan. 29 the Rivermen visited the Panthers of Eastern Illinois University. Backed by a small but vociferous band of followers they broke to a 20-13 lead after six minutes, largely on spectacular shooting and rebounding of sophomore Greg Daust, who already had six rebounds and ten points. With eleven minutes to go in the half, however, UMSL hit a cold streak and went six and a half minutes without a point, even going four minutes without getting off a single shot. During this time EU ran up twelve straight points to take a 33-28 lead. Baskets by Caldwell, Daust, and two by Ungle brought UMSL to a 38-38 deadlock at half, Daust led the Rivermen through the first twenty minutes with fifteen points and ten rebounds, Rohm was next with six.

The second half began much as the first, both teams playing somewhat cautiously and the lead changing hands numerous times. Caldwell and Daust kept the Rivermen close at the outset, each hitting three quick baskets. With twelve minutes to go Stenner and Laskenker got hot carried UMSL on in which they outsco red the small Panthers 10-3, and gained a nine point lead, 72-63. UIE stormed back to 76-71, but three clutch baskets by 8'1" forward "Doody" Rohm in the last two minutes preserved the lead, and the Rivermen won, 84-74.

Daust led all scorers and rebounders with 27 and 14 respectively, while Stenner finished with 16 points and Rohm 14.

UICC

The Rivermen began the January 27 encounter with UICC slowly as they found themselves down 10-3 after just three minutes. Aided by sharp-shooting Denny Caldwell's hot hand, UMSL finally tied the game at 84-84 with a little over nine minutes to go in the half. Both teams battled a tremendous 70% from the field (eighteen out of twenty-five), the Rivermen led by only two, 42-40. Facily offensive rebounding (one plus a disallowing number of turnovers (15) plagued the visitors throughout the half.

Concordia

Concordia on January 25, UMSL photo by Ken Ealy

At the beginning of the second half the noisy Chicago crowd began to ride "Dooey" Daust, and he responded with five points, three rebounds, and one blocked shot in the first three minutes. Guard Rick Ungle entered the game with thirteen minutes to go, and along with Jack Stenner, began to make the Rivermen's zone press more effective. Stenner's good shooting enabled the opportunistic Rivermen to stretch their lead farther and farther, reaching twenty-two points at one time before leveling off at the final eighteenth point margin.

Stenner's eighteen points in the second half gave him a game high twenty-five, while Daust finished with twenty-two points and a game high fourteen rebounds, Balance was the key word, however, as three other Rivermen, Caldwell, "Doody" Rohm, and Joe Laskenker, also cracked double figures.

Concordia on January 25, UMSL photo by Ken Ealy

The Rivermen kept their perfect record over Concordia, when they defeated the Freenachers 80-58 on January 25 for their seventh consecutive victory by the Seminarians.

Greg Daust paced the Rivermen in scoring and rebounding with 20 points and 19 rebounds, Jack Stenner scored 17 points, "Doody" Rohm had 15 points and 9 rebounds, and Denny Caldwell contributed 12 points and 9 rebounds. Concordia's Darwin Karsten was the game's high scorer with 31 points.
