ABG Releases
Policy Statement

The Association of Governing Boards of Universities and Colleges, which met at Columbia, Missouri April 22-25, issued the following statement of standards "fundamental to the pursuit of higher education in America."

"Freedom of inquiry and expression, both by faculty and by students, are fundamental to the higher education in search of change..." (Continued on Page 6)

Sullivan Speaks To Graduates

Leonor K. Sullivan, Congresswoman from Missouri's Third District, was the principal speaker at the third annual UMSL graduation exercises Wednesday, June 11, at Kiel Auditorium. Mrs. Sullivan is chairman of the house subcommittee on consumer affairs. She also heads another subcommittee on the Panama Canal.

Survey Records Traffic Patterns

A survey of traffic patterns took place on the UMSL campus two weeks ago. Three to four men from the Kansas City firm of Wilbur Smith and Associates were stationed at each entrance to the campus on four successive days. They were working with the master planners of the University, William L. Pereira and Associates of Los Angeles.

The surveyors were observing traffic patterns to advise the master planners of the University's needs for additional roadways and to determine the parking facilities necessary. The State Highway Department also conducts surveys similar to this one on the UMSL campus periodically.

Cafeteria Space Provided in Library

Chancellor James L. Bogg, Jr., told Sam Bommarito, Central Council chairman last Monday that approximately 4500 square feet of space had been made available for additional cafeteria facilities. The new cafeteria will be located in the basement of Thomas Jefferson Library, and in class rooms for the fall semester this year.

When the Center went to press no definite plans had been made for food services, although Bommarito indicated that Canzone, Inc. would probably be contacted.

In a letter to Bommarito April 28, the Chancellor stated, "I assure you that I have recommended space in the Library for cafeteria purposes with the greatest reluctance because of the difficulties which will be involved, and the very real inconvenience this will cause to both faculty and students."

Chancellor Bogg stated that use of the Library basement was one of three possible alternatives. One of these was to provide additional space by reducing the number of class rooms to make room for additional cafeteria space. The Chancellor said that this alternative was not possible because a "projection of our classroom needs for the next two years... indicated that it would be impossible to provide sufficient classroom space." The possibility of rescheduling classes, he indicated, would probably mean some softening of a "heavier proportion of the total student load," which would have provided additional problems for a considerable number of students who work, or who have other commitments on the weekend and during the late afternoon.

The second alternative involved moving the physics department from its present quarters into the lower level of the Library, and using the present physics room for a cafeteria. Chancellor Bogg stated "the very high cost" for water pipes, electrical current, and compressed air needed in the Physics labs was the major obstacle in converting the Library basement for use as a physics annex.

In deciding upon the third alternative, the Chancellor referred to the in the lower level of the Library, the Chancellor said that the plan will require no small expense. He listed the problems of finding a place, finding a way to provide separate entrances to the lower level, and among the problems to be solved.

"The Chancellor expressed fear (Continued on Page 6)
Editorials

Get It Together

Faculty members responding in a recent survey seemed to be as profligate as Central Council members to make a final decision on the use of student representation. The aims of each group are not necessarily in agreement. The faculty is waiting for students to openly support representation. In fact, it appears that representatives to organizations like the History Club may be members of the Senate and Council. Yet, because the functions of each legislative body are separate, the power voluntarily yielded by a departing administrator.

A Token Effort

To the many students and faculty members opposed to a 14 hour language requirement the recent decision to reduce same to 13 hours is viewed as a token effort to meet a heated debate on curriculum relevance. Granted, for some the reduction will mean taking language courses for 3 rather than 4 semesters. However, under the 5-3-3 credit breakdown, a student in this situation will complete this sequence back-to-back. Therefore the requirement is not reduced as it is condensed in eight weeks.

One of the arguments presented by the chief opponent to the reduction, Dr. Enriquez, noted the importance of a single course back-to-back. The argument presented here is that if any culture is presented or studied, verb forms are not culture.

In addition, Dr. Noble felt it was inadequate. He felt that a student should study and learn cultures outside of the course. This is a shortcoming. Therefore the requirement is redefined, very little (if any culture) is presented or studied, verb forms are not culture.

Can the university procreate the necessary funds? Will the Dean of Student Affairs approve? Will this engender sufficient interest in the student body? The university generated by Masters and Johnson lectured here seems to indicate widespread appeal. Will members of the faculty respond to such an innovation?

If my suggestion is so "incred-ible" then maybe there can be created an experimental course without credit next fall?

Sincerely,
Jerry Robinson

Dear Editor,

If the students for Destroying our Society are not "marginal trash," and if they are really "concerned, intelligent people," as Mr. DeAngelis has suggested in his letter, then Mao Tse-Tung is a great American, and George Washington and Abraham Lincoln were fascists.

Neil Parks

Dear Editor,

The purpose of the Course Evaluation Project is to permit an instructor to gain insight as to how his students perceive his instruction and to obtain student suggestions relating to how he may improve his instruction. The project, I must say, was met by (un)favorable by a favorable response from the business faculty. However, opposition to the use of student rating scale mathematics where plans for the results to compare one teacher with another were submitted, information so that he could make our universities today have successfully undertaken this project. In a meaningful and tangibly practical exchange of methods of improvement, students can judge only classroom competence. Students, they say do not have the knowledge to judge competence in scholarship and research. I feel that there will be a very strong tendency by the end of the biology course to separate the top 50 students.

One faculty view is that "scholars" should be judged by their peers. Professors maintain that students can judge only classroom competence. Students, they say do not have the knowledge to judge competence in scholarship and research.

Dear Editor,

We wanted to aid students in finding the information that they need to be more competent. We also wanted to teach them to use the library effectively, while at the same time making students aware of the availability of our services.

Sincerely,

Louis Lucas

Letters: Sex for Credit, Dishonesty, Course Evaluation

Dear Editor,

The April 1 issue of Look magazine printed an article Sex for Credit which is taught at the University of Minnesota. The course, entitled "Human Sexual Behavior" is taught by Professor Gerhard Neubek, President of the American Association of Marriage Counselors.

Sex for Credit goes far beyond a physical phenomenon. Intercourse, Neubek says, cannot be described clinically. Which according to him, the flaw in the Masters and Johnson study . . .

This idea that sex talk is dirty is deeply ingrained in us . . . the story of the birds and the bees is, at least among the hard-core middle class, the biggest conversational taboo in the country. Somewhere along the way sexuality got separated from the rest of life.

It is separated at UMSL. Yet we are much more than necessary here. Professor Neubek uses examples from John Updike's Couples to the Bible; this is much more useful study of a foreign culture. The way present language courses are designed, very little is taught at the university of Minnesota.

Can the university procreate the necessary funds? Will the Dean of Student Affairs approve? Will this engender sufficient interest in the student body? The university generated by Masters and Johnson lectured here seems to indicate widespread appeal. Will members of the faculty respond to such an innovation?

If my suggestion is so "incredibe" then maybe there can be created an experimental course without credit next fall?

Sincerely,

Jerry Robinson

Dear Editor:

As a student of this campus, I object strenuously to the dishonesty of some students. I lost a Student ID card from American Airlines which enabled me to fly half-fare depending upon availability. One of the ladies who works for Canteen saw a boy pick up the ID card in the lost and found department.

I am very displeased that some students of this campus are not honest enough to turn in items which they find to the Lost and Found department. Thank you.

Pamela Nauman

Dear Editor:

I am very disappointed in the fact that the UMSL Current habitually fails to mention upcoming cultural events taking place on this campus. I refer particularly to musical events sponsored by the Department of Fine Arts.

I know for a fact that you were informed well in advance of the Faculty Chamber Music Recital (April 30, 8:30 p.m.), yet there was nothing in the Current about this recital or any other upcoming recitals and concerts sponsored by this department.

Because of this, I am of the opinion that you are lax in your responsibility as a University paper.

May I suggest an easy remedy for this situation? Each issue, on the front page, run a two-column list of future on-campus concerts, recitals, and lectures: that are to be sponsored or offered by the various University departments.

Of course, as a news-gathering and reporting organization, it would and should be the Current's responsibility to contact each department every week to find out when such events are to occur.

Theodore D. Lucas

Instructor in Music

No Mr. Dodd . . . we don't give any credit hours for figuring out the degree requirements.
Greek Week 1969

Inter - Greek Council - History

Inter-Greek Council was formed in the fall semester of 1967, acting upon the request of Dean Davenport to unite the Greek organizations. The member organizations are Alpha Xi Delta, Delta Zeta, Pi Kappa Alpha, Sigma Pi, and Sigma Tau Gamma. The first officers elected for 67-68 were President - Tom Mickes, Vice President - Bob Baker, and Secretary - Pat Sheerin. During this organizational year, the Council set up rush rules, created the first annual Greek Week and sponsored various social activities.

The officers for 1964-69 are: President - John Baker, Vice President - Jim Isler, Treasurer - Bob Krieg, Secretary - Joan Prokopchuk, and Recording Secretary - Mary Rieser. The Inter-Greek Council opened the school year by sponsoring the all-school mixer and donating the proceeds of $420.00 to the St. Louis Leukemia Guild. The recent St. Pat's dance was also conducted by the I.G.C. The second annual Greek Week and a Mother-Daughter Picnic for June, sponsored by the Inter-Greek Council, went on a non-stop basis throughout the week. Some of these events are: a publicity drive, song fest, talent show, dances, banquet and pledge skills.

Engineering and physical powers are tested in the Chariot race. The girls perform feats of strength in the '68 Greek Games.

SCHEDULE OF EVENTS

Sunday, April 27
Greek Assembly

Monday, April 28
Greek Gods Competition 1:00

Wednesday, April 30
Greek Sing: Talent Show 8:00

Thursday, May 1
Community Projects

Friday, May 2
Noon-day Forum 11:40

Princess Athena Coronation

Saturday, May 3
Greek Games 10 a.m.
Banquet 7:30

One of the many objectives of Greek Week is to promote friendly competition among its member organizations. The competitive spirit results from the numerous activities scheduled during the week. Some of these events are: a publicity drive, song fest, talent show, dances, banquet and pledge skills.

Our Social Calendar

Alpha Xi Delta is a very "social" social sorority. The year began with rush parties and coke dates. There was a ha’rass in November, and our annual Christmas Formal in December. Informal rush parties were held in January and February, along with initiation of our fall pledge class and installation of the spring pledge class in February. March brought co-sponsorship of the Sadie Hawkins Dance here at UMSL. To celebrate Easter, Alpha Xi's sponsored an Easter egg hunt on campus for the young children and several orphanages in the Normandy area. The Easter bunny visited the children were all surprised with Easter baskets and an afternoon of entertainment. Also during April our chapter is the hostess for the Province Convention of Alpha Xi Delta Sorority. The biggest happening in April is Greek Week.

Our annual Spring Fling will be held in May. This informal dance is held for Alpha Xi members and their dates only. A Mother-Daughter Tea will be held to thank our moms for their help and understanding. We haven’t forgotten our Dads! We’ve planned a Father-Daughter Picnic for June, including baseball and a barbecue. In between these activities, we have our money-making projects. Not only do we have the usual kind of bake sales, but also we have had a brownie sale, chocolate chip cookie sale, a candy apple and a donut sale! Alpha Xi's sold raffle tickets for the Jelly Bean Contest with three lucky winners.

Goals of Greek Week

One of the many objectives of Greek Week is to promote friendly competition among its member organizations. The competitive spirit results from the numerous activities scheduled during the week. Some of these events are: a publicity drive, song fest, talent show, dances, banquet and pledge skills.

The most important purpose of the Council goes beyond these social activities. Service to the community is emphasized by a united Penny Drive donations to an orphanage in the Normandy area. Each organization completes an additional community project to promote the name of the University of Missouri - St. Louis throughout the metropolitan area.

Alpha Xi Delta

Sing along with Alpha Xi

Sisters Serve

In spite of our busy social calendar, Alpha Xi's make time for philanthropy. Our national sorority has chosen juvenile delinquency as its philanthropy project. Our chapter here at UMSL is currently involved working in the Shinker-De Balivere Community Center. We are sponsoring a club for Negro girls in the area. The club currently involves 27 girls between the ages of 5-15. The purpose of the club is to introduce these inner-city children to cultural experiences outside of their own community. Past events have included swim parties, ice skating events, and games in Forest Park. The girls from the Community Center sponsored a Talent Show, which was presented on campus yesterday afternoon.

Plans have already been made for the summer with the girls. A weekend camp plus tutorial classes will be held. So Alpha Xi's will be quite busy as well as having lots of fun,

Kidnapped!?

Alpha Xi Delta pledges have been quite busy lately trying to earn those needed merits for activation. But, during the weekend of April 11-15, the pledge class took a holiday. Seven of the pledges, with the assistance of pledge trainer Sue Shuman, kidnapped an active, Sue Moutrule, and went on a "walk-out" to Southeast Missouri State College to visit the Gamma Nu Chapter of Alpha Xi Delta.

The "walk-out" offered the pledges the chance to view sorority life on SEMO's campus. All in all, both pledges and active from UMSL's chapter benefited from the experience.

ADVERTISEMENT
Delta Zeta is many things to many girls: bake sales, pajama parties, raffles, car washes, dances, and basketball trips. Through involvement and activities, the sorority comes to mean something more important than just parties, raffles, car washes, bake sales, pajama parties, or basketball trips. The sorority now has forty-seven members and ten pledges. The present officers are: Linda Niedlinger, president; Ellen Hawkins, vice-president pledge, Sandy Waldman, vice-president rush, Peggy Hamm, vice-president pledge training, Sandy Brickey, recording secretary; and Carol Jakie, corresponding secretary.

Delta Zetas have been active in school and community affairs of this campus, placing twenty-five per cent of its members on the Dean’s List. In the fall of the current semester, bringing the sorority average to a 2.76. The Central Council is supported by Judy Allen as Chairman of its Activities and Planning Committee, Sandy Waldman, past president, was elected to the three member Chancellor’s Search Committee.

The chapter has concentrated a great deal of effort on Homecoming activities, winning second place in the lawn decoration contest and third place in the car decoration competition of 1968. For the past two years, Homecoming Queen has been a Delta Zeta. In 1968, Linda Kelleher LaConte was Queen, and Cheryl Keef was a member of the court. In 1969, Judith Weinshenker was elected to the three member Chancellor’s Search Committee.

Various honors have been received by members of the sorority. Judy Allen was a member of the 1969 Miss UMSL court. Jane Williamson and Pat Danna were chosen members of Pi Kappa Alpha’s Dream Girl Court. Who’s Who on Campus includes: Fran and Marie Lagreek, Mary Ann Shop- taugh, Judy Allen, and Cheryl Keef were among the original founders. In October 1967, Delta Theta Kappa became a colony of Delta Zeta, the largest national sorority in the country, with neighboring chapters at St. Louis University and Harris Teachers College.

On March 2, 1968, the colony became the Delta Xi chapter of Delta Zeta with initiation ceremonies including a formal banquet at Ramada Inn. Several national officers of the sorority and school officials spoke, including Chancellor Buggs.

The Pi Kappa Alpha Colony at UMSL was originally chartered as the Delta Chapter of Delta Xi Kappa. Twenty men became brothers on November 4, 1965, when they took the oath and held the chapter’s first business meeting, electing Dan Younger as their president. Under Younger’s leadership the fraternity began to grow and develop. During his term, the fraternity assisted in the founding of the Delta Zeta Kappa sorority on campus.

The UMSL colony of Sigma Pi Fraternity received their charter on April 12, 1969. The installation was performed by the National Officers of Sigma Pi, at the Masonic Temple in Clayton, Missouri. This marked the one-hundred and first chapter of Sigma Pi and the second social fraternity in the Inter-Greek Council to receive their charter.

The new chapter had its beginning on October 2, 1965 as Beta Chapter, of Sigma Kappa Phi Al-pha, a local fraternity. On February 26, 1965 the active body, then totalling twenty-five men, voted to petition the National Fraternity of Sigma Pi for colonization. After one year of existing as a colony and completing all financial, academic and civic requirements set down by the National, the colony was ready for chartering. On April 1, 1969 the colony numbered forty-one men, had assets in excess of $4,000 and held possession of full title to their Lodge House.

Located on the wooded bluffs overlooking the Maramec River, the colony petitioned once again to the National but this time it was for their charter. By unanimous vote of all one-hundred chapters of Sigma Pi across the country, Sigma, UMSL became the first of the second hundred chapters that will continue the traditions of Sigma Pi.

The first officers of Delta Zeta Chapter, Sigma Pi Fraternity are: Sage, Mike Rutherford; First Counselor, Art Gable; Second Counselor, Jim Redel; Third Counselor, Bill Thomes; Fourth Counselor, Gary Yomote; Herald, Larry Grindler.

This year's Homecoming was a very successful event for Sigma Tau Gamma.

The fact that it handled arrangements on virtually every facet of the Homecoming this year is no small accomplishment. It brought the greatly sought after “Bon Fire" back this year and gave the campus, in the form of Miss Julie Weinsheimer, one of the most deserving Homecoming Queens in the history of the University. Because of these fabulous credits and because of the fact that it still occupies its house on Natural Bridge, Sigma Tau Gamma feels that 1969 has, so far, been a very rewarding year for it.

Freshmen Answer Survey

A survey of freshmen entering the University of Missouri last fall shows that a majority of them believe that colleges are too lax on student protests and that student publications should be regulated. The freshmen also expressed a strong stand favoring student design of curriculum.

The survey is conducted annually by the Office of Research of the American Council of Education. Questionnaires on a wide range of subjects were answered by about 5,000 freshmen. Under a heading, "agree strongly or somewhat," the respondents registered these percentages: College too lax on student protests - Rolla, 68.0; Columbia, 90.6; St. Louis, 87.9; Kansas City, 51.7. On the regulation of student publications the Kansas City, Rolla, and St. Louis campuses bordered the 63 percentile, while Kansas City rated 47.9%. The new collegians overwhelmingly favored a student designed curriculum: UMKC, 53.3; UMSL, 91.0; UM, 95.9; UMR, 86.4.

At UMSL, freshmen showed most interest in business and education.

Olivier Film

The film version of John Osborn's, The Entertainer will be shown at the Noonday Forum Wed., May 7. The film features one of Laurence Olivier's most acclaimed performances.

Cafeteria

(Continued from page 1)

that "those students who want to use the Library for its designated purpose are going to find they may have considerable difficulty in doing this," because of the "increasing difficulty now in obtaining the cooperation of too many students who use the Library as a convenient place to visit and who are totally insensible of those who are there to work." He asked the Central Council "assume a large measure of responsibility" in encouraging the kind of environment in the library which will allow students to study.

The announcement of the additional space to be made available for cafeteria purposes has ended a campaign by Bommarito in pressuring for new facilities or seeking improvement in the existing ones. Citing the safety hazards resulting from the overcrowded conditions in the cafeteria, as well as projected increases in enrollment, Bommarito in February promised to direct the efforts of the Central Council toward finding a solution to the cafeteria problem.

Mike Jones and Steve Burnside of ABC (from left to right) speaking at a symposium on black problems at the Noonday Forum last Monday, presents the white man's essentials as a "car, money, and a color T.V." He stated, "Blacks need a standard relevant only to themselves." He asked black women to respect their men more and to help keep the man as true head of the family. He asked each black person to examine himself for each act by asking, "Am I enhancing black existence?"

Steve Bommarito spoke on black power and black nationalism. He defined black power as, "An ability of black people to make their own decisions and choose their own path." He also touched on white racism stating that the atomic bomb was dropped on Japan since they were yellow and, "that they (the U.S.) wouldn't dare drop it on white, Anglo-Saxon Germans."

Do all your banking at Friendly, Courteous, Neighborly...

Between homework and classes, there's little time left for leisure; don't spend it running around to pay your bills or purchase money orders. A mere 6¢ stamp will deliver your check. Your cancelled check is your receipt. Your check book will help you manage your money more wisely and help prepare you for business or homemaking in the near future.

AP0 Blood Drive Marks New High

"The 1969 Red Cross blood drive made substantial gains," according to chairman John Sandel, The annual drive coordinated by Alpha Phi Omega reported a 130% increase over last year's total. One hundred and eighty members of the student and faculty body made donations.

Of the dozens or so organizations participating in the drive, Newman Club, Sigma Pi, and Sigma Tau Gamma presented the largest turnout. Newman's total showed thirty members giving blood.

Sing-Out Planned at Bugg Lake

A “Candlelight Sing-out at Bugg Lake” will be held Tuesday, May 6, at 7:30 p.m., on the shores of Bugg Lake. The sing-out, under the supervision of Cindy Smyrniotis, is sponsored by the Activities Planning Committee.

"Bring a candle and a blanket," Miss Smyrniotis said, adding that the program is intended to attract students from Washington University and St. Louis University as well as from UMSL.

She stressed that the program will not consist of only one type of folk music. “The music will run the gamut of folk styles from Peter, Paul and Mary, to Simon and Garfunkel, through Bluegrass, to Blues.”

According to Miss Smyrniotis, the entertainment will be provided by six folk groups, including the Current River Ramblers; Mike Keen, Cindy and Jon; Doug Neile; and Dave Mackenzie.

There will be no admission charge.

China Discussion

The Council on International Relations and United Nations Affairs will sponsor a discussion titled “And What About China,” Monday, May 5 at 7:30 p.m., in room 150 Clark Hall. Dr. Roy Gene Barnes, associate professor of history will speak on China and United States foreign policy and Dr. Stanley Spector of Washington University will speak on The Cultural Revolution.

Excellent Performances Highlight Uneven Production of “Brigadoon”

by Sam Hack, Features Editor

Lerner and Loewe's Brigadoon is a whimsically charming musical play. Whimsy and charm, however, are dangerously fragile dramatic ingredients. For Brigadoon to work on stage, the production must create a delicate magical mood and sustain it throughout the evening.

The audience must forget it is watching a play and lose itself in the “miracle” of Brigadoon. This effect requires a technical perfection which amateur theatre seldom, if ever, achieves.

The production of Brigadoon which was presented on the UMSL campus last weekend had much to commend it, but it was inconsistent. Inconsistency marred 110 in the Shade and Carnival (the two previous campus musicals I reviewed) also. In Brigadoon, it is more difficult to accept and forgive flaws.

The most harmful weakness in the production was the bad playing of the orchestra. I hesitate to place any blame on musical director Jan Parker for it was clear that the problem was in the pit rather than on the podium.

To help establish the make-believe mood, the authors have included a great deal of dancing. Much of it can be cut without affecting the clarity of the dramatic line. As much as possible should have been cut in this production. Watching dancers who had difficulty staying in step while listening to an orchestra that played far too many bad notes was not conducive to believing in miracles.

Beau Stiler’s direction was effective in the play’s dramatic scenes and clumsy in the musical numbers. The chorus was too large for the stage which gave the uncomfortable impression of congestion. A chorus of this size was probably essential for musical reasons, but it should have been used sparingly on stage for dramatic reasons.

The production was most satisfying when the audience was allowed to concentrate on the individual performances of the most consistently talented cast in any musical presented on this campus. No fewer than seven performers must be commended for excellence.

Much of the dramatic and musical burden of the production was carried by Dennis Skerik and Karen Wiers. Tommy Altbright is a rather poorly written characterization. Skerik captured the essence of the character, a confused yearning for something extraordinary and beautiful, and made it believable. His high, strong bass-baritone voice gave the character a virility which is lacking in the writing.

When the right mood was occasionally struck, it was usually made possible by the performance of Karen Wiers as Fiona MacLaren. She conveyed just the right combination of confident maturity and starry-eyed innocence. Her upper voice, which had a marvellous delicacy of tone, Patrick Courtney’s soaring tenor and bright personality were in evidence as Charlie Dalrymple.

Brigadoon has two very funny comic roles both of which offer opportunities to steal the show. By the end of the production the affectation of the audiences belonged to Paul Morris and Janet Stacey, who played those roles. Morris played Jeff Douglas with a deadpan, underplayed cynicism that was totally ingratiating. Miss Stacey, as Meg Brodie, had a refreshing, impish sensuality and a way with a song that stopped the show whenever she was on stage.

Linda Hamil (the choreographer), Jan Heberer, and Doug Green had the solo dancing roles and all were exceptions to my earlier criticism of the dancing. In fact, the most effective dramatic moment in the production was Miss Hamil’s moving funeral dance accompanied by the thrilling bagpipes of John A. Ford.

Donations Collected to Help Worker

Fire destroyed the home and possessions of campus supervisor, Mabela Chism, April 27. Mrs. Chism, her husband and her four children returned home that evening to find their newly built home completely destroyed.

Members of the faculty and staff are making donations of food, clothing and household articles to help the Chisms start their new home. Student contributions are also welcome. For further information, contact sociology department secretary Mrs. Connie Dake or phone her on extension 5284.

Central Council

(Continued from page 1)

Central Council for one- or two-year terms, as vacancies occur.** The court would adjudicate "traffic violations and matters of grievance between individual students or groups of students," also to conduct impeachment proceedings for malfeasance in office, all in accordance with the Board of Censors' "Rules of Procedure in Student Disciplinary Matters."

The eighth and last article of the constitution concerned amendments and ratification. The constitution may be amended by the "consent and signature of two-thirds of the Council members." In addition, any petition signed by fifteen percent of the student body and one-third of the council membership would appear on the ballot at the next election and, if approved by a majority vote, would be considered a ratified amendment.

Green Hornets Win Women's IM Title

Three teams of girls recently completed a short series of intramural basketball games in one of the more interesting IM sports from the viewpoint of players and spectators. The Green Hornets emerged as league champions with a 4-0 record, Members of the Green Hornets are Sue Muntrie, Sue Sherman, Penny Oliver, Kathy O'Hearn, Maureen Sullivan, Diane Harris, Donna Scoby, and June Wilson and Nora Stohman.

The following are the winners of all the IM events held so far this year: flag-football - Zilker; women's volleyball - Newman House; punt, pass and kick - Bob Miller; three-man basketball (Fall) - Mortimer Hairdryer; five-man basketball (Fall) - Stevens; free throw shooting contest - Mike Taylor; three-man basketball (Spring) - Stevens; and women's basketball - Green Hornets.

By Mike Olds, Associate Sports Editor

Last Thursday the Bears of Washington University brought UMSL's first winning streak to an end at four games. During that string, UMSL had defeated Prairie View College, Concordia Seminary, Southeast Missouri State College and Westminster College.

The Rivermen started out last week with a game against Southeast Missouri at Forestwood Field. Pitcher Tim Krull gained his second straight victory, holding the Indians to ten hits and six runs. Tim struck out three, walked three and hit one. In that game the Rivermen went into the top of the ninth with a two run lead, which promptly blew. An error, a fielder's choice and a base hit put Indians on first and third with only one out. Then the SEMO first-baseman stretched a home run into a triple driving in the tying run. He made the turn at third base but played it safe and held up - which is where he was still at the end of the inning. Tom Bader broke the tie in the bottom of the inning, winning the game by driving in Gary Skinner with a single to left. SEMO had retired the first two batters but Skinner singled to center. Then Randy Vest was intentionally walked, setting up Bader's RBI. On Tuesday the Rivermen won their fourth in a row at Fulton, Missouri, as they defeated Westminster College 7-2. Bill Coates went all the way, allowing the Bluejays only 7 hits and two runs. John Coles had 2 RBIs while Tom Baer tripled to lead the UMSL attack. The win raised Coates' record to 4-3-1.

Last Friday, the Washington U. Bears defeated the Rivermen 9-4 although the Bears really didn't have that much to do with the result. Tim Krull did a brilliant job, pitching around five UMSL errors, to hold the Bears to only six runs. The Rivermen drew first blood in the game, played at WU's Ux Field, with Randy Vest driving in Gary Leenidecker with a line shot single up the middle. Two errors and a half inning later, Washington held a 2-1 advantage. A wild pitch and Gary Leenidecker's sacrifice fly in the second brought Mike Raines and Bob Miller home. When Washington's lead stood at 3-2, the Rivermen let their mistakes get the best of them as they stumbled on to lose the game.

As the game's end, the Rivermen had collected 12 hits, but only four runs, leaving 14 men on base. two on in the first, fourth and ninth, and three on in the fifth and eighth. Hard luck loser Tim Krull's record dropped to 3-2 with the defeat. UMSL's record stands at 4-3-1.

Read our new label. Try our good beer.

SLAKE-EM RIVERMEN

Falstaff Brewing Corp. St. Louis, Mo.
It isn't every school that can boast that one of its students is a player in the Cardinals' farm system. UMSL can claim that distinction because of junior Ron Kinney who, for the past two summers, has pitched for the Cardinals' farm club at Sarasota, Florida in the Florida Instructional League.

Ron is a graduate of Cleveland High School, where he played varsity baseball for three years. The past two years he attended Meramec Junior College, where, in 1967, he compiled a 5-1 record. He was signed to a Cardinal contract in June, 1967, by scout Joe Monahan. Last year, in his first fall season with the Sarasota Cardinals, Ron compiled a 5-3 record and was named to the instructional league all-star team.

Kinney was placed on the roster of the Cards AAA farm club at Tulsa for the winter. Sometime in May he will find out where he'll be spending this summer. Ron is a left-handed pitcher who says that his best pitch is the curve.

When not studying for his political science courses, Ron can be found at UMSL baseball practice assisting with the Rivermen pitching staff. When asked about the UMSL team, this year, Kinney said, "we have good hitting but a lack of defense and depth in pitching."

He attributes the lack of pitching depth to the fact that most of the pitchers have not had collegiate experience. Ron elaborated on these remarks by pointing out that "baseball today is pitching," especially in tournaments. "Any kind of baseball tournament is all pitching. To win a tournament, a team must have a good amount of right and left handed pitching."

Due to age and other factors, Ron foresees a lot of vacant spots on the Cardinal pitching staff in the next few years. He hopes to fill one of these spots and UMSL fans will be in there rooting for him.

Tennis Team Loses Two; Now 0-6

The tennis team continued their losing ways last week, as they dropped both matches to bring their record to 0-6. In a make-up of a rained out match against Milliken April 21, UMSL lost 9-6. The Rivermen won their highest number of sets in a single match this year, April 22, when they lost to Concordia 7-2. The winners in the doubles set for UMSL were Don Brindley and Lou Mudrovic. Brindley also won a singles set. The scheduled matches against Drury and Southwest Missouri State last weekend were cancelled. In its six matches this year, the Rivermen have been outscored 48-5 in sets. UMSL has three remaining matches this year to try and improve on last year's 2-7 record. They faced St. Louis University at home yesterday. They face Milliken at home today.

The Rivermen meet Concordia in their last scheduled home game on May 4. The match will be played at 5:00 p.m. at Forestwood Park.

Men - Women Summer Jobs

Work and Play and earn a salary of at least $1500.00 for full time summer Employment. Plus up to $2,000.00 in Cash Scholarships for those who qualify. Must be at least 18 years old. Convenient working hours with lots of time for Recreation.
