Central Council Constitution Retains Present Student Government

by Matt Mattingly

The constitution, as finally approved, does not differ substantially from the revised draft, characterized by at least one Council member as “twice as long as the original, without improvement.” The only portion which aroused real controversy, Article One on Representation, was approved without modification.

The provisions of Article One provoked the move for “minority-report alternatives,” to be presented along with the already-approved sections. As approved, Section One calls for one elected representative per five hundred students—Day, Evening and Graduate Schools being the only separate entities. Section Two allows one Council seat for every organizational having secured permanent representation. Section Three provides for at least four meetings per semester. The possibility of special meetings called by the president, the Executive Committee, or a petition of two-thirds of the Council members.

Article Two on Officers was substantially modified in revision by the constitution committee itself. The powers and duties presently held by the Central Council chairman will be divided between the student body president and the chairman, the latter elected directly by the Central Council and chosen solely to preside over meetings. The duties of the vice-president, like those of the council president, would be performed by the Secretary and Treasurer of the Central Council. Arbitration of the numerous parliamentary questions would fall within the sphere of the parliamentarian. The Council is empowered to salarize the student body president and the secretary.

Article Three in effect gave the Central Council control over committees to give legal status to the present student government. The only infringement on the Council’s power over committees was the amendment assuring non-Council members of first consideration for committee posts on Faculty Committees.

In order to facilitate procedure, any petition signed by 15 per cent of the student membership would appear on the ballot at the next election and, if approved by majority vote, would be considered a ratified amendment. The constitution may also be amended by the councilors and signature of two-thirds of the Council members.

The Articles on By-laws and the Student Court were passed without debate, while the only change in Article VI was the elimination of the requirement that Council members not be “on academic or disciplinary probation.”

The prolonged constitution debate made it impossible to hold elections before the last day of April, so stipulated in Article V, so the election rules were altered to provide for elections “no sooner than the first day of May or later than May 30, 1969.” Elections would be no sooner than April 30 and no later than May 14.

Central Council Constitution Retains Present Student Government

Administration Leaders Reach No Decision On Student Requests

by Adrienne Beaudoin

The sociology class involved in the sit-in was performing “a sociological experiment on the lines of communication and the patterns of decision-making,” said Paul Chassy, instructor in sociology. “The decision to sit-in arose from a discussion of social problems in my class.”

Chassy said the students did not disrupt any classes. “When we went over, we took a tour of the building. Upon finding a class in session, we left the building. At 10:30 a.m., students inside informed us that the class was over and that there were no more classes until the afternoon. Then we entered the building.”

Chairman of the administration to take either faculty or students seriously enough so as to receive their advice and consideration prior to any final decisions.”

“First, students expressed disillusionment and disturbance with some students and administrators because of their unwillingness and inability to deal with deeper issues. Second, the strong tendency of student parachutists in their defense of administrative reprisal against myself knowing that I had only a minor, if not insignificant, role in Friday’s turn of events.”

Chassy also said that “to the best of my knowledge, no one initially involved sought to advance any personal gain but rather were motivated by purely academic concerns. Over a period of time, this changed. It became more of a political phenomenon in which people rose to positions of leadership, some of whom sought to make personal gains. This doesn’t appear to be the case with those who volunteered to be on the committee to meet with the Chancellor.”

Chancellor James L. Bugg Jr. said that “the sit-in was an incredibly irresponsible act in a college. The students involved had other ways of making their views known to myself, Dean Eickhoff and to the other students. There could have been a different outcome.”

The University position on such matters is well known. President Jon J. Weaver and the Board of Curators have made it clear that buildings cannot be blocked.

**Government by Sit-In**

The issue of converting the basement of the library into additional cafeteria space or moving the physics laboratories out of the "Physics Annex" and putting cafeteria facilities there did not warrant the sit-in which was staged on campus last week. Instead of the usual peaceful sit-down by some students there was considerable tension and disorder. The sit-in, reflected a failure on the part of student government here to sympathize and present to the administration student opinion and demands. Such arguments, in our opinion, are not valid. Those who expressed a feeling that the sit-in was not conventional open letter to the President and the Board of Curators to view the overcrowded University facilities as a lobbying agent for attaining more cafeteria space for students.

The sit-in itself was essentially an attempt by some students to get the attention of the administration together by the lake. While it was orderly and well-conducted, the sit-in itself did not seem to contribute much to the latter. It was more time-consuming and tedious. It also was trying to get by some students at the meetings following the sit-in.

As long as this country continues its escapades in southeast Asia, it will continue as well to destroy the development of intellectual and technological manpower throughout the United States. The policy may not end the irrational destruction of human lives, but it may keep the dwindling effect of war on our nation's prime resource (brain) to a minimum.

The sit-in was to be the most fair and sensible way to carry out military conscription since it is an inevitable necessity in a nation which has yet to have any real plans to organize a volunteer armed force.

The drive for additional space began last February, and continued to the present. The opinion of some of the students at the meetings was that the overcrowded facilities were a lobbying agent for attaining more cafeteria space for students.

**Letters: Alienated from Education; Ideas on Library**

My first semester dragged on, I began looking forward to the second. In fact, friend reader, as I write this I am in a second sophomore year of college; and allow me to assure you that what I have found in the majority of my academic experiences has been nothing but the same old 64 percent -- the conventional word would not have reflected my college education.

Most of us, I am sorry to say, have been much bothered or worried about this phenomenon. The easy way out is to assume that if there were a solution to this problem -- and I hope that I have been able to point out that a problem truly exists -- that someone would have already found it. All past progress has this attitude to thank for the sad fact that progress is usually very, very slow.

Something is definitely missing. It has not been included in my education and probably not in yours either. Therefore I do not know what is to be done. Educators are the ones who are now leaving out whatever it is. It seems to me that some of them must know what it is. Some of them must be aware.

I think that the time is becoming apparent for this need as well as many others to be recognized and treated. UMMSL is still new enough not to have developed a tradition of ignoring this very real and pertinent problem. There is still a chance. I hope that it is not ignored.

**For Draft By Lottery**

The idea of a lottery draft system is not a new one. Many oppositions have said that it is an undesirable form of conscription. It is also the only fair way to divide the draft. It would be a satisfactory way to divide the draft if we ever got to it. With such military endorsement, the impetus needed to clear passage of a lottery proposal may be present.

If the lottery becomes reality, it will probably function in the following way: the men of draft age will be placed in the category of "eligibility for" a period of not longer than one year, after which period they will be eligible for the draft except in cases of national emergency. This is how the draft is ordered first, in order to avoid causing long periods of uncertainty for those of draft age; however, if a sixteen year old wishes to go to college he may defer his year of eligibility for four years.

A system of this type will have tremendous implications on the futures of draft age young men attending UMMSL or any other university. It is often the case that a student's academic career is interrupted (and sometimes ended) by the draft. It has also been the opinion of some students that the system may not work as intended. Students planning to do graduate work will be able to plan their educational experiences with the lottery system.

Why is Camaro the pace car again?

Because it's the Hugger.

Camaro SS has been chosen to be the Indy 500 pace car for the second time in three years. That's because it has what it takes.

Engine choices start with a standard 300-hp 350-cu.in. Turbo-Fire V8 and run up to a 325-hp 366-cu.in. Turbo-Jet job. There's even a new Super Scoop hood you can order. It opens on acceleration, pouring cooler air into the engine for more go power.

The SS version of the Hugger grips the road with wide-oval tires on 14 x 7-inch-wide wheels, bedford-up suspension and power disc brakes.

The transmission comes linked to a 3-speed floor shift. If you want still more, there's a 4-speed Hurst shifter available.

Indy's tough. So's Camaro SS.

When it comes to pacesetting, it's pretty clear that Camaro knows its way around.

Start setting a pace of your own. At your Chevrolet dealer's now.

Putting you first, keeps us first.

Camaro SS Convertible with Rally Sport equipment and new Super Scoop hood.

Official Indianapolis 500 Pace Car, Camaro SS Convertible.

The innovative courses offered there and the national publicity they have generated make Friday's events really hurt.

"Space for students is the most critical problem on campus. When this space was given to the physics department, there was no intention that this was a permanent assignment."

Dr. Eidson also said that several students made by students during the discussion on the hill about the physics department's applying pressure to retain the annex were false. "The physics department came out of this looking like the bad guys," he said.

"People did not put pressure on anyone. They were simply asking that the space be given up because the physics department was not using it on a regular basis."

Dr. Robert L. Allen, professor of economics and chairman of the history committee, said, "The library should be used for library purposes only. First, it would be easier to get a cafeteria or a physical sciences lab out than to get classrooms out. Second, library space will become critical soon. Since early January, a committee has been studying the library situation for the purpose of making a report to the Faculty Senate."

Graydon Gwin, representative of the History Club to the Central Council, voted in the sit-in. He said, "Friday afternoon finally brought the Chancellor out of his office and on to the hill for open debate. In my opinion, the Chancellor showed great competence in the hour-and-a-half question and answer session. There was a great deal of maturity on the part of the majority of the students attending the discussion. This was reflected in their questions."

"The Chancellor has a valid argument when he said that the student voice was unrepresented. In earlier years, the student government was weak or simply non-existent. This year's Council consists of some outstanding students, extremely diversified in opinion, but highly competent to speak for the students whether the apathetic masses know it or not."

"I feel that the sit-in between our moderate conservaties and the reactionary conservatives was well worth the three hours on the hill. It might turn out that this 'violent, radical, bloody' sit-in might not put a spur in the pants of the 500 plus middle class communists."

Michael Quinlan, a political science major, felt that the sit-in was successful. "The sit-in, in view of the fact that it was not an attempt to block classes but merely a non-violent demonstration on the student's part to show the need for urgent action to expand cafeteria facilities, was justified. It was successful in reopening negotiations with the representatives on the Central Council and the Chancellor."

"War Games"

"War Games," a 45-minute movie dealing with political intrigue will be shown at the Noonday Forum Tuesday, May 12 in room 100, Clark Hall. It is sponsored by the Sociology Club.
Students Attend Mlsl Convention, Four Elected To Lead Legislature

Ten UMSL students were representatives at the Missouri In-collegiate Student Legislature in Jefferson City, May 1, 2 and 3. Mlsl is a mock legislature sponsored by 36 colleges and universities. Young Republicans and Young Democrats Clubs in Missouri, delegates apportioned to the clubs participating in two days of legislative activity in the Missouri House and Senate Chambers in the State Capitol.

The four top elected positions went to the UMSL Young Republicans. Nanette Smith, vice-president, was elected by the House of Representatives to serve as speaker pro-tempore, the highest office ever attained by a UMSL delegate. In the Republican caucus, Phil Rieck was elected Senate Majority Leader.

Packwood Speaks

Senators Robert W. Packwood (R.D.), Oregon, who defeated four-term incumbent Wayne Morse in the 1968 election, will speak on "Case Study of a Candidate" as part of a day-long program Saturday in Benton Hall.

The program, sponsored by the Republican National Committee, is part of "Opportunities Unlimited" conference which will bring students from 28 colleges around the state to participate.

Other speakers include County Supervisor Lawrence K. Ross, Joseph Badaracco, president of the Board of Aldermen; and Eimer Smith, chairman of the Missouri Republican State Committee. Admission is free. The luncheon costs $1.75.

Bond Talks To Large Crowd

Georgia legislator Julian Bond said Tuesday that blacks must deal with the possibility that only limited advantages may be achieved in a society that is oriented to whites. Speaking before an overflow crowd in room 105, Benton Hall, Bond often quoted from black authors including Frederick Douglass and Booker T. Washington.

"What we need is not black capitalism, but communal socialism so that we can profit the many and not the few," he said. He asserted that a "better day may be possible if the energy that is put into bringing a better day is equal to the discussion."  

ABC Tour

The Association of Black Collegians in an effort to attract black students to UMSL has invited 225 Summer High School students to tour the campus Thursday, May 15.

Learn the Brokerage Business

A. G. Edwards is interested in training business-oriented evening student in the investment business. Day opportunity exists at the Northwest Plaza branch office St. Ann, Mo. Call Mr. Tennant, AX 1-2250.

Democrat Elected To State Post

Bob Feigenbaum, president of the UMSL Young Democrats, was elected state treasurer of the Missouri State College Young Democrats at its annual convention in Jefferson City May 3 and 4.

The group met following the adjournment of the MISL convention. Feigenbaum and John Schneidermeier represented the UMSL group in the House of Representatives. Other officers of the state group are Tony Kofcia of UMKC, chairman; Charles Traplin of Rockhurst, executive vice president; and Miss Nancy Smith of Christian College, secretary.

Senior Recital

Linda McKinney, a music major, will perform works of Mozart, Hindemith, Schumann and Telemann in her senior piano recital at 8:30 p.m. Friday, May 16 in room 105, Benton Hall. The chamber orchestra will accompany her.

Gosh, Thanks, UMSL

John Danforth Here

John Danforth, Attorney General of Missouri, will speak at 11:45 a.m. Wednesday, May 14 in room 106, Clark Hall. His topic will be campus disorders.

Pi Kappa Alpha presents Bust Out '69 Chuck Berry's Country Club Swimming, Dancing, etc.

SENIORS Give A Gift This June Certificates of Appreciation for your wife, husband or parents who have helped you through college. Inexpensive but Sentimental on sale May 12th thru 16th in the Lobby of Benton Hall.

EXERCISE YOUR "WILL" POWER

I will switch to Tampax tampons, the internal sanitary protection that out sells all others combined.

I will ride a bike, swim, play tennis, dance... and do my daily exercises every day of the month if I wish.

I will no longer worry about the discomfort and inconvenience of sanitary napkins, pins and belts.

I will be more relaxed and confident in any situation because Tampax tampons can't show or cause odor.

I will be completely comfortable because Tampax tampons can't be felt when they're properly in place.

TAMPAX INCORPORATED.

EXERCISED DEVELOPED ELiVIl}"
Group Circulates Petitions To Lower Voting Age

by Paul Bange

A group of students are circulating petitions that promote the right of 18-year-olds to vote. The movement, led by John Oleski, is under the auspices of the Congress of Student Involvement.

"We could not form an organization in time," Oleski said. "It requires 45 days for school recognition and only three weeks are left before vacation."

A bill outlining the group's aims was presented in the Senate Tuesday and passed after the third reading. The bill now goes to the House where five previous attempts have failed. The petitions will be presented to the House Appropriations Committee by Oleski, Sam Bommarito and Steve Fairchild.

The Senate bill not only would lower the voting age, but also lower the legal age for contracts, marriage licenses, drinking permits and voting registration.

Oleski, Bommarito, Fairchild and Brian Costello, CSI president, participated in a panel discussion at the Noonday Forum Monday. At that time Paul Chasy, instructor in sociology, objected that it was "useless to have 18-year-olds to vote when the votes of those 21 and over are ineffective."

In reply Bommarito argues that the age 21 was arbitrary and that it stemmed from old English tradition. "Young men were knighted when they approached 21," he said, "because it was then that they were strong enough to hold a sword." He said that physical strength has no correlation to mental maturity.

In reply Fairchild pointed out that the legal age for contracts, marriage, licenses, drinking permits and voting registration were lowered to 21, "because to have 18-year-olds to vote when the votes of those 21 and over are ineffective."

The Senate bill not only would lower the voting age, but also lower the legal age for contracts, marriage licenses, drinking permits and voting registration.

"It's my kind'a place."

"Wanna bet it's fresh?"

"Sure McDonald's is my kind of place. Look, I deliver meat to many of the best restaurants in town but when it's time to eat, I make sure I'm at McDonald's. They use top quality hamburger and I know it's fresh. I deliver every day! It's my kind of place."

McDonald's is your kind of place.
Hitting Failure Hurts Rivermen

by Mike Olds, Associate Sports Editor

In their four games last week the baseball Rivermen managed to score a grand total of six runs. Meanwhile, the UMSL pitching staff contributed, with the help of timely fielding lapses, to allow eighteen runs. That the Rivermen were fortunate to come away with even a single victory is an understatement.

Central Methodist

The week got off to a bad start on Tuesday as Central Methodist’s Angie Eckhardt (3-0) brought the Rivermen to their knees in the first game of a doubleheader played at Forestwood. Eckhardt recorded his second no-hit game of the season, limiting the Rivermen to only two base runners. He had limited Missouri Valley College earlier this season. UMSL starter Bill Coats was magnificient in that game, as well. Bill limited the hard hitting Central team to 7 hits and only one run. The 1-0 defeat was his second loss of the year to go with two wins. Strangely enough, Bill was not hampered by the sloppy fielding play which has plagued him since this season. UMSL committed no errors in the game, the first time that’s happened. Thus far the opposition has scored 34 runs with no errors in the game. Bill started for the Rivermen and held Concordia to only four hits and two runs on a day he didn’t have his good stuff. It was the second consecutive impressive game for big Bill who became the winningest hurler on the mound, of these, fifteen have been earned.

In the second game, five Rivermen pitchers were bombed for nine walks, nine hits and fifteen runs. UMSL lost the contest, 15-1, with starter Harold Winkelman taking the loss.

SIU - Edwardsville

On Wednesday the Cougars of SIU-Edwardsville came visiting. UMSL pitcher Tim Krull held the Cougars hitless for 7 2/3 innings and went on to hold them to three hits and no earned runs as the Rivermen handed SIU the game, 2-1. Randy Vest drove in the lone UMSL RBI in the sixth inning. His field grounder brought Gary Lendecker home from third, Gary had tripped to lead off the frame. The Rivermen’s impotence with the bat was matched only by their incompetence in the field. SIU scored the winning tally in the top of the ninth. Rohlfing singled to right center and stole second. On the steal Mike Raines, UMSL catcher, who had previously made brilliant throws to retire runners in the second and eighth innings, pegged the ball into center field, allowing Rohlfing to advance to third. Two men later the Cougars had runners on first and third and Gary Collins beat out an infield hit. Forsatil then hit a sacrifice fly to left field to drive in Rohlfing with the winning run.

Concordia

Fred Neidner of Concordia was the victim as the Rivermen gained their solitary victory on Friday. This was the second time this year that Neidner has lost to UMSL. Bill Coats started for the Rivermen and held Concordia to only four hits and two runs on a day he didn’t have his good stuff. It was the second consecutive impressive game for big Bill who became the winningest hurler on the UMSL staff with a 3-2 record.

UMSL scored twice in the first as John Cova doubled and scored on Tom Bader’s triple. Mike Raines followed with an RBI single to left. Raines struck again in the sixth. Mike went to first on the base on balls and promptly stole second, Bill Haberberger’s single sent him to third and Ed Curran picked up the RBI with a sacrifice fly to right. The Rivermen added an insurance run in the seventh and Coats held off a later Preacher rally and UMSL walked off with a 4-2 victory.

The Rivermen record now stands at 5-6-1. UMSL plays four road games this week, against McKendree College, Washington University and Culver-Stockton. The Rivermen will play their last doubleheader on Saturday at Culver-Stockton.

Cagers Top District In

Statistics

In addition to winning the District Sixteen basketball championship, the Rivermen dominated the district’s final team and individual statistics.

UMSL senior guard Jack Stenner averaged 24.3 points per game and 1236 from a 47.7 average. Stenner also took the team rebounding honors with a 92.4 average and won the field goal shooting percentage crown with a .508 fig-ure. UMSL was fifth in team defense, allowing its foes 76.3 points per game, and seventh in free throw shooting percentage. Daust was eighth, in free throw shooting with 19.2.

The Rivermen took team scoring honors with a 92.4 average and won the field goal shooting percentage crown with a .508 figure. UMSL was fifth in team defense, allowing its foes 76.3 points per game, and seventh in free throw shooting at .47.7 average. In individual field goal shooting percentage, Daust was eighth, in free throw shooting with 19.2.

Between homework and classes, there’s little time left for leisure. Don’t spend it running around to pay your bills or purchase money orders. A mere 6¢ stamp will deliver your check. Would you pay a little something to get through your next language exam?

At Berlitz, we have a secret device for getting you through language tests.

It’s called a Berlitz instructor.

He’s a man who’s gotten dozens of seemingly hopeless students through dozens of seemingly impossible exams.

He does it by first finding out just how hopeless you are, then he sits with you and virtually brainwashes you until you not only speak the language. You understand. Of course, all this costs a dollar or two.

But seeing it could make all the difference between making it and flunking, it’s a small price to pay.

Berlitz Practical language lessons

There’s a Berlitz Language School near your college and near your home.

See your phone book.
Go to Another Place
(How about after Ramsey Lewis)

Big Lovers (Of Desserts)

After the play, show or study date go to Another Place at 8406 Natural Bridge. If you like the daytime atmosphere, you should see how much greater it is every Friday and Saturday night. We close off the kitchen area, have real live waitresses and have hardly any lights.

On Saturday night, we have live entertainment.

And we have imaginative desserts like:

**THE SHOWBOAT** - vanilla ice cream on delicious pastry - covered with layers of chocolate, strawberry, banana cream and banana cream colored ice cream.

**THE QUEEN MARY** - flaky cream roll filled with marshmallow with mounds of vanilla ice cream, pineapple sauce, whipped cream.

**A RIVERMAN'S FOLLY** - rum 'n butter sauce on a custard-filled eclair with fresh strawberries and whipped cream.

**THE MATE'S TART** - a mound of vanilla ice cream in a sea of cherries - surrounded by delicious flaky pie crust.

**THE CAPTAIN'S FAVORITE** - hot apple pie with vanilla ice cream.

Plus many more sundaes and drinks and we're open until 2 a.m. on Fri. and Sat.; 11 p.m. Sun. thru Thurs.

Golfers Now 9-4-1; Finish Tuesday
by Pat Freeman

The UMSL golfers strengthened their varsity golf record to 9-4-1 as they added two wins and a tie on April 29 and May 1. April 29 UMSL slipped by SLU, Louis University 11-7 but was unable to gain a lead on Washington University which ended in a 9-9 tie.

Tom O'Hare once again led the UMSL squad as he fired a three over par 72 match with WU and SLU. Three Rivermen blanked SLU golfers as Kent AufDerHeide was the only player to shut out a Washington University man.

Posting wins for the Rivermen were O'Hare (72), Doug Solillow (75), Tom Craddock (75) and AufDerHeide (74). Dennis Chester and Steve Loughner were both blanked by SLU.

In the Washington University match O'Hare defeated Chubert (79), Solillow defeated Fitori (79), Craddock tied Reither (75), Chester lost to Veene (79), Loughner lost to Lytle (79) and AufDerHeide defeated Ramoaks (84).

On May 1, Culver-Stockton College squad competed for the strong UMSL squad which downed CSC easily 11-4. Although O'Hare and Solillow, the top two players on the UMSL squad, dropped their matches, the rest of the squad recorded shutouts. Playing with only five golfers from CSC, the Rivermen played with regular Tom Craddock. Don Marske stepped in and defeated W. Simmons (78), as Romaecker defeated Clinton (83) and AufDerHeide, wrapped up with a win over Hallin (88), Medalist honor for the par 70 Western Golf Course went to AufDerHeide (UMSL) and Moore (CSC) who both fired an 83.

The varsity squad will be rounding up their regular 90 spring schedule as they travel to Charleston, Ill., to meet Eastern Illinois University tomorrow. They end up with Principia College May 13 at Jerseyville, Illinois. June 10-13 has been set as dates for the NAIA National Golf Championships in Fort Worth, Texas.

At the beginning of the third period of last Sunday's Stanley Cup playoff at the Arena, I sat in the auxiliary press box thinking how I would begin the column if the Blues held their 1-0 lead. Three minutes later I decided to begin this way for the Blues were then trailing 2-1. And that was the final score as the Montreal Canadiens wrapped up their 16th Stanley Cup title.

The Blues had many chances in the game Sunday but in the end it was the Canadians' famed defense that accounted for the four game sweep as Montreal outscored the Blues 12-3. It seemed like every time the Blues controlled the puck there were one or two Canadians in front of goalie Rogan Yachts.

**Great Crowd**

As usual the St. Louis crowd was utterly fantastic. They even cheered every goal that the Blues scored in pregame warmups. When Terry Gray gave the Blues their 1-0 lead in the second period, I thought that the roof would blow off the Arena. The only bad comment about the crowd was uttered by a Montreal writer sitting in front of me who was hit by a thrown roll of ticket paper following Gray's goal.

As his players fled slowly out of the locker room after the game, a dejected Scotty Bowman spoke with the press, "I don't think we can play any harder," he said, "but we can get a little more luck." In answer to a question about whether Montreal's comments had bothered the Blues, Bowman said, "Our pride was hurt. We wanted to play a good game today to prove we're a good hockey team." Bowman went on to express his feelings about the Canadians by saying, "To be great you have to be hungry and humble. Montreal was hungry, but they weren't too humble." Asked about the Blues' fans, the coach replied, "I've never seen fans like they were today."

**Steelman's Plans**

Getting back to UMSL activities, the Steamer's Club has begun planning their program for next year. We will begin the program with a bake sale Monday May 12 in the cafeteria.

Included in our activities for next year are more pep rallies and bus trips plus post-game rallies at "Another Place" and the sale of Steamer's sweatshirts. These shirts are available to anyone for $2.25 each.

Hendin's Headlines
by Marty Hendin, Sports Editor

Also next year the Steamer's plan to include cross-country, soccer, baseball, golf and tennis in their pep activities. We will need a lot of help with our activities next year. Membership in the Steamers is open to everyone. Any interested should contact one of the club's officers or call the name and phone number in the Steamer's mail box in Room 117 of the Administration Building.

**Soccer Tryout Off**

Due to a lack of a suitable practice field, Spring practice and tryouts for the 1969 soccer team have been cancelled, according to an announcement by UMSL soccer Coach Don Dallas.

Any student interested in playing intercollegiate soccer next fall should leave his name and phone number in the Athletic Department, Room 17, metal office building.

**Netmen Now 0-8**

by Jerry Vidy

Coach Dr. Carl Brunnnett stated that in all his years of coaching tennis he has never coached a team that has lost all its matches. But with only one scheduled match remaining the UMSL tennis team is 0-8.

On May 1, the tennis Rivermen lost their second match to Millikin 6-3. In a previous meeting the Rivermen had lost 9-0. The Rivermen also lost a rematch against St. Louis University on April 30.

The last scheduled match of the season was played Tuesday May 6, at home against Concordia. The results of this match were not available at the time of publication. The only further action on the tennis team is scheduled to see the team in the Blue Cup Title.

**Cheerleading Tryouts May 15**

Tryouts for next year's cheerleading squad will be held Thursday May 5 at 4:30 p.m., in Room 100 Clark Hall. Clinics for those interested in trying out will be held with the press. "I don't think we can play any harder," he said, "but we can get a little more luck."
"A computer has no mind of its own. Its "brainpower" comes from the people who create the programs," says Rod Campany.

Rod earned a B.S. in Math in 1966. Today, he's an IBM Systems Programmer working on a portion of Operating System/360, a hierarchy of programs that allow a computer to schedule and control most of its own operations.

A mixture of science and art

"Programming" means writing the instructions that enable a computer to do its job. Says Rod, "It's a mixture of science and art.

You're a scientist in the sense that you have to analyze problems in a completely logical way. But you don't necessarily hunt for an ultimate right answer. There can be as many solutions to a programming problem as there are programmers. That's where the art comes in. Any given program may work, but how well it works depends entirely on the ingenuity of the programmer."

Programmers hold a key position in the country's fastest growing major industry—information processing. Business Week reports that the computer market is expanding about 20 percent a year.

Programming at IBM

"It's a chance to use everything you've got."

You don't need a technical degree
If you can think logically and like to solve problems, you could become an IBM programmer no matter what your major. We'll start you off with up to twenty-six weeks of classroom and practical training.

Check with your placement office
If you're interested in programming at IBM, ask your placement office for more information.
