Issue 449

Fiscal woes plague student patrol

Kevin A. Curtin
co-news editor

A referendum calling for the elimination of all organizational representatives from the Student Assembly was put on the general ballot for the April 25 and 24 elections.

Larry Wines, president of the UMSL Student Association, said that the referendum is needed and was recommended by the assembly because the current representation is not fair.

"One person for every 500 students in Arts and Sciences just doesn't seem fair," Wines said. "With organizational representatives, one representative of 40 has the same privileges as the one guy who represents 500."

The referendum will ask the entire student body to vote on an amendment of the student constitution. The amendment itself will change the representation system.

Wines said that the number of organizational units in the assembly constantly fluctuates. "We started this semester with 45, but now we think some organizations didn't really think about it, and if you miss four meetings, it's an automatic expulsion. These are the two biggest reasons that the organizations' number changes."
**UM Archives celebrates 40th**

Daniel J. Johnson

The Western Historical Manuscript Collection is in its 40th year of existence. Celebrations on the four University of Missouri campuses have been taking place since early March. The collection began at the University of Missouri-Columbia in 1943 under a Rockefeller Foundation grant, said Anne S. Kenney, associate director of the UMSL collection. During the 1960s, the collection was combined with the State Historical Society of Missouri collection. The collection has a branch on all four UM campuses.

The St. Louis branch, which has existed since 1968 and is housed at the Thomas Jefferson Library, has existed since 1968 and is housed at the Thomas Jefferson Library. The theme of the celebration, Kenney said, was to invite those who donated to the collection and to get recognition for it. Guests included researchers, community supporters of the collection and people from the university.

Approximately 159 people attended a 40th anniversary celebration which was held at UMSL on March 10 in the Thomas Jefferson Library. The theme of the celebration, Kenney said, was to invite those who donated to the collection and to get recognition for it. Guests included researchers, community supporters of the collection and people from the university.

Remarks were given by UMSL Chancellors Arnold B. Grobman, Richard S. Bronette, director of the State Historical Society of Missouri, historian James Neal Primm, and Irene Cortinovis, former director of WHMC-St. Louis.

The other campuses will be holding celebrations throughout the rest of the year.

**Sneal to speak out for women**

Eleanor Sneal, former president of the National Organization for Women, will be the keynote speaker for the annual Concern the Next Generation Women’s Issues at UMSL. She will speak Friday, April 8 at 8 p.m. in the Campus Center. Her topic will be the same as the conference theme: “Closing the Gender Gap: Women as an Emerging Political Force.”

As chairwoman of the board and then as president of NOW from 1973 to 1982, Sneal restructured the organization to be an active political force. In 1977 NOW established its first political action committees. In 1982, a group affiliated with NOW contributed $50,000 to help fund the local, state and national candidates. Under Sneal’s leadership, the organization’s membership grew from 35,000 to 220,000 and the group raised $500,000 to $1 million. Sneal holds a master’s degree in political science and public policy administration from the University of Florida. She has explored the nation and the world on a Ph.D. Other issues addressed at the conference will be: "The ERA: Where Do We Go From Here?" Pat Ross, Missourin Coordinator, NOW, 10 a.m.

"Networking, A Strategy for Survival," led by a representative of the Women’s Register, 10 to 11 a.m.

"Getting Her Elected: The How-To of Candidacy," by Kay Gubler, political consultant; 11 a.m. to 12:30 p.m.

"Women’s Issues: How to Keep It Going When You Think You’re Alone," Barbara Bennett, moderator, along with a panel of North Williams to speak.

The English department is sponsoring a symposium featuring Delia Williams who will be speaking on "My Brother Tenessee Williams." The symposium will be held Wednesday, April 13 at 2 p.m. in 318 Lucas.

**Network news system begins**

Sue Reil
assistant news editor

UMSL now has two electronic news network Flash signs located in the Summit Lounge and the University Center: Student Lounge.

The Electronic News Network signs flash national and international news as well as sports and weather across the horizon screen. Advertisements for upcoming UMSL events are also included.

"With this being a commuter campus without a daily newspaper," said Bob Schmaifeld, director of University Center, "we figured this was one means of keeping people informed of news and about opportunities on campus.

The Electronic News Network is connected with the McDonough organization of Dallas. It supplies the network to colleges and universities, and generally larger institutions. Some of these include Penn-Ivanova State and Oklahoma universities and even University of Missouri-Columbia.

UMSL paid nothing to have the network installed on campus. "All we do is provide the location," Schmaifeld said. The company pays for the phone lines used in programming the sign.

"All we pay for is the electricity used in operating it.

The company gives UMSL a limited number of message space each day to advertise for the university. Someday the company hopes to get national advertisers to pay for promotional messages on the network.

The complete news system runs for eight minutes and shows a mixture of news, sports and weather in order to keep the readers interested.

News is updated immediately through the phone lines from the company. UMSL sends in a list of advertisements a week before programming by mail in order to get them on.

Schmaifeld explained that the company is making no profit as of yet but providing investment costs in the hope of someday getting national advertisers. There are several other companies in the country doing the same thing: "We put the sign in areas where people would take time to look at them," Schmaifeld said.

**Minority work to be slated**

A workshop on health care opportunities in optometry for minority high school and college students and their advisers will be held Saturday, April 9, from 9 a.m. to 5 p.m. at the UMSL School of Optometry.

The work will open with a discussion of admission requirements, the Optometry College Admissions Test, the basics of optometry curriculum, financial aid programs, and career opportunities.

Students will participate in activities designed to provide them with an indication of what it is like to attend optometry school. There will be laboratory demonstrations and rotations through clinical observations. Prominent black optometrists from Missouri and from all over the nation will attend the workshop to meet with the students and their advisers.

The workshop is funded by a grant from the U.S. Department of Health and Human Services, Division of Moxnower.

For additional information and workshop registration materials, contact Sharon L. Davis at 533-6243 or stop by the UMSL School of Optometry.

SUMMIT LOUNGE
Barb DePalma  
**co-voice editor**

A canoe race across Bugg Lake tentatively is scheduled to be held April 22 as part of the annual Greek games held on campus. However, this race has met with opposition from some fraternity and sorority members.

"Their main concern," is that the race might endanger the ecological system of the lake and harm the ducks. Several Greek organization members wrote and called the Humane Society of Missouri telling them about their concerns.

The race was brought up first in the Greek Week Steering Committee. From there the idea was taken back to the individual chapters of the fraternities and sororities where it was approved. The Greek Week Steering Committee consists of one elected or appointed member from each Greek organization on campus.

Approximately three weeks ago, Curt Watts, assistant director of Student Life and adviser to the Greek Week Steering Committee, received a letter from the Humane Society. Watts said he immediately called the person from the Humane Society who had written the letter and described the condition of the lake, how many ducks resided there and the canoe race.

Watts said the race would include one canoe on the lake and people standing on the sides."Watts said. "I don't think this will put any more stress on the ducks than 11,000 people going to and from classes everyday."

After telling this to the Humane Society, Watts was given their approval to hold the race. Watts said he was surprised when he received the letter from the Humane Society because it was the first time anyone had expressed any kind of concern. "I was upset that the students felt they had to go to an outside office before coming to me,"

"I hadn't heard anything before I received the letter," Watts said. "It seems that the Humane Society received some wrong information about the activity."

Hans Schreiner, professor of political science at UMSL, said he was trying to keep a neutral position on the issue. However, he said he thinks a lot of independent people have an opposition to the race.

"Many, they wonder why we are having a canoe race at all," Schreiner said. "I don't think they think it is a Greek event." Schreiner said. "It's more a bunch of little issues than one big thing."

Schreiner said the Greeks are concerned about safety factors; for example, what if someone cuts himself and an infection develops? What is at the bottom of the lake? and will a lifeguard be present?

"A lot is up to Curt," Schreiner said. "If we get enough pressure, maybe we can change it. We can show him that a lot of people don't want it, maybe we can get it changed."

Mike Dvorak, a member of Sigma Pi, said he thinks the race is not right. "Everyone in a fraternity or sorority is against it," Dvorak said. "It is bad for the ducks."

**CANOE STEER THIS BOAT?** A canoe race will be held on Bugg Lake April 22 despite protests from some Greek organization members. The race will be held as part of the annual Greek Week activities.

"I don't think you teach students," Boswell said. "You feel like you're human when you're around him, not just a number stuck away. He's not afraid to be a human being."

"He also is said to be a dynamic professor. "You just can't pay attention," Mary Gannon, UMSL Psychology Organization president, said. "He teaches class to the students individually, addressing them as he talks."

"He keeps you on the edge of your seat," Rich Podhost, former member of Sigma Pi, said. "He doesn't hold back."

Boswell's door is always open and he is always ready to talk with a student about a problem. Rich Podhost, said. "Students learn. You're more of a cheerleader. It's not a passive process; it's an active process where students learn."

One of the biggest points Boswell said he tries to get across to his students is to not be afraid to make a mistake. "Boswell's door is always open and he is always ready to talk with a student about a problem," Rich Podhost, said. "He teaches class to the students individually, addressing them as he talks."

"He keeps you on the edge of your seat," Rich Podhost, said. "He doesn't hold back."

"Boswell's door is always open and he is always ready to talk with a student about a problem," Rich Podhost, said. "He teaches class to the students individually, addressing them as he talks."

"He keeps you on the edge of your seat," Rich Podhost, said. "He doesn't hold back."

**Boswell reaps group's honor**

Right now, UMSL is cooperating with several international universities in exchange programs including Tamkang University in Taiwan, St. Louis University of Stuttgart, West Germany, and Lanzhou University in China.

According to Chancellor Arnold W. Stevens, St. Louis students are participating in these types of programs for years. The idea is to give our students a chance to broaden their horizons, said Stevens. "A canoe race is a good culture, to have a chance to study at different institutions, and to be immersed in a totally different environment. It's very broadening.

**Exchange program open with University of Lancaster**

Erik Schaffer  
**reporter**

An UMSL student exchange program with the University of Lancaster, England, has been approved, in principle, by the UMSL political science department, according to Professor Fred Pearson, coordinator of the program.

The program, which is the responsibility of the political science department, provides for up to three UMSL students to travel to Lancaster for one year of study. In turn, the University of Lancaster will send two students to UMSL. The program is scheduled for the fall of 1983.

The estimated cost for UMSL students, according to Pearson, "is $4,500 for one year. This figure includes the regular incidental fees charged by UMSL and money that the student will pay toward a housing fund set up for the English students and food costs during their year of study at UMSL, according to Pearson."

Presently, there are three UMSL students who are eligible for the exchange with Lancaster. They are Rita Reames, a political science major; Mary Shearin, a political science major; and Matt Beek, a history major. Students are chosen, according to the Center for International Studies on the basis of grade point average, recommendations by UMSL faculty members, approval of the proposed course of studies through the departmental advisory process, and familiarity with or willingness to learn the language.

Boswell's door is always open and he is always ready to talk with a student about a problem. Rich Podhost, said. "He teaches class to the students individually, addressing them as he talks."

"He keeps you on the edge of your seat," Rich Podhost, said. "He doesn't hold back."

Elections allow students to express views

In less than three weeks, students will be faced with the task of making some very important decisions. No, we're not talking about finalizing class schedules for the fall semester. Rather, these decisions concern the upcoming Student Association elections, scheduled for April 25 and 26.

Whether students are considering running for an elected position in the Student Assembly or endorsing someone else for an important position, the UMSS student body must be aware of the significance of these elections. After all, this is the only time UMSL students have a direct say in who will represent the student body in UMSL's student government next year.

Last year's 12 percent voter participation was one of the largest turnouts in years. This year, hopefully even more students will cast their ballots.

At the same time, let's hope more students run for election, especially candidates for the presidential and vice-presidential categories. Since two-year Student Association President Larry Wines and Vice President Karl Swift have said they will not run for re-election, it's obvious that a pair of new positions in Student Assembly next year. Who they are, and how qualified they are for the job, are important. Two students already involved in student government have been mentioned as possible candidates for next year's presidency. If they do apply for the job, we hope they are willing to speak out on such important issues as the escort program, budget procedures, government organization, special projects and fee increases. A free exchange of views is essential to any successful government, and students need to experience such an exchange before making a decision on who to elect as next year's top government representatives.

Students also might want to consider petitioning for a constitutional convention to address the concerns of government and students need to experience such an exchange before making a decision on who to elect as next year's top government representatives.

The elections, as they are now, allow students to decide the personnel of student government. A constitutional convention would allow students to make some decisions about the system. For those who disagree with parts of the system as they are now, this would give them an excellent opportunity to do something about it.

In short, student government is not just a handful of people. It's for everyone.

New area welcomed

Acting on a recommendation made by the University Center Advisory Board last year, the University Center has finally designated a no-smoking area in the Underground.

The designated area, which is on the left side of the Underground as one enters from the J.C. Penney Building, has been needed since the underground opened last year. It is an important addition to UMSL's main eating facility in that it satisfies the need of many UMSL students who wish to eat in a smoke-free environment.

Because research and study in recent years has determined that smoking, as well as breathing smoke from someone else's cigarette, is unhealthy, it is likely and the dangers involved.

The area selected as the no-smoking section of the Underground is well-situated. It is noticeably separated from those areas of the Underground where students and faculty are free to smoke.

It is hoped that those who eat in the Underground do not neglect the no-smoking credo. Students who want to smoke should sit somewhere else; it's only fair to respect the rights of others.

Bob Schmalzle, director of the University Center, said there is always the possibility of extending the no-smoking area. It depends, he said, on the need.

Regardless, the no-smoking section definitely is a step in the right direction. The Current applauds those involved in implementing the change.
Dear Editor:

For several weeks now, Mr. Gary Belsky, a staff writer for the Current, has written two articles that I found both rude and objectionable.

The first article that dealt with the Collegiate Anti-Communists, was just a waste of paper space, where something more important could be used in the place of his "Refractions" column, like an advertisement.

However, what really upset me was the ludicrous attempt Mr. Belsky made at satirizing Easter. Easter was the day our Lord Jesus Christ was resurrected from the dead, and Easter is the day we use to celebrate it. Mr. Belsky made a silly effort at making it humorous.

Perhaps the one part of his article that really infuriated me was when Mr. Belsky said, and I quote, "Moses was a little paranoid that someone would see him, talking to this bush and think he had smoked too much incense." Is that what Moses did, Mr. Belsky, or is this a comic book version of the Bible a la High Times magazine.

Maybe you don't believe in God, Mr. Belsky, but I do, and I found your whole article to be way out of line, and I think you owe us, your readers, an apology.

Name Withheld Upon Request

Upset with Belsky's statements in recent columns

Says Inman is confused

Dear Editor:

In his letter of March 31, Terry Inman said that "Italian Fascists, German Nazis and American Indians" were "communists." Inman should take a political science class -- he or she is terribly confused.

Name Withheld Upon Request

Groups to host education assembly

Seven student organizations in the UMSL School of Education will host an Educations Honors Awards Assembly on Tuesday, April 26, at 4 p.m. The details for the event are pending the final decisions of the Educations Honors Assembly Planning Committee.

Following the awards ceremony, James Wigrand of Indiana University will address the assembly and a reception will follow.

Awards will be given to outstanding seniors and more recognitions will be given to education students selected for "Who's Who in American Colleges." There also will be awards presented by the Office of Student Affairs. Students in education programs may submit the name of any teacher they wish to recognize for contributions made during the academic year.

Education students should submit names to Margaret Cohen in the Behavioral Studies department or to Audrey Wesley (383-5292) by April 15. A final schedule of events for the awards ceremony will be released later this month.
Conference on Japan offered for teachers

A special conference on Japan for teachers and administrators from kindergarten through college will be held Wednesday, April 26, from 8:30 a.m. to 4:45 p.m. in Room 222 of the J.C. Penney Building.

The purpose of the conference is to increase teachers' knowledge and understanding of Japan and introduce classroom teaching strategies and resources. Participants will learn about economic and cultural development in Japan, the Japanese educational system, and Japanese foods and culture. Conference speakers include Dr. Tetsuo Najita of the University of Chicago, consul general of Japan Shiro Saiga, and visiting Japanese authorities from business, media and academia.

The conference is sponsored by the Embassy of Japan, the Center for International Studies at UMSL, the Parkway School District, the Missouri State Department of Education, the Department of Chinese and Japanese at Washington University, the St. Louis chapter of the Japan-American Society and the Missouri Council for the Social Studies.

There is a registration fee of $10, which includes the cost of lunch. For registration information, call Susan Beardon at 553-5961.

Wines, Swift will not run again

Kevin A. Curtin

Student Association President Larry Wines and Vice President Earl Swift have announced that they have no intention of seeking re-election in the upcoming April 25 and 26 student general elections.

"I plan to graduate in August and try to get a medical school," Wines explained. "That is my reason for not running again. Swift said that he plans to graduate in May. He has no immediate plans and is seeking a full-time job.

To replace Wines and Swift, The Fighting Spirit as a political party has chosen Barbara Willis, chairwoman of the Student Assembly, and David Poole, who recently was elected to the University Senate as a student representative.

Roland Lettser, parliamentarian of the Student Assembly, also has announced that he will be seeking the office of president.

Although these three have declared their candidacies, none will become official until applications are issued by the election commission of the Student Assembly. The commission is made up of N. Alan Wilson, Swift, and Dean Schmitt.

Swift said that applications soon will be available from the Student Association office, located in Room 341 University Center. A tentative deadline of 5 p.m. April 21 has been set by the election commission. The general election will be conducted campuswide April 25 and 26.

All the students involved have enjoyed the program very much. One woman is now very interested in a career in law enforcement because of her experience with us. And again, the program is one way that the students can get back some of the money that they pay in.

Wellness Week upcoming at UMSL

The UMSL School of Nursing is sponsoring two events as part of the Wellness program on campus.

Wellness Week will be held April 11 through 15 on campus. This week will include lectures on seatbelt safety, stress reduction and other projects relating to health issues. A Health Fair will be held at the end of the week on April 15 from 9 a.m. to 4 p.m. in the Mark Twain Building. The fair will include educational booths and programs relating to health.
Race

from page 3

lakes. Everyone is trying to keep the lake the way it is and now we are having this race.”

Watts said he has tried to con-
tact Charles Granger, chairman of the UMSL biology department, to see if any harm would be done to the lake or the ducks. He said Granger has not yet returned his call. Granger could not be reached for comment.

“Since this is the first time we will be holding a canoe race, if there are any objections from the biology department, we will probably hold the event,” Watts said.

CAD receives grant for special services

- The UMSL Center for Academic Development has received a grant of $75,682 from the U.S. Department of Education for a special services program. The grant, for the 1983-84 academic year, will allow UMSL to continue its Summer Challenge program and to provide services to eligible students who already are enrolled. This is the third grant the program has received from that agency.

The Summer Challenge program is an eight-week program designed to provide academic assistance and advisement to students who have high potential, but who are economically disadvantaged. The program will run from June 6 through July 29. Students currently should be enrolled in a college preparatory curriculum and must be recommended by a high school counselor. The purposes of the program are to introduce students to the college system, and prepare them for a successful start to their college careers.

For more information, contact Janice Vails, coordinator of the Summer Challenge program, at 553-5197.

Preregistration now being held

Preregistration for intersession courses is being held through April 22. Regular registration will be held on May 16. Intersession runs from May 17 through June 3.

Summer session preregistration also is being held through April 24. The summer session begins on June 6 and runs through July 29.

UNIVERSITY PROGRAM BOARD
presents

The Magic of Mime

Trent Arterberry

MONDAY, APRIL 11, 1983
8:15 P.M.
UMSL’S J.C. PENNY AUDITORIUM

$2 UMSL Students  $3 Faculty/Staff
$4 General Public
Advance tickets available at the University Center Information Desk, call 553-5148/553-5536.

... that UMSL is offering the Law School Admissions Test preparation course beginning May 21. The examination will be given June 29. Classes will meet on Saturdays from 10 a.m. to noon in the J.C. Penney Building. The fee is $79. For registration information call Joe Williams at 553-5961.

... that a Computer Auditing and Controls course will be offered by UMSL Thursday, April 13 from 6:30 p.m. to 9:30 p.m. in the J.C. Penney Building. The fee is $250.

... that the Riverman was chosen as the official UMSL mascot on November 18, 1946.

Riverman was chosen over several other names including the Knights, Gemmites and Minutemen.

All names and suggestions were sent to the student Senate for final approval.

... that UMSL has an Optometry Clinic located on the South (Marillac) campus which offers comprehensive eye examinations and prescriptions for eyeglasses and a full scope of contact lens services. The clinic, located on the first floor of the Education Office Building, is open Mondays from 8 a.m. to noon and again from 1:30 p.m., Wednesdays from 1 to 9 p.m., and Thursdays from 8 a.m. to noon. Fees are structured on the actual services rendered and the cost of materials such as lenses and frames.

... that UMSL has a lost and found department on campus in case students lose any valuables. Lost and Found is located at the University Center Information Desk, 553-5148.

... that a three-session workshop on “Overcoming Shyness” will be held at the UMSL Counseling Service on Monday afternoons from 1 to 3 p.m. beginning April 11. Sessions will explore what shyness is and why we may be shy, approaches for overcoming shyness, and improving relationships. For more information or to register, call the Counseling Service at 553-5711.

... that the modern foreign languages department is offering a course on introduction to French-English translation techniques during the intersession. The course will be held daily from 9 to 11:30 a.m. in 1100 Clark Hall from June 3. Students must have a prerequisite of French 101 or equivalent. Three credits can be earned. For more information contact the department, 556 Clark Hall, 553-6240.

... that UMSL has its own art gallery called Gallery 210, located in 210 Lucas Hall. The gallery features exhibits of different arts and artists. The gallery hours are 9 a.m. to 9 p.m. Monday through Thursday and 9 a.m. to 5 p.m. Friday. For more information on upcoming and current exhibits call 553-5976.

... that Governor Christopher S. Bond authorized the purchase of the South (Marillac) campus by the University of Missouri in May 1976.

... that Gallery 210 opened in Lucas Hall in September 1972.
Introducing the Models of excellence

Sharon Kubatzky features/arts editor

Tom Selleck and Cheryl Tiegs they're not, but although they are both headed in different directions, Glennon Robinson and Diana Hamblin both take their modeling very seriously.

At UMSL, students are in different stages of their modeling careers; in essence, Robinson's is just beginning, while Hamblin's is nearing its end.

Robinson's career in modeling is primarily associated with a contest held for the "Crackerjack Calendar," a St. Louis product full of photos of St. Louis men. Subjects for the calendar were chosen by five female judges.

Robinson said his mother, Gerry, entered him in the contest without his even knowing that she had done so. "She wrote a letter and sent it in my picture," he said. "When they called me to be interviewed, I didn't even know what the hell it was. It thought it was a job interview." From the 1,900 to 1,500 men entered in the competition, Robinson and 49 others were chosen to be interviewed by the panel of judges. Twenty finalists then were photographed, and from the photographs, 13 "calendar boys" were selected. Although Robinson was one of the 20 photographed, he did not make the calendar.

"They were looking for men who were 'hunks,' more or less," he grinned. "They were all much more built than I was, I know that."

Robinson, who is not yet 22, added that the average age of the men selected was 25. "That may have had something to do with it," he said.

Robinson said that at the time he was entered in the contest, he already had begun visiting agencies. He said that his father, Roger, had encouraged him. "He said, "You've got a look," he recalled. "I was a perfect catalogue size. I just jumped into it."

A public administration major, Robinson is a full-time student and is president of Sigma Tau Gamma. He said that although modeling could be a career for him, he plans to apply to law school, and work on his modeling career simultaneously.

The scope of Hamblin's experience is much wider. She is a veteran to the world of modeling, beginning as a member of the teen fashion board at a Springfield, Mo., department store. She has been modeling for over 12 years, in the United States and in Europe.

Not only does Hamblin model, she also attends UMSL, full time. She is a work-study student, and works at a modeling school and as a makeup artist. She prefers modeling to makeup, however.

Modeling is more challenging," she said. "You can see the results on you instead of someone else. If I can make someone up and change her looks, that's good, but I look forward to seeing myself."

Hamblin won't reveal to anyone — her age. "A photographer wants to know, 'Can you look different?' Can you put your hair up and look 30, and put it down and look 17? I never tell my age. I give them a range — 18 to 20." Hamblin is a perfectionist when it comes to evaluating her work.

"I started looking for errors," she explained. "There's almost always something — the expression, or a few strands of hair out of place, or the jewelry is wrong." Photographers can also be critical, Hamblin said.

"They're very critical," she said emphatically. "I might see five photographers in a day, and each one will say something different. They might say my eyebrows need to be lightened, or to cut my hair, or to gain weight or lose weight — you do listen to them."

A model can't look too sexy when modeling clothing, Hamblin said. It might distract the consumer.

"They don't want someone whose face and looks are so demanding that they take away from the clothes," she said. "You don't have to be that attractive. It's the makeup, and the hair." Both Robinson and Hamblin said they are very aware of how people around them dress, and what the trends are. Some of those styles are then adapted to their own wardrobes.

"I see what other men are wearing, and what would look good on me," Robinson said. "You want to present yourself in the best possible fashion."

But Robinson added that he doesn't feel much pressure to dress up at school and around his friends said that it makes no difference whether he's wearing a suit or a pair of jeans. Hamblin said it's different for female models.

"Males don't have it near as bad as females," she said. "I would be embarrassed, to come to school without my hair and makeup fixed. It's hard to live up to sometimes."

There is another problem primarily exclusive to the female models, Hamblin said. "A client and a photographer, working together, would not hire me because I would not sleep with them," she said. "It's frustrating for me. I am so tired of it."

The number of clients or photographers who make such proposals! "Too many," said Hamblin firmly. And the number of jobs lost because of it? "Countless."

Although Hamblin won't give her age, she will admit that her work in photographic modeling probably is drawing to a close. She said a model will usually work for about 15 years. She will not continue her modeling career completely, however; she'll continue to do "ramp" modeling — fashion and hair shows.

"Ramp has become more of a challenge because you can get a response from the audience," she said. "You can get them to clap."

Hamblin will graduate in August with a degree in political science. She said she'll begin to plan her life apart from modeling.

"At some point, you have to start looking for something you can do for the rest of your life," she said. "Right now, I'm getting jobs from three agencies. Today, yes, Tomorrow, who knows?"

Robinson would like to concentrate primarily on fashion modeling, and someday, he'd like to "see himself on the cover of GQ magazine."

"That's a pretty tall order," he said. "You've got to have perseverance. You just have to be confident and hope to hell that you're what they're looking for."
Mime to perform Monday, April 11, in the J.C. Penney Auditorium. He will present a half-hour, free performance at noon April 11 in the University Center's Summit lounge.

Arterberry has performed with such diverse groups as Billy Preston, the Knicks and Southside Johnny, and is featured on the album covers for Capital's Pousse-Caillou Band.

Arterberry has been described as "a young, gifted, off-beat local who obviously sees himself as an entertainer, who is not afraid to break the rules, who realizes that by taking some of the mystery out of music, it becomes a more meaningful experience."

He has played at the nation's top concert clubs, including the Troubadour in Los Angeles, the Cellar Door in Washington and the Bottom Line in New York. The recent engagement at Boston's Music Theatre broke all house records.

The evening performance are $5 for UMSL students, $5 for UMSL faculty and staff, and $4 for the public. For ticket information, call 533-5148.

Violin recital scheduled

The summer 1982 winner of the Paganini Violin Concerto Competition at the Aspen Music Festival and featured in the annual.. Aspen at UMSL "page to stage warmup acts for major rock artists will perform in April.

For Sale:
- KORG LP-10 ELECTRIC Piano/Collaboration in check and EQ: Perfect condition. $455. 00, 947-0386.
- For Sale: Unives 12-string electric guitar with tremolo can you believe it! $500. 00, 947-0386.
- 1974 Capri, Runs good. 64.000 miles. Call after 6:30, 638-3290. $1. 450.
- Stereos 2 Audio In-dash AM FM Stereo Cassette Players. Model Cardiac also will tow. Under warranty: $55. 00 each while they last 411-1141 Monday after 4 p.m.
- Author's Beechcraft Gifts. Any item you need golf shafts, skis, stuffed animal Cuddlebears, plus everything in between. Wear the brand you desire the most. Available at 25% off regular. Virginia, 11111 and Birch. Call Jim 965-2559.

Miscellaneous
- Health Fair 93. April 15, 1983. Mark Twain Building 4-4. Free blood pressure screening, anemia test, height, weight, vision screening, referral health information and much much more. Complete blood chemistry for only 85. Sponsored on campus by School of Nursing Wellness Committee, Division of Student Affairs and the Student Health Service. Call Debbie 393-8207 or Phyllis 563-5611 for information.
- Have you a Space Invaders video game each score of 2000 printed for the Space Invaders game presently located in the UMSL Fun Police. All UMSL. Students, Faculty and Staff are invited to attend the Fun Police April 20. For details 553-5346.
- If you are a strong, athletic and like to PICK-UP girls, come support the UMSL cheerleaders by trying out for a Maze yes leader position if interested please come to an information session Thursday April 14 at 2:30.
- Delta Sigma Pi—Robert Hyland CIBS V.P. Friday Jolson 126. 4-8.
- What's a Park Course? Come to the Mark Twain Building at noon between 2-3-15 and see if you can improve from one to six goals and know how to score and register and finish. Register room 203 March 20.
- See you all at the Park Course Mark Twain Building, Gym. Wednesday, April 13 at 5 p.m. Sponsored by P.E.K. Free "Survivor" T-shirt to first 15 registrants.
- Mind Awareness Classes. Planned and guided classes. Special guest lecturers on reincarnation, regression and acupuncture. Many topics covered.. Classes begin April 10 through May 29. Eight week session. $24 donation. Sunday evening, 6 p.m. Interested parties call Richard or Mary Weston 428-8102. Class size limited.

- "I'm totally out of ideas, I can't think of anything."
- "But don't you feel that "I have things to do with Pearl Jam" is a little juvenile?"

ABORTION SERVICES: Confidential counseling, pregnancy test, pelvic exams, REPRODUCTIVE HEALTH SERVICES — the oldest, most experience and respected name in problem pregnancy counseling and outpatient abortion services in the Midwest. Call 963-5000 or 1-800-392-3988 toll free in Mo./1-800-325-3200 toll free in Ill. in the Doctors Building, 100 N. Euclid at West Pine, St. Louis, MO. 63110.

The Old Spaghetti Factory is looking for personable, neat and energetic males to fill positions as barkeepers, cocktail waitresses, food waiters and waitresses, and kitchen personnel. Experience not required. Applicants need apply Monday through Friday, 12:00 to 3:00 pm. 621-0276.

The Brothers of Sigma Tau Gamma would like to congratulate Gina Gemei for taking first place in the women's division of the annual benefit egg sitting contest on Friday, April 1, 1983. Gina, you did a fantastic job.

Classified Ads are free of charge to UMSL, students and faculty and staff members. Please place your ad on the Classified Ads form available at the current offices, 1 Blue Metal Office Building, or the University Center Information Desk. Include your name, ID number, phone number, and the classification under which your ad should run. "Due to space limitations, only one ad per subject may be run. Meeting and coming event needs should be sent to the UMBEL editor."

The deadline for submitting ads is Friday, 3 p.m.
Striving for educations despite obstacles

Sharon Copeland

In 1972 Gene McBroom's life changed forever. In an accident his neck was broken and his spinal cord was severed. He became a quadriplegic, unable to move or feel from his chest down. Yet today, McBroom at age 24 is a second-semester junior majoring in rehabilitation clinical psychology. He came to UMSL in December 1981 after getting his associate degree from St. Louis Community College at Florissant Valley, where he majored in psychology. After graduating in May 1984 he plans to continue studying in graduate school until he gets his Ph.D. McBroom also is president of the Disabled Student Union, an organization which tries to make it easier for all people to move around at UMSL. "We need more awareness of the mobility problems on campus," he said. "I think it's easy to get around on this campus in a wheelchair, but if I want to go into the Summit or the Underground, I have to go into the J.C. Penney building and use the elevator. I can't get into the Fun Palace at all. The doors going into the elevator in front of the SSB Tower are extremely heavy. Anyone carrying a load of books or on crutches would have a hard time opening them."

"What would solve the problem are power-assist doors which have a plate on the front. You hit the plate and the doors open. They cost about $3,200, but we'd only need one for each building. And they would make it easier for everybody to get in and out, not just the disabled. Our union is working with the Physical Plant to see what can be done. In a few weeks I'll go around the campus checking for cracks in the asphalt that could cause someone to fall or give someone in a wheelchair a hard time."

Does he find that people are uncomfortable around the disabled, especially people in wheelchairs? "Yes, the majority of people are uncomfortable around people in wheelchairs," he said. "They associate wheelchairs with diseases like muscular dystrophy or multiple sclerosis and think they might catch it from us. If I ask someone to open a door for me, I can see in their face how glad they are that they could help. After they get to know us, the other students see that we are here to learn just like they are."

McBroom gets around in an electric wheelchair which he operates by pressing a button using the muscle in his elbow. In each class someone takes notes for him using special NCR paper which makes a carbon without using carbon. "I ask the professors what is best for them concerning tests," McBroom said. "I can either take a test orally, have someone write down the answers as I give them, or I can tape the answers so the professor can listen to it whenever it's convenient. My professors have been pretty flexible and willing to try things that aren't usual for them."

"Some students who are disabled don't want to admit it. "Some people won't admit that either out of pride or ignorance -- they won't come to grips with their disability," McBroom said. "But this reality is: I'm not going to let being in a chair affect me."

"Another student who hasn't let her disability stop her is Jeane Wisa, a junior majoring in mathematics. Wisa is blind. Since her textbooks have to be made into Braille, she has to know far in advance which textbooks she'll need. She has other pieces of equipment which are made especially for the blind. "I have a versabraille," she said. "It's a tape recorder; or I write Braille into it and it makes a Braille tape. Then I can read back to myself important points the professor makes. It's like a computer."

"But how does she take a test, and in math no less? "I have someone read the test to me," Wisa said. "I record the questions in Braille and record the answers in Braille. They type the answers on a regular typewriter so the professor can read them. It's a lot of work."

Wisa, who rides to UMSL with friends, is taking 14 hours this semester, but plans to go part-time in the fall as her classes get harder. She figures it will take her two more years to get her degree. As a member of the Disabled Student Union, Wisa thinks that UMSL is accessible for the most part. "But it's not as accessible as it could be," she said. "Not very many disabled students are in the union. I don't know why. I guess they are busy with their schoolwork."

OVERCOMING OBSTACLES: Students Gene McBroom (left) and Jeane Wisa (above) succeed at UMSL despite their disabilities. Wisa is a mathematics major and a member of the Disabled Student Union; McBroom, a psychology major, is president of the group.

Services available for students with disabilities

Marilyn Seed, coordinator for disabled, minority and international students, said that 70 students at UMSL have identified themselves to her office as disabled. "But," she said, "many people don't identify themselves as being disabled. They are people with invisible disabling conditions -- people who have diabetes, cystic fibrosis, heart problems or some other illness. They should register with us to get official recognition of their disability. Then we can contact their instructors for them if they have to miss class."

"If a student has to be out for several days, we will get two students in each of their classes to take notes for them.

"We have a special paper which makes two copies of what the student writes down. This makes it easy for the person taking the notes -- they don't have to bother with getting copies made. We use two students because that way you get what two different people thought was important during the lecture."

"What if a person is temporarily disabled with a broken leg or knows he has to go into the hospital for a week?"

"We'll help anyone who is disabled," Seed said. "We work with each person on an individual basis. We've had a lot of broken legs this year."

If a student needs to use the special paper, Seed said that the student should come to her in advance so that she can ask the professor's permission before using it. If a student has the permission to use the special paper, Seed said that the student should have the permission signed by the professor. If a student is temporarily disabled, Seed said that the student should come to her in advance so that she can ask the professor's permission before using the special paper. If a student is permanently disabled, Seed said that the student should come to her in advance so that she can ask the professor's permission before using the special paper. If a student is temporarily disabled, Seed said that the student should come to her in advance so that she can ask the professor's permission before using the special paper. If a student is permanently disabled, Seed said that the student should come to her in advance so that she can ask the professor's permission before using the special paper. Will Mr. Microphone help you find Miss Right?

Saturday nights don’t have to be dull. Singles bars may not be your scene. You may be terminally shy. But take heart. There is help for even the drabbiest and shabbiest social life.

Dating is not merely the concern of the lovelorn. About one in five Missouri: five marriages in 1981 — totaling 14,427 marriages. Many St. Louisans in their 20s are using advertising to find last-minute dates. St. Louis’ oldest computer dating service, for 19 years. Companies cater to first meetings. It is the age for second dates. Other people advertise to find lasting relationships.

Computer dating has matched St. Louis’ singles for 19 years. Comdates, St. Louis’ oldest computer dating service, has 14,000 age market. It offers two meetings each month for an annual fee. Applicants are usually out of school; explained Jerry Puttinis, manager of Comdates. “You usually find a lot of contacts when you’re in school, but when you get out and into a job you don’t meet quite the diversity of people,” Puttinis said.

But UMISL, is not a typical school. While UMISL offers a diversity of computer technology, it also offers a largely deserted campus after 2 p.m. Between tests and time clocks, regular social lives among dedicated students seem more the exception than the rule.

“We don’t get many customers,” said Lorraine Ward, president of Computability. Business is still steady, however. “We have a lot of students who are quite busy, and some who are not as busy. They’re finding us to be a good resource,” she said. Although they do not have to come to the office once a week, the students are still required to meet with staff members once a month. The staff members help the students with their resumes, cover letters, and other job-related tasks.

Computability serves people 21 to 79 years old, though the majority of its members are between 23 and 35, Ward said. It charges $275 for one year of service, and offers a variety of membership options. Members are divided into three groups: full-time students, part-time students, and others. The full-time students can attend up to 12 sessions per month, while part-time students can attend up to 6 sessions per month.

Lunch Encounters caters to people seeking a company for lunch. “Going to lunch creates a low-key, low-pressure atmosphere,” said Sarah Szurman, who founded the company last October. “It’s safe for a broad daylight. And it’s inexpensive. Others advertise to find someone using print media, radio and direct approaches. Some consider selling oneself demeaning. “Nothing is worse than you,” if it’s done with dignity,” stated Mara Lynn Shaw, who teaches a class called “How to Meet Men.”

Many local newspapers and magazines accept personal ads for modest fees. Trading Times and The Riverfront Times will use only first names and codes to maintain confidentiality. The Current will print free personal classifieds up to 40 words from UMISL students and faculty.

Dr. Weber, a deeply concerned person, explained Dr. Weber, who founded the company last October. “It’s safe for a broad daylight. And it’s inexpensive. Others advertise to find someone using print media, radio and direct approaches. Some consider selling oneself demeaning. “Nothing is worse than you,” if it’s done with dignity,” stated Mara Lynn Shaw, who teaches a class called “How to Meet Men.”

Star Trek’s Scotty to speak at UMSL

James Doohan, known as “Star Trek” fans as Lt. Cmdr. Montgomery Scott, will present a free program, “Star Trekking with Scotty,” at 12:30 p.m. Tuesday, April 19, in the J.C. Penney Auditorium at UMSL.

The chief engineer of the U.S. Enterprise will answer questions, and show a “Star Trek” episode and a reel of “bloopers.”

The native Canadian has been a professional actor — on television, film, stage and radio — for nearly 40 years. In addition to the television series, “Star Trek,” he starred in “Star Trek - the Motion Picture” and “Star Trek II - The Wrath of Khan.”

“Star Trek II” will be shown at 7:30 and 10 p.m. April 29 and 30 at UMSL in 101 Stadler. Tickets are $1 for UMSL students and $1.50 for the public.

For more information on the program or the movie, call 583-5148.

Mitchell to perform with string quartet

The Landolfi String Quartet will present a recital at UMSL on Friday, April 15. The performance will begin at 8 p.m. in the Education Auditorium on the South (Marillac) campus.

Evelyn Mitchell, associate violin; and Jacqueline Hoffman, cello; will present a recital at UMSL. Members of the quartet are: Edmund Bear, violin; Michael Sullivan, viola; and Jacqueline Hoffman, cello.

The performance is free. For more information, call 583-5800.

Evening council to hold annual dance and dinner

The Evening College Council will hold its 15th annual dinner dance and student awards presentation on Saturday, April 16, 7:30 p.m. at Schnettelhorst’s Hof­-garten Inn, Lindbergh and Clayton roads.

Tickets for the event, which is open to the public, are $7 and will be available in advance only in the Evening College office. A cash bar will be available and the band Hickory Wind will perform.

The University Singers recently returned from an eight-day tour that included concerts in Illinois, Minnesota, North Dakota and Iowa.

The choir performed for the public.

The tour is an annual event, Vantine said, and will be repeated next year.

SINGING ALONG: University Singers (left to right, in the mirror) Beverly Stewart, David Foote, Kenton Fritzius and Terri Bolm prepare for a concert in Bismarck, N.D., during their recent tour.

U. Singers return from tour

The University Singers participated in the tour, which was financed through individuals and corporate contributions and sales of the singers’ record. “University Singers Volume I” is available from the music department for a cost of $6.

The tour is an annual event, Vantine said, and will be repeated next year.

MONDAY-THURSDAY
5 p.m.-9 p.m.
SUMMIT LOUNGE
**Thursday**

- Shlomo Vinner speaks on "On Concept Formation in Elementary School Geometry," an education seminar, at 12:30 p.m. in the Northwest Conference Room of the Education Office Building on the South (Marillac) campus.

- Jayne Stake of the UMSL psychology department speaks on "The Development of Women's Career Confidence and Motivation on the UMSL Campus" at 12:30 p.m. at 319 Lucas Hall as part of the Women's Studies Program.

- Wood reliefs by New York artist Keith Long continue on view in Gallery 216, 210 Lucas Hall, through April 29. The gallery is open from 9 a.m. to 9 p.m. Monday through Thursday and 9 a.m. to 6 p.m. Friday.

- Matthew Greenstone of the Biological Control of Insects Laboratory, U.S. Department of Agriculture, speaks on "Monoclonal Antibodies in Insect Ecological Research." This biology seminar is at 4 p.m. at 316 Stadler Hall. Coffee is served at 3:30 p.m. at 325 Stadler Hall.

- Wilson Bryan Key lectures on "Biological Seduction" at 12:30 p.m. in the J.C. Penney Auditorium. Key's program explores how advertisers sometimes use subliminal sensory messages.

- UMSL Psychology Organization meets at 3 p.m. at 316 Stadler Hall to nominate officers and any Pat Resick speak on "Rape Trauma." 

- The Women's Center, 107A Benton Hall, presents a free workshop on possible disabilities, conducted by registered nurses Beth Menne, Brenda Laws and Chris Rechtenwald from 7 to 9 p.m. at the center.

- "Books Banned in Various Places in the United States" is on display through April 15 on the main floor of the Thomas Jefferson Library.

- Brian Vandenburg of the UMSL psychology department speaks on "This Depression — An American Metaphor" as part of the Monday Colloquium in Social Science Research at 11:55 a.m. in the McDonnell Conference Room, 331 SSB. Refreshments are to be served.

- Contemporary mine artist Trent Arborettum performs "Silent Moves" at 8:15 p.m. in the J.C. Penney Auditorium. Tickets are $2 for UMSL students, $3 for faculty and staff and $4 for the general public; they are available at the University Center Information Desk.

- A wheelchair basketball game between the St. Louis Flyers and the UMSL Riverrhein begins Disabled Awareness Week at 6 p.m. in the Mark Twain Building gymnasium.

- The softball team meets Saint Louis University at home at 2:30 p.m.

**Friday**

- Eleanor Smeal, past president of the National Organization for Women, is the keynote speaker at the annual UMSL Conference on Women's Issues. She speaks on "Closing the Gender Gap: Women as an Emerging Political Force," at 8 p.m. in the J.C. Penney Auditorium. The conference follows on April 16.

- Robert Hyland, regional vice president of CBS, presents "A Question and Answer Session With One of St. Louis's Leading Business Persons" at noon at J.C. Penney in a program sponsored by Delta Sigma Pi.

- Theatre Project Company presents Studs Terkel's "Working" at 8 p.m. in the Ridgway Center of the Missouri Botanical Garden. Call 531-1031 for ticket information.

- The Math Club sponsors a hike on the Green Rock Trail which begins near the Six Flags-St. Louis exit on Interstate Highway 44 and ends in Rockwoods Reservation near Ellisville. The trail is approximately 10 miles long. See the Math Club bulletin board on the fifth floor of Clark Hall for details. The club says that nonmembers are welcome.

**Saturday**

- Theatre Project Company presents "Working" at 8 p.m. in the Ridgway Center of the Missouri Botanical Garden. Call 531-1031 for ticket information.

**Sunday**

- Theatre Project Company's production of "Working" closes tonight at 8 p.m. in the Ridgway Center of the Missouri Botanical Garden. Call 531-1031 for ticket information.

**Monday**

- UMSL Faculty Women hold a book sale to benefit the Thomas Jefferson Library from 9 a.m. to 6 p.m. in the Blue Metal Office Building.

- The women's tennis team meets the University of Missouri-Rolla at home at 3 p.m.

- The softball team meets McKendree College at noon on Saturday.

- The women's tennis team travels to Saint Louis University for a meet at 3 p.m.

- The football team plays against Illinois College at 12:30 p.m. at the University Center student lounge or patio, depending on the weather.

- UMSL Faculty Women hold a book sale to benefit the Thomas Jefferson Library from 9 a.m. to 6 p.m. in the Blue Metal Office Building.

Rivermen finally get to play ball

Rivermen return to action by losing to SEMO

Dan Kimack
assistant sports editor

Following what had turned out to be a 3-week rain delay, the baseball Rivermen returned to game competition Monday, and as the pitcher Jim Dix lamented, "took it on the chin."

Thus when the UMSL hardballers fired up their paddle wheels and floated down stream to Southeast Missouri State University car wash day on Tuesday, they left a tropical squaunire behind the Mark Twain building — probably the UMSL baseball diamond.

But, as things turned out, their efforts were all for naught. Dix squared to lose both games of the twin bill to the Indians (11-2) by scores of 1 and 3-1.

Now, when a team takes a long layoff — three weeks, people doesn't expect such a group of athletes to play up to their full potential. This was the year of baseball was no exception, but it was close.

In the first of the two games, UMSL rode the back spin of the given — to win, perhaps.

After all, the Rivermen were boasting 3-1 lead going into the bottom half of the seventh inning. UMSL starter William Shanks had pitched six innings with impeccable skill, but that lurking seventh frame proved to be fatal.

With one out and an apparent victory in hand, third baseman Al Mares was unable to handle a slow rolling ground ball. Man on first.

Shanks then walked the next two batters, and in succession, Bases loaded.

Purdue University-Indianapolis, the second seated team in the tournament UMSL played hard, but lost, 4-2.

In their third game of the round-robin tourney, the Riverwomen played Lewis College of Chicago. It was all UMSL as they won it, 4-1.

UMSL's last game proved to be its toughest. They faced the host team, Indiana State-Evansville. After six innings, the score was tied, 2-2. Then, in the seventh, ISU-E pushed a run across the plate to win, 4-2. Despite the loss, the Riverwomen still achieved fourth place.

Against hot tern Illinois University-Edwardsville at Edwardsville, the Cougars finished second in the nation in Division 2 last season. And they let UMSL know that in no uncertain terms with a 6-2 loss over last season.

UMSL's women's basketball team fired up their paddles as their prey.

The curtain closed and UMSL walked away with the 13-3 defeat.

"We beat ourselves," Dix said. "In the two games they (SEMO) scored five of their seven runs from walks."

Not a pretty way to lose ball games, especially when these games are capable of deciding the conference championship.

Rain delays which had forced the Riverwomen into the refuge of the gymnasium were now claiming the hardballers as their prey. And things didn't change much during the nightcap.

Mark Demien went the distance and pitched well, according to Dix, but still came out on the short end of things. Demien struck out three while walking two. Unfortunately, the misses of Southeast turned all three free passes into runs scored. Despite allowing only three runs, Demien was credited with the 3-1 loss as UMSL bats were extremely quiet.

"If you take out (Dave) Lawson, it was the worst exhibition of hitting I've ever seen," Dix said. "He carried us and kept us in the game all day long."

On the day, Lawson was three for five with two home runs and a double. He also drove in four runs and drew a base on balls. Senior co-captain Ken Reed scored on two of Lawson's RBI after drawing two walks.

"We had two good pitching performances," Dix said. "We played good 'D' except for the error in the last inning [of the first game]. We turned a lot of doubles."

Even so, UMSL fell in defeat due to the lack of a potent offense.

As for the rain delays? "It's hard to stay in shape," Dix explained. "Their (SEMO) played 16 games while we sat."

Riverwomen kept busy

Kyle Muldrow
reporter

Thanks to the weather we've been getting a doozy. A lot of door sports have either stopped or been set back. But not the UMSL women's softball team. Despite constant rain all week, the Riverwomen managed to play in a tournament and then split four other games.

Last weekend, the Riverwomen took to the road to play in the Indiana State University-Evansville Tournament. "We played well in the tournament," said coach Mike Larson. "We were 2-2. We took advantage of the other teams' mistakes."

In their first game, the Riverwomen played the University of Evansville. The aces dominated the first five innings of the game, stouting out to a 4-0 lead. But UMSL came back and won a thriller, 5-4.

Their second game, however, against stout tern Illinois University-Edwardsville at Edwardsville. The Cougars finished second in the nation in Division 2 last season. And they let UMSL know that in no uncertain terms with a 6-2 loss over last season.

UMSL's record now stands at 6-4. A definite improve- ment over last season at this time. Larson, however, is still playing conservative. "We're not worried about records right now. We're just going to take each game at a time."

"We've got to play a complete game to beat some of the teams on our schedule. We don't have a real easy schedule."

"We've got to play a complete game to beat some of the teams on our schedule. We don't have a real easy schedule."

UMSL notes: The Riverwomen will play two home double-headers against Elmhurst College this weekend. UMSL totally dominated both games and came away with two more victories, 1-0 and 3-1.

Two days later, the Riverwomen will play in the Southeast Missouri State University Tournament. Moore led the team in scoring and rebounding averages. Honorable mention went to Karen Lauth and Deb Skerik. Lauth led the team in field-goal percentage and was third in scoring. Skerik was the playmaking guard who was at the top in assists. Skerik finished fourth on the team in scoring, averaging 5.1 points. Moore also averaged almost 7 points a game.
Tennis team downs Grinnell, shut out by Northeast Missouri

David Moody

Last Thursday the Rivermen tennis team hosted two matches behind the Mark Twain Gymnasium. Because the weather in St. Louis springtime, it was overcast, windy and cold, that didn't seem to bother the Rivermen when Grinnell College traveled from Iowa to the morning match at 9:30 a.m. UMSL, shut down Grinnell, 9-0.

Coach Randy Meckfessel said this was the only action the Rivermen could win the match but the real test for Barkhart the rest of the season.

Unfortunately, for the Rivermen, that was the only action the team saw. Two matches, one with Westminster, which UMSL has beaten once already this year, and the other with Lutheran College, were rained out. Both matches were expected to be played in the win column for the Rivermen and consequently put them at 5-0 for the season. Now that goal will have to be postponed.

The Rivermen were scheduled to take their rackets on the road as they traveled to Washington University to take on the Bears this coming week. It is about three weeks, it is hoped, that the team can continue to play solid, consistent tennis the rest of the season.

Coach needed

UMSL is seeking applicants for the position of head men's and women's swimming coach. The position requires a bachelor's degree, competitive swimming experience and preference for coaching either high school or college level. Greg Conway, head coach since 1981, recently resigned.

UMSL's 9-0 mark was only a byproduct of a new era for UMSL's women's basketball team.

Glen Sander, 6-feet, guard, Maplewood High School — A four-year starter at Maplewood, Sanders is one of the most well-rounded guards prospects coming out of the area this year. He can perform well in just about every facet of the game: shooting, dribbling, passing and defense.

"His passing is the thing he does best," Meckfessel noted. "He'll be a good scorer in college, but he's better than that."

Sanders, a three-time All-District player, led the area in assists this year. He also averaged 21 points per outing, while sinking 80 percent of his shots from the floor and 83 percent from the line.

Sanders reportedly is considering offers from Drake, Arkansas State, Montana, Houston Baptist universities and Western State College, along with UMSL.

Rddie Hudson, 6-foot-6, forward, University City Senior High School — Hudson is in the long line of talented forwards to come out of U. City in the past few seasons. The 6-foot-6 forward Ron Porter are two of the most recent standouts, both of whom failure UMSL as their college choice.

Hudson would be a welcome addition. A second-team All-Metropolitan player, Hudson is an outstanding scorer and rebounder. He possesses a sweet shooting stroke and is a tremendous leaper.

However, UMSL's chances of landing Hudson are not as good as some would like to think. Hudson is not as highly acclaimed for his academic prowess as he is his on-the-court abilities. However, Hudson is always the chance he could opt for a Division I school instead of a Division 2 school like UMSL.

Meckfessel, though, has no doubt about Hudson's potential.

"He runs, jumps and shoots well," he said. "He has a lot of ability."
Korr tackles sports conference project - again

Korr takes on the role of organizing the 1983 sports conference, which she has been preparing for since 1981.

Moriarty leaving UMSL after excellent athletic career

Sharon Kubatzky

Moriarty had a successful athletic career at UMSL, playing basketball and softball. She graduated with a degree in coaching and has since become a coach at other institutions.

LSAT Preparation Course

Saturday, May 21–June 18

10 am–noon

University of Missouri-St. Louis

J.C. Penney Building

This five-week course is designed to help prepare students for the Law School Admission Test (LSAT), which is given on June 20, 1983. Fee for the course is $75 (includes parking and course materials).
Many records were rewritten in this tournament. In the 123 lb. class, Tim Patton set a new bench press record of 380 pounds. The 132 lb. class saw Matt Mar­ciglucio break records in the squat, deadlift and total weight categories. His totals were 295, 450 and 865 pounds, respectively. Felino DeLeote broke his own bench press record with a 290 pound total. Dan DellPoso set three records in the 148 lb. class, a deadlift of 530 pounds in all the categories of the 245 lb. division. His totals were 490, 640 and 1,250 pounds in the squad, deadlift and total lifts. Other winners included Carlson Mitchell, in the 165 lb. class and Mark Ryan in the 181 lb. class.

intramural report

Now on to springtime sports. Baseball games today will be from the coed division. Here are the matchups: Long Shots vs. Tekes Plus, Popa Whales vs. Phi Zappa Krappa, The Wizards vs. HOTC, Popa Whales vs. Moons Than Enough, and Long Shots vs. HOTC.

Coed soc soc is in full swing right now. Action for this week included Tennis Team Plus and Tekes Plus on Monday and three games on Wednesday. Those three games feature a match between Tekes and the Tekes Plus, Pikes and Crusaders, and the Sparks and Crusaders.

Two weekends ago the Riverwomen won over two UMSL triangles here on campus. The slated opponents were St. Louis University and Central Missouri State University. However the lineups of Warrensburg stayed home in their stalls. Their travel plans were cut short by the light snow and cold temperatures that plagued St. Louis during spring break.

Unseasonable weather shortened last weekend's UMSL triangular meet as well. Lincoln University canceled out leaving only UMSL and Northeast Missouri State University at the meet.

Action was moved indoors to the St. James Courts in St. Charles County. The indoor climate failed to warm up the Riverwomen, though, as they were deepfried by the visiting NEMO squad eight matches to none.

The red and gold, one win was an impressive showing by the No. 5 doubles team of Michelle Hill and Deborah Clark. They rolled past Carol Veatch and Paula Thompson of NEMO in straight sets 6-3, 6-1. Hill and Clark, who were teammates at Benedictine High School, are in their first season for the Riverwomen.

The Riverwomens played well, but fell short in several matches.

The first doubles team of Lisa Geers and Chris Seckel battled back from a 6-3 first set defeat to capture the second set of the match 6-4. However, Kanista Zaniga and Lori Davidson, North­east's second and fourth rated singles players, rallied back to capture the match with a 6-2, 6-3 third-set victory.

In the women's singles, UMSL's Pat Pharksins made a good showing in her tough 6-4, 6-0 win over her opponent.

Here is this week's soc soc schedule: On Monday Tennis Team Plus vs. Popa Tung Tung Team. On Tuesday Monday Tennis Team Plus vs. Tanaka. On Wednesday, the action features Pikes vs. Tekes Plus and Pikes vs. Crusaders. Other matches include Sparks vs. Crusaders, Papal Bulls vs. NADS and Beta Alpha Psi vs. Iron Workers.

In the women's singles, UMSL's Pat Pharksins made a good showing in her tough 6-4, 6-0 win over her opponent.

Unlike a normal game of ten­nis where you have to win a game by two points, games in inter­college competition are awarded to the first player who reaches four points regardless of the opponent's score.

According to UMSL head coach Pam Steinmetz, playing out every add and deuce would be too time­consuming. "It's fairly standard," she explained of the scoring procedure, and besides there are only so many hours of daylight you can play.

"We're all good at tennis," she said. "I'm encouraged watching their play from one match to the next.

Another reason for Steinmetz' optimism is that six of the team's 10 players are first-year mem­bers. "Our new players need more match play," she says honestly. She reports that the team needs more game experience, but so far the weather is not cooper­ating.

Inclement outdoor conditions have forced the team indoors. Nevertheless, jogging laps, run­ning wind sprints and playing tennis or perfor­ming drills on the racquetball courts are not the same types of skills and experi­ences generated in a tennis situ­ation.

The Riverwomen got a little competition March 30, as the team scrimmaged at a "very cold and windy" SLU and then went on to victory at St. Louis Community College at Meramec.

UMSL team captain Chris Sec­kel and teammate Mary Sacher scored singles wins while Seckel joined Deed Martin to down Meramec's first doubles team 6-2, 6-2.

The Riverwomen won the scrimmages six matches to three.

Riverwomen notes: Saturday the women netters travel to Jefferson City for the Lincoln Tri­angular against Lincoln and Northwest Missouri State univ­ersities. Tuesday, April 12, Bolla will venture onto the UMSL campus to face the Riverwomen in a 3 p.m. contest. The following day UMSL meets SLU on the Biliken courts. Starting time is...
