Interim president will resign post

UM interim President Melvin D. George will resign his post to become the president of St. Olaf College of Northfield, Minn., it was announced Friday.

George, who will become the eighth president of the institution's 110-year history, will assume his new post sometime in March. This will allow time for a transition between George's administration at UM and that of C. Peter Magrath, who earlier this summer was selected to head the university beginning Jan. 1.

UM is one of the nation's premier liberal arts colleges, with especially strong programs in science and music. It has a student body of about 3,000 and is affiliated with the Lutheran Church, of which George is a member.

In a letter to members of the UM Board of Curators in which he told them of his plans, George noted he had not sought the St. Olaf presidency.

"In the first time I knew they were looking for a president was when a member of the college's Board of Regents (former Regent Melvin D. George) had been given my name and were interested in talking with me," he wrote. "I am president of St. Olaf College is an exciting personal and professional opportunity for me, but I leave the University of Missouri with many good memories and not a few regrets at the thought of saying goodbyes to so many friends with whom I have worked closely for nearly 30 years," George said.

George said he regrets that in accepting the new position he again will work closely with Magrath. The two were associates at the University of Nebraska during the early 1970s. George said he and George had discussed George's decision to leave the university to become president of St. Olaf College.

"I am delighted for Mel George and St. Olaf College, but I feel a real sense of personal sadness and loss that he will no longer be contributing directly to the University of Missouri - which he has done so well for many years. He will leave Missouri with the highest good wishes of countless individuals."

"As much as I had looked forward to working with Dr. George again, I know this opportunity is perfect for him. The presidency of St. Olaf College is a marvelous opportunity for his creative leadership skills."

"In the meantime, I am extremely pleased that he is serving as interim president, providing leadership in the months before I arrive and am grateful he will be available for some time thereafter," Magrath said.

George has been associated with the university for 19 years. From 1960 to 1970 he served as a faculty member in the UMC mathematics department.

George was also associate chairman of the department and a member of the University of Nebraska-Lincoln. George returned to Columbia in 1975 as vice president for academic affairs.

As one of two UM vice presidents, George coordinated academic matters for the Missouri Cooperative Extension Service, the University of Missouri Cooperative Extension Service, and the Missouri Department of Higher Education.

"I am extremely pleased that he is available for his administration," Magrath said.

Barnes working to bring back UMSL ASUM

JOHN Tucci

The group, Associated Students of the University of Missouri-St. Louis, has proposed expanding its operations back to UMSL. The proposal comes six semesters after UMSL voters decided to eject the Columbia-based student lobbyist group.

UMSL was established at UMSL in the winter of 1979, but voters then ejected the organization by a margin of 33 votes in 1981. Opponents of the group cited its failure to maintain promises as the reason for ASUM's expulsion. Among the promises broken, according to a February 1981 editorial, were those that would provide UMSL with services equal to the Columbia-based student body and voter registration drives.

The editorial also cited the fact that the ASUM campus coordinator did not keep regular hours.

According to Greg Barnes, UMSL Student Association president, things will be different this time.

"They're been pretty effective lately," Barnes said of the group's recent efforts. He added that he was confident the same mistakes would not be repeated. "We've learned from the past, and they have too. We'll get definite commitments this time."

Currently two proposals are being considered to get ASUM back on campus. One plan would place a referendum before the voters this spring, the other would have ASUM hired by UMSL as advisors. This action would have to be approved by the Student Assembly. Both measures would cost students about $5.10 in activities fees. UMSL students each paid $1 per year for the group's services during ASUM's previous tenure.

Proposents of ASUM believe that the organization's return will benefit UMSL. UMSL does not have a lobby in Jefferson City, however, according to Barnes, many student leaders like himself feel the lobby is inadequate.

"We'd be better off if we were under a state lobby that is organized group," Barnes said. He added that the current lobby does not have the same resources that ASUM has. "With their help, we could get the funding we need for the science building," Barnes said.

Barnes said he feels that ASUM's return to UMSL is likely, and in a letter to ASUM representatives, Barnes stressed that "the development of a maximum feasible legislative affairs effort at UMSL is one of the top priorities of his administration."

Computer center expanding

Chuck Wielkopolski

The UMSL Computer Center is expanding and upgrading campus computer systems. The center is in the first year of a three-year plan which will replace old equipment and add new equipment and services throughout the campus.

Larry Westermeyer, director of computing and telecommunications, said: "The field is changing rapidly. We're trying to keep up with changes in technology while the university is learning to use computing more effectively."

Last year, 38 new terminals were installed. This brought the total number of terminals available for use by students, faculty, and staff to over 60. By the beginning of the 1985 winter semester, two labs will open. Each will contain 10 IBM Personal Computers, according to Westermeyer. One lab will be located in the Social Sciences and Business Building and the other will be on the South Campus.

In Woods Hall, an IBM word processing system was installed last year. Westermeyer said it is primarily for the use of the university's administrative offices. Two more system units are currently being installed. These will be in the Social Sciences and Business Building and on the South Campus. When all three system units are installed, two ink jet printers, seven impact printers, 19 IBM Personal Computers, and 31 display stations will be connected to the system.

Funding for the computer expansion is coming from the general-operating funds of the Computer Center. The implementation of some parts of the plan could be delayed until next year.

UMSL LOSS: These gaping holes in the new soccer stadium bleachers illustrate the loss of a 400-seat-capacity section stolen by neighborhood youths, who sold the seats for scrap aluminum. The seats were to be replaced in time for the Rivermen home opener on Wednesday. Story on page 12.

Classes in writing offered

Several writing courses offered by Continuing Education-Extension at UMSL will begin during the month of September.

"Introduction to Writing for Children" and "Writing for Children: Advanced Section" will be held at the Jewish Community Center Association, 1101 Schuetz Road. The introductory course begins Wednesday from 6:30 to 9 p.m. and highlights how to write saleable manuscripts for various marketplaces.

The advanced section of the course begins on Sept. 24 from 6:30 to 9 p.m. This course is for those who have attended "Introduction to Writing for Children," and who are interested in polishing, editing and preparing manuscripts for publication. Both courses are taught by Patricia McKissack, owner of All-Writing Services.

"Writing Your Personal Life History," also offered at the JCCA, will begin Sept. 24 from 6:30 to 9 p.m. Jeffrey Friedmann teaches skills needed for organizing and writing a personal history.

Courses to be held in the J.C. Penney Building on campus include:

- "Grant Proposal Writing," which begins Wednesday from 6 to 8 p.m. Topics include how to evaluate and record community needs, how to write and market a proposal, and how to work with funding agencies.
- "Playwriting: Introduction, Writing for the Stage," which begins Sept. 8 from 9 to 11:30 a.m. George Hickenlooper, prize-winning playwright, will teach the basics of dramatic structure, scene, plot and character development as well as practical marketing strategies to sell scripts.
- "Effective Business Writing," which begins Sept. 17 from 8 to 9:30 a.m. This course will be held both on Monday and Wednesday evenings. The focus will be a clear, natural, modern writing style, which will adapt well to all types of business transactions.

October courses offered will include "Writing for Publication and Pay" and "Introduction to Writing for Television and Film."

For a complete schedule of all writing courses and more information about fees and course content, call Continuing Education-Extension at 553-5961.

Official Notices

The Senate Student Affairs Committee will meet today at 1 p.m. Check the bulletin board in the J.C. Penney lobby for room location.

The student organization treasurers' training sessions will be held at the following times:

- Sept. 19, 2 p.m.
- Sept. 17, 7 p.m.
- Sept. 20, 2 p.m.

All sessions will be conducted at 209 Lucas Hall.

The South Campus Student Services Group will meet Sept. 28 at noon in the Northwest Conference Room on the South Campus.

The University Players/ Theatre Division

"A Man For All Seasons"

by: Robert Bolt

TIME: 3 p.m. and 7 p.m.
DATE: September 12 and 13, 1984
PLACE: BENTON HALL THEATER (105)
PERFORMANCE DATES: October 25, 26, 27 and 28
PERFORMANCE TIME: 8 p.m.

These auditions are open to all interested in the production of live theatre. There are positions available for lighting, scenery, costumes, and props in addition to parts in the play. ★★★★★ WE MAKE MAGIC ★★★★

FOR MORE INFORMATION: CALL 553-5733 from noon to 5 p.m.
Etzkorn given German award

K. Peter Etzkorn, associate dean of the Graduate School and director of research at UMSL, was awarded the Order of Merit, First Class, of the Federal Republic of Germany at a luncheon held in June at the UMSL Alumni Center.

The award was presented by Oskar von Siegried, consul general of the Federal Republic of Germany. Dr. von Siegried serves as consul general for a nine-state midwest region.

The award was presented in recognition of Etzkorn's efforts to promote linkages between the University of Missouri and German universities. He helped to establish "Mit Feder und Hammer," (with Pen and Hammer) and was instrumental in organizing the St. Louis visit of the West Berlin Senate Education Committee five years ago.

He serves as director of Sister Cities International in Washington, D.C., as chairman of the Council of Sister Cities of St. Louis, and as director of the Lyons and Stuttgart-St. Louis Sister Cities Committees Inc.

Etzkorn, a sociologist, joined the UMSL faculty in 1969 and became associate dean of the Graduate School in 1978. He holds a master's degree and Ph.D. from Princeton University, and a bachelor's degree from Ohio State University.

In addition to teaching at several universities in the United States, Etzkorn was a visiting professor at Westfalisches Wilhelms Universität in Munster, West Germany, and at the American University of Beirut in Lebanon in 1962.

He currently serves as editor of the Journal for the Society of Ethnomusicology, an international organization of persons studying the music of different cultural groups.

Older adults' activities set

Classes for active older adults will be offered this fall by Continuing Education-Extension on Tuesday, Thursdays and Saturdays beginning Sept. 20 and ending Dec. 6.

All classes will be held in the Mark Twain Building on the UMSL campus. The fee is $12 per class or $35 for three or more classes.

Programs include square dancing/round dancing (9 to 10 a.m.), intermediate tap dance (prior experience necessary, 9 to 10 a.m.), walk/jog (10 to 11 a.m.), aquatics (11 to noon) and yoga/relaxation (noon to 1 p.m.).

Also offered on Saturday mornings will be social dance (8:45 to 9:45 a.m.) and lifetime sports (8:45 a.m. to 12:30 p.m.). Lifetime sports include health talks, warm-up exercises, badminton, volleyball, racquetball and swimming.

All class participants are invited to an orientation day on Thursday, Sept. 20, 9:30 a.m. to noon. Attendance is highly recommended to those new to the program. The topic of interest will be high blood pressure.

Three forms are required for participation in any program: a personal release, an emergency information card and a physician's release. All registration will be done by mail.

For more information, call 553-5229 or 553-5226.

Music classes beginning now

Continuing Education-Extension will offer fall music courses for the singer and for those who enjoy listening to symphonies or the big band sound.

"UMSL Community Chorus" begins on Tuesday, Aug. 28, from 6:15 to 9 p.m. for people with widely varying vocal interests who want to share in a choral musical experience. John Hylton, assistant professor of music, will direct the chorus. Fee is $15.

"Developing Solo Vocal Techniques" begins Tuesday, Sept. 18, from 6 to 6:50 p.m. for those wanting a backstage look at the symphony. Guest appearances by members of the Saint Louis Symphony Orchestra will be a feature of this class. Discussion topics will include composers, scores and musical periods. Fee for the course is $60 or $45 for two.

St. Louis' well-known jazz historian, Charlie Menees, will teach "Stan Kenton: Big Band Iconoclast" beginning Wednesday, Sept. 19, from 6:30 to 8:30 p.m. Kenton's nearly four stormy decades as an orchestra leader, pianist, composer, arranger, innovator and developer of talent will be reviewed. Fee is $40 ($15 for high school juniors and seniors).

More information about all the music classes may be obtained by calling 553-5964.

Hiring college grads is something the Army has always done. And lately, we've been doing a lot more of it.

In fact, last year alone nearly 7,000 college grads chose to begin their future as Army officers.

Why? Some wanted the opportunity to develop valuable leadership and management skills in their career choosing.

Others were impressed with the amount of responsibility we give our officers starting out. And some, of course, just wanted to serve their country around the world. Interested? Then you can start preparing for the job right now, with Army ROTC.

ROT C is a college program that trains you to become an Army officer. By helping you develop your leadership and management ability,

Enlisting can benefit your immediate future, too. Through scholarships and other financial aid.

So the next time you're thinking about job possibilities, think about the one more recent college graduates chose last year than any other.

For more information, contact the Professor of Military Science on your campus.

Meters could end parking problem

Anyone who attended classes the first few days of school knows about the problems with parking. Perhaps campus police officers told us that when it was said that there were parking spaces available, they're just not always where students want them to be.

This is true. Walking a quarter mile to class is really no big deal — you've just had to get to school a little earlier and dress right for the occasion. We understand that there can't be parking for all 12,000 of us right in front of our respective classrooms.

But the situation is different when short errands are involved. Students needing to drop off a library book, pick up a paycheck or class schedule from Woods Hall, or complete a major pedestrian journey of at least seven minutes, or park illegally in a faculty/staff or student parking space.

Campus officials recently announced they'll try to offset this problem by installing parking meters along a tram track, on the drive just west of Social Sciences and Business Building and on the Flowin, considered to be one of the heavy traffic areas for students needing to use the Computer Center or the library. Parking will cost 25 cents for 30 minutes.

We applaud this idea. We feel that students (and faculty) are responsible community members who can benefit from the option of parking nearer to their destination for short errands.

For the plan to work, however, careful planning is needed. Errands are involved. Students needing to contact campus officials must be sure to get parking stickers. We, too, feel that parking to pay for the cost of the meters. We propose that once the meters have taken in enough to pay for themselves, then be made "free" meters. Tickets could still be given for abuse of the parking system.

We commend administrators for listening to the Parking Committee's recommendations and accepting one for a trial run. The committee is appointed by the chancellor and comprises students, faculty and staff members. It is gratifying to know that a campus committee is being heard and acknowledged.

We hope the parking meter idea works. If so, we'd like to see the meters installed at Woods Hall and the Blue Metal Office Building, near St. Lizer and Benton halls, and at other campus buildings far away from student parking lots.

Dear Editor:

Last week's student debate on South Africa, unfortunately, deteriorated into an absurd fight between the audience and College Republican leader Joe Lamb over the merits of American imperialism and the oppressive regime in South Africa. Asked how he could support a state that has been condemned by responsible world opinion, he said that there are parking spaces available; they can't be abused and the original intent will be lost.

Some students may protest paying more money after already spending upwards of $280 a parking sticker. We, too, feel that students pay enough as it is. It is understandable for campus officials to want them to be . . .

"Overtime can be costly!"

Disputes ABC's S. Africa intentions

College adds extra pounds for both men and women

STATE-COLLEGE, Pa. (CPS) — If you're a college freshman, arm yourself for a four-year battle of the bulge.

A just-released study of Penn State students by nutritionist Jean Harvey and two other researchers reveals men gain an average of 9.1 pounds during their first year of college. Women average a nine-pound gain.

And the extra pounds sneak up each year. Sophomores gain 7.3 pounds while juniors put on 7.8 pounds and seniors 6.5 pounds, the study found.

Many students blame fattening dorm food, but Harvey says the study exonerates it.

"Residence (on or off campus) wasn't a factor in weight change," she stated. "So students' claims that dorm cafeteria food caused the gains aren't accurate."

The questionnaire, sent to 2400 Penn State undergraduates, drew about 1000 responses to 26 questions about weight, eating and exercise. Results show 67 percent of the men questioned and 62 percent of the women admitted gaining weight.

Emotional and psychological factors, such as living away from home, weren't surveyed.

No one knows if all students put on pounds at the same clip Penn State students do.

The American College Health Association shows no record of any national surveys similar to the Penn State study, though a 1978 federal study determined college students were an average of six pounds heavier than the students of 1968.

Yet overweight students and health and nutritional concerns have prompted many colleges to implement diet and exercise programs.

In 1982, Stanford developed a dorm nutrition program, posting nutritional information for cafeteria food. It listed the calorie, fat and cholesterol contents of each item it sold.

A similar program exists at the University of the Pacific in Stockton, Calif. But the program has done little so far to change students' eating habits, officials admit, although a survey shows 80 percent of the students are aware of it.

"There's only so much you can do in the dining halls," a spokesman said. "Maybe next year we'll take a different approach."

students' claims that dorm cafeteria food caused the gains aren't accurate."

### Music department endeavors new schedule

**Norma Pulasko**

UMSL's music department has planned a series of performances in an effort to satisfy a variety of musical tastes.

Scheduled events in the upcoming season include concerts, recitals, and guest performances by student groups and the Kammergord Orchestra. The opening concert of the season will be presented on October 21.

The initial concert, Oct. 21, holds particular interest, the music director, John Grassilli, has said. "I think this concert will be a real treat for the audience." The Kammergord Orchestra, one of the finest groups of its kind anywhere in the region, will present a series of concerts that will feature a variety of orchestral works.

This semester's musical menu will definitely aid students to digest higher education.

---

### Reading and writing aren't as easy as everyone thinks

**Mike Luczak**

The Kammergord Orchestra, one of the finest groups of its kind anywhere in the region, will present a series of concerts that will feature a variety of orchestral works.

---

### Theater schedule may prove memorable

**Steve Givens**

If the University Players keep their word and stay with the lineup of plays selected for their 1984-85 season, the season may prove memorable.

The season opens Oct. 25 with "Men for All Seasons." The play is Bolt's portrayal of a middle-aged man who decided King Henry VIII remembered and talked about for a long time. But, if it is not accompanied by enough enthusiasm and intensity, it can leave the audience feeling that the play is difficult play to perform well.

Part of the problem is the plot. It is a plot of the play's structure. If the viewer has seen the movie or the play before, some of the plot may be taken from this thriller. But don't stop your系统的 English listening to see if you have seen the play. If it is done correctly, the suspense will still be there.

### Scene from "Deathtrap"

At the heart of "Deathtrap," beneath all the tricky gimmicks—the suspense return to life of the seemingly dead, the eerie atmosphere, there is the character of Sidney Brack, a playwright who seeks to do anything to have a hit. It is as much as anyone who has kept the play going, a thriller alive. It is a flambéoyant role that can encompass various personas.

The third production will be William Saroyan's "The Time of Your Life." Directed by Jim Fay, the play is a day in the life of a middle-aged man. The "sarcasm, absurdities and oddities, his whimsicality and his pathos, his sense of humor and his perfect melancholy.

On March 8 and 9 the Opera Workshop will present a still-to-be-anounced production. Last year the group produced its first full-length opera, "Don Giovanni."

The final production of the season will be Neil Simon's "Comedy," "The Star-Spangled Girl." The New York Times wrote, "At the heart of "Deathtrap," beneath all the tricky gimmicks—the suspense return to life of the seemingly dead, the eerie atmosphere, there is the character of Sidney Brack, a playwright who seeks to do anything to have a hit. It is as much as anyone who has kept the play going, a thriller alive. It is a flambéoyant role that can encompass various personas.

The third production will be William Saroyan's "The Time of Your Life." Directed by Jim Fay, the play is a day in the life of a middle-aged man. The "sarcasm, absurdities and oddities, his whimsicality and his pathos, his sense of humor and his perfect melancholy.

On March 8 and 9 the Opera Workshop will present a still-to-be-anounced production. Last year the group produced its first full-length opera, "Don Giovanni."

---

### Scene from "A Time of Scorpio" by Rex Matzke and Mary D. Givens

"A Time of Scorpio" by Rex Matzke and Mary D. Givens is a new opera that will be presented in the Fall of 1984. The opera is based on the life of a middle-aged man who decides to study the stars in order to find his life's purpose. The opera is a blend of music, dance, and spoken word, and is set against the backdrop of the nightime sky.

---

### Scene from "Column"

I watched the man closely, for he was speaking in a very animated way. It was clear that he was trying to convey some important information. He finally asked me, "What do I do?" and I replied, "Just push the button and the machine will do the work." He answered, "How could he not know what to do? Had he never seen the machine before?"" The nurse looked at him as if he was joking.

---

### Scene from "The Nurse and the Doctor"

"The nurse and the doctor," the nurse said, "are very important. For some reason my eyes were still on him."

---

### Scene from "The Kammergord Orchestra"

The Kammergord Orchestra, one of the finest groups of its kind anywhere in the region, will present a series of concerts that will feature a variety of orchestral works.

---

### Scene from "Amahl and the Night Visitors"

The Russian composer, Alexander Borodin, has just become available. "Amahl and the Night Visitors" is a one-act opera with a Christmas theme.
Column

from page 7

because we need to know this information," she said in a per- 
turbed voice.

"OK," he said, openly embarrassed by the situation.

It wasn't long before the nurse came barging out. She asked, "Where are you going?" impatiently, and then went back to sit behind her cream- colored window, not knowing the humiliation she had caused the man.

I looked at the man, wanting to tell him somehow that I was sorry for him, but I knew it wouldn't have helped. He waited for his name to be called, not wanting anyone to see him before he had come in. I thought about it, and then told myself that I didn't need to make sure a person can't read or write. It's amazing when you think about it, isn't it? With all our technology and all our communica-
tion about it, isn't it? What's the point of thinking that illiterate people are very few in number, but how many is a few? As college students, you yourself probably know of at least some instances where some of your fellow classmates have had trouble in writing just a basic sentence. Shouldn't we all be able to write?

I don't think some of us who do know how to read and write know how lucky we really are. Next time you're reading an assignment -- or writing one -- just think of what it would be like to be illiterate. Think of how many doors of life would be closed to you if you couldn't read or write.

Some of us take reading and writing for granted, but what about all the other people in the world who, like me, couldn't read.

It's amazing when you think about it, isn't it? With all our technology and all our communication, we owe it to our country and to the future generations to educate even the most illiterate people. For instance, crimes of burglary, murder and arson, are not solved by today's standards, may appear grandioquent, but remain powerful and grim. An interesting introduction to the film underscores the actor's dim view of capital punishment.

Later, at 8 p.m., Channel 9 will air another "Near Classic," 'Til Cry Tomorrow," made in 1955. Based on the best-selling autobiography by vaudeville singer Lillian Roth, played by Susan Hayward, this is the movie, hard-hitting drama of her long, agonizing bout with alcohol and too many husbands. Edith Albert co-stars as a fellow AA member who lovingly helps Roth during her drying-out period. Jo Van Fleet plays her castastomorous mother.

Hayward's portrayal is sensitive, somber and believable, her Academy Award nomination for this role was well-deserved. Director Daniel Mann, who gave us such "Near Classics" as Come Back Little Sheba (1952), and the "Rose Tattoo" (1955), brings his theatrical experience to this filmmaking. It's a bit to stay at times, but he induces maximum performances from his cast.

A "Thin Man" trio, scheduled for Sunday and Monday at the Tivoli Theater, includes the Classic original "The Thin Man" (1934); the second in the series, a Near Classic "After the Thin Man" (1936); and "The Thin Man Goes Home," an entertaining 1944 release.

The series of six films, which started the late William Powell as naive detective Nick Charles, and Myrna Loy as his debonair spouse, Nora, ran from 1934 to 1947 and was extremely popular.

Charles and Nora are a jovial, elegant couple who combine to bring a light-hearted technique to solve crimes of burglary, murder and assort-

ed acts of mayhem. Each "Thin Man" film teems with suspects and an entangled plot. "The Thin Man" and "After the Thin Man" are the best of the series, but stay for another bag of popcorn, and watch "The Thin Man Goes Home" for the same price and a well-spent evening of entertainment.

An added treat: A novice actor, by the name of Jimmy Stewart, appears in "After the Thin Man," and provides some spirited scenes.
Mystery of what fees pay for is explained

Joanne Quick
features/arts editor

Incidental fees and non-resident tuition fees help to support the general operating budget. This includes instructors’ salaries, research, academic services, student services and public information.

The sum may seem like a lot, but only 35.5 percent of the budget is supported by students while 59.7 percent is funded by the state. The remainder comes from other income including revenue from the Optometry Clinic and the recovery of indirect costs.

The student union and activities fee of $49.70 contributes to four areas: the University Center bond retirement, the athletic

program, student activities and student services.
The athletic program supports both intercollegiate and intramural athletics.
Campus organizations and service programs are assisted funds based on the Student Association’s recommendations
to the chancellor. Funds contribute to the operating expenses of the UMSL police, the paving of roads and sidewalk in the winter.
The balance at the end of the year may go into a parking improvement account which is used to finance major projects such as the recent paving on the South Campus.

Find your spot on the G Staff. All students interested in applying in their communication skills working in radio are invited to the KWMU Student Staff General Staff Meeting on Tuesday, Sept. 30th at 3:00 p.m. in Locals 302. KWMU is the 100,000 watt Independent National Public Radio Station at the University of Missouri-St. Louis.

Don’t miss Jeannie Trevor with the St. Louis Jazz Quartet Oct 18 in the JCP Auditorium 8:30 p.m. Tickets are only $2 for students, $4 for faculty and $5 general public. Tickets will be sold at the Info Desk in October.

Readers needed for disabled students. Call 553-6211, Office of Student Affairs, 301 Woods Hall, for further information. Hours vary.

Discover the benefits that Sigma Tau Gamma Fraternity can offer you. Call Mark at 457-3964.

Students looking for experience in video production and live television can arrange internships through American Cabellation of St. Louis. During free time classes you’ll learn your way around a television studio, on or off camera. Then you’ll participate in the production of live and taped programs. This is real experience for more information, call Greg at 524-8683 before 8 p.m.

Eddie Murphy Night Bonus! Sept 7 and 8 in 101 Stahl Hall. See both “Trading Places” and “48 Hours” in this special Eddie Murphy presentation. Call 553-5353 for times and further info. Presented by the University Program Board.

Can a down and out hustler be transformed into a commodities genius? Will a wealthy blue-blooded financial wizard resort to crime if he is stripped of his riches? "Trading Places," a tale of altered identities, tells this rag-to-riches story.

Nick Nolte plays a shopworn cop who never makes the big busts but gets the job done. Eddie Murphy portrays a ghetto con man who's been in prison. He's got the knack for smooth-taking-Iadies and now he's suddenly a common cause for an intense, wild life. Eddie Murphy presents an Eddie Murphy rags-to-riches story.

Friday

Women's Volleyball: UMSL Tournament at 6 p.m. in the Mark Twain Gym.

UMSL's Gallery 210 exhibit "Conversations with the Masters: Intaglio Prints by Jiri Andel, Jr." continues through Sept. 28. The gallery hours are 9 a.m. to 5 p.m. Monday through Saturday, and 9 a.m. to 1 p.m. on Friday. For information on these and other upcoming exhibits call the gallery at 553-5976.

Saturday

Getting Ready — What to Do with the Rest of Your Life" is a course that enables women to identify skills and abilities that will lead to rewarding options in education and the job market. This Continuing Education course will be held on Saturdays, Sept. 8, 15, and 22, from 9 a.m. to noon at The Connection in St. Charles. For more information on this course call 553-5961.

Discover the differences between writing for the stage or scripting for film and TV in the Continuing Education class "Playwriting: Intro to Writing for the Stage." This course will be held on Saturdays, Sept. 8, through Oct. 13, from 9 to 11:30 a.m. Call 553-5961 for information.

Sunday

A orientation clinic will be held at 10 a.m. in the Mark Twain Gym. The clinic is being sponsored by the St. Louis Orienteering Club and is designed to introduce students to the navigational sport. For more information on the clinic call 278-3195 or 727-2945.

Men's Soccer vs. St. Louis University at 8 p.m. on the Mark Twain Field. Call 553-5121 for information on all athletic events.

Women's Volleyball: UMSL Tournament continues in the Mark Twain Gym at 6 p.m.

The University Program Board continues this week's film series. See Friday for information.

Monday

UMSL Red and Gold Golf Tournament at 1 p.m. at the Normande Country Club. Call 553-5121 for entry fee information.

Last Day to Return Fall Texts

UMSL Expo '84 will be held in the Quadrangle from 10 a.m. till 2 p.m. Representatives from student organizations will be present as will be campus offices that provide student services.

kwmh programming

- Weekdays
  6-8 a.m. Morning Edition
  5:30-6 a.m. All Things Considered
- Mondays
  Midnight-6 a.m. Miles Beyond
  The Student Staff presents alternative and mainstream jazz.
- Fridays
  11 p.m. Pipeline
  The Student Staff presents alternative and experimental rock.

- Saturdays

- Sundays
  7 p.m. Creative Aging
  A program by, for and about retired people.
  10 p.m. Playhouse 91
  10:30 p.m. Sunday Magazine.

calendar requirements

Material for "around UMSL" should be submitted in writing no later than 3 p.m. Friday of the week before publication to Steve Brawley, around UMSL editor, Current, 1 Blue Metal Office Building, 8001 Natural Bridge Road, St. Louis, Mo. 63121. Phone items cannot be accepted. Material may be edited or excluded to satisfy space or content requirements.
Hantak (heads) men to win

Jim Goulden reporter

If last Saturday was an indication of things to come, UMSL Rivermen soccer team, you might take notice of a few names and look for the team to contend for a post-season berth. Billikens, who took on Missouri Southern State College and won handily, 3-0, with some new and old faces playing key roles. The most notable of the new names was Ted Hantak, who could have assistant and goalie for a goal. Hantak comes to UMSL from St. Louis Community College at Forest Park, where he led the Highlanders to the finals of the JUCO playoffs last season. Hantak’s two assists came from head flicks to Mike McAlone and Tom Olwig.

Teddy played a real good game and got us going,” McAlone said. McAlone scored the first goal of the game. This might have been an unusual event for McAlone, for it was usually he who sets up goals with his headers.

The play started with John Wilson taking a free kick from just inside midfield. Hantak took the ball and fed it to those who slammed it into the lower right corner.

For McAlone it was the first goal of the season, and it marked his return. His return being redshirted last year with a broken shoulder.

McAlone, dubbed the “Phantom Striker” by Scott Skrivan during practice, was pushing hard to score in the exhibition games, both of which he got against Billikens.

They were pretty steady—they just couldn’t finish their plays,” McAlone said.

UMSL made it 2-0 in the second half when Olwig connected with McAlone, who set it up.

Hantak with, what else, a flick-on header.

When just for good measure Hantak added a goal of his own, with Steve Hoover providing the assist.

John Stahl was in the sets for the Rivermen defense, was pulling any surprises this season.

Stahl, however, are well-respected by those wishing to attend only headslicks.

They are courageous, UMSL last season.

McFetridge was the savior that fellbacks defender. How important are those goalkeepers, anyway?

shutout, it’s usually a great goalkeeper prowess. What he yes, I see.

Stopper didn’t have in the first nine games wouldn’t he?

‘you season,” added.

Combination McStopper didn’t have in the first nine games wouldn’t he?

So, the Rivermen’s home-opener against Wright State University in the NCAA Division 1 category do not expect the Rivermen to pull any surprises this season.

The Bills finished No. 5 in the Division 1 poll last season and UMSL is penciled in at the No. 8 slot in Division 2 for 1984.

During last season’s 3-1 SLU victory, UMSL helped their counterparts with the St. Louis Soccer Park (Fenton) open house, playing after dedication ceremonies of the new stadium.

The Rivermen will look for help from the Billikens when UMSL’s soccer stadium, finished just prior to the season, is completed in hopes of seating a full crowd.

UMSL qualifying for the National Collegiate Athletic Association Division 2 tournament 12 consecutive years, has won the contest once (1975) in its 18-year history.

And the Billikens, competing in the capacity seating section was stolen from the structure by neighborhood youths and sold for scrap metal. That section was re-installed just one day before the Rivermen’s home-opener against Wright State University.

Wednesday night.

In 25 years of athletics,” said Chuck Smith, UMSL athletic director, “I’ve never had any bleachers stolen. But they were replaced.

With the two good soccer teams in St. Louis playing against each other on a weekend night, there should be a large turnout.”

The Rivermen are coming off an impressive 3-0 win over Missouri Southern State College and are seeking their 12th consecutive NCAA playoff appearance.

The Billikens, however, are well-respected by those wishing to attend only headslicks.

They are courageous, UMSL last season.

Watch out. University of Wisconsin-Madison, the UMSL Riverwomen are waiting for you. UWM snuck past the Riverwomen soccer team 1-0 in Madison last Sunday, despite being outplayed by the UMSL team, and the women kickers want revenge.

Coach Ken Hudson believes in a tough schedule for his UMSL team, even if it means going against a national power in the second game of the season. Hudson was hesitant to say he was happy with the game, even though his team played well. "We played well. we just couldn't finish," he said.

UMSL came out firing in the first half, but could not sneak one past the UWM goalkeeper. Neen Kelly crossed one and Kathy Guinner directed a shot at the goal, but the keeper got her hand on it,” Hudson said.

Later on in the half, the same combination clicked again, only this time Guinner's header bounced off the crossbar.

If this wasn't bad enough, it got worse. UMSL got a free kick about 20 feet outside the penalty area, but Jan Gettemeyer-Parrish’s shot rattled the crossbar again. By now UMSL had to be wondering what time Guinner's clock was set to.

However, UWM didn't have to wait too long to score. The Madison team brought the ball down the field, but lost control momentarily. As the ball rolled toward the UMSL goal, keeper Ruth Harker came out to play it. Instead of picking it up, she decided to kick it. The ball, however, took a bad hop and got past her, where a UWM player was able to put it home.

UMSL trailed 1-0 and would not be able to get that one goal back despite several chances in the second half.

UMSL hit the crossbar two more times in the second half, and the Madison goalkeeper made several excellent saves to seal the victory.

UMSL, though, is ready. UWM will come to UMSL, later on in the season for the Budweiser Classic Soccer Tournament, which UMSL will host. If both teams would advance to the finals, they would meet in a rematch, and UMSL will be ready to get some even. "If we play them (in the tournament), we will be looking for some revenge," Hudson said.

Prior to Sunday's game, UMSL took on the University of Wisconsin-Milwaukee and got some solid scoring from five different players, as they posted a 6-1 victory. Joan Gettemeyer displayed her All-American talents in posting two goals and one assist, as did sister Jan, who added one goal and one assist. Also adding goals for UMSL were Kelly Guinner and Marcie Zarinesi. Milwaukee's only goal came on a penalty kick.

Hudson was really pleased with the play of his freshmen, Sue Daerda, Kathy Casso, Kathy Roch and Guinner. At one time in the game Hudson had six freshmen and four sophomores on the field, doing a fine job, as UMSL outshot the Milwaukee team 15-3.

The Riverwomen will take this week off before they take on Cardinal Newman College next week. The following week the Riverwomen go to Fairfax, Va., where they will take on North Carolina University and George Mason University.

Both of these games will be of great importance to UMSL, not only because these teams are both good, but also because they are definite contenders for the national crown.

Last season George Mason ended the season for the Riverwomen with a 6-1 thrashing. If that wasn't enough incentive for the team, North Carolina should pump the team up, as NCU has won the women's national title every year it has existed, and in that time UMSL has beaten NCU.

"If we come back from there with two wins, we will really be a favorite to win the national title," Hudson said.

After this trip, UMSL will return home to take part in the Bud Classic where it will have not only UWM to deal with, but also highly ranked University of Cincinnati and Texas A&M University.

If UMSL can come through this schedule with just one or two additional losses, look for the Riverwomen to be strong contenders.
from page 12

Maybe one or six tough chances during a game - tops.

With the Rivermen's stingy defense, I could become Mr. Stoper - maybe.

Led by transfers Dave Abel and Glenn Zipek from St. Louis Community College at Meramec and returning starters Joe Kortkamp and Tom Wilson, this should be one of the tightest of the recent defenses.

"We have the ability not only to be as good as last year's defense (after the last nine games, that is)," Dallas said, "but to be better."

So in truth, it really doesn't matter who is in goal, does it? McFetridge is super. He was the original Mr. Stopper.

Stahl is asserting himself. He may be Mr. Stopper 2. Thanks to the defense, for sure.

Next year, look for Mr. Stopper 3 - in 5-D, of course.

Rivermen

from page 12

shoutout. "John wasn't tested that much, but when he was he made some real good saves," Rooney said.

Rooney was pleased overall with the performance of the team, but admits there are still some quirks to be worked out: "We played 20 minutes of good soccer in each half and then we were raggedy after that, maybe due to the heat," he said.

As for Hantak, Rooney was very pleased with his offense, but would like to see him play more defense. "Ted has a chance to be one of the outstanding goal scorers here, but he needs to come back a little more often," Rooney said.

Rooney was also very pleased with McAllone. "Mac has a real strong game. He can score and he also comes back on defense to help out," he said.

Also in Rooney's eye were newcomers Craig Westbrook and Joe Osvath. "Craig has played steadily all year so far, and Osvath probably had his best game so far with some real stable play," Rooney said.

The defense, which looked rather shaky in some early exhibition games, has come on the last few games, too. After getting bombed by the Blackpool team of England and a loss to the University of England and a loss to Rivermen would like to see him play more defense.

~ one of the outstanding scorers here, but he needs to come back a little more often."

Rooney said."

IN LIMBO: The UMSL women's volleyball team has to wait until this weekend when the Riverwomen host the UMSL Invitational volleyball tournament at the Mark Twain Building. Coach Cindy Rech has added a slew of blue-chip recruits to her 1984 edition, hoping to win the Missouri Intercollegiate Athletic Association championship after a dismal season last year. Incoming players filled out a roster that was low in numbers at the beginning of practice.

YOUR GIRLFRIEND WEARS ARMY BOOTS.

If she's a member of Army ROTC, that's a real compliment. Because she knows that ROTC offers the same opportunities for young women as it does men.

In ROTC, she'll have the chance to develop leadership skills and earn money at the same time.

After graduation, she'll become an officer in the Army, where she'll get the kind of experience employers value.

If your girlfriend wears Army boots, she has a head start on an exciting career after college.

For more information, contact your Professor of Military Science.

ARMY ROTC
BE ALL YOU CAN BE.

Get to the answers faster. With the TI-55-II.

What you need to tackle through the mathematics of a science or engineering curriculum are more functions—more functions than a simple slide rule calculator has.

Enter the TI-55-II, with 112 powerful functions. You can work faster and more accurately with the TI-55-II because it's preprogrammed to perform complex calculations—like definite integrals, linear regression and hyperbolics—at the touch of a button. And it can also be programmed to do repetitive problems without re-entering the entire formula. Included is the Calculator Decision-Making Sourcebook. It makes the process of using the TI-55-II even simpler, and shows you how to use all the power of the calculator. Get to the answers faster. Let a TI-55-II show you how.
