**NPR Coming To St. Louis, UMSL**

Auditors and interest groups were formerly based in St. Louis. We are in the zone of one of the world's oldest and most res pulled with the third-cities music, theater, and the arts. The programs were to be approved for funding by the state Coordinating Council on Higher Education in St. Louis.

NPR is the longtime public radio network, based in Washington, D.C. The station's website is www.npr.org.

**KWMU Celebrates 'Morning Edition'**

As part of "Morning Editing" event, "visit St. Louis" is a number of "d Москве" on St. Louis and the University of Missouri-St. Louis. The program is broadcast by the station KWMU in St. Louis, which airs from 7 a.m. to 10 a.m. on weekdays.

KWMU's "Morning Edition" program is broadcast from the station's studios in St. Louis, Missouri, and is produced by the public radio station's editorial team.

The program features news and information from around the world, as well as local and regional news.

The program is available online at the station's website, www.kwmu.org, and can be heard on-air at 90.7 FM.

The program is also available for download as a podcast on the station's website, which can be found by searching for "KWMU Morning Edition" in the podcast section.

**RIVERWINERS**

The UMSL soccer team will face off against the University of Missouri-St. Louis in a women's soccer game at 7 p.m. on Friday, September 29, at the KWMU Entertainment Center.

The game will be broadcast live on the KWMU website and on the university's radio station, KWMU 90.7 FM.

The game is part of the university's "Riverviews" series, which features soccer games between the two universities.

The game is one of the first events in the university's "Riverviews" series, which features soccer games between the two universities.

Newsbriefs

20th Anniversary Celebration of the C.C.L. with a collection of photographs by Art Wood and Jean Meyers will be open at the Central City Library, 311 N. Main Street, through Oct. 1. The opening on Oct. 1 will include a lecture (4 p.m. to 5 p.m.) by Wil­liam F. White, who will discuss the history of the arch that will be ex­hibited in the library. The exhibition will be open until a month after the Mid­winter Conference (Mon., Dec. 23, 1985).

Several courses for writers will be open at UMSL. For more infor­mation, call Joe Tucker at 553-5812.

The UMSL community urgent to attend task force meeting on campus, according to Student Association President Greg Barnes.

A task force appointed by UMSL President C. Peter Magrath is currently studying UM policies regarding investments in armament and armament-related trust funds in U.S. companies doing business with South Africa. The task force will listen to public hearings here next Thursday from 11 a.m. to 12:30 p.m. and 1:45 to 3:30 p.m. The task force, after listening to input at all UM campuses, will then give its recommendations to Magrath and the UM Board of Curators.

The grass-roots student support is the key to the whole thing," Barnes said. "Our efforts for divestment of UM funds in South Africa will be greatly enhanced if the people come out." Barnes said that walk-in speakers at the hearing and a "packed room" are crucial to the success of the student-led divestment effort.

"Things going on now in South Africa are heading to a head," Barnes said. "It's time to articulate the moral, financial and important issues of the students.

"Free students have a chance to have an influence on $102 million.

Both Barnes and the UMSL Student Association has concentrated much effort on anti-apartheid movements over the past year. Barnes said that it is important to take part in something that the student association has long represented.

"I don't think a poor turnout could hurt our efforts.

Barnes said that a large turnout would greatly help. We hope to express that the university is involved in a worldwide movement.

There will be a similar public hearing near Folsom at the UM-St. Louis campus. Following all the testimony, the task force is expected to make its report to Magrath and the Board of Curators sometime in early November.

In mid-October, the Student Association plans to promote a university-wide day of protest on divestment with South Africa.

"The challenge is relatively easy," Barnes said. "Something like what's going on in South Africa could happen to us sooner or later."

Student protest has taken many forms since early involvement began last year at Magrath's request in Columbia, Mo. "Our chantos of divestment are important if we can demonstrate what the grass-roots here want." The student and faculty involvement is important.

Biology Dedication To Be Held

The Department of Biology will officially dedicate the Kent A. Terrani Memorial Student Study and Research Room at 4 to 5 p.m. in Room 307 of Storke Hall.

The student lounge was donated by Mr. and Mrs. George Terrani and others in memory of their son, Kent, who was a senior UMSL student majoring in biology. Kent was working on his research project involving viral identification using the Electro-Optical (EO) and Washington University Medical School laboratories.

The lounge also houses a teaching electron microscope which provides an opportunity for students to become involved in concepts and skills that were previously not available to them.

Ellena's Greek American Restaurant

House Specialty — Gyro Sandwich
FREE Soda w/Student ID

Hours: Mon-Thurs 11-10  
Fri-Sat 11-11  
5423 Forest Bridge  
Beaver, MD 20124  
301-775-5777

Take-out orders available

Get down to business faster. With the BA-35.

If there's one thing business students have always needed, it's an affordable, business-oriented calculator. The Texas Instruments BA-35, the Student Business Analyst, includes business formulas to perform complicated finance, accounting and statistical functions — the same that normally require a lot of time and a stack of reference books, to help you get the most out of your classes, internships and, ultimately, your career.

The BA-35 means you spend less time calculating, and more time learning. One bonus: the place of more.

The calculator is just part of the package. You also get a book that follows your business courses — the Business Analyst — Student Workbook. Business professionals helped us write it, to make sure you get the most out of your college and classroom, and get down to business faster.

A powerful combination. The BA-35. For more information call

Beck Scheduled To Speak
Joan Beck will be the keynote speaker at the 8th Annual Midwest Education-Education Conference to be held at St. Louis University.

The conference will focus on the topic of diversity in education. Beck, who is known for her work in the field of educational policy, will discuss the importance of including diverse perspectives in the educational system.

Wednesday, September 25
11:30 a.m. - 1:30 p.m.
U. Center Patio or Lounge

Beck will lead two of the concurrent workshops which will be discussion sessions with parents and teachers.

The conference has been designed to benefit parents, teachers, administrators, social workers, and students in the area.

Pre-registration for the conference is $10 for single or $50 for corporate single. The fee includes lunch.

More information about the conference is available by calling Clark Backman at 355-3941.

UMSL Physics, Astronomy
To Aid Viewers Of Comet

Accurate information that comets were atmospheric phenomena, because of his prestige, this opinion held sway until 1577, when the German astronomer, Kepler, declared comets were formed at the outer edge of the solar system, and not as the basis of Halley's, is that these comets are made of icy material.

The comet is not the only one of its kind currently visible. Halley's comet, which was first seen in 1066 and last visible in 1910, will be in the southern sky in late March, the most desirable period for observation. It will be at its brightest in September, but will not be as bright as later, and it will only be visible in the predawn sky in southern regions.

Halley's comet is periodic, having a period of 76 years, and will recur in 2061. The next apparition of Halley's comet will be in 2062.

The comet will be visible in the southern sky in late March, and will be at its brightest in September. It will be in the predawn sky in southern regions, but will only be visible in the predawn sky in northern regions.

The comet will be visible in the southern sky in late March, and will be at its brightest in September. It will be in the predawn sky in southern regions, but will only be visible in the predawn sky in northern regions.

is heard weekdays from 5 to 9 a.m. on KWMU 90.7 FM, the National Public Radio Station of the University of Missouri-St. Louis.

MORNING EDITION will be originating from the KWMU studios on September 25-27. As this program normally originates from Washington, D.C., this represents a landmark event in St. Louis broadcasting history.

MORNING EDITION’s visit to St. Louis will be heard on more than 300 NPR affiliates across the country.

UNIVERSITY OF MISSOURI—ST. LOUIS
Riverwomen Survive Altitude, Competition

Chuck Smith

The Riverwomen overcame altitude, exhaustion, and unexpected competition to make it to the last two matches of the National Invitational. The 5-4 win over Denver and 1-1 tie with Colorado Springs were the final two matches in the National Invitational. The Riverwomen had 15 points going into the final two matches, but they needed to win both to guarantee a top four finish.

The Riverwomen were successful in both matches, leaving the National Invitational with a 6-6-1 record. They scored 22 goals and allowed 22 goals in the tournament. The Riverwomen had a strong defense, allowing only 1 goal in their last two matches.

The Riverwomen's next game will be against the University of Missouri-St. Louis in the Missouri Valley Conference. The Riverwomen are off to a 3-1 start and are looking to maintain their momentum.
Memories Of Early Years Bring Smiles To Devoted Judy Berres

Riverrwomen

from page 5

That they were all 3-0 with Harold Barbers at all the mainstays in the play of the University of Illinois. While the team was struggling with enthusiasm and attitude, the Parkway North star came up big and over. She says that anything you could ask for. "He had us all fired up and we were able to win.

Volleyball

They were 3-0 with Harold Barbers at all the mainstays in the play of the University of Illinois. While the team was struggling with enthusiasm and attitude, the Parkway North star came up big and over. She says that anything you could ask for. "He had us all fired up and we were able to win.

Jennings, though, got the better of Harter, despite her tactics. In heading style grillage, Jennings gave the Dutchess a 1-0 victory with her goal at 99:48.

Smith

from page 6

Smith's greatest soccer accomplishment was probably her game in the Women's World Cup in 2011, where she played against Germany. In that game, she scored two goals. Her achievements were later included in the 1978 publication which also recognized her contributions to the university. Smith's role in the program was considered instrumental in improving the athletic program at the university.

The Current will hold an organizational meeting for all interested students on September 27 from 2 to 4 p.m. at the Blue Metal Office Building on the north end of the UMSL campus.

Keeping touch with her athletes was something that Berres did throughout her career. She maintained a strong rapport with her players, and she always made sure to keep in touch with them even after they left the university. Berres' words reflect her attitude towards coaching and her dedication to developing her athletes.

FREE SOUTH AFRICA: DIVEST NOW!

South Africa, a country with a long history of apartheid, was sanctioned by international bodies to apply economic pressure and bring about the end of the system. Diving diplomatic relations, economic sanctions, and cultural boycotts were some of the methods employed. Theaim was to isolate South Africa and pressure the government to end apartheid and release Nelson Mandela, who was imprisoned for 27 years. This campaign was part of a broader global movement to support the struggle against apartheid. The call was made by the Student Association (Greg, History or Soc at 833-5105 for more information or stop by Student Association in room 262 University Center).
