"Foes’Work Toward UM Development"  
Daniel A. Kimack

It is almost ironic that Student Senate Associate President Greg Barnes was president. UMSL, now work side by side to try to "UM Investment in University Business with South Africa." What has turned its fate a love affair of sorts between the students and the university is the philosophy, wanton thought, or ideological stagnation of its leadership. At the time, there was no one on campus thinking about anything outside of the United States. We were going to buy our Black students a home so far as it really started off as an admission..."

Creative Weight Loss Tips To Be Offered By Continuing Education

A course on creative weight loss will be offered by J.C. Penney Extension Tuesday, Oct. 1-9, 6:30 to 8 p.m. in Room 7, J.C. Penney Building. The course will begin Sept. 28.

The goal of the course is to help participants recognize their habits for overeating and begin to execute their respective weight-loss strategies.

Teaching the course will be Janeen Jaffe, a former educational consultant. Jaffe has a master's degree in counseling and has been conducting human development and life-skills workshops since 1977. For information and registration, call 553-5961.

Investing In Antiques, Decorative Arts To Be Offered Here At UMSL

A course on investing in antiques and decorative arts will be offered at UMSL beginning Wednesday, Oct. 1. From 7 to 9:30 p.m. in Room 108, J.C. Penney Building. The course will be offered during the fall semester and will be held on Wednesday evenings.

The course will help participants evaluate prospective purchases and make decisions on how, when and where to sell. Specifics on antiques and decorative arts will be the topic for the first two classes.

More information about the class is available by calling Noni Williams at 553-5961.

Speaking Skills For Professionals' Large And Small Group Dynamics

The UMSL Continuing Education Division will offer a non-credit course, "Speaking Skills For Professionals' Large & Small Group Dynamics," Saturday, Oct. 7, 9 a.m. to 3:30 p.m. in Room 112, J.C. Penney Building.

The course is designed for professionals preparing to speak in a large or small, formal or informal settings. Presentation skills, audience/accumulation analysis, introduction techniques and techniques to control nervousness and build confidence will be taught during the course.

The course will be held in the J.C. Penney Building. A $59.95 fee includes lunch. For further information, call Joe Williams at 553-5961.

Writing Personal Life History Is Topic Of Six-Week Course

The UMSL Continuing Education Division will offer "Writing Your Personal Life History," a six-week course, from Oct. 8 to Nov. 12 at 6:30 to 8 p.m. The course is designed to help turn personal recollections into facts and agreeable writing. The class format includes in class writing and discussion. Topics covered in the course range from gathering materials to revising your finished product. The course will be held in Room 408. For further information, call Clark Hartman at 553-5961.

National Student Group Funding Challenged; Ruling Prohibits PIRG System of Funding

The College Republican National Committee reportedly attempted to remove in March, 1986 instructing legal help to challenge Campus PIRG chapters, suggesting tactics ranging from infiltrating groups to challenging for structures in student government decisions.

The Rutgers PIRG has strong student support, Sims said. In campus elections last spring, when more than 75 percent of the vote was captive, approximately 40 percent of those voting favored the negative check-off.

But the fewer decisions in 1986 are not anticipated to overturn the decision, it will be up to the layman.

David Scott of Rutgers' legal staff said Scott himself or Rutgers legal staff will go to a personal check-off system next year.

The decision stands, "there is cause for concern," Scott predicted. "It could limit funding all sorts of activities.

Citing the three-passing Rutgers cases, Pennsylvania's Board of Higher Education issued in 1986 the three-passing budget funding system for the Commonwealth Association of Students, a statewide group that is blood in Harrisburg's budget and other student issues.

Joe Williams, head of the programming aid, said that when he announced the decision he was doubly encouraged by the decision.

"I am doubly encouraged," Williams said, "it is a victory for our efforts to keep this decision in the state.

"The Kasbar"

One of the major concerns for many students is the amount of prayer and discussion the Kasbar offers.

"This is a system designed to exploit apathy," contended Joseph Marshall, a lawyer with the National Student Grouping Foundation, a conservative legal defense organization, in the case.

"It's a system designed to exploit apathy," testified Joseph Marshall, a lawyer with the National Student Grouping Foundation, a conservative legal defense organization.

"It's a system designed to exploit apathy," contended Joseph Marshall, a lawyer with the National Student Grouping Foundation, a conservative legal defense organization.

Optometry School Warnings Contact Lens Wearers of Cut Rate Service

"A lot of people don't realize that cut-rate prices are the cause of many eye care problems," said Dr. Robert L. Donaldson, professor of optometry, University of Missouri-Kansas City. "Many of these people may be unaware of the problems that can arise from wearing contact lenses of low quality." 

The most common problem is that low-quality lenses are made of materials that can cause eye irritation, redness, and dryness. They may also allow harmful bacteria to enter the eye, leading to infections. Patients who wear cut-rate lenses are at risk for these problems, Dr. Donaldson said.

"The problem is that cut-rate lenses are not made to fit the individual eye," he added. "When a patient chooses a low-quality lens, they are putting themselves at risk for eye infection and other serious problems." 

Dr. Donaldson recommended that patients purchase contact lenses from reputable sources, such as local optometrists or eye care professionals. He also advised patients to follow proper care instructions for their lenses to ensure maximum comfort and vision.

"The key is to choose a reputable source for your contact lenses," Dr. Donaldson said. "We want to ensure that our patients are getting the best possible care for their eyes."
Moral Obligations Are Part Of Decision

Doug Russell, president of the University of Missouri-Kansas City, does not feel the university should allow moral "obligations" to affect financial decisions.

Under Russell's guidance then, UM should not feel the smallest responsibility towards over $146 million invested in companies doing business in South Africa. As a Christian, however, Russell stated that had the university included would be the countries as well as the students—not feel morally obligated to defend the rights of blacks in South Africa, where a white racist government dominates?

That cant be feeling if the UM Task Force studying South Africa investments is anything more than just a public relations exercise, according to former Student Senate President Dan Jang. "I don't see how they can sit in good conscience and say the university should feel "obligations" towards social and political justice and reason.

That is not what hundreds of students or faculty members have chosen to do. It is not what the university should choose.

Russell's predecessor, President Greg Barnes said the task force has honestly considered too many factors to come to a conclusion. "I don't see how the university can feel "obligations" towards social and political justice and reason.

That is not what hundreds of students or faculty members have chosen to do. It is not what the university should choose.

**German-American Relations: Nato and the German Reunification**

Tuesday, September 29, 7:30 p.m. in the McDonnell Con-
ference Room, 535 A WU Library.

Dr. John Hartman, of the University of North Carolina, will discuss the history and implications of German-American relations since the end of World War II. Hartman will focus on the role of Germany in the postwar international system and the impact of German reunification on American policy.

**Women's Center Experiment**

Tuesday, October 6, 7:30 p.m. in Room 218 Mark Twain Build-

The Women's Center will present an introduction to the use of computers in education. The seminar will include a hands-on demonstration of computer software for teaching and learning. Participants will be given the opportunity to practice using the software and to develop their own instructional materials.

**Music and Computers**

Tuesday, October 13, 7:30 p.m. in Room 218 Mark Twain Build-

The Music Department will present a seminar on the use of computers in music composition and production. The seminar will include a demonstration of software for music notation, recording, and editing.

**Computers and Society**

Tuesday, October 20, 7:30 p.m. in Room 218 Mark Twain Build-

The Center for Social and Economic Research will present a seminar on the impact of computers on society. The seminar will include a discussion of the economic, social, and ethical implications of computer technology.

**Women's Center Seminar**

Tuesday, October 27, 7:30 p.m. in Room 218 Mark Twain Build-

The Women's Center will present a seminar on women's issues in the workplace and in society. The seminar will include a panel discussion with women from different fields and backgrounds.

**Music and Computers**

Tuesday, November 3, 7:30 p.m. in Room 218 Mark Twain Build-

The Music Department will present a seminar on the use of computers in music composition and production. The seminar will include a demonstration of software for music notation, recording, and editing.

**Computers and Society**

Tuesday, November 10, 7:30 p.m. in Room 218 Mark Twain Build-

The Center for Social and Economic Research will present a seminar on the impact of computers on society. The seminar will include a discussion of the economic, social, and ethical implications of computer technology.

**Women's Center Seminar**

Tuesday, November 17, 7:30 p.m. in Room 218 Mark Twain Build-

The Women's Center will present a seminar on women's issues in the workplace and in society. The seminar will include a panel discussion with women from different fields and backgrounds.

**Music and Computers**

Tuesday, November 24, 7:30 p.m. in Room 218 Mark Twain Build-

The Music Department will present a seminar on the use of computers in music composition and production. The seminar will include a demonstration of software for music notation, recording, and editing.

**Computers and Society**

Tuesday, December 1, 7:30 p.m. in Room 218 Mark Twain Build-

The Center for Social and Economic Research will present a seminar on the impact of computers on society. The seminar will include a discussion of the economic, social, and ethical implications of computer technology.

**Women's Center Seminar**

Tuesday, December 8, 7:30 p.m. in Room 218 Mark Twain Build-

The Women's Center will present a seminar on women's issues in the workplace and in society. The seminar will include a panel discussion with women from different fields and backgrounds.
Missy Smith

The first thing you should be asking yourself, "Who am I?" Brown, 19, is a clarinet major at Jamestown Community College, having performed in numerous ensembles. "I've been in the clarinet section of the symphony," he said. "The clarinet section of the symphony is very unique, because it's all clarinetists."

Brown, a science teacher at McClure High School, was one of two Missouri finalists in the U.S. Astronautics Association's "NASCAT's" contest for science teachers. "I've been teaching at McClure High for two years," he said. "I've had the privilege of meeting the kids from Missouri, as well as the teachers from Missouri."

Brown's goal is flying us down to Cape Canaveral. "If we go to Cape Canaveral, I'll be attending the first meeting of a group of three or four other teachers and students who have been selected from across the nation," he said. "It's an amazing experience for me, knowing that I've been chosen to participate in this program."

Are we witnessing a crisis in education? "I think we are," said Brown. "We're seeing a crisis in education, not just in Missouri, but across the nation. The current education system is not meeting the needs of our students."

John Hinton

"The chorus is open to anyone and everyone, and there's no audi­tion required. Over the last few years, we've attracted a wide range of individuals, from high school age to those in their 70s — people with a wide range of musical backgrounds and occupations." Hinton added. "Our goal is to provide an atmosphere where people can come together and enjoy music, regardless of their backgrounds."
Peter Donohoe Makes Local Debut At UMSL Performance

The notice of performances which culminated in British pianist Peter Donohoe's sensational prize at the 1982 Tchaikovsky Competition in Moscow, must be remembered as one of the most exciting tones in musical performance history. 

As a young professional pianist, Donohoe found himself virtually introduced to the music-loving audience by hundreds of well-meaners, who changed his name to sensation and bestowed him with champagne, flowers and Rimsky-Korsakov's灰尘, in any nothing of the usual letters of influence and deprecation. There was no possibility of mined criticism. 

Born in London, England, Donohoe graduated from the Royal Manchester College of Music, under the instruction of Dr. Arthur Lani, who is a member of London's Metropolitan Opera, and, at the ripe age of 8, he became a pupil of the great Spaniard, Ramon Rozic, in Paris. 

Donohoe's performances were characterized by an exalted sense of devotion, the made his debut with the Los Angeles Symphony Orchestra and its conductor, Simon Kenton, his recital, at the Los Angeles Philharmonic. 

In the 1983-84 season, Donohoe made his debut with the London Philharmonic and with the Rotterdam Philharmonic. He also made two outstandingly successful tours of the Soviet Union and Australia. 

At a recital in Moscow's柴科夫斯基 Conservatory, he gave 11 encores to an audacity in which he not only improvised on the piano but also sang from his heart and soul. His operatic performance of the following year, 1983, was played the complete Rachmaninoff's concert with the Losangian Philharmonic, in what was described as "the greatest performance of the year." 

In August, 1983, however, he was to be a major concert artist of Australia for the Australian Broadcasting Corporation, drawing reviews from the local press. 

His debut, in November, 1983, with the Chicago Symphony, caused the Chicago Tribune music critic to comment: "This was overwhelmingly the performance of the year."

Donohoe's recital was later televised in Holland, Finland, Canada and Japan, and is scheduled to appear in Paris, College and other major European capitals. 

Donohoe's recordings for EMI also include works by Belton, Rachmaninoff, Stravinsky and Rachmaninoff. 

After a 46-minute pre-concert lecture by pianist John Allain on the workshops of international pianists, every concert will begin one hour before the concert in Room 10 of the J.C. Penney Building. 

A live interview with Peter Donohoe will be broadcast on KWMU on Saturday, October 15, between 11:10 and 11:21. 

The "Premieres Performance," season will include Maria Briguie, Spanish Dance Company, An Evening of Spanish Dances, and an encore for the audience. 

For additional information, call 329-9800, or write Student Activities, Ed. University Center, University of Missouri-St. Louis, St. Louis, Mo. 63121.
Rivermen Sail Past Memphis State

Hantak Nears UMSL Career Scoring Record

Hantak, who is one goal shy of the 25th goal of his career, said that everyone is a "lazy?" this season because they are afraid to make mistakes. "It makes me want to work harder and make things happen for us," he said.

"We need to get back to basics," Hantak said. "We need to have more discipline in our game and make sure we're using our bodies to our advantage. We need to be more aggressive and take advantage of our opportunities."
Rech Looks For Offense, Consistency

Den Noss

"We played better than we scored," said Cindy Rech, head coach of the University of Missouri-St. Louis' Riverwomen team. "It's not a situation where we're scoring a little bit and not playing well defensively. We're playing well defensively. We're not scoring enough as a team despite some (indicated)," said Cindy Rech about the Riverwomen, who were defeated by the Illinois State University 3-2, 1985.

"For the first time this season," said Rech, "it was during the middle game, John Bielicki rebound and blasted it. The Riverwomen just aren't able to set the tone in the women's game as Kathy Guinner and Ruth Harker, whispers of the fears of the first year is tough for everyone. We're not sure what's going to happen. We're not sure if they're going to be a part of the team.

"Having played with the tallies, she felt the large and loud and around a handful of Lindenwood defenders. But that is far into Lisa Jost's experience again and to make her statement.

"But that is far into Lisa Jost's experience again and to make her statement. She's a better gamer than the others. She's a better gamer than the others. She's a better gamer than the others.

"I saw a total feeling she felt, and Jost concurs, that she never found Ruth Harker to be a person. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other. Their mutual respect for the other.

"In the belief that you are a foe of apartheid — one cannot be neutral — I ask you to help me bring an end to the deliberate, systematic brutalization of my countrymen by their own government. It is no more a political issue for men and women of conscience than support of Nazism is a political issue for men and women of conscience than support of Nazism is a political issue. It is a moral issue. Disinvest ment is our last chance."

Bishop Desmond Tutu, Nobel Peace Laureate

We, the undersigned, as members and leaders of the UMSL and the surrounding urge the University of Missouri to support Bishop Tutu and the 34 million other victims of apartheid by divesting our $102 million in holdings linked to that appalling system. The relevant facts are these:

- Apartheid is one of the most subtly vicious systems on the face of the planet and a direct derivative of the Master Race philosophy that the Nuremberg Tribunal declared must never again be facilitated through even minor acts of cooperation by individuals, institutions, or nations. Resulting participation of more than three-quarters of the population, the denial of all legal and political rights, the deliberate destruction of the family unit, racial segregation, and staggering infant mortality rates (50% in the bantustans) in the midst of one of the world's wealthiest societies characterize a horror that simply cannot be ignored.

- South African investments are economically sound. Major banks are refusing to "roll over" the country's massive foreign debt. The value of the rand is plummeting, and the Johannesburg Stock Exchange has been closed. Foreign capital. Reducing responsibility therefore compels an action which recognizes the instability of that investment climate. Divestment is one such action.

- The purpose of a university is to push back the frontiers of human progress and in so doing improve the quality of life. Thus, the university should be in the vanguard of an effort to perfect and apply nonviolent techniques that encourage such developments, including more socially responsible investment policies. The university's commitment to racial equality, the denial of meaningful education to black South Africans, and the beating and imprisonment of student and university leaders in South Africa for nonviolent advocacy of equal opportunity are additional reasons for university involvement.

- The technology exists to implement a divestment policy without loss to the portfolio. An alternative investment universe constructed by Mitchell Investment Corp. Inc., produced an average stock-price increase over the past year of 22.2% versus 13.9% for the top category of Sullivan signatories and a mere 2.7% for nonsignatories. A recent study commissioned by the Governor of New Mexico determined that state will make an additional $14.3 million through revestment. The state of Connecticut has already reported a $5.2 million gain following divestment. Studies by Chemical Bank; the US Trust Co. and Trinity Investment Management Corporation were summarized by the President of Franklin Research Company as demonstrating that "over time South Africa-free companies have outperformed the restricted stocks with a minimal amount of added risk."

The time for excuses is past. It is time our university followed the lead of 59 other universities, two dozen major cities, and eight states by supporting the desires of 77% of the South African population divesting. Pride in our university allows no less.
