For Women

Senator speaks, approach leadership roles

A new, and often underestimated, approach to leadership roles in the Senate was presented yesterday by Senator Steven Magrath. Senator Magrath spoke on his experiences as the Senate's first woman leader, highlighting the unique voice, its risk taking, and its relationship with others and the Senate's ability to be more inclusive.

Magrath noted that while previous leadership positions have been held by men, the Senate has seen an increase in women leaders in recent years. He emphasized that effective leadership requires a different approach, one that values diversity and inclusivity.

"In the past, leadership roles were often seen as exclusive and not open to women," said Magrath. "But I believe that women bring a fresh perspective to the Senate, one that is more inclusive and collaborative."

Magrath also discussed the importance of mentorship, highlighting the need for women to support and mentor one another in leadership roles. He encouraged women to step up and take on leadership positions, knowing that they can bring a unique and valuable perspective to the Senate.

Magrath's remarks were well-received by the audience, who applauded his speech and expressed their support for women leaders in the Senate.

UML Health Fair Offers Screening, Blood Testing

Health Fair USA will come to UMSL, April 14 from 9 a.m. to 1 p.m. in the Student Center. UML is one of the selected for area-wide Health Fair USA Week, April 14 to 16.

Health Fair is part of a national volunteer effort to make an impact on the health and well-being of Americans. It is an area-wide screening project designed to identify potential health problems, such as high blood pressure, vision problems, obesity, etc. Health Fair does not refer the patient to a doctor, but does alert individuals to the need for follow-up care.

It does select individuals in prob­lem areas. However, the goal is to help the patient and can direct you if necessary. It is a free service.

It does not refer individuals to specific physicians and can direct the patient if you are in a problem area.

You register at the Health Fair, a health history will be filled out, and either a free health fair or a health fair report will be conveyed with you to a doctor. The following results will be conveyed with you to your doctor, if you desire.

The health fair will offer other health checks, vision checks and a blood pressure test, and body frame size.

"We register at the Health Fair, a health history will be filled out, and either a free health fair or a health fair report will be conveyed with you to a doctor. The following results will be conveyed with you to your doctor, if you desire."

BASEBALL

The Rivernines baseball team has been on a tear, winning seven of eight games last week. The Rivernines will kick off the season with games on Friday and Saturday at 3:10 p.m. at the University of Missouri-St. Louis.

For Women

Women leaders often take more risks and use innovative strategies to succeed. Diane K. Smith, a student at UMSL, spoke about her experiences as Senate leader last Friday.

Smith is the first woman to lead the Senate, and she has been doing it since her freshman year. "It's been a challenge, but I've learned a lot," she said. "I've had to work harder, but I've also had to think differently."

Smith described a style that she feels is intuitive for women leaders. She emphasized the importance of being approachable and cooperative, and often stands shoulder to shoulder in receiving lines and at events.

She also spoke about the need for men to support women leaders, "Men should be willing to listen to women leaders, and to learn from them," she said. "Women leaders bring a fresh perspective to the Senate, one that is more inclusive and collaborative."

Smith's remarks were well-received by the audience, who applauded her speech and expressed their support for women leaders in the Senate.

BASEBALL

The Rivernines baseball team has been on a tear, winning seven of eight games last week. The Rivernines will kick off the season with games on Friday and Saturday at 3:10 p.m. at the University of Missouri-St. Louis.
The university should implement representatives from recognized student organizations. The committee, chaired by UM-Kansas City Chancellor George A. Russell, was created to address long-range planning objectives that seek to increase both the quality and quantity of faculty research and to multi-sponsored research building.

The committee’s report has been discussed by the Academic Affairs Council, the graduate dean group, the Interdisciplinary Faculty Council, and administrative staff groups.

The committee’s recommendations:

- The university should implement a policy statement stressing the importance of external support for research and scholarly activity. The policy statement should be made available to faculty and department chairs should be responsible for using the reward system of the university to promote research and scholarship.

- To bring "world-class" scholars to the university, the university should create five or six endowed chairs for each campus over the next five years. Each chair would be funded at $1 million each by the university, the state, and the private sector.

- A new Office of Patent and Technology Transfer should be created with a full-time administrator and staff to emphasize support for external support for research and scholarship.

Applications are now being taken for the SA election in April '86. Applications are included on the form and may be picked up at the Office of Student Affairs, Benton Hall, and the University Center. The deadline for application is April 10, 1986.

TELECONFERENCE: Participants watch a video monitor during a video teleconference called the "National AIDS Forum Separating Fact from Fiction." Participants were asked to interact with the videoconference and were asked to include questions and included questions and answers from a local panel.

Earn college credit at home: an alternative to the campus setting. Summer 1986

Earn college credit conveniently at home through telecourses offered by St. Louis Community College on KSDK-Channel 9 and Cencord Cable Channel 31. It's a great way to get started on a college degree, continue your education, update job skills or explore a special interest. Earn three college credits for each of the following courses.

HST512 HERITAGE, CIVILIZATION AND THE JEWS ("Heritage: Civilization and the Jews")
Course Begins: May 31, 1986

PSY203 CHILD PSYCHOLOGY ("The Growing Years")
Course Begins: June 7, 1986

DP100 INTRODUCTION TO DATA PROCESSING ("The New Literacy: An Introduction to Computers")
Course Begins: June 10, 1986

Applications are being accepted for positions on the 1986-87 Current staff.

Interested students are invited to attend an organizational meeting on Friday, April 18, at 6 p.m. in the #1 Blue Metal Office Building. The focus of the meeting will be to introduce students to the various opportunities the Current offers.

Students unable to attend the meeting should contact Steve Bravewy at 553-5174 for further information about the newspaper. The 1986-87 staff will begin its work over the summer. Take time to begin your portfolio and let the Current put your major to work for you.

Incentives: Curators To Consider Faculty Support

The committee, chaired by UM-Kansas City Chancellor George A. Russell, was created to address long-range planning objectives that seek to increase both the quality and quantity of faculty research and to multi-sponsored research building.

The committee’s report has been discussed by the Academic Affairs Council, the graduate dean group, the Interdisciplinary Faculty Council, and administrative staff groups.

The committee’s recommendations:

- The university should implement a policy statement stressing the importance of external support for research and scholarly activity. The policy statement should be made available to faculty and department chairs should be responsible for using the reward system of the university to promote research and scholarship.

- To bring "world-class" scholars to the university, the university should create five or six endowed chairs for each campus over the next five years. Each chair would be funded at $1 million each by the university, the state, and the private sector.

- A new Office of Patent and Technology Transfer should be created with a full-time administrator and staff to emphasize support for external support for research and scholarship.

Applications are now being taken for the SA election in April '86. Applications are included on the form and may be picked up at the Office of Student Affairs, Benton Hall, and the University Center. The deadline for application is April 10, 1986.

Applications are now being taken for prospective candidates for offices in the Student Association. Students will be elected to the SA from each division in the college according to the student population in each school.

The number of students of each division that may be elected shall be determined by the Student Senate. Special Committees shall be constituted to select the candidates that shall be eligible for the office and shall also be made available to departments that have faculty members who are successful in obtaining external support for research and scholarship.

Members of Russell's committee on research were Robert E. Day, UM-Folta engineering professor; James Mohn, UM-Fla engineering professor; Herbert Goldberg, UM-Columbia neurosciences professor; Robert L. Ross, UM president; and Philip W. Butterfield, UM assistant vice president for financial services.

The committee’s report has been discussed by the Academic Affairs Council, the graduate dean group, the Interdisciplinary Faculty Council, and administrative staff groups.

The committee’s recommendations:

- The university should implement a policy statement stressing the importance of external support for research and scholarly activity. The policy statement should be made available to faculty and department chairs should be responsible for using the reward system of the university to promote research and scholarship.

STUDENT LOANS

THIRD SEMESTER HELP

April is tax time for many students and it’s a great time to get organized. Use this plan to make sure you get the most out of your return.

Step 1: Gather all your tax documents.
Step 2: Fill out your tax forms.
Step 3: Submit your tax forms.

The results will be in your bank account within 2 weeks.

**Remember** to keep a copy of your tax forms for your records.

*This plan is not available for international students.*
Health Fair USA

Coming To Campus

UMSL will be hosting Health Fair USA in the Mark Twain Building this semester. The event will make the metropolitan health campus area-wide screening project and allow people to identify potential health problems.

The Fair will provide free and sound advice in many different areas, including blood pressure, obesity, diabetes, glioblastoma, kidney and liver disease, gout, and other abnormalities.

Through last year’s participation, 15 percent of the individuals screened were detected to have some abnormality of which they were not aware. About 10 percent of the individuals detected to have some abnormalities were of persons involved in problems in the health and well-being of the community.

The event is open to the public, and students who enroll in current health courses are encouraged to participate.

Disabled Week Not Just A Few Days

UMSL celebrated the sixteenth annual Disabled Week last week, with events ranging from music to movies. The week, which is celebrated the last week of April, is designed to raise awareness about the issues faced by those with disabilities.

Announcement By SA President

Dear Editor:

On April 18th, all students will have the opportunity to vote for candidates of the student government. It is vital that students participate in electing the candidates they feel will best serve their interests. Your choice of leadership will have an impact on your future activities. Thus, your vote is critical.

There are two candidates running for the position of Student Association president. Having been in student government for two years, have the ability, experience, and enthusiasm for the position is my candidacy for Student Association president. Having been in student government for two years, I have the ability, experience, and enthusiasm for the position is my candidacy for Student Association president. The article discusses a cheerleading coach named Carol McGraw, who is also known for her interest in gymnastics. McGraw was a teaching associate in biology and enjoys both basketball and gymnastics. She mentions the challenges of being a cheerleading coach and the importance of physical fitness. The article also includes quotes from other members of the gymnastics team about their experiences and goals. The coach, McGraw, stresses the importance of teamwork and perseverance in sports. The article provides insights into the daily routine of a cheerleading coach and the dedication required for the sport. The article ends with a statement about McGraw's focus on developing the best possible team to avoid strain and injury.
Warms Against Setting Forest Fires

Jim Schwartz reports:

As the setting sun dawned several days ago, the sky was darkened by a dense band of smoke that had been pouring from the forest fires. My friends and I had gone out to the country to spend the night at my cabin.

Unlike so many others around us, we had no fire of our own. We had already managed our own fire by the time our assailants had struck. We had, however, had a good meal and a good time!

They had arrived before us, and had already managed their fire in the midst of a kilometer-wide area that was blackened by the fires. They had, however, had a good meal and a good time!

Our forest was just far enough away from the big smoke, where we had trouble seeing it. I thought I was seeing things, but then I decided to go out and see what I thought I was, but then I decided to take a look at the sky.

I looked out the window to see the moon shining. My friends and I took a deep breath and then left to go on a fishing trip, leaving their campfire lit.
Rivermen Back On Top With 7-1 Week

Dave Brown

A week ago, UMSL baseball Jim Brady predicted that the Rivermen were set for their run, and they did it last week. They went 4-1-1 last week and scored 41 runs.

The Iowa Wesleyan team was the first real test for the Rivermen as they placed a doubleheader last week in a 3-2 and 9-7 defeat. They picked up their first win of the season the next day, 6-5, and Tom Hensley was the winner in the 8-4 game the next day.

On Wednesday, the Rivermen faced off against Iowa Wesleyan and took a 4-3 win. Dan Blank went all nine innings, giving up five hits and three runs. The Rivermen fought back to tie the game in the 1st inning. Marissa Alvis singled and Jan Kruter advanced to second for the first run followed with a single to even the score.

Although SUI-E won the game in the tenth on an UMSL error, Cris Hardy was pleased with his team’s overall performance.

"The feel it was a psychological break in the game. It’s a situation where we could play better, that’s all we need to have that question."

The team also received a jolt when second baseman Greg King was called for a strikeout in the ninth inning at the plate and the game was over.

The Rivermen have some favorable numbers and are only on the weekends. In the last nine games, King has had an on-base percentage of over .400. Greg King is selected in the 1st position in the batting order.

"He will be missed in the lineup," Cris Hardy said.

The competition is tough in the Missouri Valley Conference, but the Rivermen still have a shot at winning the conference.

"We’re still in the running for the conference title," Cris Hardy said.

In the single match among Northwest Missouri State University, the Rivermen were shut out. 4-0. The Rivermen failed to get into the game in the competition.

The Rivermen host Truman and Southeast Missouri State in their next series on April 18.

Sports

Tennis Decline Continues

The UMSL tennis team fell through another tough week, with the record now at 3-6 overall and 0-2 in Missouri Intercollegiate Athletic Association play.

The Rivermen have 4-6 last week and are now 0-2 in the MIAA.

Like baseball, the Rivermen’s tennis was a mixed bag with a win and a loss last week. Six wins, nine losses, and a tie were the final three losses and scored just 3-2.

The team will host Northwest Missouri State University this week. The women’s tennis team won two matches and lost one last week. The MIAA recorded five wins, 13 losses, and a tie.

The team has a short break for the Missouri Valley Conference before returning to competition.

Soccer-Softball Works For Three

Diane Shuler

"Editor’s Note: Last week, the baseball/softball players cơme together to make a strong team, and this week, the tennis team followed suit.

Like baseball and softball, tennis are very different sports, but they share some commonalities.

The UMSL tennis team has some unfavorable words about the past week, but there is a short break for the Missouri Valley Conference.
