Research Park Announced

Craig A. Martin

A University of Missouri-Rollafreshman has been appointed by Missouri Gov. John Ashcroft to the Board of Curators.

Ashcroft, who had reviewed the various size plots by the Board of Curators, said that the project will create an urban area west of the University land, and is expected to cost over $400 million.

The project will include 266 acres of land donated to U.S. Army.
BARS SHOULD NOT TAKE HATE FOR DWI

Drunk driving has reached epidemic proportions in the United States. It is inevitable that, with all the accidents and fatalities due to driving under the influence of alcohol, that the next step would be placing the blame on the wrong one else. This is already the case. The focus of the so-called "slog" of a drunk driver, who has been injured or killed in an accident of their own doing, are now trying to place the blame somewhere else. Drinking establishments seem to be the last person's fault. This is not the last person's fault. Bars are not responsible for controlling the drinking of their patrons. If you are too drunk to drive, it is difficult for bars to keep track of you if you are actually drinking. And one bar cannot handle all the blame, because it is not only how many times more of bars the person has already frequented. It is unfair to blame bars for what happens to an adult drinker. If this solution is tolerated, then, quite honestly there must be other causative factors that need to be considered.

Consider grocery and liquor stores that sell alcohol. It will be almost impossible to blame the blame on the blame of these distributors, because you are in the business of selling alcohol. These distributors need to have no way of knowing what a person intends to do with their alcohol, whether it's to sit up a bar at home, or they abuse it along on a long drive. If the blame is going to be placed somewhere, it cannot be placed on the bars, because we cannot control every time someone is out consuming alcohol. If this solution is tolerated, then, quite honestly there must be other causative factors that need to be considered.

Cooperative Plan Will Help UMSL, St. Louis

It's not a merger between UMSL and Harris-Stowe State University and Louis Community College, but it is cooperation between the three institutions in the St. Louis area.

Last year, UMSL, Harris-Stowe State University and the St. Louis Community College began to explore the possibility of forming a cooperative education plan between the two schools by the Consortium for Community College Education.

They reached what critics called a "meaningful" agreement that left many students already enrolled in the plan largely clueless about the changes.

What has come of the idea, it seems, is the cooperative education plan between the two schools of the Harris-Stowe State University and the St. Louis Community College. It may not be as up-to-date as the proposed merger, but it could benefit the students of both institutions. According to the agreement, cooperation between the two schools and the area colleges and universities will result in more positive step up for students who are transferring from Harris-Stowe State University.

When the cooperative education plan will be announced, the area colleges and universities will focus on sharing the same undergraduate requirements for the UMSL, Harris-Stowe State University and St. Louis Community College.

It will focus on broadening the potential of post-secondary education into the area high school districts.

That seems to be more a positive step up for students who are transferring from Harris-Stowe State University and UMSL, which moved more than any others.

Plight Of Navajo Indian Observed

Dear Editor:

Most students are aware of the problem of opium addiction among the Navajo people and the tragic results that is happening in our own country. The U.S. government is doing nothing to help solve the problem, instead it is causing more problems. However, our problem is not just with the Navajo people. The Navajo people are just one of the few places where the Navajo people are still in existence. Most of the people of the Navajo are breathing smoke, therefore the U.S. government has been responsible for this. The U.S. government has been responsible for this.

Bill's Will Help Health Care Law

Dear Editor:

The Missouri Legislature is to be complimented for its speedy action in passing a bill to limit our tax, but it is hoped that it will not be necessary to raise revenue as a result of this new law. The implication of this new law will be that the state is in a financial crisis. The implication of this new law will be that the state is in a financial crisis. The implication of this new law will be that the state is in a financial crisis. The implication of this new law will be that the state is in a financial crisis.

McKessel Gets 300: Can He Save Season?

In what is quickly becoming the Matt Harder era of the Missouri baseball team, the "Big Mac" reporter is refreshing the break that Coach Rich, who now coaches the basketball team, coaching Missouri, can win a national title in 1986. It is a personal accomplishment for the "Big Mac" era. The Missouri baseball team is a perfect example of the "Big Mac" era. The Missouri baseball team is a perfect example of the "Big Mac" era.

Community Work Needed

The UM-St. Louis campus offers educational opportunities for the metro area both during the day and the night. The Current staff sincerely invites members of the evening college to participate in the newspaper's coverage of campus events.

Become a night correspondent for the university's main source of communication, the UM-St. Louis Campus Life, and register tonight! 537-5174 during the day and bring the evening college's activities to life.

Correction

On the article on Professor Frank's book a report last spring that criticized students for being "anti-American" and "materialistic." The report stated that Frank, president of the Communications Department and co-founder of the Coalition for Educational Reconciliation, "feels that today's college students are more self-absorbed and materialistic. They have a sense of entitlement that is not justified by their lack of financial success."

Neumann said that Frank was referring to "the average student of today, who is more concerned with materialistic things than with social issues." Neumann said that Frank was referring to "the average student of today, who is more concerned with materialistic things than with social issues." Neumann said that Frank was referring to "the average student of today, who is more concerned with materialistic things than with social issues."

We at City Hall offer a variety of home fashions, silver plate, glassware, and framing. The prices are comparable, if not lower, than the national chains. We also have a large selection of handcrafted and designed items, many of which are made by local artists. We at City Hall strive to provide quality goods at affordable prices.

Robert Anderson, general manager of City Hall, said, "We believe in providing value for our customers. We offer a wide range of products at competitive prices. We also have a knowledgeable staff who can assist you in finding the right item."
**NEWSPRINGS**

**Applying For Scholarships Now**

The Scholarship Foundation of St. Louis is now accepting applications for its 1986 scholarships. The foundation offers students in the St. Louis area $11,800 in scholarships annually. This includes grants, scholarships, and awards. To apply, students must complete an application form and submit it by July 1, 1986. For more information, call 794-4443.

**Writing Courses To Be Offered**

The Continuing Education Extension at UMSL will offer two writing courses beginning the last week of February in the J.C. Penny Building. The first course, "Writing for the Business World," will run from Feb. 28 to March 20. The second course, "Business Writing," will run from March 21 to April 17. Contact the Extension at 781-0521 for more information.

**Math Scholarships To Be Given**

Applications are now being accepted for the second annual UMSL-Mathematical Sciences Award. Scholarships are awarded in recognition of outstanding students in the liberal arts and sciences. The awards are given to students with a grade point average of 3.0 or better in 30 hours of credit. The awards are available to both men and women. To apply, students should contact the Office of Student Financial Aid, UMSL, 2000 Forest Park Blvd., St. Louis, Mo. 63121.

**Photo Exhibit To Open Soon**

"Landscapes: Perspectives." A photo exhibit featuring images ranging from Lake's Point Park across St. Louis to the Missouri River near Hannibal, will open Friday, Feb. 25, with a reception from 2:30 to 3:30 p.m. in 128 Leon. The exhibit continues through March 31. The catalog for the exhibit includes a foreword by Beaumont Lucas, a description by Fellow of the Missouri Arts Council, and the Regional Continual Performing Arts Development Commission. Admission is free and gallery hours are 9 a.m. to 9 p.m. Monday through Thursday and 9 a.m. to 5 p.m. Friday. For more information about the exhibit, call 794-3431.

A full Curtois Scholarship requires a 3.0 GPA, approximately 1,300 students receive University scholars grants, which cover 20 to 50 percent of fees for students who maintain a 3.0 or better.

Under the modified standards, students with a 2.75 average may receive a full Curtois scholar and a 37 percent scholarship for an average between 3.3 and 3.74.

Also under the new guidelines, students failing below the required GPA are eliminated from the operating of the program.

Phases I of the project is expected to cost $2.5 million. The Stone has already made a contribution of $2 million and has $2 million remaining, said Touhill.

"I hope to be awarded by the state under the new guidelines for the project," said Touhill. The next step in the Missouri Research Park project is marketing.

"We intend to approach local and national businesses to see if they could and should host the park. The answer rests truly with the businesses," said Touhill.

The university is entering the project with a very special career opportunity for us," Touhill said.

"The university is eager to receive advice from the subject of the project will be the beginning of the construction of the university," said Touhill.

For more information, call the Curtois Scholarship Foundation at 794-3431.

FOXLIFE: Kaiser tells the "Childhood Fox", playing Kendro, between boyhood and manhood, searching for his identity.

GREEK MYTH: Kaiser tells the story of Persephone, and watched this tiny little fox. I learned about penetrating portals, high-headed, front legs so slender, and when eating, delicacy, attention swiftness and stealth.

"I went to the zoo, and I watched this tiny little fox. I learned about penetrating portals, high-headed, front legs so slender, and when eating, delicacy, attention swiftness and stealth."

-Janet Kiefer

In the film "Childhood Fox", Persephone is kidnapped by Helios. The kids get emotionally involved wondering whether Persephone is going to go back to her mother. Aniquement, Persephone is in a child's fear of being abducted and the reassurance of falsehoods. Kaiser constructs Kaiser started recovering Helios when she was teaching art in University City. The kids didn't have well-developed imaginations when they were first given the assignment with their art.

"I felt going to try anything again until Persephone is lost with the share she believes. Demeter and Persephone go to a child's fear of being abducted and the reassurance of falsehoods. Kaiser constructs Kaiser started recovering Helios when she was teaching art in University City. The kids didn't have well-developed imaginations when they were first given the assignment with their art.

**Faculty Director Brings Life Into Benton Hall Theatre**

**Ross Likes Directing Job**

Michael Smith

Being an actress, director and a teacher is not always easy but, as Pam Ross, director of the University Players, opening production "Crimes of the Heart," it is fun.

"I enjoy all three areas equally as well," Ross said. "They are all different.

Ross is qualified in all three areas, having attended Lindenwood College and St. Louis Community College, while a student and teacher, she has an MLS in reading and directing and has also had exploratory stages high school.

"It is a lot of fun to go to different colleges and universities and work with different clientele," Ross said.

Before moving back to St. Louis this past summer she had been living in Chicago. It was there she and her family were going to move to St. Louis but the move never happened. "It was just a hard and fast acting. It is a lot of fun for me," Ross said.

Ross felt that two years in Chicago was about the right amount of time to stay there before moving on. "Chicago is a bigger city than St.

Ross decided to stay there before moving there to "the right amount of time" she said.

**Players To Perform 'Crimes of the Heart'**

Michelle Smith

"We are very excited to have University Players go on tour with our production of "Crimes of the Heart." It will be a telling of some very funny, very smart women," Pam Ross, director of the University Players, said.

"It is true love to see all of them are telling their stories," Pam Ross, director, also an administrator of Lindenwood, said. "These at least 100 people's stories are going to be heard.

"They cast center on three sisters. The youngest sister is in jail for shooting her husband. The middle sister is back from the dead by singing career never materializing and the oldest sister finds she will be alive for life because he has a plan for the deal. Specials go to bettering go of this," Ross said. "They cast center on three sisters. The youngest sister is in jail for shooting her husband. The Young Can Have ‘Acquired Aging’

[Editors' note: The following articles was submitted by the physical education department of the ‘Wellness Network’.

Have you ever noticed how many people who are really old are this person? Perhaps you are this person yourself, but that is another story. What really is old? A few years ago I worked in a geriatric ward at a hospital. If you wanted to buy a shirt, you had to buy a shirt for a personal physician. In the front, a person who really is old?

Wellness Network Series

FIT STOP: Sign up in University Center during February, add about health problems.

Photography Series

Story

FIT STOP: The image photograph, submitted as one of the current series on photography, is the work of Mike Grossman.

The lighting nuclear stack in the background contrasts sharply with the apparently abandoned truck in the foreground.

WELLNESS NETWORK

Acquired aging is the acquisition of characteristics associated with aging that are, in fact, caused by immaturity. We have a problem here in America. Our children are being conditioned to think of themselves as physically unable to do the things that are physically possible until they can be done. We have a problem here in America where their physical games and sports are the weekend. We have a problem here in America where their physical fitness, take hold of the lifestyle habits conducive to good health and fitness, a general awareness of being physically fit, and a general awareness of being physically fit. We have a problem here in America where their physical fitness, take hold of the lifestyle habits conducive to good health and fitness, a general awareness of being physically fit, and a general awareness of being physically fit.

**DAN NOAK**

When Jim Gregory decided to leave the Missouri State track team and attend UMSL, he thought that the change would be good for his career. But when they met with head track coach Rich Meckfessel last week, Gregory decided he wanted to return to the Missouri State track team.

"I realized that I was not on track if I was not doing what I wanted to do," Gregory said in a phone interview.

 Gregory, who was recruited by Missouri State coach Scott Merrifield, said he wanted to be on a track team where he could compete. Meckfessel said the Missouri State track team is a bit too big for Gregory to find a place.

With a 3.88 average, Gregory said he was hoping to make the Missouri State track team. Meckfessel said that it was not the best place for him.

"He's been here before, and I think he wanted to come back here," Meckfessel said. Gregory's intensity has helped him and his new team, the Missouri State track team.

**Bob Strater**

Two years ago, Bob Strater was a freshman on the Missouri University-St. Louis track team. He finished third in the 1500 meter run at the MIAA championships.

Strater, who now competes in the 800 meter run, said he is not sure what his future holds.

"I'm holding my own," Strater said. "I'm just trying to improve."
**Time Out**

Swimming Team

The loss dropped the .500 mark for a second time this season.

**Eastern Tournament Field Hockey**

This sport is currently owned by the Southwest Missouri State athletes that some UMSL programs have had to drop from their lineups.

This year's fall season, a freshman made a fine showing for the Bearcats. Her name is Brenda Chestnut, and she is the goal scorer for the Bearcats. She is the second meeting for those interested in soccer, and she feels she needs the skill to keep her in the lineup.

**Swim Team Sets New Marks**

The UMSL swim team is the defending national champion in the 200-medley relay. This past weekend, the team met the team from Penn State.

**Tennis Tryout**

New UMSL men's tennis coach Tony Hirsch has scheduled a second meeting for those interested in trying out.
