Oxfam Funds Relief Projects

by Carolyn Krouzynek

November 19, 1987
University of Missouri-St. Louis

Issue 590

Oxfam helps in places such as Ethiopia and the Philippines by distributing clean water, seeds, plows, corn, tobacco, chicks, etc. to peasant farmers. Many other nations are also using similar help.

"Oxfam is a tradition at UMSL, and this year the Student Senate have given us $500" last year," said Father Lopyn. This year the sponsors of Oxfam hope to surpass that goal.

An information booth will be set up on November 17-20 in the University Center Lobby to answer questions, collect donations, and later sign up for the fast. "We will come together this Friday night at 6:30 at Newman House to break the fast with a simple meal," said Father Lopyn. "Everybody would welcome this Friday night fast."

Oxfam feels that most of the money that is raised goes to Oxfam at UMSL. Minor money was attributed to Tom Wagner, Associate Chaplain of Newman House. He has also run this project last year.

If you are interested in participation in this year’s Oxfam, or help in several ways, you can either give a daily share of food or join the fast by giving up a meal, smoke, or drink at any age to the point where you can bear it. Donate the money you would have spent on Oxfam to a simple meal at Friday evening at 3:00 p.m. at the Newman House (201 Natural Bridge Rd). A guest speaker will discuss world hunger following immediately thereafter. Please support the effort by simply giving up your friends to participate in it.

The money that is raised from this worthwhile cause, feel free to give it to the Newman House at R.S.M.I., or call the Political Science Office.

WOLANIN:

"Generally thirty-three percent poorer than the bookstores'." Wolanin said, because many are repurchased from students at fifty percent of the original selling price.

Review Reveals Competition

by Kevin Klein

An At tempted To Kill Two birds With One Stone

Washington, D.C. (UPI) — freshmen and sophomores could get Guaranteed Stu- dent Loans in the future if Congress approves an additional $23.920 million for student loans, a university official said yesterday.

Representative Bill Ford (D-MI), a very influential member of the House Education Committee, was thought the bill, introduced November 1, could help hundreds of students who have lost their financial aid in the "stalemate of uncertainty." Weil Representative Ford was still a member of the House when the bill was passed, the bill would let students discourage low-income students from choosing new options.

Wolanin, who is a very influential member of the House education Committee, was a member of the House when the bill was passed, the bill would let students discourage low-income students from choosing new options.

Mr. Woods toured the area with 12 labor union offices in El Salvador the comparison indicated.

"Our purpose was to find out what "I want to talk about the competition between political solutions and social solutions. Notice the plural rather than 'a' solution. I'm talking about each of the four. Social solutions and political solutions". Geoghegan said emphasizing the "'s".

"When we talk about the competition we are talking about two ways, which are the political solutions and the social solutions. Geoghegan said emphasizing the "'s'.

"I want to talk about the competition between political solutions and social solutions. Notice the plural rather than 'a' solution. I'm talking about the four social solutions," Geoghegan said emphasizing the "'s'.

**NEWSBRIEFS**

- Major construction will complicate access to the third-floor lobby of Lucas Hall and to the Arts and Sciences section office in Lucas Hall as well as to the Evening College office beginning in November.
- The purpose of the construction will be to expand the Arts and Sciences section office and to lower the lobby ceiling. Because remodeling will also be required within the Lucas Library, some first-floor advising will take place in areas outside the advising office.

- An International Cluster meeting, sponsored by the Center for International Studies Department, will be held today from 2:00 to 3:00 p.m. in 321 SLBL, the McDonald Conference Room.

- A New Age Psychic Fair, featuring Sue Cuestier, will be presented by Spiraling Stairways in the Grand Ballroom of the Viking Lodge, Watson Road and South Lindbergh Boulevard, Saturday, November 21, from 10:00 a.m. to 4:30 p.m. Sue Cuestier, practicing astrology since 1972, is Vice-President of C & S Productions, writer, and Past-President of the American College of Astrology, the first college of its kind in the world. A teacher, lecturer, writer, and radio and television personality, Rosie also had her own show, "Astrology Today" on Qube Cable, and for seven and a half years predicted Central Baseball games for "Radio St. Louis.

- A political science academy meeting will be held this evening at 4:00 p.m. in Room 144 of the J.C. Penney Building. Kazin will lecture on "TheOrigins of This Nation." Kazin is a professor of political science at Northwestern University. He will also be a featured speaker at a symposium entitled "The American Dream," discussing the growth of technology and its impact on American life in the 20th century.

Speakers Denounce Capitalism, Advocate Self Determination

by Michael Curran
Missouri Times news editor

Self-determination was the theme of the Kwame Nkrumah Celebration on Tuesday for the first time at UM-St. Louis. Speakers from the Union of Presidents of Asian American Students, Palestinian, and the African National Congress and others in coordination with the students in the community were in attendance.

"Our struggle is a class struggle," students said. "Unfortunately, after World War II there was a power vacuum in the Middle East which western imperialism had to fill with a government that would look after its own interests," students said.

Also said that Jews returning to their homeland, the state of Israel, were punished, made a slave in their own land and were not free to decide the fate of the land.

"Palestinians, and the African National Congress, the African National Congress, the African National Congress and other organizations in coordination with the students in the community are in attendance."

The featured speaker for this Kasama Support Group was available to attend the meeting Tuesday night. In his place, Hillary Clinton commended the fact that the United States will continue its embargo against the Soviet Union.

For the third consecutive year, University Center and Student Activities offices will co-sponsor the University Center into a campus wide celebration. Beginning on Tuesday and Wednesday, November 24 and 25, students and staff and students from various student organizations and the University Center staff will be available to serve up generous portions of holiday spirit.

Food Drive '87 gets underway on Tuesday, December 1. Food contributors should be brought to the University Center lobby and displayed under the Community Cookbook Tree. On Monday, December 7, the food baskets will be delivered to the North Side, Young Families in the St. Louis area, and other families in the University Center.

The tree goes up before Thanksgiving break and stays up during Holiday Fest. You can see 'Me Me in St. Louis' and the Madrigal Singers in the Summit Lounge. All other events take place in the University Center Lobby. Visit the lobby for some holiday cheer.
Archives Are A Storehouse Of Information

by Angela Sample reporter

FEATURING:

"Less Than Zero" is more than just the title, it's the centerpiece of the movie's story. The movie, directed by Christopher Nolan and starring Robert Downey Jr. and Jami Gertz, is based on Bret Easton Ellis' novel of the same name. "Less Than Zero" follows ClayES, a rich, spoiled, party-loving student at Beverly Hills High School, as he navigates the highs and lows of his wealthy lifestyle.

The movie is a dark, satirical look at the lives of the upper class, highlighting the excesses and excessiveness of their lives. It's a commentary on the state of society in Beverly Hills, that is mostly comprised of spoiled youngsters who party every night and get high a lot.

At its core, "Less Than Zero" is a cautionary tale about the dangers of privilege and the consequences of living beyond one's means. It's a warning against the dangers of indulgence and the importance of earning one's own way in life.

The movie is a must-see for fans of Bret Easton Ellis' work, as well as for anyone interested in the ups and downs of the upper class. It's a thought-provoking and thoughtfully written movie that will keep audiences engaged from start to finish.

For Scorpio, November Is A Time Of Intensity

by Linda East astrologer

The Scorpio page has a focus on scientific and technical news, but it is also rich in entertainment news. For example, there is an article about the movie "Less Than Zero," which is currently in theaters.

AQUARIUS (Jan. 20-Feb. 18): This week, the Full Moon in Aquarius brings a shift in the energy, activating new beginnings and creative ideas. Be open to new opportunities and take actions that align with your goals.

PISCES (Feb. 19-Mar. 20): This week, Mars moves into Pisces, bringing a focus on emotional expression and self-acceptance. Focus on nurturing your inner world and expressing your feelings in a healthy way.

LEO (July 23-Aug. 22): This week, Mars enters Leo, bringing a boost of confidence and self-esteem. Leos feel powerful and in control, so make the most of this energy by taking on new projects or advancing your current ones.

Taurus (April 20-May 20): This week, Venus moves into Taurus, bringing a focus on love and beauty. Enjoy the beauty around you, whether it's in nature or in the art and culture you experience.

Virgo (Aug. 23-Sep. 22): This week, Mercury moves into Virgo, bringing a focus on detail and precision. Take the time to plan and organize your thoughts and activities, and you'll make progress.

A Student Named Grotegeers Cheers

by Christopher A. Duggen features editor

During spring we are the Current's best of drawing at our school. The win-ner of which would a feature article to be written about them. About 20 people put their names in, and the winner was drawn the next day.

That person was 18-year-old Gary Grotegeer, senior and cheerleader here. We are sorry that the article did not turn better, but quite a few made suggestions that impressed.

Like many other people at this campus, Gary did not attend college here. He went to Pecos Valley Community College in 1985 after graduating from Mercy High School in University City in 1986.

He came here in 1985 and began working on a history degree in which he emphasizes American history. "I attended, although not that I wanted to be a history teacher," he said.

Gary said that he wants to teach secondary education "I enjoyed high school," he said, "I think that if you are honest, the students will like you. A teacher should make it enjoyable to learn." Gary said that he likes to do more than just go to school and go home. He said that even though this is a dorms at USM-Lois, he will help to pull the secondary education.

He said that he has played soccer since grade school and likes fullback positions the most.

As for life he is here on cam­pus. Gary said that he likes a lot of the things that the CPDs does, like Wednesday Night Live, and events like Midway and Pops. "activities like that provide a good change of pace from the normal routine here," he said.

Gary Grotegeer, the winner of the Expo feature article drawing, is a senior at USM-Lois and a member of the cheerleading squad.

CHEERS: Gary Grotegeer, the winner of the Expo feature article drawing, is a senior at USM-Lois and a member of the cheerleading squad.

EAST E

In any case, you need to reflect on what you have learned in the past situations and decide how you apply it in the present. You're defining your meaning of self-expression in new ways, very realistically, but with a new sense of freedom. Your words have a strong punch this month. Be aware that you communicate much more impact than you think. The 26th and 27th should be high cycle times for you this month.

VIRGO (Aug 23-Sep 22). The end is not far, and this is the month to try to make major decisions. When the time is right, you can make major decisions. Make more informed decisions. This may affect a sensitive, nearly amorous partner this month. Romance can culminate with perhaps when your energy is low to the 26th and 27th. Circumstances beyond your control may block your actions on the 21st and 22nd. You may be very aggressive and increase your income or angling for new projects, particularly things for your home.

LIBRA (Sept 23-Oct 22). Negotiations, communications and commitments are foremost this month. You may make some strong decisions this month. Your high cycle days are the 20th and 21st. You may want to push back a bit so that you don't appear to be overreacting. Less energetic folks could be threatened by the raw power you possess this month. You are sensitive to the love and beauty you find in your everyday environment.

DUGGAN (from page 8)

When you have some food together, it is worth watching. If only you know someone great you are coming. Unfortunately, there are more places than just one.

Another problem is that it's a little hard to believe that these peo­ple are less than 25 years old. Dewey, McCreary and Gary are a little too mature to be cast as people just out of high school.

I thought that it was nice feeling it to see that teenagers were having fun. It was like watching a thousand friends dance and deal, and their problems were like the kids that actually happen in Seminar City. It was also kind of strange to see the popular culture montages against dark backdrop after the movie finished. Then to see that which provided no more of the show. Seems like the movie could have been a lot more.

"Less Than Zero", a Twilight Century Fox release, is rated R for language, violence, and sexual
displays.

Happy Thanksgiving From The Current Staff.
Then Pat says, "I'm sorry, there is no way I could win this. Vanna again at your and your face. "The answer is, of course, Kent. But you know what a jerk Pat ought to." It's a kind of circuit, I can't seem to find fault with him because they are all just damn nice. That is all of them except Kurt. Kurt is a friend of mine who lives in the Stones area. We met him and I'm with our honey. In St. Thomas in early every day and play a game of a Cardolon. "Vanna again at your face. "You won't move. If the Cardinals win, I'll tell him it's a Cardinal cap that he should wear and not a Twins cap to wear for a week." He really sounded like a man talking at the World Series. "The Cardinals don't know how to play big games," I said. "They have been beating the whole league all year long." Then they let me down. Don't get me wrong. I am around and couldn't stand it, and I was all over, not like a lot of fair-weather fans who wrote them off about a dozen times this year. But I've learned to deal with it. Even when Kurt called me after the game, I was relatively nice to him. But now comes the hard part, actually sending him the beer and waiting for the reply.

"I usually" I said, "I probably wear my Cardinal jersey with it. So what if someone on campus wearing a Twins cap to wear for a week?"

"As for you, Kurt, glad you all want. Better or later, I'll find something tactful about your team. Then you better watch out.

Kirk Peter is built like a World. The Metro Dome is the second worst place in the world to play baseball, next to Camden. They all think that their astronomers are in good as good, and all look so good, but you know what a jerk Pat ought to."
The University of Missouri-St. Louis is holding an observatory open house beginning at 5 p.m. on November 19, 1987. Louis is holding an observatory open house beginning at 5 p.m. Saturday and 2 p.m. Sunday in room 362 Lucas Hall. Tickets are $4 for the general public and $3 for senior citizens. Admission is free. Call 553-5876 for more information.

The University of Missouri-St. Louis Biology Department Seminar Series presents "Meet Me in St. Louis," to be shown at noon and 7 p.m. in the Mark Twain Hall. Call 553-5641 for more information.

A Chemistry Seminar entitled "Development of a Toxigenic Regional Cerebral Blood Flow Agent" will be given by David Trudner of the University of Missouri-Columbia Department of Chemistry in room 318 Lucas Hall. Call 553-5273 for more information.

The UM-St. Louis History Department Seminar Series presents "Considerations on the American Constitution Today" at 1:30 p.m. in room 311 SSB. Admission is free. Call 553-5311 for more information.

Metropolitan Studies presents a collection of photographs entitled "Urban Landscapes" by Tom Baill, who has not been billed in American Arts and Culture.

The Current will hold a Christmas Open House from 9:30 a.m. to 3:30 p.m. in 1 Blue Matt Building. Refreshments will be served. All are welcome.

Photographer and New York Magazine. The exhibit will be in room 362 SSB from 9 a.m. to 9 p.m. Call 553-5372 for more information.

The University Singers will hold a Christmas Concert of holiday music at 2 p.m. at Kirk of the Hills Presbyterian Church, 12928 Ladue Road. The concert is open to the public and a free will offering will be taken. Call 553-6992 for more information.
Basketball Preview

Returning junior Kris Wilmesher (11) and sophomore Kelly O'Neil (2) come a knee injury. "We don't have any clue what, but we will be all of us, our game," said head coach Mike Larson. "The big blow will be depth. Claudine Mitchell (F, Jr., 5-8) was last year's top scorer and field leader for the Riverwomen. The junior team only eight players set into battle during the first semester. They will come on December 1 when Bradley trainer Nancy Hopper (5-8), 6-1), becomes eligible.

The outlook will be tough. Claudine Mitchell, F, Jr., 5-8," was last year's top scorer and field leader for the Riverwomen. The junior team only eight players set into battle during the first semester. They will come on December 1 when Bradley trainer Nancy Hopper (5-8), 6-1), becomes eligible.

Five starters are back a year ago along with the welcome return of Kathy Rubach. Rubach (C, Jr., 6) was an honorable mention All-MIAA pick in her first two seasons, but missed the first of the 1987-88 campaign after she suffered a knee injury in the season opener. Rubach averaged 10.5 points and 7.5 rebounds per game in her sophomore season (20-10). Kris Wilmesher (G, Jr., 5-8) should anchor the leading scorer's role that he started for the past four seasons by deputy All-American Mike Gregory. Wilmesher was an honorable mention All-MIAA pick last year after averaging 5.7 points per game and led the team in assists in both 1985-86 and 1986-87. No team is without them being forced into the starting lineup after one of many injuries that the Riverwomen suffered last year.

The other returning letterwinner in the team's lone senior, Grace Gain, has shown signs of becoming a great player this last three seasons and her ability to become a consistent scorer would give the Riverwomen a big boost. Last season she averaged 8.5 points and 8.5 rebounds per game.

We've got a lot of Greenville over more than ever," said Larson. "She's a driller, she knows what it takes to win." One familiar face is set back for the upcoming season. Gina Gregory is gone after breaking nearly every offensive record in the book. Is there life after Gina?" asked Larson, and "the Greenwillow will be a lot more realistic. This team may want to and should be a big surprise. The team is still very strong, and I believe we will be better next season.

Five new players have joined the program and will be tough to forget them this season. The starting five will be:

- "Our new player will see a great deal of action this year," said Larson. "Their development will be a big key to our season.

The biggest impact player to transfer Nancy Hopper. The good news about Hopper that she is a good athlete and should be a big impact player.

The bad news is that she will not be eligible until the tenth game of the season. Bradley trainer Nancy Hopper shot 32 percent from the field and 8 percent from the three line as a freshman.

The other four newcomers are all freshmen.

(Listener) Gytho is probably the best all-around freshman player," said Larson. "She's a very versatile. Nancy Hopper is going to be a tremendous player this year for us. She has shown signs of becoming a great player over the last two seasons at Lindbergh High School. Nancy Hopper is going to be a tremendous player this year for us. She has shown signs of becoming a great player over the last two seasons at Lindbergh High School.

The other returning letterwinner is the team's lone senior, Grace Gain. Gain (F, Sr., 5-10) played impressively as a freshman last year after being forced into the starting lineup after one of many injuries that the Riverwomen suffered last year.

The other four newcomers are all freshmen.}

Riverswomen Hope for Inury-Free Tip-off

The Outlook

Can the Riverswomen return for their seventh season at UM-St. Louis in 1987-88? Two years ago, led the squad to the best Missouri Intercollegiate Athletic Conference and Athletics Midwest conference record with a 4-2 mark. Larson earned his bachelor's degree in physical education from Trinity College in Deerfield, Ill., and also received his master's degree from the College of Physical Education of George Williams College in 1980.

Larson's team featured four 5-10 players in its lineup last year, but this year's team is smaller but balances. The biggest impact player is transfer Nancy Hopper. The good news about Hopper is that she is a good athlete and should be a big impact player. The bad news is that she will not be eligible until the tenth game of the season. Bradley trainer Nancy Hopper shot 32 percent from the field and 8 percent from the three line as a freshman.

Five new players have joined the program and will be tough to forget them this season. The starting five will be:

The biggest impact player to transfer Nancy Hopper. The good news about Hopper is that she is a good athlete and should be a big impact player. The bad news is that she will not be eligible until the tenth game of the season. Bradley trainer Nancy Hopper shot 32 percent from the field and 8 percent from the three line as a freshman.

The other four newcomers are all freshmen.

The Coaches

Head coach Mike Larson returns for his seventh season at UM-St. Louis in 1987-88. Two years ago, led the squad to the best Missouri Intercollegiate Athletic Conference and Athletics Midwest conference record with a 4-2 mark. Larson earned his bachelor's degree in physical education from Trinity College in Deerfield, Ill., and also received his master's degree from the College of Physical Education of George Williams College in 1980. A native of Des Moines, Iowa and a graduate of Southeastern Community College (30-4), he has been named to the Midwest Intercollegiate Athletic Conference (MIAA) honorees and the All-MIAA Second team. Larson's team featured four 5-10 players in its lineup last year, but this year's team is smaller and balances. The biggest impact player is transfer Nancy Hopper. The good news about Hopper is that she is a good athlete and should be a big impact player. The bad news is that she will not be eligible until the tenth game of the season.

The other four newcomers are all freshmen.

The good news about Hopper is that she is a good athlete and should be a big impact player. The bad news is that she will not be eligible until the tenth game of the season.

The other four newcomers are all freshmen.

Lisa Roukas, 5-3, Fr. Guard

Rosedale point guard on Ray- man's 1987 Class AA state champion team. "I'm a good kid, I need to gain experience before becoming a factor.

Claudine Mitchell, 5-8, Jr. For.

Redshirted for the 1987-88 season because of an off-season knee injury. .. one of the strongest defensive Riverwomen players. Averaged 4.7 points and 2.5 rebounds per game at South High School in St. Louis.
Rivermen Shoot For Success In 1987-88

The Outlook

_options remain questionable, but can the Rivermen turn their hopes and dreams into reality?

"I think we have a chance to have a very good season," UM-St. Louis coach Rich Meckfessel said. "But if we play to our full potential, there is a chance for us to be a force this year. We are going to have to be at the close line.

Last year the Rivermen were half a game out of first place with three conference games remaining, but lost three and finished 7-7 and in sixth place.

This year, after extra practices and five extra games on their recent trip to the Netherlands, the Rivermen return a good deal of experience, both in the classroom and on the court. A number of players can experience this in a totalpicturesque setting.

Matters and seven letter winners return from a 12-13 campaign that lost the likes of Steve, Nebraska. St. Louis University and six other teams that won 19 or more games.

Leading the way in 1987 MABC All-South Central Region and second team All-MIAA guard Eric Love, 6-6, senior, from Indiana, who averaged 11.4 points a game and led the team in scoring in the second half of last season. Junior Jeff Wilson, 6-0, Cape Girardeau, Mo. is the other returning starter. The 5-10 Wilson showed what he could do in the second half of the season as he averaged 3.5 points and 2.5 rebounds in the final 11 games of the year.

The Guard Lineup is headed by returning center Kevin Brooks (6-4, senior, and junior Derek Thomas (6-6, Kansas City, Mo.). Brooks finished third in the MIAA in rebounding with a 1.2 per game average. The bouncy 6-10 All-MIAA pick also averaged 10.5 points a year ago.

Thomas earned the starting role at the beginning of the conference season and finished in the top three in scoring (8.3 points per game), rebounding (6.1 rebounds per game), assists (96) and blocked shots (117). He is a key to the team's success and could determine the development of last year's key reserves.

"We have three returners who have been a mainstay of this team and they have been the key reason why we have returned," Meckfessel said. "The other question is who will step up behind those three(".

One factor, when considering the team's performance on the floor, will be having three returning starters in their first season of eligibility. Kevin Morganfield, 6-6, senior, from Obion High School in Obion, Ky., earned the starting point guard Chris Pilz, 6-0, freshman, in his first season of eligibility.

Kevin Morganfield, 6-6, senior, from Obion High School in Obion, Ky., earned the starting spot last year. He averaged 8.3 points and 6.8 rebounds a game with 4.6 assists and 3.1 blocked shots.

The three newcomers are point guards Chris Pilz, 6-0, freshman, and senior Jeff Wilson, 6-0, Cape Girardeau, Mo. and guard Brian McNair, 6-6, junior.

Von Scales, 6-8, So. Forward

"Averaged five points and three rebounds in limited action of the bench last season," Von Scales said. "I also showed good improvement on European trip in August...May earn starting role before the 1987-88 season ends.

Von Scales, 6-8, So. Forward

"I averaged five points and three rebounds in limited action of the bench last season...showed good improvement on European trip in August...May earn starting role before the 1987-88 season ends.

Kevin Sneed, 6-3, Fr. Forward

"Missed all or his senior season because of a broken wagon...played well in Europe, but someone has to be more consistent...I hope that one of those big guys earns a starting spot, but until it happens, I will play this lineup.

Kevin Sneed, 6-3, Fr. Forward

"Missed all or his senior season because of a broken wagon...played well in Europe, but someone has to be more consistent...I hope that one of those big guys earns a starting spot, but until it happens, I will play this lineup.

The Coaches

Head basketball coach Rich Meckfessel returns for his sixth season at UM-St. Louis' 1987-88. Since his five previous seasons as the Riverman coach, Meckfessel has a record of 130-78 and was a three-time NAIA All-American selection. A native of St. Louis, coach Meckfessel played basketball and earned his bachelor's degree at Washington University. After turning in a successful record at St. Louis, he then was appointed athletic director and head basketball coach at Morris Harvey College (now the University of Charleston) in Charleston, W. Va. Meckfessel led the team to the NAIA national tournament on three different occasions and to the NAIA semi-finals in 1987.

Meckfessel came to UM-St. Louis in 1982 and compiled a 198-150 record in five previous seasons. In 1986-87, Meckfessel received MIAA and NCAA South Central Region Coach of the Year honors.

Meckfessel will be assisted this season by returning senior Kevin Brooks (6-4, senior, and junior Derek Thomas (6-6, Kansas City, Mo.). Brooks finished third in the MIAA in rebounding with a 1.2 per game average. The bouncy 6-10 All-MIAA pick also averaged 10.5 points a year ago.

Thomas earned the starting role at the beginning of the conference season and finished in the top three in scoring (8.3 points per game), rebounding (6.1 rebounds per game), assists (96) and blocked shots (117). He is a key to the team's success and could determine the development of last year's key reserves.

Kevin Brooks, 6-6, Sr. Center

Only Riverman player to start all 21 games last season and first team All MIAA in rebounding with 7.9 rebounds per game. Last year's team was an honorable mention All-MIAA pick last year. Averaged 6.2 points per game a year ago, had 11 rebounds against Kansas State in one of his first games against the Ghost-Renault team."

Rivermen Reach Division II Quarterfinals

by Diane Schlueter

After falling from a 1-0 deficit over Northeast Missouri State just when it was set to go to overtime, the UM-St. Louis soccer team defeated Oakland University on Saturday night. The 2-1 win was the Rivermen's second straight over the Golden Grizzlies, and it was the team's third 2-1 win in a row.

For the second consecutive game, the Rivermen were held without a shot in the first half. After being outshot 10-0 before halftime, the Rivermen came back to score two goals in the second half, outscoring Oakland 2-1.

"I can't explain it," coach Don Wibbenmeyer said of his team's ability to outshoot their opponents. "I told them they had to have one shot there and just wait for their chances."

Oakland soccer coach Brian May opened the scoring by putting in his own rebound at the 25th minute mark. Scott Wilhemmoeyer then headed in the equalizer and his seventh goal of the season at the 78th minute mark with senior Mark Reiter earning the assist.

UM-St. Louis will face Lock Haven (18-5-5) in a NCAA Division II Tournament quarterfinal match on Saturday night. Game time is set for 7:30 p.m.

The match on Saturday will be the first home second meeting of the season, as the Rivermen took the earlier game 2-1.

Rivermen seniors Brian May and Scott Wilhemmoeyer were named on Tuesday to the MIAA's First Team, including goalkeeper Jeff Robben, back Mike Gallagher, and midfielder Paul Schlueter, and honorary Herb Bertolino and Mark Reiter.

And for the seniors outstanding play in 1988, Reiter was named the Most Valuable Player in the MIAA.

Midfielder Mark Keller was also named to the MIAA Second Team.

IN THE LEAD: Junior midfielder Paul Schlueter (6) dribbles the ball up field, past the Oakland player.
