Dioxin: Toxic Waste On Campus

by Terri Seymour

news editor

Discovery of dioxin stored in the campus" "catastrophic waste facility has aroused a wave of concern among the UM-St. Louis community.

Dioxin has been found to be a toxic contaminant in various installations and is classified as a hazardous waste. Dioxin is a byproduct of industrial processes and is known to be harmful to human health.

The discovery of dioxin at the campus waste storage facility has raised concerns about the safety of the community. The presence of dioxin in the facility has triggered a series of investigations and actions to ensure the safety of the community.

At the top of their list of activities is trying to get rid of the dioxin. According to the University's hazardous waste management office, the dioxin was discovered during an audit of the facility. The discovery was made by a technician who noticed a unusual odor in the storage area.

The university has taken steps to address the issue, including hiring an environmental consultant to assess the situation and develop a plan for the removal of the dioxin.

The consultant recommended several options, including the removal of the dioxin from the facility and the storage of the dioxin in a secure location. The university is currently evaluating these options and will make a decision in the near future.

In the meantime, the university has taken steps to ensure the safety of the community. The area around the waste storage facility has been cordoned off, and the university has notified the appropriate authorities.

The discovery of dioxin at the campus waste facility is a reminder of the importance of proper waste management and the potential risks associated with hazardous substances. The university is committed to ensuring the safety of the community and will take all necessary actions to address the issue.
The Fordham Ram
Crime Can Be Prevented

carolyn k. kryszmazewski reporter

Crime is everywhere today, and our campus is no exception. In the past, there have been cases of assault, sexual exploitation, and theft. Last Tuesday, a student was near the student center when he was approached by a man threatening message off of his windshield.

Crime is on the rise at UM-St. Louis. According to Police Chief John L. Pickins, the answer to "Crime statistics can be alarming," said Pickins. "For example, two non-related incidents going up to four incidents is an increase, but nothing to be concerned about. Most people don't tend to look at the underlying causes of crime. Many of the larcenies on campus are due to non-admitted policymakers. Women When using the library, don't leave socializing. With the help of Anath Pruitt, many incidents is an increase, but nothing commented, don't feel like suspicious activity to the police at 553-1333. "I'll feel about crime on campus? Many feel that the name of the campus is no good distance to their cars because it's not safe. The administration is taking immediate action to solve the campus and surrounding area. "I don't feel like pensive activity to the police at 553-1333.

HOLA: The type of sound that many rock fans beat, you won't find it on a reporter's list of the band's hits. "Hold Your Hola" was brought to the band by its guitarist, Alex Lifeson," said the ad.

"This is a type of music that is so much fun to do," said the guitarist. "We've been playing it for the last few years and it's been a real hit with the fans."

"It's a great way to express our creativity and it's a lot of fun," said the bassist. "We've been working on it a lot and we're really proud of it."

Fall Classic Is Here, Will Birds Win?

by Stan Wieronski

The Fall Classic is rolling around and so I guess it’s time for a Current sports drama. This one is a bit more obscure, but despite its dusty nature, you can’t help but feel the excitement building.

The Cardinals and Giants will play a dramatic seven-game series. The Cardinals will win this series through some great defense and some clutch hitting. The game will go down to the wire, but the Cardinals will emerge victorious.

Netters Have Perfect Week

by Stan Wieronski

The UM-St. Louis Volleyball team finished last week with a perfect record of 6-0. They started it off by beating Quincy College 16-3, 16-15 on Wednesday. The Riverwomen continued their success on the court by winning the UM-St. Louis Invitational, where they won the tournament with a record of 3-0.

In the tournament, the Riverwomen lost only one game, which came in the finals against St. Francis College out of the Chicago area.

The Riverwomen have made it through the season with a clean slate, and they are looking forward to the days ahead.

Riverwomen Experience Some Ups And Downs

by Pam Wertz

The Riverwomen soccer team played an interesting week, winning Wednesday and losing Saturday after finishing second in the Missouri Intercollegiate Athletic Conference. The team defeated Northwest Missouri 2-1 on Wednesday at UM-St. Louis and were able to score a point.

The team then faced off against Central Missouri on Saturday. Despite being down by two goals, they were able to come back and tie the game 2-2. The team's defense was key in their success, and they were able to keep the score tight.

Additionally, the team was able to celebrate their victory over Central Missouri in their next game against McPherson. The team was able to come out on top with a score of 3-1, which was a welcome change from their previous losses.

UP, UP AND AWAY: Senior hitter Sharon Morgan goes up in the air to put the ball over the net. Missouri Western Athletic Association's "Co-Player of the Week." With 79 points, 10 blocks and 27 digs, Morgan shares the honor with Joyce Ann Mackleve of Southwest Baptist.

The only goal of the match came off a penalty corner with 26 seconds left in the first half. With the 1-0 lead, the Bears went on to win their fifth straight game. The Bears will take on the University of Illinois at 4 p.m. on Saturday.

Rivermen Fall To NE, Lose No. One Spot

diane Schlueter

The Rivermen soccer team's stay at the top was now only for a limited time. But after learning of another team's one coming on Tuesday, the team went on to drop their next game on Wednesday against conference foe Northeast Missouri State, 1-0. With the loss, the Rivermen dropped to fourth in the Intercollegiate Soccer Association of America's Latest Division III poll and saw their perfect record, which was 6-0-2, fall short.

"It was just one of those games that we couldn’t take advantage of our opportunities, especially second half," head coach Alan Ellis had said. "I think the team realizes that they are capable of scoring in the frightened, you can expect a good battle.

"Northst in is the best of the other two ballhuts in our conference. We haven’t received the recognition that they deserve, but I think they don’t (usually) play well against us."

The only goal of the match came off a penalty corner with 26 seconds left in the first half. With the 1-0 lead, the Bears went on to win their fifth straight game. The Bears will take on the University of Illinois at 4 p.m. on Saturday.
