The High Price of Higher Education

Carolyne Kuczyinski

Proposals for several programs add to the list of ways in which UM-St. Louis will be just one of several campuses in the Missouri System that are on the verge of a large-scale budget crisis. The university is one of several in the state that have experienced a significant decline in enrollment. The state has cut funding for higher education by 10 percent over the past five years, and it is anticipated that the cuts will continue in the future.

The university is facing a difficult financial situation, and it is important to consider the impact of these cuts on the quality of education. The cuts are expected to result in a reduction of faculty positions, a decrease in the number of course offerings, and a reduction in the number of students who can be accommodated in the university's programs.

The university's financial situation is closely linked to its overall: failure to attract enough students to sustain the programs. The cuts are likely to result in a decrease in the quality of education and a decrease in the number of student in the university's programs.

The university is facing a difficult financial situation, and it is important to consider the impact of these cuts on the quality of education. Use It Or Lose It
It's Your Choice

Dear Editor:

Our women's athletic teams recently received national attention. Neither the Missouri State University nor the University of Missouri-St. Louis campus is in the top 25 women's soccer teams. Our women's soccer team was ranked 18th in the NCAA Division II poll last week and shows every promise of having another successful season.

The athletes and coaching staffs of these successful teams notify your support and invite you to come and watch them play. You are an exciting breed of fan and will be pleased with what you see. There isn't any change for UMSL-St. Louis women's and Missouri women's athletic contests in the future. The women's soccer teams will be among the strongest in their conferences.

The Athletic Department has designated two nights as spirit nights with a large display of Missouri State University and University of Missouri-St.

Micheal Curran
Athletic Director

Beating The Same Old Drum

Dear editor:

The sport is one of the best methods we know of keeping the UMSL-St. Louis campus in the forefront of other universities. The women's soccer team has never been higher in the NCAA Division II poll and shows every promise of having another successful season.

Although the university improved its status over the past year, a wary increased awareness and funding, goals for the upcoming year were announced in the annual report. Professor Barnett spoke of the university's mission.

Chancellor Barnett emphasized the importance of faculty and institutional quality. The university was expected to complement the current curriculum. During the year, the chancellor hoped to recruit 23 new faculty members to complement the current staff. "We endeavor to hire the best research scholars in the nation, we want competition on quality and we will not rush to judgment," he urged.

Furthermore, Barnett said the St. Louis location on a major river was to be emphasized. He pointed out that the cultural and educational benefits of being located through UM-St. Louis alumni who live and work in the community. Again, the chancellor emphasized the value of the "communities." The chancellor also considered the location an opportunity to cooperate with "existing institutions" such as Washington University and St. Louis University.

Finally, Chancellor Barnett viewed the "unparalleled research potential of Missouri" as a goal for the campus. The state has potential monies not available with the state being a significant contributor to this potential.

The chancellor also reminded all that the textbook is the only financial calculator with solar capabilities. Thanks to TI's electronics, solar power now helps in doing business in the community and a great university. Barnett also reminded all that the textbook is the only financial calculator with solar capabilities. Thanks to TI's electronics, solar power now helps in doing business in the community and a great university.

Monitoring the campus' economic development, Research programs are important, and that all programs are reviewed every five years. Barnett also reminded all that the textbook is the only financial calculator with solar capabilities. Thanks to TI's electronics, solar power now helps in doing business in the community and a great university.

The Professor and the ProsSTITUTE

And Other True Tales of Murder

by Linda Wolfe (Sellantine's, 151, 279 pages)

Violent crime is often associated with the lower echelons of people who fall into rows of lower middle

violence. And that is the case. But it doesn't have a myth that is well known, and it is the middle and upper classes.

A more valid premise that might be true is that the lower middle

economic class get caught in the act more often than those in the middle and upper classes.

Author Linda Wolfe has written a highly acclaimed book which may be one of the most important works on the subject of private detective work. This is a story of a professional

newspaper headings and has explained the crime story behind the

inaccurate portrayal of the lower middle economic class. The book, "The Professor and the ProsSTITUTE," published by Ballantine Books at $9.95, is an informative and entertaining read. The book, which is subtitled "An Inside Look at the World of Private Detectives," is written by a professional investigator who worked for the University of Michigan's School of Medicine.

The book is written in a way that makes it easy to follow and understand. The author, who is a private investigator, provides a wealth of information about the world of private investigation. The book is also well organized and easy to read. It is a must-read for anyone interested in the world of private investigation.

Elections will be held September 28th & 29th.

Rhodes Scholarship

Despite the language of the official announcement a candidate need not be superhuman to qualify.

The Selection Committee looks for high scholarship [probably at least a 3.7 GPA in the preceding year, outstanding performance in some type of independent academic or professional work, some extra-curricular interests which in some cases might be the student's employment] and humanitarian concern for others. The candidate need not be an athlete, although he or she should be physically fit and enjoy exercise.

In the past, two University of Missouri-St. Louis students were selected to represent Missouri and be considered for Rhodes Scholarships, but the regional competition does not determine the final selection. Women as well as men, our chances of success are greater.

A candidate must be between the ages of 18 and 24 on October 1, 1987. While he or she must be unmarried until the end of the first year at Oxford, marriage in the second year is possible without affecting the scholarship. The Scholar is eligible to enter Oxford University in October, 1988.

The stipend of a Rhodes Scholarship consists of a direct payment to the Scholar's College of all approved fees [such as matriculation, tuition, laboratory fees, and certain other charges, plus a maintenance allowance of $3,968 pounds (approximately $7,174). The Scholar also pays for travel costs to and from Oxford. Appointment is made for two years with a third year probable if the Scholar's record merits. The Scholar may either study for an honours B,A, or for a graduate degree in virtually any field or profession.

Interested students should first consult the packet of information literature on reserve in the Library. Students may apply directly to the Secretary of the Missouri Rhodes Committee, Dr. Doug Hunt, Campus Writing Program, 319 General Classroom Building, University of Missouri, Columbia, MO 65211 and/or make application to the Campus Selection Committee. Students who plan to go through the Campus Committee should pick up an application form from the Office of Academic Affairs, 401 Worlds Hall. Students should return their completed application form to Academic Affairs by noon on Wednesday, October 7, 1987.

Rhodes Scholarships are proud of the most profitable job that is right for you. One of the most profitable things that you can do now is to consider yourself. 'Would I want it if I didn't have to?' What do I enjoy doing most on my own time? What do I enjoy doing least? What do I enjoy doing most on my own time? What do I enjoy doing least? What do I think people will enjoy having me as a leader, a follower or a leader? What do I consider rewarding, money, security or recognition? When you can answer these questions about yourself, you are ready to do research in the world of work. Your visits to the career library or your discussions with those in the workforce become more meaningful. Once you know your work values, an informational interview can be an exchange—you have one important piece of the puzzle and the employer you are interviewing has another.

When you are asking questions to see if you please fit together, instead of the employer asking the questions and you desperately trying to please yourself into an acceptable shape. Choices are that many jobs will fit your system of work values.

O'Connors Corner: The Moment

by Margaret O'Connor owner training and placement coordinator

Sonor or later, most of us face "the moment." For the lucky, it comes early. For the unlucky, it may come after years of work. All of the work that has gone before, "What am I going to do with my life?"

This question션ately generates anxiety bordering on panic. We begin to question the meaning of all of our activities. Most of us, we long for definite answers and a sense of certainty. If a career counselor had a fool proof method to reveal the perfect job for us, we would happily open a window. Unfortunately, career counselors seldom offer us "the answer," and we are disappointed when we don't get it.

What can you do if you find yourself in this state? First of all, relax. Take a deep breath. A few more breathing exercises will "be the moment." "What can I do that I enjoy?" "What am I good at?" "What is the moment. "going to do with my life?"

As a blood test, and Holidays, new friends, meeting and working with people, and halting the work force become more meaningful. Do I work well with others? Do I enjoy doing most on my own time? What is the moment. "going to do with my life?"

Does a blood test qualify. The candidate need not be an athlete, although he or she should be physically fit and enjoy exercise.

The moment. "going to do with my life?" can be an exchange—you have one important piece of the puzzle and the employer you are interviewing has another.

When you are asking questions to see if you please fit together, instead of the employer asking the questions and you desperately trying to please yourself into an acceptable shape. Choices are that many jobs will fit your system of work values.

If you make this conscious effort to determine your values now, then when you go on an actual employment interview you will find that you can talk intelligently about your choices, yourself and how you can benefit your employer.

This will make you a more attractive candidate for a position than someone who can only offer a string of a hastily devised reason for the employer to hire him/her.

Next month, Interviewing for Information.

Undergraduate and graduate men and women eligible

For additional information, please stop by any one of the 10 Dierbergs for an interview schedule. Or call Personnel at: 532 - 8750
Saturday

• The Black Business Students' Association (BBSA) will have food and drink social 5:30-8:00 p.m. in the Hall Refreshments will be served.

• Sports: Women's Soccer Women's National College Bus­ wer Tournament begins at 2 p.m. at the Mark Twain Complex on the UMSL-Louis campus.

• Sports: Women's Soccer Rivertown vs. Texas A&M at 5 p.m. at the Mark Twain Complex on the UMSL-Louis campus.

The Alpha Phi Society, Women's National College Bus­ wer Tournament begins at 2 p.m. at the Mark Twain Complex on the UMSL-Louis campus.

A lecture entitled "From Phenols to Caprolactams in Two Steps: Copper I-Induced Aromatic Ring Cleavage" will be given by Dr. Miroslav Regis, of Malinowski Inc., in Room 129.

Wednesday

• University women are invited to a fall membership fun night at the Alumni House in October. We also will ask for volunteers to staff committees for fundraising projects, a member­ ship drive and an Alumni update effort. This is an excellent opportunity to get involved and gain meaningful experience.

UM-St. Louis Unveils Its ‘Best Kept Secret’

by Diane Schlueter

UM-St. Louis’ volleyball team is poised to take another step forward this season. As the Riverwomen enter the 1997 season, they are primed for another successful campaign.

The Riverwomen, who have been a mainstay in the Midwest Intercollegiate Athletic Association (MIAA) for nearly a decade, have enjoyed several successful seasons under head coach Denise Silvester. Last season, Silvester guided the Riverwomen to a 14-1 home record and a 15-6 overall record.

This season, Silvester will have the luxury of having a veteran team with a wealth of experience. The Riverwomen return nine starters from last year’s team, including senior outside hitter Jennifer Zingg and junior middle hitter Hilt Casso.

Silvester is excited about the potential for this team to achieve even greater heights this season. "This team has a lot of talent and is well-suited for big things," Silvester said. "We want to be a team that other teams fear when they see our schedule and try to avoid us.

But Silvester is quick to point out that the Riverwomen’s success this season will depend on more than just talent. "We have to work hard in practice and in games," she said. "If we do that, we can be very competitive at the MIAA and NCAA levels.

The Riverwomen will open their season on September 26 at 6:00 p.m. against Central Christian College of the Bible. This game will be followed by a home game against Bethel on September 27 at 1:00 p.m. Both games will be played at the Riverwomen’s home court in St. Louis.

The Riverwomen are expected to have an excellent season, and fans are encouraged to come out and support the team. "We appreciate the support of our fans," Silvester said. "They help us keep moving forward and reach our goals.

So, Riverwomen fans should be excited for the upcoming season. With Silvester at the helm and a talented roster, the Riverwomen are well-positioned to have a successful season and make a mark in the MIAA and NCAA tournaments.

Reiter Scores Another

by Diane Schlueter

UM-St. Louis University's head soccer coach Diane Reiter is excited about the potential for her team to have another successful season.

"We have a lot of talent and experience on this year's team," Reiter said. "We are in a good position to compete at the highest level.

The Riverwomen are coming off a successful season last year, where they finished with a 14-3-1 overall record and a 6-3 record in the MIAA. The team advanced to the NCAA Division II soccer tournament and lost in the first round.

This season, the Riverwomen will be led by senior co-captains Jennifer Zingg and Hilt Casso. Both players have been on the team since their freshman year and have helped lead the team to two conference championships.

"Jennifer and Hilt are two of our most experienced players," Reiter said. "They are leaders on the field and have helped guide the team.

The Riverwomen will open their season on August 28 against Central Christian College of the Bible. This game will be followed by a home game against Bethel on August 29. Both games will be played at the Riverwomen's home court in St. Louis.

The Riverwomen are expected to have another successful season, and fans are encouraged to come out and support the team. "We appreciate the support of our fans," Reiter said. "They help us keep moving forward and reach our goals.

So, Riverwomen fans should be excited for the upcoming season. With Reiter at the helm and a talented roster, the Riverwomen are well-positioned to have a successful season and make a mark in the MIAA and NCAA tournaments.

"If they won't tell you about it, then you know it must be great."

If you've never heard of it, ask your folks.
When my friends and I graduated from high school, we all took part-time jobs to pay for college.

They ended up in car washes and hamburger joints, putting in long hours for little pay.

Not me. My job takes just one weekend a month and two weeks a year. Yet, I'm earning $18,000 for college.

Because I joined my local Army National Guard.

They're the people who help our state during emergencies like hurricanes and floods. They're also an important part of our country's military defense.

So, since I'm helping them do such an important job, they're helping me make it through school.

As soon as I finished Advanced Training, the Guard gave me a cash bonus of $2,000. Then, under the New GI Bill, I'm getting another $5,000 for tuition and books.

Not to mention my monthly Army Guard paychecks. They'll add up to more than $11,000 over the six years I'm in the Guard.

And if I take out a college loan, the Guard will help me pay it back—up to $1,500 a year, plus interest.

It all adds up to $18,000—or more—for college for just a little of my time. And that's a heck of a better deal than any car wash will give you.

THE GUARD CAN HELP PUT YOU THROUGH COLLEGE, TOO.
SEE YOUR LOCAL RECRUITER FOR DETAILS, CALL TOLL-FREE 800-638-7600,* OR MAIL THIS COUPON.
