Barnett Passed Up For Top Position At Florida University

by Thomas Kovach

MIAMI- ST. Louis Chancellor Marguerite Ross Barnett was bypassed for the position of president at the University of Florida Thursday.

Ross Barnett was bypassed for the vice-president position at Johns Hopkins University.

Currently, he is dean and executive vice-president at Johns Hopkins and the university's academic vice-president.

Barnett, who was chosen by the board, is the "candidate who best fit the needs of the university," the board said.

After leaving to head Lombardi, the renegade president's salary is $150,000—which Lombardi makes at Johns Hopkins University.

Barnett receives $104,000 a year.

Assembly Selects SABC Pim SABC Members

by Neil David Krievman

UM-St. Louis Student Government Association unanimously elected Krievman to SABC president. The Budget Committee (SABC) was reorganized and budgeted.

The new SABC Assembly meeting was held in the university.

The new SABC members are ready to provide support for student organizations that want to compete effectively.

With SABC members elected in the university, the organization is determined to make the student body aware of its services.

In the new SABC Assembly meeting, the budget was approved by a vote of 10-0. The total funds available were $20,000, which is allocated among student organizations based on budget. The budget includes student organizations such as the Student Senate, the Student Activities Commission, and the Student Publications Commission.

The new SABC Assembly members will be responsible for providing services to student organizations, including advising and aiding in the planning and execution of student activities. They will also have the authority to approve or disapprove student organization budgets and to allocate funds based on the services provided and the financial needs of the student organizations.

In addition, the new SABC Assembly members will be responsible for advising the Student Senate on matters related to student affairs, including the allocation of funds to student organizations. They will also be responsible for maintaining records and providing reports to the Student Senate.

Deon S. Wetheram

Among the new members elected to the SABC are:

- Daniel J. Pemberton
- Thomas J. Allen
- J. David Krievman
- Keith D. Anderson
- Michael B. Amrich
- John A. Stivers
- John W. Keene
- Daniel J. Pemberton

The action taken by the SABC included the following: the new SABC president will be elected from the student government association. The new SABC budget will be approved by the Student Senate. The new SABC members will be responsible for providing services to student organizations, including advising and aiding in the planning and execution of student activities. They will also have the authority to approve or disapprove student organization budgets and to allocate funds based on the services provided and the financial needs of the student organizations. They will also be responsible for maintaining records and providing reports to the Student Senate.

The new SABC Assembly members will also be responsible for advising the Student Senate on matters related to student affairs, including the allocation of funds to student organizations. They will also be responsible for maintaining records and providing reports to the Student Senate. AIDS

THE ART OF AIDS

The AIDS epidemic is a global crisis that has had a profound impact on the lives of millions of people around the world. The epidemic has affected people of all ages, genders, and races, and has had a particularly devastating impact on the LGBTQ+ community. The epidemic has also had significant economic and social consequences, including the loss of productivity and the increased costs of medical care.

AIDS is caused by the Human Immunodeficiency Virus (HIV), a retrovirus that attacks the immune system. HIV infects and destroys helper T cells, which are critical for fighting off infections and diseases. As the number of helper T cells decreases, the body becomes more susceptible to opportunistic infections and cancers.

The AIDS epidemic has had a profound impact on society, including changes in public policy and social attitudes. The epidemic has also had a significant impact on the healthcare system, with increased demand for medical services and the development of new treatments and therapies.

AIDS is preventable, and prevention efforts have focused on education and awareness, risk reduction, and access to medical care. HIV testing and treatment are also important strategies for controlling the epidemic.

The AIDS epidemic is a complex and multifaceted issue, and addressing it requires a comprehensive approach that involves individuals, communities, and governments working together to reduce the spread of the virus and improve the health and well-being of those affected.

Loud And Clear

Legislators in Missouri and across the nation were sent a message from pro-choice supporters over the holidays. The message was that the government shouldn’t impose its will on the people when there is a choice.

The rally of over 14,000 people was the largest protest in the history of Jefferson City. The number of people in the pro-choice ranks in Missouri has doubled since the Webster case.

Reproductive Health Services, the largest such organization in the country, has brought in millions of dollars in private funding that otherwise would have been stagnant in the St. Louis community without someone with her charisma to convince people like Chancellor Roy. Electric and Sanford McDonnell that this school is worth investing in.

We can’t hope to keep Komen forever, but at least we will have the privilege of having her around for a while longer.

A report in the St. Louis Post-Dispatch stated that she is on the way to being 50 percent of all universities searching for administrators. When you look at her accomplishments here, it’s easy to see why.

Dear editor,

It’s time that I write to you and your readers to emphasize on the importance of our university and the problems faced by the students of UM-St. Louis. This concern is expressed by a particular light of female college students like myself. The problem faced by the female students is the unfair discrimination in the parking situation here at UM-St. Louis.

Students are often aware of the injustice in the parking situations here at UM-St. Louis. This concern is expressed by a particular light of female college students like myself. The problem faced by the female students is the unfair discrimination in the parking situation here at UM-St. Louis.

Pro-choice rally draws 14

By Kevin Kline

Pro-choice supporters gathered in Jefferson City Sunday for what turned out to be the largest protest in the capital's history. Over 14,000 people joined the march and rally to protest restrictions placed on abortion by the Missouri Reproductive Health Services case that went to the Supreme Court earlier this year. The message of the demonstration to the legislators was best summed up by Lt. Gov. Mel Carnahan. "We're making our presence known," Lt. Col. state chair for choice of the League of Women Voters said. "It's a women's right to choose when to have a baby, and sometimes when not to have one." Colgan said that they hope to change the minds of legislators and persuade them to join the pro-choice movement. The pro-choice supporters consider a change in the legislature's position to be education and not "waffling." "We're not for or against any particular candidate," Colgan said. "We just work the issues. We are not extreme in any sense, we are the middle ground."

**International Week Raises Campus Awareness**

**INTERVIEW**

By Deon Wortham

Marilyn Ditts, Coordinator Special Student Services, described the International Week as having a very successful impact on campus. 

“Our mission is to make the world smaller through the international students who take part in our program,” Marilyn Ditts, who was in charge of the program, said.

The annual International Week lasts from October 16 to 23 and is composed of numerous events of music, dance, art, and culture. Many international students have used this opportunity to express their culture and to share it with the community.

The International Week is a great opportunity for the students to get involved and to participate in the activities that are being offered,” Ditts said.

The International Week has been traditionally held on campus since 1984. The American Association of University Women recently sponsored 14 fellowship awards for the students to travel around the world. This year 11 students have been awarded this fellowship.

**Vantine Focusses Music On Community Issues**

By Josephine Arledge

"In a world where we’re becoming self-centered and materialistic, music has the ability to bring people together again,” Vanette Jones said.

"It carries us to another place,” Jones said.

Jones is an American pianist and composer who has composed music for several films and television shows.

Jones has written and performed a new musical piece that is inspired by the life of a young girl who was raised in the United States but grew up in Africa.

Jones said that the girl’s story is one of hope and inspiration. "It’s about a young girl who was raised in a war-torn country and had to flee for her life. She eventually found her way to the United States and became a successful musician.”

Jones said that her music has been played in several countries and has been well received by audiences worldwide.

"It’s a powerful story and the music has a special way of connecting people,” Jones said.

Jones said that she hopes her music will continue to inspire others and bring people together.

**State Ballet, Delivers Magical Performance**

By Shawn M. Foppe

The State Ballet of Moscow is in town for a second time as they perform at the Auditorium Theatre. The group has been praised for their performances, which are said to be the best in the world.

"The State Ballet of Moscow is a world-renowned company that has performed in many countries,” Foppe said. "Their performances are always breathtaking and leave audiences in awe.”

The company consists of 180 dancers, including 80 soloists, and their repertoire includes works by famous composers such as Tchaikovsky, Stravinsky, and Prokofiev.

"Their performances are a true reflection of Russian culture and they always deliver a fantastic show,” Foppe said.

The group will be performing in Chicago for four consecutive nights, starting on Tuesday, November 14th, at the Auditorium Theatre.

**Newman House Supports Oxfam Hunger Relief Fund**

By Michael R. Nolan

Oxfam, an international charity, has launched a new campaign to raise awareness about hunger in the United States. The campaign, called "OXFAM Hunger Relief Fund," is aiming to raise $1 million to support local food banks and other organizations working to combat hunger.

"Hunger is a global issue and we need to take action to help those who are in need,” R. Nolan said.

Newman House is partnering with Oxfam to raise funds for this important cause.

"We are proud to support Oxfam in their efforts to combat hunger,” Nolan said. "We believe that everyone deserves access to nutritious food and we are committed to making a difference.”

The campaign will run until November 30th, and donations can be made online or by sending a check to the Newman House office.

And right on the money, too.

No matter what your major (or your budget), there's an IBM Personal System/2® that can make you look great—in school, and after you graduate. And now you can choose from five complete packages of hardware and preloaded software, at special low student prices. What's more, when you buy your PS/2,® you will get a mouse pad, a 3.5-inch diskette holder, and a power strip—all free.

And you're entitled to a great low price on the PRODIGY® service. Aside from all this, three of the most popular IBM Proprinters™ are available now at special low prices.

- Proprinter III w/Cable (4201/003) $399
- Proprinter X24E w/Cable (1207/002) $549
- Proprinter XL24E w/Cable (4208/002) $669

Start out the new year right. Check out all these special savings now—before it's too late!* Offer-ends February 15, 1990.

How're you going to do it? PS/2 it!

New! Ask about the IBM PS/2 Loan for Learning.

For more information, contact Bruce Potter at 553-6096.

*This offer is limited to qualified students, faculty and staff who order an IBM PS/2 Model 8530-E21, 8550-031, 8555-061 or 8570-E61 through February 15, 1990. The preconfigured IBM PS/2 Model 8525-001 is available through December 31, 1989. Prices quoted do not include sales tax, handling and/or processing charges. Check with your institution regarding these charges. Orders are subject to availability. Prices are subject to change and IBM may withdraw the promotion at any time without written notice.
