Students Asking For Shuttle To Continue

by Joseph G. Pickard

When "Gage" D" goes on strike, it will no longer be as big a problem for shuttle riders. The campus shuttle system is in operation and is serving the needs of the students. The students and faculty are using the shuttle service regularly and are happy with its performance.

The students have been asking for a shuttle service for a long time, but the administration has been reluctant to provide one. However, the administration has finally come around and is providing a shuttle service. The students are pleased with the service and are hopeful that it will continue.

The shuttle service is scheduled to run from 7:00 a.m. to 11:00 p.m. Monday through Friday. The shuttle service is free of charge and will operate on a first-come, first-served basis.

The shuttle service will be provided by the University Transportation Services Department. The shuttle will be a large, comfortable bus with plenty of space for students and faculty. The shuttle will have a driver and a conductor on board to assist students and faculty. The conductor will also be able to answer any questions that students or faculty may have about the shuttle service.

The shuttle service will be funded by the students' tuition fees. The University Transportation Services Department will be responsible for the operation and maintenance of the shuttle service.

The students are pleased with the shuttle service and are hoping that it will continue to be provided. They are also hopeful that the administration will continue to provide other services that will benefit the students and faculty.

The students are also hoping that the administration will listen to their concerns and provide other services that will benefit the students and faculty. They are hopeful that the administration will continue to provide other services that will benefit the students and faculty.

The students are also hoping that the administration will listen to their concerns and provide other services that will benefit the students and faculty. They are hopeful that the administration will continue to provide other services that will benefit the students and faculty.

managing editor

Last Friday, Mr. Louis lost a great humanitarian. We will miss the man who worked side by side with thousands of spectators, there

Dear editor,

...
I encountered the issue of language when I was introduced to the INS for the first time. At that time, I believed that I was going to be deported to Mexico. I was confused, but I continued to speak Spanish with my family, because it was the only language that I knew. However, it was a difficult period for me, and I realized that I needed to learn English to communicate better with others. The INS staff explained to me that I was eligible for a temporary stay in the United States, but I had to attend certain interviews and meetings in English. I was scared and didn't know how to negotiate the bureaucratic procedures. I felt powerless, and I was afraid of being misunderstood.

I believe that people who speak more than one language should be celebrated, not discriminated against. It is essential to appreciate the diversity of language and culture. It is a way of understanding the richness of human experience and the complexity of human emotions. It is a way of honoring the history and the traditions of different communities. It is a way of promoting social justice and equality. It is a way of fostering empathy and compassion. It is a way of building bridges and connections.

I believe that people should be free to express themselves in their native language, and they should be supported in their efforts to learn a second language. It is a way of respecting the dignity and the autonomy of each individual. It is a way of promoting the well-being and the happiness of all people. It is a way of creating a more just and equitable society. It is a way of challenging the prejudices and the stereotypes that divide us.

I believe that people should be encouraged to explore and to appreciate the diversity of language and culture. It is a way of enriching our own experiences and perspectives. It is a way of connecting with others and with the world. It is a way of expanding our horizons and our imaginations. It is a way of recognizing the value and the beauty of all cultures and languages. It is a way of promoting the peace and the prosperity of all peoples.
Welcome to the new world of...
A. Fighting a battle against E. Stevie Wonder
B. Louis Armstrong

Rivermen Win 2 Of 3

by David Workman

The UM-St. Louis Rivermen women's basketball team was victorious in the first two games of their three-game series against the University of Missouri-St. Louis Riverhawks, winning 66-62 on Friday and 86-76 on Sunday. However, the Rivermen fell 76-70 on Saturday, resulting in a 2-1 series outcome.

The Rivermen began their quest to break into the nation's Top 20 this past weekend, and they played a complete game on Friday. The Rivermen had a dominant presence in the paint, outscoring the Riverhawks 40-16 in the paint.

The Rivermen scored the first goal of the game against the Riverhawks in the first game of the tournament. However, the Riverhawks put the ball in the net at 15:37 to tie it at 15-15 with just over five minutes left in the game. The Riverhawks would not score again in the rest of the game, as the Rivermen pulled away in the latter stages to win 66-62.

On Sunday, the Rivermen continued their dominance with a 86-76 victory. The Rivermen led by as many as 24 points in the second half, and they never looked back, as the Riverhawks were outscored 55-39 in the second half.

The Rivermen are ranked 18 nationally and have a six-game winning streak heading into the next series of games.

The Bears bounced back in the second half, though. Kim Thompson put the ball in the net for the Bears at 5:17, and the game was tied at 75-75 with just over five minutes left in the game. The Bears would not score again in the rest of the game, as the Rivermen pulled away in the latter stages to win 86-76.
