One column in the edition for this semester sparked an idea for me. I am Christopher D. West, a senior at Northwestern University. I had a national holiday to appease a special interest group. I found this to be the most interesting concept so I came up with my own holiday for things that need to be recognized with a holiday.

It is my opinion that these extra holidays will have a positive impact on the economy. We will give people the chance to express themselves and their thanks to our hard working nation. These new holidays will be accepted by schoolchildren and teachers across the great land of ours. They will have the day off for something they believe in with plenty of student missions or national celebrations. They will feel like they are making a difference and then I get a bridge for all the roads.

Many believe that the olympic holiday is one of the most important in all of history. There is no holiday in the world that is better for American's and the University students can celebrate both. The U.S government does not waste money on the Olympics but me, Mr. Washington and Mr. Lincoln.

We also need a holiday to celebrate when the World Series is won (National baseball holiday). We need a day for the also혀한 노래s like "You are my sun shine" and "In the morning when I rise" that were written by me. Thomas Edward Edison and Alexander Graham Bell. We shall have a holiday called "Invention Day".

All holidays should be about greatness. If you wish to have a holiday for something you don't believe in, then I would suggest you do not have one.

I would like to start with the day honoring the Declaration's reading. It shall be called "Fourth of July Independence". There is no holiday honoring Thomas Jefferson, the President that day. I have heard the Declaration's reading, but I would like to be the one to celebrate both. The U.S government does not waste money on the Declaration but me, Mr. Washington and Mr. Jefferson.

I must have a day of honor for Martin Luther King Jr. party because he is my hero. I would like to have a holiday for something I believe in. Thomas Edward Edison and Alexander Graham Bell. We shall have a holiday called "Invention Day". This is a national holiday to appease a special interest group. I found this to be the most interesting concept so I came up with my own holiday for things that need to be recognized with a holiday.

Disabled Students Raise Campus Awareness

by Laura Senarde associate managing editor and
by Michelle McMurray reporter

U-M-L St. Louis students have been feeling a lot of it like to be "the voice of the disabled," thanks to the Disabled Student Awareness Week, April 2-6.

U-M-St. Louis student Sonya Phillips spoke Wednesday about the difficult experiences she’s had to go through as a wheelchair-bound student, which is why she is co-chair of the Disability Awareness Committee. She said that some of the hall monitors are not accessible for students who need a wheelchair.

The goals of the Disabled Student Union are to try and make the campus accessible for everyone. She also said that it's important for administrators to listen to students and address their concerns.

Wheelchair simulation was one of the activities presented to students, faculty members, and visitors in the union building. Participants were led through their daily routines.

When asked why there weren't any special adaptations made for the students attending the simulation, Wagner stated that it would cost too much money to provide such accommodations.

The work will end on Friday, April 6th with a songwriting competition and banquet in the L. Perry Building. Students who have written songs are invited to perform them, and the winners will be announced.

Renata Welch Discusses MTV, McCardyism and Ho’jes

by Mike Van Roy contributing writer

Rock star Welch and his band, Van Halen, made a name for themselves with their high-energy rock and roll music. Welch has been called "The Man with the Black Strat," and his music has been compared to that of the Rolling Stones.

Welch has been known for his high-energy shows, and his music has been compared to that of the Rolling Stones. His music has been described as "hard rock" and "heavier than hell." His shows have been called "the ultimate party experience," and his fans have been called "true believers.

In his most recent interview, Welch talked about his upcoming tour and his plans for the future. He said that he is looking forward to performing in front of fans and hearing their reaction. Welch also talked about his upcoming album and his plans for the future.

U-M-L St. Louis professor Dr. Lawrence Barton praised his students for their hard work and dedication. He said that they have proven themselves as "true believers" and that they have a genuine passion for science.

Professor Murray is currently studying the effects of cigarette smoke on the cardiovascular system. He is investigating the mechanisms by which cigarette smoke causes cardiovascular disease.

Murray's research indicates that smoking can cause a variety of cardiovascular problems, including heart disease and stroke. He is also investigating the effects of cigarette smoke on the immune system and the potential for new treatments to prevent or reverse these problems.

Murray's research is important because cardiovascular disease is the leading cause of death in the United States. Understanding the mechanisms by which smoking causes these problems is critical to developing effective treatments.

Professor Murray is also working with a team of researchers to develop new treatments for cardiovascular disease. They are investigating the potential for new drugs and therapies to prevent or reverse these problems.

Murray's research is funded by the National Institutes of Health, and he is one of the many researchers working to understand the mechanisms by which smoking causes cardiovascular disease.

Murray's research is important because it can help to prevent and treat cardiovascular disease, which is the leading cause of death in the United States.

Murray's research is also important because it can help to develop new treatments for cardiovascular disease, which is the leading cause of death in the United States.

Every morning from the same little town, Alfredo (Ballwin) tells the story of how the film catches fire with Toto is blinded by a fire in the film booth and never got to see on-screen kisses, as well as other romantic twists that caused quite a stir with the towns' audience, but are in good taste in several hilarious scenes.

"Cinema Paradiso" is a rare gem that shows the better side of film making without the usual gimmicks and gadgets creating up the story. Alfredo does make the best of the bonus scenes you probably see all year!

Contact Zenith Data Systems for more information.
Win the computer you need to succeed in the real world and a chance to use it there.

It's easy. Just try our Real World Demo on a Macintosh® computer to enter Apple's Real World Sweepstakes.

If you're one of 14 Grand Prize winners, you'll get to spend a week this summer at the organization of your choice listed below, where you'll see Macintosh computers hard at work. And when you get home, you can use your own new Macintosh II, III to write your resume and follow-up letters.

There will also be 20 First Prize winners who will receive Macintosh II computers and $1,000 Second Prize winners who will get Apple®-T-shirts.

You really can't lose if you come in and get your hands on a Macintosh today. Because once you do, you'll see how easy it is to use and how much one could do for you now.

You'll appreciate the value of a Macintosh computer after you leave campus and head out into the real world, too.

But don't take our word for it. Come in and try a Macintosh and see for yourself. Just if you win the Grand Prize, you'll be seeing the real world sooner than you think.

Enter Apple's Real World Sweepstakes and you could win a week at one of these leading organizations and a Macintosh computer.

Register to win at the Office of Computing and Telecommunications
SSB, Room 1030 - 514-555-6016 or 6096
Meadest April 11 10:00 a.m. - 2:00 p.m. J.C. Penny Building

"AT UPS, I GET PAID FOR SAYING WHAT I THINK."

"In my classes I'm encouraged to explore my ideas and say what I think. And that's just what happens where I work. At UPS, everyone's opinions count... even if your working part-time.

"UPS has employee committees and discussion groups. Everyone is expected to make suggestions and express opinions. And the supervisors listen. That's how UPS has become a world leader in the transportation industry."

"UPS has industry-leading pay and benefits too. I make almost $10,000 a year working about 4 hours a day. And I got the choice of part-time schedules... morning, noon, or night. They actually work with me to fit my work hours to my class hours. I can't think of a company that does more for working students."

"At UPS, some students work in Operations and agree in Accounting, Industrial Engineering, I.S. and Customer Service. So, if you like thinking for yourself... think about UPS.

Openings exist at the UPS Earth City building and the Jefferson Avenue (at highway 40) facility. Interviews will be held on Thursday, April 12, from 9:00 a.m. - 1:00 p.m. at the S.T.E.P. (Student Employment Program) office. For more information or to apply for an interview, call 553-5317 or visit 346 Woods Hall (S.T.E.P. office). We are an equal opportunity employer.

WORKING FOR STUDENTS WHO WORK FOR US.

UPS DELIVERS EDUCATION
Softballers ‘Sporadic’ But Soar To 14-10 Mid-Season

Injuries Have Shaken Team
by David Barnes

The U-M-St. Louis softball team has reached the 13th match without injuries to the lineup, playing now. "When we’re out, rare. One game will be all red, and the rest of the season we’ll hit as well," said Toppin’s. "It’s the way it’s been, and we’re not unprepared with our lineup," said Brumbaugh. "Bring on the 14th game, and we’ll be prepared to win again." The softball team has been a victim of injuries which have shaken-up the lineup, said Brumbaugh. "We’ve had some injuries. We’ve had some injuries, said Toppin’s. "But we’re still hitting and we’re still hitting hard, said Brumbaugh.

Injuries which have shaken-up the lineup, the softball team has been shortstop. ‘I’ve played shortstop: ‘I’ve played shortstop, and we’ve been battered by some of the injuries. We’ve had some injuries. We’ve had some injuries, said Toppin’s. "But we’re still hitting and we’re still hitting hard, said Brumbaugh. "Bring on the 14th game, and we’ll be prepared to win again." The softball team has been a victim of injuries which have shaken-up the lineup, said Brumbaugh.

Tennis Time: Two Teams Start Season
by David Barnes

Sports editor

The Riverwomen have had several injuries which have shaken-up the lineup, said Toppin’s. "But buried between them, Pam Steinmetz has swung its way to a .41 beginning. "The women’s team has swung its way to a .41 beginning. "We’re of the players’ hitting is leveling off," said Steinmetz.

When Jordan scored 69 points in the first quarter (59 percent), he said Steinmetz, "I thought the Hall of Fame, and I guess he was better." "I'm not thinking too much about next season."

*Special price on the IBM PS/2 Model 30 286 (U31) is available only from March 19, 1985 through June 30, 1985.

---

Ask about the IBM PS/2 Loan for Learning.

Which IBM Personal System/2® should you buy? You can't go wrong with any of these. Each one comes ready to go with easy-to-use, preloaded software, an IBM Mouse and color display.

You can blitz through last-minute term paper revisions. Add those extra-special graphics. Get your work done faster than ever. And at special prices like these, a PS/2® is very affordable.* Fact is, you can hardly afford to be without one.

Come in and let us help you choose the PS/2 that's right for you.

---

Save on these three IBM Proprinters, too:

| Proprinter** w/ cable (4208/002) | $649 |
| Proprinter XL24E w/ cable (4208/002) | $879 |

See the PS/2 offerings at the Microcomputer Fair
Wed. April 11 in the J.C. Penny lobby from 9:00 a.m. to 4:00 p.m.

---
