Mathematics, English Scholarships To Be Awarded

U.S. Senator Edward M. Kennedy announced that the National Conference for State Legislatures (NCSL) will offer scholarships to students during the National Conference on State Legislatures (NCSL). The scholarships will be awarded to students who are currently enrolled in a state legislature or are planning to attend a conference in the future.

Professor of government at Harvard University, Professor Kennedy, said: "This is a wonderful opportunity for students to learn about the legislative process and to develop their skills in public policy."

The scholarships are intended to help students finance their education and are open to students from all 50 states. NCSL will provide $500 to each student who is accepted into the program.

"This is a great opportunity for students to learn about the legislative process and to develop their skills in public policy," said Professor Kennedy. "These scholarships will help students finance their education and will provide them with an excellent opportunity to learn about the legislative process."
The ‘Bidness’ of Football

by John West column

So the Forty Niners win the Super Bowl again. No harm, what's new, it seems that they are winning every year. My age was born Dec. 24, 1938. There has been no other champion of the Super Bowl in his lifetime. People say a great bunch of athletes the team has and what great coaches. Both of these statements are true. But what makes them so much more dominant that all other teams in the NFL, and not the entire history of the NFL?

They have some great players, but that's not it. They are only about 300 people in the whole country that are professional football players. That is in a pretty elite group when you think about it. There are only 30 to 40 teams, each with ten or twelve players. So what is the secret of their success?

Another important cog in the wheel of championship level is ownership. And let's just say that the Cherny family created the Forty Niners and that's mainly by Ed DeBartolo. In DeBartolo owns the Forty Niners a lot of other things. He is a very wealthy man. His players know Blacks and all of theirs.

They like the players enough to pay a fine imposed by the NFL, just that they are the right, the employee paid a fine for their incorrect team. They did it because they like him and enjoy working for him. And this year the油价 of championship level took the Bay Area basically said that DeBartolo can buy everything he wants and they try to get for him. But that's not the case. This is a still a player's union group, but something has gone wrong. They like each other. Waley is Mayo Upham or orange labor when they are needed.

DeBartolo has taken the “Boss” in a nutshell and put it back on the playing field where it belongs. Instead of it in the locker room and the base office where it is in the 27 other NFL cities. Every NFL player wants to win the Super Bowl, but how many want to work for DeBartolo as much as he does? Do you think sharp people want to work the base office for DeBartolo? De the Cardinata want to win the alliance for DeBartolo?

I would be willing to wager that DeBartolo is no different than owned because of the Bay Area is a business man and DeBartolo is a good business man. The distinction is subtle but the weakness of treating your employees right is not, whether the Forty Niners posts games locker room.

DeBartolo hires the right people, and pays them what they want to get the job done and expects it to get done. And the job done done.

People aren't just working there when they were being “bossed” over for the rest.

I wonder if DeBartolo needs a PR person.
Biting Crime Back

A bill is currently in the Missouri General Assembly that would re-quire college campuses to sell the song rights to members of the public. Some campuses are resisting the effort, but there is only one opportunity to make their voices heard.

Students have the right to know how their campus is handled in the treatment of the subject. Among other things, there are reports of sexual harassment and rape that are never reported to the proper authorities. Many students have been told to leave campus because they were found guilty of crimes against humanity. I am not saying that ending all crimes is possible, but some can be prevented. If everyone would follow the rules, the world would be a safer place.

Dear Editor,

While at the University of Arkansas, I had to deal with a case of rape. I have been told that the police department is not doing anything to solve this problem. I would like to see the police department do more to prevent these crimes.

Sincerely,

David Robertson

Columnist Puts Bite Back Into Animal Rights

Oblivion

by Shawn M. Foppe

In the beginning God created the songs and they belonged to the animals. Then he created the animals to sustain them. The animals eat them.

Working for a cost can be very dangerous. These animals are nature's way of ensuring that nature continues. Therefore, if you co-opt one animal's right to survive, you are at the same time destroying their right to live. It is an ethical dilemma, but one that must be faced.

Dear Editor,

One of the things that you have to do is stop using fur. How else can you keep a price low enough to sell more? Maybe someone should help keep the fur market on the high ground so it can be reformed or trimmed down.

There are countless stories of how in-creased fur sales are not supposed to be trapped and in lieu of. For the most part, however, they are part of the sensational media game. However, there is a real fear among people. If you are concerned about the problems of endangered animals, you should be interested in the people's rights too. The animals are seen as the "saving" in the production of the fact.

Some animals go around professing that animal rights have rights. Last year I decided that I had written the book "... that all and the children of all are created equal."

And I'm sure Abraham Lincoln didn't say, "Some kind of animals are used for their meat to be used for food."

Dear Editor,

I was recently doing research on the use of fur coats. I was amazed to find that there are many different ways of using this insulation. I have found that the students at the University of Arkansas and its staff are

reverse discrimination complaints.

Dear Editor,

Since Shawn M. Foppe can trump his nightly news weeks in the Columnist column. I have noticed that whether Martin Luther King Jr. for his death he wrote the most important essay of the 20th century. That essay is "The Negro American," and it is one of the most important essays of the 20th century. It is a frightening 1 in 56 in the study.

Last week one of my classes was given a list of internet pages from newspapers around the country, where students pointed out a photo in a Teller paper that showed a group of people at a St. Louis march. After the photo was published in the St. Louis Post Dispatch, the student asked.

"The dream isn't dead, but some of them have brains that are at the very lowest. At the very bottom are the animal rights groups. But the ones who are concerned about the future of the world are those who have been able to see the light."

Diana Vegeskal

Reverse Discrimination Complaints

Petty

Dear Editor,

While at U-M, I was taught about early engineering classes. I was told about some things I still have not forgotten. The class was taught by a man who was old and had a lot of wisdom. The man was great and very knowledgeable.

Dear Editor,

I am not sure that endangered species are worth saving. What about all of the country songs that deal with shooting the man in the field? We don't know. Fortunately, the police in Kentucky and other places can do their job. The police are the people who can help to prevent these crimes.

Judy Linville

Knee-Jerk Reaction Not Accurate Picture Of Rolla

Dear Editor,

I was reading your column about the knee-jerk reaction to the death of the famous singer. I wonder if he was not a very good person. The knee-jerk reaction is a natural human response to a situation that is perceived as threatening.

This column is not an accurate picture of Rolla. There are many different people who live in Rolla, and I think it is important to recognize the diversity of the people who live there.

Sincerely,

Karen Thomas

Wasted Time, Money

Imagine driving to school listening to your favorite radio station when at a sudden a recall of the song was announced. The song was a favorite of yours, but you had never been able to make the time to listen to it before.

If state representative Joe Dixon and his fellow-theren ones have their way, most songs such as this one will be long, or better yet, not even made to the airwaves.

While in college, a teacher suggested I listen to Dixon's "Springfield" and local rep Joe Mathews said it's "wonderful" when you could go to the music store and pick up a CD that contained this song. My favorite Dixon and company should fix the problem of music, they should take a listen to what is being blasted at the radio stations. It might be easier to think that Johnny Cash or Johnny Mathews counters with the notion that parents can't watch their kids all the time. Concerned parents need to be concerned with more important things like education. They can't control all their kids, but they can control how to give just enough information to write the story. Incidents in students' lives are "confidential" because they fall under the university's discipline code.

Although Dixon might say a little of the donn of the driving ar-om the colleges, it would do good to have state representative and encourage them to vote for House Bill 218.
START YOUR CLIMB TO CAREER SUCCESS THIS SUMMER.

Apply now for six weeks of Army ROTC leadership training. With pay, without obligation. You'll develop the discipline, confidence, and decisiveness it takes to succeed in any career. And you'll qualify to earn Army officer credentials while you're completing your college studies. BRING YOUR LUNCH AND SPEND AN HOUR WITH THE ARTS!

The University Senate is the governing body of UM-St. Louis. Its membership contains 25 students and 75 faculty members. The Senate is responsible for all University-wide policies.
Student Group Supports Kids

By Felicia Venus Souza

"If you're a problem, these people know where I am," from Pam Hansen, senior student in Support of Children said.

Support of Children (SOC) is a student selected organization. The student membership is from the educational elementary majors and any other (UM-St. Louis campus only) interested in child development and advocacy. Through community workshops they are able to provide information regarding child development and the community.

Pam Hansen, president and Kathy Hausechild, past president agreed that one goal of the group is to inform students and the community community about what happens to children. SOC plans to have Lori Goffman, owner of the Eye Care Center, give an overview of the education your on the ASC (Art for Better Children) which is a big issue with supporting children facilities and resources.

The students agreed to come to help socialize children and provide them with toys. November 27th through December 1st, the students will be there from 11a.m. until noon which also collaborative with the community to meet the needs of the children at the Hope Child Center.

In January, the students are sponsoring a combination of SCOPE system that is open to all students and the total client billing this year.

This program also allows for Evening care to be provided for $13.00 an hour. This is the one program that SOC sponsored. Eventually the Evening care program to bring in more dollars.

President Royal Johnson, ("1891) is really beneficial, some of the students who signed up to watch their child. The child discount

SOC is designed for student information and welfare of the children. They hold meetings once a month usually on the scheduled a week in advance. There is no cost for membership (UM-St. Louis campus only). SOC student can join. Lisa Thompson can be contacted at the Child Development Center at 532-5605.

The third year students host the annual school wide event for the students, faculty and staff. The students are seen saying for three years in the different classes together for four years.

Michelle McMurray reports:

If you need more or want to study about it, take a look into the UM-St. Louis Optometry School. It is a different world on that part of the campus, and what they do.

Of all of students 50% are full time. Most have bachelor degrees registering free.

In Optology, Communication and Health Jerry Jenkins said pre-optometry classes of physics, chemistry, and calculus are required. It is mandatory to be admitted because there are only 16 optometry schools in the country.

UM-St. Louis only selects 40 applicants a year. The interview is on or on average impossible for any part. The more

In Optometry everyone reviews and selects the best. Last year nine out of 20 were accepted.

Counseling is only one of the last steps. Each graduate in the program finally. Each student is going to pass the state board to be licensed. They will practice in Ronald Christensen, head of public relations and the student is part of many management counseling cases where they get in the pro-

Desperately Seeking The Simpsons

Elvis Hotline Greg Allen columnist

To all the people writing about the legality of the last play of Bud Bowl II: GET A GRIP. It isn't real. There's just helmets with little helmets on. Go back to your trailer, drink some flat beer and watch professional wrestling on TV. It's barbaric like you would give the Midwest a bad name. It's ridiculous like you who make people around the nation think every resident of Missouri has a more than casual relationship with hogs. Even in those enlightened times, there are nitwits who think Bud Lobsters are nothing but bluebeards from the midwest. If you don't believe me, ask Jeffrey Leonard. But I digress.

The real issue at hand is how can people get us involved and caught up in an advertising campaign. Whoever came up with the Bud Bowl concept must be living on TV. It's boring like you would give the Midwest a bad name. It's ridiculous like you who make people around the nation think every resident of Missouri has a more than casual relationship with hogs. Even in those enlightened times, there are nitwits who think Bud Lobsters are nothing but bluebeards from the midwest. If you don't believe me, ask Jeffrey Leonard. But I digress.
