Rolla Businessman Balks At UMSL Engineering Plan

by Kevin Kleine

A businessman in a Rolla, Mo., action group that represents students in a state university has called for a special election to decide whether the School of Engineering and Computer Science should be closed.

"The people in Rolla have decided to talk about an engineering plan," said Mike Powell, 1973 Rolla graduate.

"That's not a decision for the School of Engineering and Computer Science. That's a decision for the people of Missouri."

Rolla is the only campus in Missouri that has an engineering school, Powell said. Other campuses have engineering programs, but they are part of larger institutions.

"The people of Rolla have decided to talk about an engineering plan," Powell said. "The people of Rolla have decided to talk about an engineering plan."
Thursday 25

Little Green Man. The Department of Physics will sponsor a colloquium on "Far Out Astronomy and other Observations on MARS" in 228 Benton Hall. Coffee will be served at 3:00 in the Physics Library, 116 Benton Hall with the program starting at 3:30.

Reverse Discrimination: It's Not Just For Fairytales Anymore

by Shawn M. Poppe

The previous three stories, although edited to protect those involved are true. Many people claim that reverse discrimination is a myth, that it doesn't exist. If you believe that, then this is your final reality check in selling yourself in Florida. Not only does reverse discrimination exist, it is a lot closer to home than you realize. In the University of Missouri, aside from the previously mentioned cases, actively participates in reverse discrimination.

UM-Columbia admissions have given the green light that last year Chancellor Russell Moore allowed the Board of Regents for permission to advertise overadvertising at Missouri. The Board selectively agreed to allow Missouri to defer applications received after March 1 for the 1989 Spring Session—unless the applicant was a minority.

City Comptroller Vincent Jones recently demanded 40 percent of the construction contract and 50 percent of the professional work associated with the proposed dome studies go to blacks. Jones theorizes that these figures were more representative of the real work made by St. Louis City.

What Jones fails to realize is that the normal standards is not the only part of St. Louis City. It requires the assistance and participation of St. Louis County. Black do not account for 40 to 50 percent of the demographic of the city. The Board of Regents for permission to advertise overadvertising at Missouri.

Deferred applications received after March 1 for the 1989 Spring Session—unless the applicant was a minority.

An Opposing View

Guest Commentary

by R. Thomas Foppe, Jr.

Assistant Professor

In the fall of 1988, the Department of History at the University of Missouri, Columbia, held a symposium on the Centennial Anniversary of the African American "Harlem Renaissance." The symposium itself was not remarkable, but the author to address the closing session, Dr. Lawrence D. Carter, was. During his address, Dr. Carter lambasted the students in the audience for their ignorance, arguing that the "modern" black student was willfully blind to the realities of his own history. This response, I suggest, is an accurate response to the kind of racial rhetoric that has come to define the "liberal" black student. It is also a response to the kind of rhetoric that has come to define the black student as a whole.

While the "liberal" black student is often portrayed as a creature of the "liberal" white professor, the "liberal" black student is also often portrayed as a creature of the "liberal" black professor. This is a problem, I suggest, because it is a problem that is often ignored. The "liberal" black student is often portrayed as a creature of the "liberal" white professor because it is a creature of the "liberal" black professor. This is a problem, I suggest, because it is a problem that is often ignored.

One thing does bother me, though. There seems to be a great many employees in such maintenance and the administration of such a school that have no interest in the students or the campus. This is one of the reasons why the students are so upset with the administration. They feel that they are not being heard.

Honey, I Drink the KIDS!

Professor Bumbleums accidentally put his frozen-embryo children in a glass of Kvell. Now he's going to jail. An hilarious new comedy about pro-life insanity. Coming soon to a courthouse near you...

I told you... not the blue ice tray!

LETTERS TO THE EDITOR

King Ceremony Something To Be Proud Of

Dear Editor:

This spring, if all goes well, I will graduate from the University of Missouri-St. Louis. I have been on this campus for three years now, and there are many events, people, and places I will miss. One among them is the Martin Luther King, Jr. ceremony.

Now, you may well ask yourself, "Is it special about this particular program for a white woman? Well, let me tell you. A celebration of victory over oppression is part of one group is always good for all progressive groups. Too, I'm not black, but I am a woman, and any student out there worth their salt must believe in the revolution still needed for women in jobs, healthcare, child care, and other avenues too subservient." Right?

I attended all of the Martin Luther King, Jr. ceremonies presented on the campus and consider MLK Jr. and a prophet; I never felt the celebration was special interest any. Martin Luther King, Jr. pump the campuses will more than Handbook.

Censorship of Columnist Advocated

The freedom to speak one's opinion openly and without restrictions in a great American tradition and fundamental human right. Thus, I believe that columnists are pressured to alter their style when they suggest that we "liberal" black students are not stupid enough to be taken in by the kind of rhetoric that has come to define the "liberal" black student. It is also a response to the kind of rhetoric that has come to define the black student as a whole.

CURRENT

IDEAS/OPINIONS

The voice of the regulatory majority is that of the students who are being taught to think about these issues in terms of how they relate to their own lives as students, rather than as citizens. This approach is not about creating an atmosphere where people are free to express themselves, but about promoting a particular set of values and beliefs that are considered to be important for the students' personal development.

And that is precisely my intention: to create an atmosphere that is not only conducive to learning but also one in which students are encouraged to think critically about the world around them. This is not about silencing speech, but about ensuring that the speech that is being heard is relevant and meaningful to the students themselves.

But shouldn't there be some limits to the First Amendment's protection of speech? After all, speech that is deemed to be offensive or harmful should not be protected under the amendment. However, the Supreme Court has consistently upheld the First Amendment's protection of speech, even if it is deemed to be offensive or harmful.

Moreover, by turning speech into a form of expression that is not subject to regulation, students are encouraged to think about their own racist attitudes. This approach won't work, however, because it is based on the assumption that speech is the only way to confront racism. In reality, speech is just one of many ways to confront racism, and it is important to remember that speech is not the only way to address the issue.

A common misconception is that the First Amendment guarantees the right to speak anywhere and everywhere. However, the Supreme Court has consistently upheld the First Amendment's protection of speech, even if it is deemed to be offensive or harmful. This means that speech that is deemed to be offensive or harmful is protected under the amendment, even if it is deemed to be offensive or harmful.

The language on campus could become as pure as bottled water, but this would not be the case in the real world. And that is precisely my intention: to create an atmosphere where people are free to express themselves, but also where they are encouraged to think critically about the world around them. This is not about silencing speech, but about ensuring that the speech that is being heard is relevant and meaningful to the students themselves.
Newman, Davidovich Light 
Blaze

by Mike Van Roo

movie reviewer

Paul Newman tackles the enormously complex role of the young and very powerful governor during his ten years in office. The film's main theme is the battle between the people and the élite in power for control of the state. In this position of enormous power, Newman is totally committed to the well-being of his state's citizens. He is an absolute anti-establishment figure who is constantly at odds with the corrupt state machine. His son, played by Tom Hanks, is a young lawyer who is determined to reveal the肮脏 truth about the state's activities.

The film is a fast-paced political thriller that grips you from the beginning to the end. Newman and Hanks deliver outstanding performances, and the supporting cast is equally impressive. The film is a must-see for anyone interested in politics or film history.

GOOD OL' Boy/Neiman

ON THE STAGE: "I can't say I'm happy to be in Burke's Onyx Blues Group,"

Said Shamanski when he joined New York's. "New York is better than being an old man over

plays former Louisiana Governor Long, who once ran for office in the Movie Blues. The film is based on the love affair of Long and a young woman who is his secretary.

The film's love story is set against the backdrop of the state of Louisiana in the 1950s and 1960s. The film's themes include power, love, corruption, and the struggle for freedom. The film is a powerful and moving portrayal of one of America's most famous political figures.

New Group's Lack

Creativity, Old Standby Comes Through

by Loren Richard Kahn

book reviewer

is a comprehensive guide to the world of rock and roll. It covers all aspects of the music, from the history and development of rock and roll to the latest trends and innovations. The book is a must-read for anyone interested in rock and roll, whether they are new to the genre or have been following it for years.

The book is divided into several sections. The first section covers the history of rock and roll, from the early days of rhythm and blues to the present day. The second section covers the different subgenres of rock and roll, such as punk, heavy metal, and alternative rock. The third section covers the famous individuals and groups who have made rock and roll history, and the fourth section covers the music industry and its role in shaping the rock and roll world.

Overall, The Rock Yearbook 1990 is a comprehensive and informative guide to the world of rock and roll. It is a great resource for anyone interested in the genre, and it is sure to be a valuable addition to any rock and roll collection.

Search Begins For 1990-91 Current Editor

The Senate Student Publications Committee is now accepting applications for the position of editor of the Current for the upcoming academic year...

Final Deadline: Feb. 28
“Changes are important, necessary and needed, but they are going about it the wrong way.”

—Rich McCaskell

The NCAA announced that it will now divide its basketball teams $50,000 for each game they play in the postseason tournament.

A large share of every game from the tournament would bring home $100,000.

The money comes from the recent $17 million contract signed by CBS with the NCAA.

Free throws, especially those made in the final moments, would also be broadcast on the CBS Network.

The UM-St. Louis Rivermen can participate in the tournament by either winning the NCAA conference or by finishing in the top 16 in the country.

"I would have preferred to see them come up with a little bit more transparency," said UM-St. Louis basketball coach Rich McCaskell.

"We have to have some more clarity on what the definition of a Division II basketball team is going to be in the near future," McCaskell said.

The NCAA also initiated a new round of drug testing program to identify athletes who take performance-enhancing drugs.

"We know there are some athletes who are taking these drugs," McCaskell said.

"There are more athletes who are taking these drugs than we ever thought," McCaskell said.

The NCAA also eliminated the minimum number of games a team would have to play to be eligible for the tournament.

"It's a great service more now than ever before," McCaskell said.

"We need to be sure that every team is going to have the same opportunity to participate in the tournament," McCaskell said.
SINGERS • DANCERS • VARIETY ACTS
1990 Auditions
Open to all auditions for performers 16 years of age and older.
SINGERS must bring music in their key and may be called to dance also
