Grimes And Schwetz Miss Crucial Meeting

by Thomas J. Kovach

The chairperson of a search committee said he is upset at UM-St. Louis student leaders for not appearing as an interviewee of the candidates for the new Speakership Representative to the University of Missouri Board of Curators. Last Monday, student leaders from UM-Columbia, UM-Rolla and UM-Kansas City met in Columbia to narrow the candidates from five to three for the position. David Ridley, chairperson of the search committee, said it was crucial that UM-St. Louis Student Government Association President Mark Grimes and Vice President Julia Schwetz attend the meeting because it was the last chance for student leaders to offer input on the search and they will not be making the final decisions.

The three final candidates, Tom Simpson, Stephanie Patterson and Jeff Williams, will be interviewed by Gov. John Ashcroft. He will make the selection, with advice and consent from the Missouri Senate.

"I am disappointed," Ridley said. "I think it's unfair to the students." He said that he will still ask for Grimes' signature on a letter informing Ashcroft of the candidates.

Ray, one of the candidates for the job, said the absence of Grimes and Schwetz is "unfair." See CURATOR, page 4

Cuts Won't Affect Quality Education

by Thomas J. Kovach and Alfie M. All of the Current staff

Arts and Sciences Dean Terry Jones said while debate on which programs to cut is still underway, students will still receive a "first-rate education" at UM-St. Louis.

"The general education curriculum is the best in the country to afford a dedicated faculty," Jones said, speaking at the Foreign Language Faculty meeting last week. "We still can provide students with high-quality education, but I am frustrated with the fact it's not so much that we are doing poorly with what we are doing but there are other things we should do."

We should have a head hunting program at least 30 years ago. We should have a physical therapy program and allied health. We should have a more prominent diversity of offerings."

Jones' meeting with the Foreign Language Department was the first update he had received to the department. Jones will continue to meet with other departments to discuss UM-St. Louis' future.

The meeting was to discuss the current budgetary situation, and to update the department on when final decisions on budgetary cuts may happen.

Jones said the University of Missouri Board of Curators is concerned with this year's fiscal budget, the budget for the next few years and UM-St. Louis' future.

"In this year's budget, we have already taken 27 percent cut, three of the four percent that we have had for the past several years," Jones said. Arts and Sciences, he said, was 297,000 budget cut.

"That's better news, if you can call it that. When I last visited this University, the institution has announced that it cut one percent, which was 823,000, so that was something else's tough."

Jones said there was "a danger."

ICU Causes Former Chancellor's Absences

by Mary Montgomery

Marguerite Ross Barnett, former Chancellor of UM-St. Louis, has announced that because of an acquired medical health condition, she will not be able to continue serving as president of the University of Houston.

Barnett said, in a letter to the University of Houston community, while she was undergoing tests for a medical condition, a neuroendocrine condition was discovered that may require treatment in the next several months. She has undergone additional tests and treatment in the last several months. No specific about her illness were given.

Barnett's Medical Dictionary defines neuroendocrine as the relation between the nervous system to the endocrine system and the body the body reacts to a neural stimulus.

She said, in the letter, that she does not intend the illness to affect the university's progress and that tenure, her deputy to the president, will act on her behalf on "missions, day-to-day administrative matters," when is available. She also said that her requests to have her schedule lowered during the next several months had been approved.

Weady Addlesee, assistant vice president of University Relations and assistant to the president at the University of Houston, said the time span during which the treatment will last is not known.

New Retirement Plan Underway

A new early retirement program may be offered on a one-time basis to faculty. Arts and Sciences Dean Terry Jones said.

The plan will probably be finalized at a University of Missouri Board of Curators meeting within the next two weeks.

"There is a plan underway," he said. "I think we will be finalizing it within the next two weeks, to make it much more attractive for people to retire."

He said the retirement plan, which will be offered on a one-time basis, would be for faculty and staff members who will retire at age 62 and at least ten years of service at UM-St. Louis. Retirement benefits will be on PLAN, page 10

ST. LOUIS STUDENTS!
presents the Food and Cash Drive for the Salvation Army in St. Louis. They wanted to have a charity drive, but didn't want a depressing scene. They decided they could make it fun and raise a lot of money.

Anny will distribute it among nearly 30 organizations. All donations will be collected and tallied on Friday night. The media (Channel 5, KDSP) will be performing at 11:30 p.m. on Friday night. They will be offering a wide variety of items such as two Cardinal tickets, restaurant certificates, sweatshirts and much more.

Tools To Sponsor Annual Salvation Bash
by Debra J. Jennings, Current Correspondent

Every December, KDSP 97.7 FM presents the Food and Cash Bash Bash. The idea began in 1981 when staff members of KSD decided they wanted to have a charity drive, but didn't want it to be depressing.

They wanted it to be fun, with the main idea of raising as much food and cash as possible for the Salvation Army, who will distribute it to local charities. You can earn great benefits as an Air Force nurse officer. And if selected during your senior year, you may qualify for a free round-trip airfare at a major Air Force medical facility. To apply, you'll need an overall GPA of 3.0. Serve your country while you serve your community.

Shoo Away Those Christmas Blues With Happy Thoughts

evilis hotline

by Greg Albers columnist

Thanksgiving has come and gone and here we are facing the prospect of another month-long "It's a Wonderful Life" existence.

As Dec. 25 approaches, we will get countless opportunities to watch Jimmy Stewart save his little brother, the war, from becoming the biggest of all the woes.

Thanks to the miracle of cable TV, we will, once again, witness the Claus, the angels and the eight-day miracle of love.

When your mind feels frustrated and all the good you want the world to see is gone and here we are facing the reality of our own "end of the year" ennui, it is to the music that we turn for solace.

What a comfort it is to realize that modern reality, unemployment and drugs are nothing in comparison to the miracles that happen in our lives everyday.

Among the top 10 in the world.

After walking through the doors, most people head for the railing in theoyer, and the first thing that catches the eye below are two lifelike dinosaurs. Evil Tyrannosaurus rex has just attacked the herd shielded by intercoms, which line on its side meaning that, while the Tyrannosaurus rex, maintaining a triumphant grow.

One of the main attractions at the Science Center is the OMNIMAX® Theater, where the video images under the cover are turned on to a large, rounded screen. Up to 325 viewers can lean back on their seats, and almost feel the movements of the screen, which seems to be everywhere, changing even one's peripheral vision.

"To the Limit" is showing at the OMNIMAX® Theater until April 25, 1991, featuring three fit athletes and the inner workings of their bodies as they raise and lower the stress on their bodies. It is interesting to see how the passage of the lungs opens and closes, with the body adjusting to a hurricane (on the big screen), in order to give more room to a rock climber, and how the

OPENs DECEMBER 8 AT THEATRES EVERYWHERE
The UM-St. Louis Rivermen basketball team was finally rewarded with free food for fan interest this season. The team promises to increase interest in the sport, as the Rivermen have been one of the poorer teams in the conference.

"Student body members and wildernessers (while checking out the Root River flows) are invited to participate in the 'Rivermen Nights.'

The team will also be using Props: A very large, mutilated bot called "Steinhoff". Our girls were nervous and Northern Michigan played much better this year," said D. "We had the first few games won a couple of times. We just couldn't win. It felt as long as a storm as they are, they play with much more composure."

"We're very sorry for the families. We're very sorry for the families that carry on. When you think you have the game won and it doesn't happen in discussion for the players," she added.

"I mean, the river was the best game of the season," said Wesley Jones, Wendy LaRose, Pam Paule, Tara Gray and Rhonda Moore provided the necessary "work".

"We had a 2-2 record, but we couldn't win this competition:

"I know they were capable of challenging us, I just hoped that they wouldn't, but they certainly did." The first two times in the game was the Louis Loyola. The last time we didn't have it. The first few times we didn't have it.

"The Rivermen's 3-point attack was as good as usual: they hit in the first half and they just couldn't get a lead. The final score was 81-78, UNLV with 25."

"After falling behind 25-16 with 11:16 remaining in the half to temporarily stymie the Rivermen assault."

"This game was the last for senior players Stephanie Jensen, Kristen Burkemper, Jensen, Wendy LaRose, Pam Paule, Tara Gray and Rhonda Moore provided the necessary "work".

"The Rivermen Lose to Oklahoma 119-78"
from just outside the line but price countered with three points of his own. Steve Rivermen surprised Oklahoma's Junior Forward Joel Davis (6-5, 220) by driving the lane. Roder pulled up for a two point shot and drove the foul shot to cut the lead to eight, but a turnover allowed Barry Guardskic to score two points to close to within six.

Roder sliced the margin to four with a breakaway layup to make it 6:30 to go in the half. Graskewicz to score two points to close to within six.

In the second half the Rivermen began to go up. Oklahoma's press started to bear down on the Rivermen resulting in 30 turnovers, 17 more than last year's average, "It's disappointing with so many turnovers," said Rivermen Head Coach Rich Meckfessel. "We can attribute some of the turnovers to Oklahoma's press. Although I think we handled the ball pretty well. Where we fell down is with the turnovers was in the half-court defense."

Even so, there were many bright spots for the Rivermen. They pulled down 25 defensive rebounds, only six less than the Sooners. Junior Forward Mike Moore and Graskewicz each had five.

The magic couldn't last though, and Oklahoma tore the open from the score to maintain the four point deficit with less than the Sooners. Junior Forward Mike Moore and Graskewicz each had five.

Roder had 12 points, only five less than Oklahoma. Kynard led the team with five assists.

They shot 88.2 percent from the free throw line to Oklahoma's 44.5 percent, converting 15-31 in the category. "Our free throw shooting wasn't the good tonight I think I'll get it worked out tomorrow," said Tubbs. The Rivermen played St. Mary's in their home opener Tuesday night at the Mark Twain Building. Tip-off time is 8:00 p.m. All students, faculty and staff are admitted free.
DEAR ZELDA

I love you and am so proud of you. You're the cream.

On Monday and Tuesday, those two days on which you believe your horoscope to be the most accurate, attend a little dance and drama in favor of the arts. On Wednesday, the neo-revival Vogue room might be the place to be. Whatever you choose, you can be sure to make up programs in studies that is true. So it is an apt or isn't a plan for plenty of time with the books. Study groups are a good but for everyone the time.

Most extend Saturnian Thursday,wednesday for already issues competitive atmosphere in your classroom. And Venus in Libra is a stimulating influence, so the attitude of "let the best man win" will dominate, and in this spirit, competition becomes a very healthy developmental tool. The Libra moon this weekend favors dates or hanging out with a best friend. Do some holiday shopping with a sensi- tive person.

Aries (March 21- April 19)

Make your move on the someone you had your eyes on, Monday or Tuesday. These are crucial days, when you should follow hunches and do original work. Wednesday, get to work; your scholastic abilities are honed throughout this week by Jupiter, and when Mars (your rival) breaks that you are any more sensitive) enjoy Saturnian (your shoot-downs, you'll be further supported) reproductive efforts. So keep positive goals for this trend and see how well you can live up to your own urges in doing things. This is a great week to help with a tough subject.

Taurus (April 20-May 20)

Make your living space even more lovely, or perhaps build a new one. If this week offers any firsts for you, and you have your heart set on something, your artistic side is powerful now. It's a great time to be inspired by your thoughts or visions, or even large to develop in your own direction. This week, Piscis is to gain important growth through the use of imagination and creative ideas. On Tuesday, your driving in abilities are enhanced; research and in-depth analysis are favored over the next six weeks. Friday in the best time.

Dear Zelda...

I am a twenty two year-old student, who is very attracted to a male professor. He is not my professor, but I have seen him around, and have spoken to him on several occasions. Each time in his office, I feel the attraction and I do not want to leave. He is also married. That should tell me to leave him alone, but I do not care if he is married. I don't know and I do not feel the same way about me. What should I do?

Signed,
Anonymous

AR, A.

It is normal for a young woman to be attracted to an older, sophisticated profiting to who you look up to. This is then a difference between having feelings and acting on them. If you seriously doubt that he is interested in you, let him be happily married. There are many people in the world and he will open you up to people your own age, you are bound to find someone that you are equally attracted to.

Dear Zelda...

A few months ago, I met someone who thought he was Mr. Right. He told me I was wonderful, and made up his own name to perfect me. Finally after much coaxing and convincing I went against my parents wishes to get engaged, and live with him. He has not called me since, I am a heart broken. I wanted something very precious on someone who won't worth it.

Signed, Nailed

Dear Nathaniel,

First of all you need to forgive yourself. We all have done things we are ashamed of, and we all make mistakes. The most important thing is to learn from them and not let it happen again.

Dear MO,

Student Counseling
by Jimmy "Star" Smith

On Saturday and Sunday, get organized. You can't go to Horiwns, here on campus for free advice and counseling. Today, you can't remember a single day in my life that you are equally, your own age, you are bound to find someone that you are equally attracted to.

To the cream.

Geminis (May 21-June 21)

Getting a handle on the lowdown are the best way to use your time this week. Through Wednesday, home is your major business; however, you can't make up programs in studies that is true. So it is an apt or isn't a plan for plenty of time with the books. Study groups are a good but for everyone the time.

Dear Zelda...

I have been very overweight all of my life and people have always teased me badly. I remember when I was in the first grade, I skipped school for two whole weeks just so I didn't have to hear all of the kids make fun of me. Even the teachers would make little snide remarks, but through it all, I pretended not to hear any of it. Sometimes I just want to die. Now I'm 21 years old and the hounding still goes on, and I just can't believe that society is so cruel. I can't remember a single day in my life that I haven't been looked at or been depressed because someone did or said something mean to me. Today, I am a very bitter person and I don't trust anyone. It's very difficult for me to talk to people. What should I do?

Signed, Zeula

Taurus (April 20-May 20)

Make your living space even more lovely, or perhaps build a new one. If this week offers any firsts for you, and you have your heart set on something, your artistic side is powerful now. It's a great time to be inspired by your thoughts or visions, or even large to develop in your own direction. This week, Piscis is to gain important growth through the use of imagination and creative ideas. On Tuesday, your driving in abilities are enhanced; research and in-depth analysis are favored over the next six weeks. Friday in the best time right.

Virgo (Aug. 23-Sept. 22)

Are you ready to go to work; your scholastic abilities are honed throughout this week by Jupiter, and when Mars (your rival) breaks that you are any more sensitive) enjoy Saturnian (your shoot-downs, you'll be further supported) reproductive efforts. So keep positive goals for this trend and see how well you can live up to your own urges in doing things. This is a great week to help with a tough subject.

Capricorn (Dec. 22-Jan. 19)

You have a possible breakthrough and a possible change that you have noticed Monday or Tuesday. Continue to deal successfully with an annoying friend or businessman. Money owed can be negotiated to a reasonable rate. Ask about new weirdness Tuesday. Between Wednesday and Thursday, think questions, play your educational future or get involved. It's time to withdraw from the social scene for a few weeks and concentrate on personal goals and development. Look for a possible change here.

Aquarius (Jan. 20-Feb. 18)

Enjoy your time alone, it is important now to have a time all by yourself. Between Sunday and Tuesday, you might look to see if it is the right thing to get involved. Monday and Tuesday are your key days here on campus for free advice and counseling. Today, you can't remember a single day in my life that you are equally, your own age, you are bound to find someone that you are equally attracted to.

and there is still "a design" that unlike cuts have not been taken this year, "As of today, it doesn't appear there will be any additional cuts, or if there are, it will come down all the way in college," he said. He also said there are rumors that Gov. John Ashcroft has said if there are even more cuts halfway through the college, the board would not offer much to these cuts. "At this time, the second semes­ ter class has been committed even with part-time teaching that there is still enough to higher education would be able to provide at that time." During the meeting, Dr. Albert Runge, head of the Foreign Lan­ guage Department, asked Jones why Proposition B failed.

Jones from page 1

The current penalty system would really retain his perspective about an issue of the Missouri Conservation Federation. He was co-chairman of Missouri Conservation of Missouri from 1986 to 1988; and He was named Missouri Conservation of Missouri from 1986 to 1988; and He was named Missouri Conservation of the United Methodist Church in Mexico, Mo.
