The video depicted the anticipation of a race of people who dared to stand for freedom. Through a battle, the video illustrates how difficult it was for Mr. King and believers of all races to be accepted by the dominant society.

In the final event, four UM-St. Louis students voiced their opinions on the recent events and the importance of unity.

"I am a soldier. For the sake of war, I go along with fighting. However, I would not lift my hand to fight a war against people of the same color."  

-Mike Kelly

The panel gave the audience a professional perspective on contemporary issues such as the Persian Gulf, blacks in politics and the AIDS epidemic. Through the day, the panel was one of joyous recognition. The reality of the struggle for equality of races and nationalities is what King's voice is heard upon, round to round to a video titled "Martin." A tribute to M.L.K. Jr. honored by Garde Parks.

"This service contract will provide the food service management representatives with a packet of information, which included salaries, benefits, major equipment inventory, and class hours by building schedules that detail high traffic hours for the cafeteria.

The Request for Proposals asks for a new approach to finding a Food Service Contractor, and it is a result of 16 persons assembled in the campus of the Chancellor, last September.

"I refer to the Request for Proposal, as the new supervisor of the University food services must provide service facilities at the peak of the cafeteria for the academic year.

On the back of the keychains phrases such as "Peace Will Stand Tall. In the Desert We'll Fight, Justice Will Prevail, In an Exercise of Might," can be found.

"We want to put a keychain in everyone's hand so no one will forget what they are doing for our country. We are 110 persons behind our keys," said Ruiz. People would like to get an early start, and would like to finish up by March 20, so a proposal will be ready for the 1984, meeting of the Board of Curators. This does give one more access to the credit market.

Ribbon: Ray Of Hope

After months of speculation, it finally started. The U.S. entered the fray in the Persian Gulf and declared war on Iraq. A few hundred missiles later, the war has ended as explosively as the first missiles dropped. U.S. citizens have witnessed prestige rallies, a few Kuwaiti riots, and prayer services. American flags have been hung and yellow ribbons have been tied. Homemade posters and signs have been prominently displayed, reflecting individual attitudes on the war. President Bush and freedom as we know it for Kuwait and the rest of the world.

While the American people may have conflicting opinions on whether or not the United States should be involved in this war, it is everyone’s hope that the soldiers who are doing the fighting return home safe and sound. It also embodies the reflection of that hope. In light of our support for allied troops abroad, the Current will display a yellow ribbon on the front page until the war is resolved.

The Current encourages students to write a letter to the editor about their views on U.S. involvement in the Persian Gulf. Letters must be delivered to the Current, #1 Blue Metal Building.

P Parker  Puzzles

UM-St. Louis has taken steps to solve some of the campus’ parking problems by instituting a full-time shuttle service. Originally, the shuttle was designed to run during the first few weeks of each semester, but consistent complaints by students having to travel between the North and South campuses convinced campus officials that the need existed for a full-time shuttle.

While the administration has finally succumbed to the needs of the students by finding additional revenues for the shuttle service, it remains to be a problem on the lots and garages. This problem could easily be solved if students take advantage of what they have fought for.

LETTERS POLICY

The Current welcomes letters to the editor. The writer’s student number and phone number must accompany all letters. No student must also include their phone numbers. Letters should be no longer than two typed, double-spaced pages.

No unsigned letters will be published, but the author’s name can be withheld by request. The Current reserves the right to edit all letters for space and style. The Current reserves the rights to publish letters.

The Current is published weekly on Thursdays. Advertising may be obtained through the Current Business office at (314) 553-5115. Space reservations for advertisements must be received by 5 p.m. the Monday prior to publication.

Letters to the editor should be addressed to The Current, Office of Student Life, University of Missouri-St. Louis, 1 University Blvd., St. Louis, MO 63121-4499. Letters may be faxed to (314) 553-5115. Letters must be typewritten, double-spaced, and must not exceed 300 words. No more than one letter from one writer per issue.

Letters to the editor are subject to approval by The Current editorial staff. If a letter is rejected, the editor will explain the reason for the rejection.

LETTERS TO THE EDITOR

Employee Upset With Vice Chancellor Schlereth

To the editor:

It seems to me that in your editorial, "General Services in making fast and desperately needed movements to come and move in Tony Venice“ (Current, 1-19-91), the editors have shown a lack of understanding of the position of the department. This includes clear understanding of the mechanics of the department. Those of you who have been part of the university’s struggles, those who have been part of the past administration’s efforts to run the university’s business, and those who have been part of the new administration’s efforts to run the university’s business, are not going to make these changes happen without a fight.

The editor’s statement that the university is running smoothly is not accurate. The university is running smoothly, but not without some type of concern for the employees in that department. Our change in past years is that we are going to create a more structured set of policies and procedures for the department. This includes clear understanding of the mechanics of the department, those of you who have been part of the university’s struggles, those who have been part of the past administration’s efforts to run the university’s business, and those who have been part of the new administration’s efforts to run the university’s business.

Without the support of the university’s business, the university’s business, the university’s business, is not going to make these changes happen without a fight.

Let’s talk about recycling. Recycling has been supposed to be recycling for some time, but it has not had the attention that it deserves. Recycling has been supposed to be recycling for some time, but it has not had the attention that it deserves. Recycling has been supposed to be recycling for some time, but it has not had the attention that it deserves.

If anyone was looking forward to pay increase this year, don’t get too excited. Rumor is flying around that the university will not approve the contract for the next year. If anyone was looking forward to pay increase this year, don’t get too excited. Rumor is flying around that the university will not approve the contract for the next year.

I am in the business of doing what the university pays me to do, and I am not going to give it a second thought. I am in the business of doing what the university pays me to do, and I am not going to give it a second thought.

Sincerely,

Ray Bowen

In the next town, Taormina, the group stayed in Palermo, the capital of Sicily, where they were given another private tour.

Susan Dafoe (Platoon) and Rosanna Arquette (The Handmaid's Tale) starred in the adventure film Te acher Gets Roman Holiday.

”One of the reasons I decided to do Roman Holiday was because of the acting. I love how it's written. I thought it was a believable war film."

— Danny Glover

It's an action war film that tells the story of a pilot who is trapped behind enemy lines and must decide whether to fight or surrender.

“Due to the fact that the characters in this film are all the main actors in the film, there is a great deal of realism and tension.”

— Danny Glover

On the second pass, the plane comes to a dead stop and the sightseers still haven’t flown. So we just keep flying around and around and around and around and around. Plummer is used to these sort of things."

LOSE 20 POUNDS IN TWO WEEKS!
Famous U.S. Women's Ski Team Diet

During the non-snow off season the U.S. Women's Alpine Ski Team members used the "Ski Team" diet to lose 20 pounds in two weeks. That's right — 20 pounds in 14 days! The basic idea behind it is that when the body is starved, it was developed by a famous Colorado physician especially for the U.S. Ski Team. Normal energy is maximized (very important) while reducing. You keep "full" — the starvation — because the diet is designed that way. It's a diet that is easy to follow whether you work, travel or stay at home.

This is, honestly, a fantastically successful diet. If it weren't, the U.S. Women's Ski Team wouldn't be permitted to use it. Right? So, give yourself the same break the U.S. Ski Team gets. Lose weight the scientific, proven way. Even if you're not on the other diet, you should be eating your way to the U.S. Women's Ski Team diet. That is, if you really do want to lose 20 pounds in two weeks. Order today. Time flies as a starving.

Send only $10.00 ($10.50 for Rush Service) — to: SlimQuik, P.O. Box 163, Ocean, 28, Hayward, 51-05831. Don't order unless you want to lose 20 pounds in two weeks! Because that's what the Ski Team Diet will do. © 1989
