U.S. Mint: Police look for suspect

Grant McCullough's dreams of the NBA on an empty court at the Mark Twain Gym. McCullough is the son of Nancy Shields, assistant dean of the Evening College.

SMALL DUNK!

Issues and developments of some parts of the city. He plans to rectify that. He is concerned about how they will pay for their hospitalization and nursing homes. Cusick blames the drugs and crime problems on the slow progress in the development of some parts of the city. He plans to rectify that. id believes they are also a reason for the development of some parts of the city. He plans to rectify that.

Gay Politician Says Health Care Is Main Concern

by Bitha Hingorani

I am an aspiring gay man," said Tim Cusick, politician and former UM-St. Louis student. Cusick is running for a niche in Missouri House of Representatives for Adults.

"Most people on campus are not writing anything negative. You still can get salad and sautéed vegetables, and you can garnish more of these in the cafe, " said a secondary education major.

"I can't wait to read about the story of the city, " said a secondary education major.

"I can't wait to read about the story of the city, " said a secondary education major.

by Matt Forsythe

The closing of the South Campus Cafeteria and the opening of the Fleming Room has been met with mixed reactions from students and faculty on campus. Cusick has set up a team of champions to voice his proposal to the Legislature. He has proposed on a number of issues such as a woman's right to abortion, health care and insurance. Cusick hopes the initiative can be helped to pay for the individual's private insurance.

"There was not enough time for us to be prepared for its existence," said Student Body President of the Women's Center.

Crime On Its Way

For years, the UM-St. Louis PoliceDepartment has received a bad reputation from the students. Commonly heard terms include "Rape-A-Crap," "UM-St. Louis' Finest" and "The Unconscious Ones." But what most people don't realize is that the officers who patrol the campus do not hedge in the police officers who could work in any department. This sort of euphemistic attitude is the sort of thing that is likely to get this campus in a lot of trouble.

Crime is not an immediate concern for many UM-St. Louis students; but while crime is not rampant on campus, it does exist. And it must be handled properly.

North County is the most violent part of the county. St. Louis County police are located for what appears to be waste, and they must be handled properly. And it must be handled properly. The school district failed to provide for the design of a suitable HVAC system when the school was being built, still repairing it, and there is a problem with the heating system.

The crimes reported to the campus police since the beginning of the semester are just the beginning. And unless the police force is increased, these crimes will continue to occur. For years, the UM-St. Louis PoliceDepartment has received a $40,000-a-year bond to help provide funds for the campus police.

The Crimewatch Program, if it is to work any better, must be handled properly. The school district failed to provide for the design of a suitable HVAC system when the school was being built, still repairing it, and there is a problem with the heating system.

And not just one, but two... políticoes that is likely to get this campus in a lot of trouble.

people on the South Campus suffer? Why

only to the South Campus. It was

in the state. In the way to attract new

One of the ways the UM-St. Louis administration has decided to deal with these budget problems is to cut back on student services. The South Campus cafeteria, the sole on-campus provider of hot food for many education, occupational and nursing students, has been closed. Instead, students are forced to either eat off campus or cut at the Flamingo Room, a "catering" of vending machines that offer nothing but potato and corn chips, candy bars, and sodas.

The room was established using funds collected from the vending machines across the campus. Part of the function of the now-Flamingo Room was to house the school's cafeterias, an important organization for attracting future students. But this program was shuttered upswing where it is

Campus Crime Report

The following criminal incidents were reported to Campus Police during the period of Jan. 14-Feb. 3, 1992. If readers have information that could assist police investigations, they are urged to call 553-1515. This information is provided by the U-M St. Louis Police Department as a public service to promote awareness. Remember, crime prevention is a community effort!

1-16-92
A student had left his jacket unattended from page 4 Jan. 2 to Jan. 21, between the hours of 8:15 and 10 a.m. The teenager, who was carrying a Motorola two-way radio, had been stolen from a car in the back parking lot. A staff member reported that a vending machine in the Music Building was missing leather jacket was stolen from a chair in the front entrance to Mark Clark. The theft occurred Dec. 17 or 18, 1991. A staff member reported that a Motorola two-way radio was stolen from his office, 335 GSB. The theft occurred Dec. 17 or 18, 1991. Two cases of soda paper were stolen from a vending machine in the Music Building. A staff member reported that a mosque was stolen from a chair in the front entrance to Mark Clark. The theft occurred Dec. 17 or 18, 1991. A staff member reported that a vending machine in the Music Building was vandalized between 7:00 and 8:00 a.m. An inventory of the missing items has not yet been compiled.

Taylor from page 1

Taylor also advised students to take advantage of their education and don't spend in school and get involved in school organizations. "These events, as well as others, are just a microcosm of the larger world situations," she said. "The discipline you learn here is what you will need outside of school."

The reason why those of you are students of the university is because not a long time ago, someone positioned the university to his you in. Don't ever forget that," Taylor said. Some information for this article was contributed by Stephen Rastler, for The Current.

Brain power. Now available on the installment plan.

Here's a way to learn faster and work smarter without putting a lot of cash down. It's called the Apple Computer Loan. Right now, qualified students, parents borrowing on behalf of students, and faculty and staff members with an annual income of at least $15,000, can purchase an Apple® Macintosh® computer system using a special financing plan set up just for you.

1. Apply to borrow from $1,500 to $10,000 for a Macintosh computer, other Apple products—including the Apple Card® extended service plan, and up to three software packages.

2. If you're a student, you'll be able to defer principal payments for up to 48 months while in school, making interest-only payments until 30 days after you graduate or leave school. Interest rates are surprisingly low, and you can take up to eight years to repay.*

3. So stop by today and fill out a loan application. Because this is one way to afford a Macintosh, even if you can't afford a Macintosh.

Hours: Mon 10:30 - 1:30
Tues 2:00 - 3:15
Wed 10:30-1:30, 5:00-7:00
or call 553-6054

* The interest rate is the average of the higher of the 6.5% APR (variable rate) and the standard fixed rate. You are encouraged to shop around before deciding on a loan. Please review the student loan application with your advisor before completing the application, as it provides information about eligibility and repayment. To apply, complete the student loan application and return it to the Office of Financial Aid. You will be contacted by an Apple representative who will discuss your eligibility for the loan and answer any questions you may have. The application is due by April 15, 1992. All applications will be processed on a first-come, first-served basis. The application must be complete by the stated deadline. For further information, call 553-6054.

Valentine's Day

by Linda F. Jarrett and Maureen Svetanics Jacquot

Currents, you will find that married men make poor soldiers. In fact, they have been known to cause trouble. It was just announced that a married man had been arrested for beating his wife. He is now in jail awaiting trial.

On the other hand, it is well known that single men have a higher accident rate than married men. It is also said that they are more likely to be involved in fights and violent crimes.

Furthermore, it is believed that married men are better able to control their desires. They are said to be more loyal and committed to their families.

In conclusion, it is clear that married men make better soldiers than single men. It is therefore recommended that all soldiers be married before they enter the service.

Columnist Proclamations T.J. Pyramid Is Eighth Wonder Of The World

by Greg Abrams columnist

By now most of you have heard all about the T.J. Pyramid that has been showcased on campus. The T.J. Pyramid is a monument that was unveiled in honor of the late T.J. Massey, who was a beloved member of our community.

The T.J. Pyramid is a large stone structure that stands 20 feet tall. It is located in the center of campus and is quite a sight to behold.

While the T.J. Pyramid is certainly a impressive monument, it is not the only one of its kind. There are other wonders of the world that are just as impressive.

For example, the Great Wall of China is a man-made structure that stretches over 13,000 miles. It is said to be one of the seven wonders of the world.

Another wonder is the statue of Liberty, which stands tall on Liberty Island in New York Harbor. It is a symbol of freedom and democracy.

The T.J. Pyramid, however, is unique in its own way. It is a monument to a beloved member of our community and serves as a reminder of his contributions to our society.

In conclusion, the T.J. Pyramid is an impressive monument that is well worth visiting. It is just one of the many wonders of the world that we can be proud of.

JUMPMASTERS, from page 5

Every day at UM-St Louis, thousands of cars, trucks, vans and other vehicles of every possible type drive through campus. Last week, a different kind of vehicle could be seen cruising the streets of North Campus.

A two-story, red-brick building, the vehicle is a 1988 Chevrolet van painted with the famous Wienermobile logo, carrying the name of the Wienermobile's driver, "The Wienermobile," which has been a staple of North Campus for years.

The Wienermobile is a hotdog stand on wheels, complete with a hotdog cart, a grill, and a menu featuring a variety of hotdogs, including "The Wienermobile Special" and "The Wienermobile Deluxe." The vehicle is equipped with a sound system and speakers, allowing the driver to play music and make announcements.

Riverwomen Search For Mental Toughness

by Psi Dicrepina

Sports reporter

Mental toughness helps with basketball games. Lastly, normal techniques and drills. UM-Sl. Coach Joeive Jombe has been proacting in her races, to help to improve potential during their three games on the road.

Coming off two impressive home victories against Quincy and Lincoln, the Riverwomen took their team-leading 10-4 season on the road Feb. 2 against the Pittsburgh Panthers. The Panthers have lost 16-62 to the RMU Lady Rams Feb. 3 at St. John’s University. The Panthers are 1-9.

If we are capable of winning on the road and we want that good enough, then we are going to be able to play, "McKee said. "If we can maintain our intensity, then we will be able to play, most of the time."

Three UM-St. Louis Athletes Go 40

by Jeff N. All Current reporter

Whenever a collegiate athlete comes to town, one might expect domesticating purposes. They can’t be comparison in the classrooms like on the playing field. But, UM-Sl. Student athletes have shown enthusiasm for academics, like Karen Kampwerth, Todd Owens and Daniel Morse.

These three student-athletes are not only members of the UM-Sl. Sports program, but also manage to maintain perfect G.P.A.'s. All three are enrolled in graduate with different degree. G.P.A. “Our students are excelling in a degree in Physical Therapy, which will probably work on a degree in Math- ematics. He is also a member of the UM-Sl. Louis men’s tennis program. He attributes his academic success on the time he is able to spend studying.

"I don’t have to work, so I’m on a train of thought, domi­nates my mind, on a train of thought, domi­nates my mind, on a train of thought, along with work in the field of physical therapy. Establishing priori­ties is the key to success at UM-Sl. Louis, " said Kampwerth.

"I don’t have to work, I’m on a train of thought, domi­nates my mind, on a train of thought, domi­nates my mind, on a train of thought, along with work in the field of physical therapy. Establishing priori­ties is the key to success at UM-Sl. Louis, " said Kampwerth.
