Budget Cuts Affect Entire UM System

Governor Says Work Equals Achievement

by Matt Forsythe

Current Issue 717

For Dept. Budget Cuts

Gov. John Ashcroft said at his final State of the State address Wednesday, Missouri Schools need higher standards and expectations.

"We are ready to give a good semester and help students succeed," said Gov. John Ashcroft. "We respect the court's role to interpret the Constitution.

The new Student Court Justice slammed the gavel down this semester on hark work and efficiency.

"The student court should aim at being a model of what successful courts should be," said the new Student Court Justice. "I hope the students will respect the court's role to interpret the Constitution.

Budget from page 1

jobs might be affected by the proposed cuts. The plan included pay­

eases of employee’s salary for a week for every year of employment or a month of salary, whichever is

eers. The University also approved an early retirement plan for faculty and staff 55 or older.

All of the college Executive Council of the American Medical Association, the National Education Association, the American Federation of Teachers, and the American Federation of State, County, and Municipal Employees, representing over 2.5 million members, joined together to call for the immediate suspension of all budget cuts until the full impact of the budget crisis is known.

According to the budget plan, the University Center/Student Activity Office will be offering a variety of workshops and events throughout the year, including financial planning, resume building, and networking opportunities. Attendees can register online at www.ucsa.edu/workshops for more information.

The University Center/Student Activity Office is now offering a new manual designed to assist UM-St. Louis students. All organization presidents, treasurers, and advisors are invited to attend a SOS Workshop to receive a FREE manual!

Workshops will be held in the Hawthorn Room of the University Center on the following dates:

Wednesday, January 24 11 AM - Noon, and 1 PM - 2 PM
Thursday, January 25 11 AM - Noon, and 2 PM - 3 PM
Friday, January 26 11 AM - Noon, and 2 PM - 3 PM

Gynecologists across America are recommending contraceptive film.

VCP® Vaginal Contraceptive Film is recommended by thousands of gynecologists across the country. A micro­thin square of VCP begins to thicken tissue, forming an effective barrier of nonoxynol­9, the non­hormonal spermicidal agent.

Recommended by doctors for the reduction in the number of women who want to avoid pregnancy, VCP® CONTRACEPTIVE FILM is available only through your doctor.

Cuts Hurt All...

Freshmen, sophomores, transfer students and returning students had better make sure they remember what UM-St. Louis is like today. A few years from now, there may be a shortage of programs and services, and the slow process of readjustment will have a significant reduction in student services, and the slow process of work.

Those students who want to graduate may have to wait a semester, and the School of Optometry may be axed from the School of Health. Several students are primarily transfer students. The real struggle begins this week when the situation- a seven percent budget cut. While the budget cut battle has only just begun.

...And So Does Morale

In last week's edition of The Current, a story about position reclassification and morale on campus caused quite a stir. Some campus officials said the story opened up old wounds. Others said the truth of the article could not be good, in light of all the budget cuts.

The fact remains that employees on campus still feel position reclassification hurt morale. Even if all these employees are wrong, shouldn't the Administration listen to their gripes? After all, they are important to the institution. The Current is published weekly on Mondays. Advertising rates are available upon request by contacting The Current business office at (314) 533-5715. Space reservations for advertisements must be received by 5 p.m. on the Tuesday prior to publication.

The Current, financed in part by student activity fees, is not an official publication of the University of Missouri. The University is not responsible for The Current's contents and policies. Editorial expressed in the paper reflect the opinion of the editorial staff. Articles labeled "commentary" or "column" are the opinion of the author. Thomas J. Kovach
Editor
University of Missouri-St. Louis

Dear Editor:

Full time was my first experience as a transfer student on a part-time basis at UM-St. Louis. I am serious about being a student, and I thoroughly enjoyed the classes that I chose. American literature, I am sure, can be changed by the changes that I made. The computer lab, however, really helped me with the changes that I made. When I was told that evidently the parking lot was full, I must have gotten excited.

As an editorial in The Oct. 28, 1991 edition of The Current (No Gut, No Glory) discussed Student Court hearing parking appeals and finding parking permits lost, the editorial saddened that parking permits should have been canceled. The editorial stated that parking permits should have been canceled.

There should be a statement "No guts, no glory." I don’t want it taken care of.

The Student Court has only just begun.

New File: Billed Due To Staff Error

Dear Editor:

Of course this brings up all kinds of questions, but the only question I think the students are running through the minds of readers of this letter is: My God! Have I been misled? I’m not asking anyone to give up the way the system is set up. I’m just asking anyone to change the way they see me. I would love to believe that everyone that goes to the light-rail system is an undergraduate student at UM-St. Louis who is an undergraduate student at UM-St. Louis, but also to the airport. I don’t live in St. Louis! I mean, the way things work here doesn’t even go West County, for Christ’s sake. That will help remove many midwestern morons from the road. It’s time to do better! Let’s get real everywhere! Real real with real cars that will improve the image of St. Louis and the University. It will improve the image of St. Louis and the University.

Mrs. Opieon

Campus: Respect Light Rail Workers

Dear Editor:

Students should know that our campus is part of the Missouri Service staff of local level counselors whose main responsibilities are students and staff. The Counseling and Service is also located at 2475 SSB. We have a Career Resource Center and after career counseling, help with student life, study skills (group and individual), test anxiety, personal counseling and by light-rail workshops.

Dr. Susan Biegen
Horizons Director

LETTERS POLICY

The Current welcomes letters to the editor on subjects of interest to readers. Shorter letters may be edited for purposes of publication, but the use of material is at the discretion of the editor. Letters may be no longer than two hundred words. Letters may not necessarily reflect the opinions of this newspaper. Letters must be submitted in writing or via email. Letters will be evaluated based on content, context, and relevance. Writing will not be published.

**Music: The Best And Worst Of 1991**

by Brad Touchet

entertainment critic

Well, here we are at the start of a new year-and what a better time now than January first for a year in music. For easy discrimination, I've divided these albums into groups and I'm going to use this article to discuss a few of these groups. The first group I'd like to talk about is the one that I consider to be the best of the year. Here are a few examples of albums that I think are worthy of consideration:

**For Unlawful Carnal Knowledge** (Van Halen) - Though this album was released several years ago, it still holds up well. The band's signature sound is present throughout the album, and the songs are well-written and catchy. The overall production is also top-notch, with clean and crisp sound quality.

**Slippery When Wet** (Bon Jovi) - This album is a classic and still holds up well today. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**The Final Countdown** (Europe) - This album was released in 1986 and has become a classic. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**The Edge Of Sanity** (Anvil) - This album is a classic and still holds up well today. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**The Best Of The Best** (Aerosmith) - This album is a classic and still holds up well today. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**Book Review**

An Inside Look At Rock, Old And New

by Loren Richard Kuhns

**correspondent**

While most popular music is transitory by nature, it is also an art form that has a long and rich history. Over the years, recordings that were once popular have faded into obscurity. These records and albums are often forgotten, but they can still be enjoyed by today's listeners. Here are a few examples of albums that I think are worthy of consideration:

**The Rolling Stones' Out Of Our Heads** - This album was released in 1964 and is one of the band's most popular records. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**The Beatles' Rubber Soul** - This album was released in 1965 and is one of the band's most popular records. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**The Beach Boys' Pet Sounds** - This album was released in 1966 and is one of the band's most popular records. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**The Who's Tommy** - This album was released in 1969 and is one of the band's most popular records. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**Led Zeppelin's Led Zeppelin IV** - This album was released in 1971 and is one of the band's most popular records. The songs are well-written and catchy, and the production is top-notch. The album also features some great guitar solos and powerful vocals.

**UMSL Student Crowned Miss Metro**

by Linda S. Hayden

features reporter

"Everyone should have a goal in life and should work hard and do whatever it takes, within reasons, to accomplish it. Each person should be happy in what he or she does."

This not only is the philosophy for UMSL Student Wendy D. Griffith, but her "passage" platforms as well.

Griffith, psychology major, was crowned "Miss Metro" in November she said the pageant was "an inside look at a car at all."

They are, in actuality, in the first place. Which is by you don't drive a car, you drive.

It is always my fault it is always my fault

"I love being on the road," she said. "I love meeting new people and listening to new stories."
