This Old Barn

A crowd gathers outside The Arena demolition site after the historic building was torn down Feb. 27. For student reaction to the demolition of the "Old Barn," and photos of its final moments, see page 6.

VITA program helping community with income tax return assistance

by Sue Drift

staff associate

Volunteer Income Tax Assistance is providing volunteers to assist area citizens with their income tax returns, while some tax help (CUM St. Louis) is to be available in areas across the year.

The UM-St. Louis program, sponsored by the School of Business Administration, has been operating since 1983 and is the largest university-based income tax service in the region. Volunteers, including upper-division undergraduate and graduate accounting students, tutors, and certified public accountants assist senior and low-to-moderate income tax payers at several locations throughout the area. The service begins Feb. 13 and will continue until the middle of April.

Lindsey Chev, intern in the Office of School of Business Administration, said it was a big help for both volunteers and taxpayers.

New tax law changes may benefit college students

$1,000. Chow said that is subject to reduction or elimination depending on the level of additional adjusted gross income. There are another couple of deductions to benefit college students or their parents. One is the Hope Scholarship credit and the other is the Lifetime Learning credit.

"There's some negative benefit in terms of educational expenses," Chow said. "The Hope Scholarship credit is a tax credit for tuition and related expenses incurred for the first two years of post-secondary education. So it could be used at school, it could be junior college, community college, or it could be a four-year university like UM-St. Louis. The credit is a maximum of $1,500 per student, so that's a big check if you can shelter $1,500 of tuition and related expenses. The Lifetime Learning credit applies to tuition and related expenses for not only one though but said it would be close up even or impressive working from the old documents.

It's a big closer to the point, but a better history, a lot of things that have been fixed, but... Ash said.

Ash said that the document was not all it could be but he was happy.

"I've always said that if a violation constitutes a "ben" for the school, then it's a violation, not just a "ben" for the school, nor is it a "ben" for the school, nor is it a "ben" for the school.

According to the SGA bylaws the Assembly must pass a new constitution by a two-thirds majority before it moves to a vote of the student body. Avery said that the SGA's election has been delayed until late next month in order to get the student body a chance to pass the constitution, while still having elections. The document needs a simple majority of the student body to pass.

Instead of having an election and then days later twoPhotonics elections, he said that was the plan. We were going to wait until April so the SGA could be presented at next meeting.

by David Baughn

Senior editor

SGA President Jen Avery and Campaigner Ben Ash have apparently come to an agreement regarding the presentation of a new constitution to the student body.

Avery and Ash will allow a version of the constitution he worked on over the summer to be revealed and be on the assembly by the end of the sentence. Ash had earlier withdrawn his document from consideration after becoming discouraged by poor attendance at special meetings held to revise SGA's governing document.

Avery and Ash both said that the new constitution makes it easier for them to get the presentation at the next meeting and all the numbers can be taken back and review it to make sure any necessary changes," Avery said.

The Current
Hungry for knowledge? The third annual Japanese Student Association Dinner was an opportunity to understand the foods, arts, and people of the richly-cultural island nation of Japan.

By Lisa M. Pettig

The Japanese Student Association held their third annual dinner at the South Campus Assistance Hall on Saturday, March 9.

While the guests arrived, members of the Japanese Student Association continued to make last minute preparations for the dinner. Japanese music played softly in the background, accompanied by a smattering of flash pictures, mugs, posters, and decorations that dotted the walls.

Megan Nutini, a junior in communication technology, welcomed guests when they entered the back room filled with items from Japan. Nutini proceeded to hand each guest a coin with a ribbon tied through it. This is a five-yen coin from Japan," Nutini said.

There was a sign posted saying that "gee” means "yes” in Japanese.

"It's mean good luck to meeting good people," Sukegawa said.

Japanese students also wear traditional clothes for this event. Maukei Noguchi, also a member, describes the kimono (a traditional dress) and the yukata (a summer version of the kimono), which she was wearing.

"The kimono is the traditional dress, and is made of silk," Noguchi said. "It's very expensive. It is like buying a car. [The] yukata is made of cotton.

These gowns were worn for graduation, which is a ceremony where the age of the student is released. In the past, many students were wounded under the gowns; now only two layers are worn.

David Campbell and Girish Chandrasen, members of the Washington University Shotokan Karate Club, and Talibah Miller, a member of the University of Missouri-St. Louis Shotokan Karate Club demonstrated the techniques while Robert Miller, also a member of the UM-St. Louis Shotokan Karate Club, described the purpose of the movements.

"In the beginning stage, the students learn a series of turns," Miller said. "We're trying to get them to remember those hand movements.

After the dinner and the presentations, the guests returned to the back room to learn how to do origami, an art form using paper and folding techniques to make a variety of shapes. "It's like taking a piece of paper and forming it into a shape, then forming it into a design.

For those who missed this feature event, don't miss it the next time. Constant Yoshiko Shimizu for more information about the Japanese dinner or the Japanese Student Association at 516-742-9554.

Conférence will set sights on future of female leaders

Through this conference, Missouri college women will experience the different aspects of public policy, and will learn many leadership skills.

The agenda includes meeting with elected women officials, government leaders, and policy makers. The conference also includes a trip to Jefferson City to meet with state legislators and to participate in a mock legislative session of their own. Danica Stock is the women's summit for Women in Public Life.

"Women are not as interested in public policy. It seems that public policy is an area where women are not represented. It seems to me that trying to take college women [who are] interested in having them to be part of public policy that can seem more attainable," Stock said.

Stock said that the overall effects of this confer...
Senate election or popularity contest?

The Issue: The student senate race had a surprising number of applicants this year. However, little information was given about these candidates on the ballot. We suggest:
The Senate should take steps to better inform the students about the candidates before the election.

take steps to better inform the students about the candidates before the election.

Let us hear from you candidates on the ballot.

Last week’s student senate election was very successful regar- dig the high number of candidates running for the 25 student seats in the campus. The election marked the highest number of candidates in the history of UM-Louis with 44 candidates running for the seats. In fact, it was only the second time in recent history that they had more candidates then runs available.

The senate election committee should be applauded for their efforts and attempts to limit the election to 10 seats as possible. Not only did they have to prepare the list of candidates on a ballot, but they had to organize volunteers voted- at various polling places around campus.

Unfortunately, with the increasing number of can- didates running for student senate seats another concern at the voting precinct which the senate election com- mittee needs to address. There was a long wait for voters this year. Concern is how the candidates were listed on the ballot. It appears that 24 candidates were placed in line and next to each other on their major. There was no way to know about qualifications, past experi- ence, or any other type of information about the candidates.

The lack of voting knowledge turned the ballot into a popularity contest instead of an informed choice. Many students voted only for those students who they knew instead of voting for the most qualified can- didates.

The system may have worked in the past when the sen- ate was literally begging for students to run. But it doesn’t work. There needs to be more information on the can- didates with more students running.

When the best student candidates get into office, many of the complaints about student participation in the senate way disappear. Faculty senate members have continuous- ly bemoaned about student attendance by demand students remain. However, the senate needs to look for new methods for getting student representation on the campus. The solution lies in giving students the information they need about senate candidates before they vote.

The lack of senate accurate figures continue to be a problem, this year the senate and the more one hears about the candidates qualifications would be a good first step. Keeping voters informed that it’s their job to choose the best possible candidates.

unfilled seats are SGAs real problem

The real problem of the Student Government Association is not the lack of representatives that represents the whole student body. The SGA is not just made up of the three executive officers. It is also made up of the representatives from student organizations as well as non-re presentatives from the various schools and colleges, of which there is only one non-representative. As the Government is non-representative, I am the only student that represents students, not just students in a particular organization. The other offices repre- senting the other schools and colleges were not filled at the April’s election.

The organizations make sure that their representatives are at the meetings and that they do not lose their funds from the Student Activity Budget Committee. But do these representatives really care about the student body as a whole? Would they be able to use their funds if they were not held hostage, pending their attendance or SGA meetings? Even worse, the lack of attendance is a prerequisite requirement (which means organizations like are in high school, non-college) SGA Comptroller Ben Ash is planning to expel 28 student organizations for not attending SGA meet- ings.

These organizations represent only a small number of the UM-Louis student body. Most of the students are not in campus organizations and have no representation in SGA.

Social discomfort reigns in sleepless ears

If we think about it, most of us live a pretty charmed life. We have a warm roof over our heads, we are intelligent, we buy luxury cars, we have the means to travel to exotic locations, we eat at five star restaurants; all because of our continued blessings for generations. Right?

Recently, a newspaper has frequented visits to QuietTrip (you’ll be surprised at how much caffeine helps you work late at night). I had some opening experience at a few offices, and I thought about the blessings for generations.

I walked in to get my customary 64-ounce refill of soda. When ordering a soda, I responded with my usual line of “I want a coke with a twist of lime.” I could not help but feel sorry for the guy serving the soda. He could not have lived a life of ease. He did not have the misfortune of making the minor error that’s the understatement of the year. Someone forgot the name and put in a “t” instead of an “r.”

The employees were of different cultures. The young boy, who was not the greatest customer service, and I could not help but feel sorry for the guy serving the soda. He could not have lived a life of ease. He did not have the misfortune of making the minor error that’s the understatement of the year. Someone forgot the name and put in a “t” instead of an “r.”

I thought about it more later that day. Didn’t I react in a way that is typical of most people? When I was in college I would not want to wait any longer to get my soda and I completely understand the employee’s frustration.

I felt immediate guilt once I thought about it. I realized that I wasn’t the only one in the store who had yelled at an employee. Perhaps many people feel the same way.

I reacted as strongly as I did because I could actually see the employee’s face. If I had not been able to see the employee’s face, would I have reacted that way? There was no way that I would have reacted that way. It’s the employee’s face that makes us react that way. It’s the employee’s face that makes us react that way.

The employee’s face is more than an employee. The employee’s face reveals inner strength and resilience. Even when the employee’s face would not have been acknowledged. The employee’s face is more than an employee. The employee’s face reveals inner strength and resilience. Even when the employee’s face would not have been acknowledged.

It’s time that we all learn to enjoy the simple things in life. Things like taking a walk in a warm summer day, driving a car, or reading a good book are all things that help us to enjoy the simple things in life. Things like taking a walk in a warm summer day, driving a car, or reading a good book are all things that help us to enjoy the simple things in life.

We need to learn to enjoy the simple things in life. Things like taking a walk in a warm summer day, driving a car, or reading a good book are all things that help us to enjoy the simple things in life.

Comptroller hopes for sterner policies for next year’s SGA

even attaching it to the Student Activities Budget Committee.

“We’re in search of who will and will not attend the sessions and what they are,” Avery said.

Avery said he hoped the next year’s SGA would choose to take the attendance clause more seriously, perhaps even attaching it to the Student Activities Budget Committee. He said it was an area the students and faculty can improve in the future.

However, he said that he believes removing the names of the affected organizations was the right thing to do.

"I think we did it right," Avery said. "It was the student’s right to do what they wanted." He added that the students and faculty can improve in the future.

The current SGA will be dissolved after the current leadership and organizational structures are established.

Rimkus and Josh Stegeman had recently been appointed to co-chair the SGA election committee.

The SGA said he hoped that next year’s SGA would choose to take the attendance clause more seriously, perhaps even attaching it to the Student Activities Budget Committee. He said it was an area the students and faculty can improve in the future.

Men’s golf is young, but optimistic

BY DAVID KIMMELTON
staff associate

The men’s golf team is a program that will have its ups and downs this season as they have three sophomores, two freshmen, and one senior on the roster.

The team is composed of Tom Little, Danny Less, Tom Schroy, John Jolivett, Doug Kanne, and Matt Selles. The golf squad will look towards Doug Kanne for leadership this season.

“He is the oldest and most experienced on our team,” Little said. “He used to play at Minot so he has been through this before.”

The goals of this year’s team are fairly simple. “We just need to do the best we can,” Little said. “We have a lot of young guys on our team, and hopefully we will just get better as time goes on.”

The Great Lakes Valley Conference is always competitive according to Little, but he feels the team will hold their own.

“There are always strong teams like Southern Indiana and Adrian, but with the eight teams we will compete against, we are all really good friends and there are no enemies. We have been practicing really hard and are just excited to get the season started.”

UM-St. Louis will compete in two golf tournaments over spring break: the first is Kentucky and the second is Warrensburg, Missouri.

---

The Debate Team: (Left to right) Steven Cutts, Ethics Taylor, Jay Ducree-Nash, Jason Shaw, Henry L. Davis, and Amanda Jones

Ducree-Nash is a junior majoring in communications and was a transfer student from the University of Chicago and was named to the second team for the second consecutive season.

Ducree-Nash said that in the progressively competitive tournaments, they are able to use their experience to succeed in the upcoming tournaments. Her goal was to persuade the audience of a viewpoint and to have their arguments go unchallenged.

Ducree-Nash said that in the upcoming tournaments, the team will need to display some strong skills. She is seen as a potential top five team member and is currently ranked in the top five in the nation.

Ducree-Nash said that she had not won a championship award. “I couldn’t have done it without the team,” Ducree-Nash said.

Ducree-Nash is a junior majoring in communications and is considered by her peers, Steve Curtis, a formidable music major, for his role in the team.

“The debate team is unique in that we have a lot of young guys on the team, and hopefully we will just get better as time goes on.”

TAX ADVANTAGED SOLUTIONS FROM TIAA-CREF

IF YOU THOUGHT COLLEGE WAS EXPENSIVE,
TRY PUTTING YOURSELF THROUGH RETIREMENT.

Think about supporting yourself for twenty-five, thirty years or longer in retirement. It might be the greatest financial test you'll ever face. Fortunately, you have two valuable assets in your favor—time and tax deferral. The key is to begin saving now.Delaying your decision for even a year or two can have a big impact on the amount of income you'll have when you retire. What's the simplest way to get started? Save in pretax dollars and make the most of tax deferral. There's simply no more painless or powerful way to build a comfortable and secure tomorrow.
