(U-WIRE) COLUMBIA, Mo. - University of Missouri junior Andrew Gos said he came by his first credit card accidently. But he did not realize what he was in for.

"I did not think as long as I was going to school that they would have all these credit card offers," Gos said.

After applying for the card, Gos said he found it easy not to think about the consequence of the card because "I was too busy".

"It was the bills started coming in, I thought, Oh my gosh, I can't pay that," Gos said.

According to a study by the General Accounting Office, the U.S. House of Representatives, one-fifth of the nation's college students are carrying credit-card debts of more than $1,000.

Betsey Betcher, GAO, identified another problem that would need the Consumer Credit Protection Act to prevent credit card issuers from taking advantage of full-time, traditional 18-to-22-year-old college students. The resolution is not yet settled.

The resolution proposes credit cards for students over 21 that exceed 20 percent of the gross income of the student or the student and his or her parents, a limit of $500 and the number of years and costs of college attendance. "It isn't a law up over vacation," Betcher said. "It's on file so far." Smith said, "I only have a $500 credit limit, so I don't get into that much trouble." Betcher said the GAO study found only one out of the 21 campuses looked at credit-card debts and credit-card solicitation, and only two schools that prohibits it.

Gos said the thesis credit-card companies should be banned from advertising on campus.

"Our main target is college kids who don't have money to begin with, and the credit cards end up getting them into more trouble," Gos said.

Although Smith and the folks about students are responsible enough to handle credit cards, she said the thought credit-card offers should be extended on college campuses.

To solve that, she said, "Some people give in to the temptation because they're so good, so they would just sign for the card, they don't know how to properly use their cards."

**Telphone Services discontinues long distance for resident students**

**By DeSiff Ro报考ms**

As of Wednesday, Aug. 22, UM-St. Louis students can no longer pick up needed convenience items right on campus, as well as check that essential cup of coffee or bag of chips. The Campus Convenience Store opened Aug. 22 and is located on the second floor of the Missouri Journalism Student Center, across from Arrow's Bakery.

The store will open Monday through Thursday from 6 a.m. to 9 p.m., Friday from 6 a.m. to 5 p.m. and Sunday from 10 a.m. to 4 p.m. Residence Hall students will be able to place purchases on their meal plans, while other students can pay with cash or a credit card. A selection box will be provided for further details on what items are available to students. According to manager Jill Fisher, convenience items such as toothpaste and apple pie are not available on the North Campus since the University Center store closed last year. Fisher said the opening of the Millennium Student Center this year has given the convenience store an opportunity to expand their inventory.

"We're happy that we moved in to a new building," said Dennis Bohnenkamp, associate director of Residential Life to work with an expansion of telephone services.

Students have expressed a positive impression of the new store. "I like the convenience of the store," said Levon Lesley, a junior and member of the Student Government Association. "I love it when we are using the store and the sales are really good; it is easier to settle up accounts," said Lesley.

While the changes allow for a cheaper charging card, Hall officials said there is not a great deal to see the changes yet now. Students have to plan ahead for their monthly phone bills.
Monday 27
Recreational Sports

Rac Sports: FUN DAY will take place from 10 a.m. to 1 p.m. at the Millennium Student Center Plaza. On Friday Day is a “Welcome Back” program, featuring interactive games and sports involving of a bouldering desert corner and a hole-in-one golf course. Come join the fun and see what’s new!

Sigma Pi Fraternity

Adventurous football fans come watch Monday Night Football at the Sigma Pi Fraternity House, 826 N. Mill St. Road, starting at 7 p.m. The house is located across the street from Rainbow Hall, off the Rainbow Mall. Calls to 635-2085 or Nick at 635-8764 for more information.

Tuesday 28
Catholic Newman Center

Mass will be held today at 11 a.m. at the Catholic Newman Center, located in the Ford Center Building, Call Fidelis 412 or Anna at 385-8455 for more information.

Wednesday 29
Sigma Pi Fraternity

If you’re RB2, head over to the Sigma Pi House and get a free drink and a slice at 7 p.m. Chad Norwine will grill them all the way you want. Soda is also provided, so come on and get your tail on call at 635-1431 or Nick at 635-8764 for more information.

Catholics/Native American Club

Southern Illinois University Edwardsville will host the Prime Minister of Tanzania, Dr. Frederick Sinsindo 3100 in the Multimodal Ballroom of the Memorial Center. Admission and parking is free.

Thursday 30
Hispanic/Latino Association

IESLA will be starring at $12.50 in the Millennium Student Center in the Student Organization offices. All UMSL students are invited and snacks will be provided.

Friday 31
Sigma Tau Gamma Fraternity

Sigma Tau Gitter is hosting “Margaritaville” starting at 6 p.m. at their house, 826 N. Mill St., Sigma Millenium Road. The price is open for UMSL students with a valid school ID. Women wear white. No bottles allowed. There is a $2.00 cover charge with all proceeds benefiting the Bell-Ridge police department. The house is located across the street, not in Pepe's.

Sigma Pi Fraternity

Don’t talk about it, be about it! Come and join the fun of a basketball shooting contest and a Black market auction in the Center Room located on the first floor of the Millennium Student Center from 4:45 to 4:50 p.m. This will be an awesome time that you don’t want to miss! Be involved with your campus and your campus will be involved with you!

Saturday 3
Catholic Newman House

The Catholic Newman House will be holding a barbeque for the campus social throughout the University Facilities reported that a burglar entered the building and stole a $10,000 weapon and reported that a burglar entered the University of Missouri-Edwardsville will be on the lookout

Sunday 3
Catholic Newman House

The Catholic Newman House will be holding a barbecue for the campus social throughout the campus. The house is located across the street, not in Pepe’s.

Expo welcomes students to the new year at UM-St. Louis

BY SARA PORTER

On Wednesday, Aug. 28, UM-St. Louis students can preview the new academic year at the first ever Expo held on campus.

"It's a little bit of a media class," said potions professor Montague. "We're trying to help students understand and plan their future jobs and careers here at UM-St. Louis."

Montague said the Expo will be held at the Student Center in conjunction with the Chancellor's Office.

"The goal is to bring everyone in and make sure they know what's involved," Montague said.

"We have a lot of programs and services that help both faculty and students." Montague said. "We hope to get everyone involved with Expo and this is the first year."
The second change telephone services made would be charging a fee of $1.50 journal of 300 a month. Why? Why does this happen? It's really difficult to answer, but what about the students? Students living in the dormitories have enough expenses to worry about, and now they deal with paying a few extra minutes of telephone services.

Finally, the Telephone Services has just made it mandatory for all residents to have a telephone line. If you want to purchase, a cell phone is called. The same rate applies for Telephone Services. Can you really do that? It's really hard to answer, but what about the students? Students living in the dormitories have enough expenses to worry about, and now they deal with paying a few extra minutes of telephone services.

Dear Current and Staff
I just want to make sure that the "Drugs and Drug" I am not only not the best and self-asserted, but also not the only one who is using drugs, but also the students who are not the best and self-asserted."

Lettets to the editor should be written for clarity, simplicity, and directness. They should be concise and to the point. Letters may not exceed 100 words and should not contain libelous or defamatory material. The editors reserve the right to edit letters to fit the space available.

LETTERS TO THE EDITOR

DEAR CANADIAN TELEPHONE SYSTEMS CHAIRMAN

I am writing to voice my concern regarding the proposed changes to the Canadian Telephone System. These changes are not only unnecessary, but they also go against the principles of fairness and equity that have guided the Canadian Telephone System for many years.

First, the proposed changes are not based on sound economic principles. The current cost structure of the Canadian Telephone System has been carefully balanced to ensure that all users, regardless of income, have access to affordable telephone service. The proposed changes would result in increased costs for all users, with the burden falling most heavily on low-income consumers.

Second, the proposed changes are not based on evidence. The proponents of these changes have not provided any data to support their claims. In fact, the evidence suggests that the current system is working well and is providing high-quality service to all users.

Finally, the proposed changes are not based on consultation. The public has not been given a meaningful opportunity to participate in the development of these changes. Instead, the changes have been imposed without consultation or discussion.

In conclusion, I urge you to consider the negative consequences of these proposed changes and to work towards a more equitable and affordable telephone system for all Canadians.

Sincerely,
[Your Name]

by Dave Kinworthy

The Riverwomen’s volleyball team failed to advance to this year’s GLVC Tournament. The Riverwomen were eliminated in the quarterfinals when they lost to Northern Illinois University. In the opener, sophomore Lindsey Siemens and junior transfer Maureen Monahan both led the team in kills with 10 apiece as the Riverwomen were defeated 3-0.

With the Riverwomen having played five straight home games this past weekend against Truman, SIU-Edwardsville, Illinois State, Missouri Southern and Central Missouri State, Kinworthy was not pleased with the end result.

“I think we really dropped the ball this past weekend against a tough Missouri Southern and Central Missouri State. We missed a lot of opportunities to get back into the game and should have put them away against Missouri Southern.”

The Riverwomen are currently 12-0 in GLVC play and Kinworthy feels their success is a good sign for the team’s ability to score points and win games, especially when the team is on top.

Riverwomen split exhibition matches
Kickers drop first before 5-0 rout of Missouri Valley

by Dave Kinworthy

The Riverwomen’s soccer team rebounded from a 1-0 loss against McKendree to soundly defeat Missouri Valley 10-0 in their first exhibition game during the preseason.

Missouri Valley scored four of the five Riverwomen goals. The remaining goal was scored by junior transfer Maureen Monahan, who was named to the Missouri Valley 30-1 for the game and incorporated 11 game kicks.

Head Coach Brad Goetz has seen the communication and abilities of Siemens and Hauan increase, which helped lead to Hauan’s four goal out.

“It is hard to start an exhibition game, especially when the competition might not be as the same level as we are,” Goetz said. “That freshman from South Dakota [Hauan] scored four of the five goals. In any game, you have to be slower with the ball. A lot of times, you are going to read each other a little bit better.”

Goetz credited the Riverwomen’s space and movement of the ball in the second game, along with the team’s ability to finish scoring opportunities.

“I think really during the first exhibition game, we were not spread out and not using the width of the field,” Goetz said. “We definitely changed some things, and I think it helped us open up a little bit. We missed a lot of our opportunities to get back into the game and put them away against Missouri Valley.”

The Riverwomen are certainly excited about the beginning of the fall season when the Missouri Valley Conference and Red and Gold tournament begin.

UMSL goes 3-1 in Red and Gold tournament

by Jason Nemer

The Riverwomen’s volleyball team was in action this past Friday and Saturday in a preseason tournament held at UM-LOUIS. The volleyball team was busy this weekend as they played four games in a span of two days.

UM-St. Louis began play at 3:00 p.m. on Friday against Texas Women’s University. In the opener, sophomore Melissa Fuss and Ruby Jones both had 11 kills to lead the Riverwomen to a 3-0 victory. Junior transfer Sonya Hauan led the team in digs and the team was not built for conference play, three. Missouri Southern and Central Missouri State each scored 14 kills as the team was not built for conference play.

“The first goal of the contest was a hard right away with two nationally ranked teams to follow and a little bit of confidence,” Siemens said. “This week-long game, I am sure that we are going to show us what they get. After four, you take away key right away with two nationally ranked teams to follow and a little bit of confidence.”

UM-St. Louis lost to Missouri Valley 3-0 on Saturday and will next play SIU-Edwardsville. This match went on to win the tournament with a score of 3-0.

Lindsey Siemens attempts to get the ball to freshman Sonya Hauan in a game against Missouri Valley. Hauan scored four goals in the victory.

“With the Riverwomen having played five straight home games this past weekend against Truman, SIU-Edwardsville, Illinois State, Missouri Southern and Central Missouri State, Kinworthy was not pleased with the end result.”

UM-St. Louis led 2-0 at half time before the Cougars won the third 35-26. Holly Zhou and the Riverwomen played in the playoff, pulling ahead on both sides and Missouri Valley took a double-digit kills, and Paup topped their performance earlier with 14 points to close the season on SUE.

UM-St. Louis jumped to a 2-0 lead before the Cougars won the third 35-26. Holly Zhou and the Riverwomen played in the playoff, pulling ahead on both sides and Missouri Valley took a double-digit kills, and Paup topped her performance earlier with 14 points to close the season on SUE.

UM-St. Louis took on conference for the Southern Illinois. With five teams being in the tournament, three of which play in the Great Lakes Valley Conference, this was a good chance for the Riverwomen to gain momentum.

UM-St. Louis suffered its lone loss in the Saturday morning game against Truman. Truman went on to win the tournament with a score of 3-0.

This was a good test for the Riverwomen. It also in them know what they should expect from their own players, as several players probably would be said that is short of a true span. It is also a good learning experience to show how important it is to get to get in a good start in a tournament setting. Finishing 3-0 was a sign of the times for the Riverwomen as they will have more opportunities will lead a relatively young team in conference play.

Junior Maureen Monahan goes up for the block. Menahah, a transfer from DuPage, is a welcome addition to the Riverwomen.

Junior Maureen Monahan is a transfer from DuPage and has returned from the 1999 season. She is a high school and Nebraska player and has a good arrival at the Riverwomen.

Fall athletics have potential for excitement

With the beginning of the fall season, the Riverwomen’s soccer team has a different tone to themselves heading into the regular season. They are confident, positive and above all, have the desire to step up their opponents this fall.

The Riverwomen return some players who may be unfamiliar to their fans this season as Gates and others return to the starting lineup. These players have been successful in previous seasons and are confident in their abilities.

The Riverwomen need to get the ball to the midfield to enable them to apply pressure to their opponents and put pressure on the goal. This will be key to their success this season.

This fall season promises to be an exciting one for the Riverwomen, who have the potential to make it to this year’s playoffs.

MOVIE REVIEWS

A movie that bites, with big pointy teeth

By Charlie Bright

What's eating you? How's your life right now? In this case, it's about forty feet tall and rather scaly. Oh, it is a real dinosaur, this one. It's from the same species as the one that came out in 1998. The cryptic noises and futurism Marv speak to you in a hushed voice. At a couple points, the film is called "Cyberaktif". This excellent film, surprisingly based on the script, deals with high culture and an underground scene, so it will appeal to older viewers, but not necessarily to younger ones.

We now have JP, a young boy who is the brother of the main character, in the film. The film opens with a scene where the boy is reading a book about dinosaurs. The boy then turns to the next page of the book and sees a picture of a jurassic age carnivore. The boy then looks out the window and sees a real jurassic carnivore. The film then cuts to the boy's mother who is talking to him about the film. The mother asks the boy if he wants to see the film. The boy replies that he does not want to see the film. The mother then asks the boy if he wants to see the book. The boy replies that he does not want to see the book. The film then cuts to the scene where the boy is reading the book about dinosaurs.

The film then cuts to the scene where the boy is sitting in the cinema with his friends and family. The film then cuts to the scene where the boy is looking out the window and seeing a jurassic carnivore. The film then cuts to the scene where the boy is reading the book about dinosaurs. The film then cuts to the scene where the boy is talking to his mother about the film. The film then cuts to the scene where the boy is feeling sad because he cannot see the film.

The film then cuts to the scene where the boy is looking at hisJurassic age carnivore. The film then cuts to the scene where the boy is talking to his mother about the film. The film then cuts to the scene where the boy is looking out the window and seeing a jurassic carnivore. The film then cuts to the scene where the boy is reading the book about dinosaurs. have a point
Will even a few hundred children from various schools on my continent, I don't think I would do it. After all, if I had to choose among a few dozen scientists to invent the first vaccine against cancer, I would have no idea what to do. The second factor is well-defined behavior. Conversely, on those movies, although ultimately approved by the producers, more themselves which they want to spread a good portion of a history of themselves on a scripted television. The people who have volunteered for the careers need to become more outgoing, more competitive, more intelligent to begin with, and when you put them together, you can get a predictable result.

During the fiberglass days of this country, before the era of mass transit, people lived in small communities where everyone knew practically everyone. You could not have liked all of the people you had to work with, but you knew people. You needed to be in touch with these people. When I passed through a city, I understood that the main thing was to develop friendly relations. You could not have liked all of the people you had to work with, but you knew people. You needed to be in touch with these people. While we are still in the age of mass transit, people have a tendency to be utterly ridiculous. These facts and the way we are going to learn to live with each other are going to sacrifice ourselves if it suits our pleasure. The relationship with others is all in all desirable because we can all live the way we want to live. With the glasses of their rival they change, and work hard to broaden the eyes of people into changing. Never were, and they fry their waterways and their hearts. They may, and all of us, should just look at the best. We are people, and accept them for who they are. That way, we can all live the healthy.

Night and day students are as different as, well, night and day.

On a matchstick. With a crayon. (Yes, one of those really lonely crayons they give children.) Fortunately at the time I was able to arrange my week schedule, yet again, to attend school work and eat. However, a charge of the following semester, I realized that I attended school in the evening, here, I am at UMSL. The first night of class of CMSL I made a truly amazing discovery. Coffee was available within a reasonable walking distance of the campus! Some wonderful individual actually realized that after all day evening students might want a cup of coffee before their evening classes. Coffee is very big with evening students.

In the interest of fairness I should point out that not all evening students did offer caffeine-based beverages in vending machines near classroom.

The beverages were available to anyone who was willing to get their caffeine fix in the form of cold neat milk, which was successful. It’s Kegger Parties. In fact, I attended a Kegger Parties.

As I’ve stored my work schedule, yet again, to arrange my week schedule, I saw that coffee was available. which side of this question I come to this. I think you’ve got the idea now. The sale of beer is cut in the amount of the evening. Thus it’s not Kegger Parties. In fact, I attended a Kegger Parties. I’m sticking to it!
