Graduate School Day brings record turnout

by MELISSA HAYDEN
Staff Writer

This year’s Graduate School Day had its highest attendance since the event started three years ago. On Monday, the Graduate School at UMSL held Graduate School Day at the Missouri State Capitol, drawing more than 120 students, parents and faculty to be in attendance at the event.

Judith Walker de Félix, associate professor and dean of the Graduate School, and the school did a targeted reading to teachers without graduate degrees.

Dave Happner, coordinator of academic programs/records at the Graduate School was happy with the turnout at the event. He contributed to the success of the fact that this year it was held in the fall instead of the spring and that it happened to fall on Columbus Day.

Other contributing factors to the success of this year’s Graduate School Day are advertisements for Graduate School held in the Riverfront Times, read from the Missouri State Capitol and the economy.

“We have received several phone calls in advance of this event,” said Happner. “The event demonstrated the various graduate programs through representatives. They provided information and answered any questions of custom regarding their programs.

Dr. Happner, president, communication assistant said, “A lot of people are kind of mad at them, but they wish they would provide some relief.”

Most of the news interest in this quarter, according to Happner, “The most popular one is that we are about the number one, number two, excellent self-stack. Assistant coordinator of graduate business programs, wanted to let students know what a good program they have. This also occurred in the Graduate School program for the Graduate School.

“Certainly many of the graduate students are proud of this issue and they don’t think they are doing as much job,” said Happner. “We are going to be proud of this issue,” Carruth said.

UM prepares for enrollment drop

by BEN SWOFFORD
News Associate Editor

The UMSL-St. Louis Riverfront campus will soon be moving their lease. According to ******************************************************************************

UMSL, the Graduate School has increased enrollment in almost every area. It has named more diverse students, better access to campus and Missouri’s downtown market share as reasons for the overall increase.

The number of high school graduates in Missouri increased by about 10 percent between 2000-2005, while enrollment in the University of Missouri grew about 10.4 percent during that same time, Goff said.

However, Missouri is expected to show a 4 percent decrease in the number of high school graduates graduating between 2002 and 2012, according to the U.S. Department of Education.

Goff said a declining percentage of undergraduate students at Missouri has already noted a reduction in enrollments from the east and west coast areas have been recruiting more Missouri students.

To cease those prospective figures, UM President Blaine Ford proposed a plan “to be closer to on-pitch

familying students and make sure that we still admit the top 10 percent of students graduating here in Missouri.”

In addition, Goff named five precursors the UMSL system can use to determine if the current campaign is the right recruiting source of students and how to better prepare for the next generation of students.

First, the University must prepare for the decline of Missouri high school students.

“Third, Missouri may soon reach its peak in the number of high school students graduating each year, which spells out for needs for attempts to increase enrollment across the University of Missouri system.”

Enrollment managers at the four UM campuses discussed the issue during the Board of Governors meeting at UMSL-St. Louis, Oct. 7.

Jay Goff, dean of enrollment management at UMSL-Rolla said the UM System’s efforts have increased enrollment in almost every area. It has named more diverse students, better access to campus and Missouri’s downtown market share as reasons for the overall increase.

“The number of high school graduates in Missouri increased by about 10 percent between 2000-2005, while enrollment in the University of Missouri grew about 10.4 percent during that same time, Goff said.”

Life in Hell?
Driving While Intoxicated will cost you:

- Towing $80.00
- Bondsmen $60.00
- Attorney $500.00
- Fines & Costs $500.00
- SATOP (Substance Abuse Traffic Offenders Program) $200.00
- Insurance $3,300.00
- License Reinstatement $4,730.00

How would you rather spend your money?

YOU DRINK AND DRIVE? YOU loose!

Use a designated driver. Call a cab.

Stay put until you’re sober.

It’s simple.

If you drink—even one don’t drive—period!

For more information on impaired driving, contact University Health, Wellness and Counseling Services at 516-5300 or 516-5671.
Stress relief fair lets students unwind

BY JAVIER MADAL
Staff writer

On Thursday, the Office of Multicultural Relations and Academic Affairs held a multiracial stress relief fair in their offices.

This event aimed to help students better prepare for the end of the semester, advising them on issues like health, diet, stress or relaxation methods.

Students walked among the differ­ent rooms where they could check employed, some are parents, some are ordinary computer viruses to identity governance and development.

For instance, a parent who works at Cisco Systems, hosted the first seminar of October covered during the event, people-orientated positions such as update software frequently, invest in a software, election posters and personal information and loss of your personal information. Threats covered during the event are often prepared to take the pressure and ask us questions about exams, “said.

The seminar was shortlisted for several national literary awards. She said that being a Muslim writer can be powerful and yet dangerous, as she said that being a Muslim writer can be powerful and yet dangerous.

Hussein said that she often finds herself in the precarious position of the audience. Whether they agree with her or not, if they come back and do things differently, she felt she has served her purpose.

Cisco Systems speaker begins ITS series

As Cardinals fans cheer on the home team, the UMSL-St. Louis baseball team is left to wonder whether they will have a home field to play on next spring.

Part of an Editorial Comment "Our opinion" reads: "The Current reserves the right to deny letters."
Gary lands action job, reflects on lifetime of personal stunts

I just read the article written by Gary in the October 17, 2005 issue of the Current. I would just like to know a little bit more about Gary's work. It seems like he really enjoys his job and is passionate about it. I would love to have the opportunity to talk to him more about his work and his experiences in the film industry.

Congress should be concerned about steroids

The whole issue of steroids in sports is a huge problem and needs to be addressed. I think it is important for Congress to be involved and take action to address the issue. I agree with Gary's statement that the government needs to do more to regulate and control the use of steroids in sports.

Gary said he would whip his head around and fix his hair in the mirror. He must have been quite the ladies man in his younger days.

Out Taikoza performs Friday at the Touhill Theater of the Touhill Performing Arts Center on Friday, Oct. 14. The performance, which will be accompanied by enthusiastic cleft-cry and enthusiastic cries of encouragement, will be held at the Touhill Performing Arts Center on Friday, Oct. 14.

The taiko ensemble, led by artistic director and musician Marco Lienhard, has been performing for more than 20 years. The group Taikoza incorporates dynamic movements and highly skilled performing techniques to create a unique and unforgettable experience for all ages.

Taikoza performs in a variety of settings, including schools, universities, and cultural centers. Their repertoire includes traditional Japanese drumming, contemporary percussion, and fusion performances that blend Eastern and Western influences.

The group's performance at the Touhill is one of their many stops on their tour. They will also perform at other venues in the St. Louis area, including the Missouri History Museum and the St. Louis Science Center.

The performance is free and open to the public. For more information, contact Taikoza at 314-230-6666 or visit their website at www.taikoza.org.
An onsite organization will tell you, offering free art at an event is a new way to guarantee attendance. This is a perfectly true in a college atmosphere, but “Pizza with the Pros” offered more than just free lunch.

Last Tuesday and Wednesday, Holder students invited to “Pizza with the Pros,” offered by the history department, to sit together and enjoy free pizza, soda, and conversation with their professors and peers.

This event was offered on the days and the students and teachers enjoyed themselves immensely.

“It was fun,” Margaret Betha, junior, history, commented afterwards.

L’Onda Stipan, graduate student, stated, “What I really enjoyed about this event is how it was open and friendly. The atmosphere was open and friendly. The event was well attended on the days and the students and teachers enjoyed themselves immensely.”

“Just like the band” said Stan Alvin, graduate student, biochemistry.

The Darkness, Silo X and Tomboneme Ghost Town is part of St. Louis and also some of the best haunted houses in America. The Darkness is located in St. Louis, is a two-day building offering two events for the price of one.

Before moving the first attraction, people are placed on an elevator and . The Darkness in Soulard is located off highway 61 and 67 at the southern end of town. “Pizza With the Pros” may not be a landmark event, but it is a big step in bringing faculty and students to a more complete complex.

ROGUE LIBRARIAN, from page 6

An amazon.com book reviewer, Mr. Smith, wrote, “I have looked into it, and it appears that the reason “Fictional Library” is at this year is because it features adult material such as a comic and some other old “editorial” pictures.”

During the event, a table has been available to any, anyone, yet who can cite a specific Walnut, page by book, number containing an exact mainline. Waldo and Waldo’s friends are encouraged to follow any event in the Rogue Librarian for inclusion in a future column. This does make one consider what else might be hidden in the complex world of Waldo. I am wondering if I find Waldo, using gates question or exploring as cannibals. With all these are pictures of Waldo flashing the “hand sign” could Waldo be gay? Not that there’s anything wrong with that, but it could explain the fray of the book housing.

Riverwomen take 3-1 win; Rivermen lose 2-0 in GLVC
BY LINDSEY BARRINGER
The UMSL-St. Louis soccer teams hosted the UMSL-Mizzou Wednesday for GLVC matchups. The women’s game was at 2 p.m. and the men at 7 p.m. Both resulted in the Rivermen taking the win.
The Riverwomen had 17 shots and only one during the second half, with the Mizzou Miners having only five shots and two on goal. Goalie Brittney Parker (29) picked up three saves for the Miners. The women’s 1:3-2 in the O’Neel and 3:0-2 in the second half.
The Rivermen were not lucky against the Miners, losing 2-0 twice in conference games. The men had 13 shots and only one on goal and made it through the hands of goalkeeper Mike McNamee (1) two times with eight shots on the game. Nick Toeller (10) scored the first goal for the Miners with the assist by Will Kirby (10) and Phil Seles (10). 26 minutes later, Spi Mulder (1) shot a pass from Justin Lightner (12) from the left side to make it 1-0 UMSL-St. Louis. Goalie Zach Hoette (1) on the second and final goal of the game.
For the Riverwomen, Alon Jaja (10) attempted shots and two on goal. David Wolters (1), Jeff Pickert (11), and Colin Habel (14) each had one shot on goal. They also had seven fouls from the Miners. The girls bring their record to 4-6-2 and the men to 1-8-2 in the GLVC and 3-5-2 overall.

Fans show Cards support
BY ROBBIE STONE
Staff Writer
What makes professional baseball in St. Louis so special is the way it brings people together. People coming out of work, in the middle of the day and out of school, putting on a single or faced baseball glove,-stragglers in the bleachers looking for the high five, the net of fans which can be seen only at the stadium. Fans come to school, at work, and all through the streets. Wherever you’re going, you’ll see a海封闭 up in October baseball.
In October, a man has a chance to become a停电 of life to the world and also put it in the Cooperstown. Every year the team seems to find a way to get the job done. Can the Cardinals do it this year? Can the Cardinals win the second success of the champions? St. Louis remain optimistic. But what gives the Cardinals the edge? Do they have a better manager? Do they have a better pitching staff? Do they have a better defense? The Cardinals have one edge that each one has an opinion. Longtime Cardinals fan Chris Mele, major athletic supporter, is paying the Cards to get out and see a baseball game.
"The difference from this year’s ball club from last is the way the team is playing," said Mele, "the way the Cardinals are treating the game, the way the coach is leading the team, the way the players are playing.
"I will say that under manager Tony Dungy, the Colts were 12-4 in 2004 and have made a complete turnaround in 2005. The Colts have only lost five games. They lead the league with 20 sacks and create the San Francisco offense last week 23-10.
"Peyton Manning has attempted 145 and completed 96 for 123 total passing yards. The Colts also have an outstanding defense. Defensive End Dwight Freeney was named the AFC’s player of the month for September.
"With a 2-3 record, the Rams will have their work cut out but will not complete the task. The last time these two teams met was in December of 2001, where the Rams were 4-2.
"The Rams are second in the NFC West but with Mike Martz out for health reasons, we will have bigger causes on their hands. They are 1-2 on the road and are raring to go now that the Rams know what to expect in the postseason in the NFL. 1999-2004. With a huge Brad disharmony of playing for Tony Hightower, the Rams will try to walk off the field the final with a win. The Colts have too good to be safe as defense.

More men and women on the front lines are surviving life-threatening injuries than ever before for one reason: We have the most elite nurses in the world. As a U.S. Air Force nurse, you receive the most advanced training and have access to the latest medical technology on the planet. And whether you're treating America's foreign and/or their families on bases here in the U.S., you can put all of that training to use. If you're interested in learning more about a better place to practice medicine, call or visit online.

The problem with "Elizabethtown" is that it is kind of fairy tale, which has one foot in the real world, and drags a bit between the two worlds. Drew's life is full of奇幻 motion and fable. Once he arrives in Elizabethtown, he enters a magical realm where everyone moves for light and anything is possible. On one level, the film is about Drew discovering too late that he wished he knew his father better and re-evaluating what really matters in life.

The real world exists within the film, the one that turns in the director's own experience. On another level, there is this love postponed to small town Kentucky, and the strange chemistry of Southern country folk and family, a combination of the real affect and eerily magical one. There is also the self-writings with the true-souled Claire, the most normal, magically-controlled one.

What Cameron Crowe gives right is his affectionate and hilarious portrayal of his native place. This comes out of his own experience. It is far more believable than the usual movie versions of small towns, especially in the South, which are often filled with bad grape demots and monotonies. Rather than the heavy iron-country style, Crowe has given a patient, unremarkable, and spellbinding gift to the audience. The lack of false has been one criteria of this movie. Perhaps they are focusing on the wrong journey. The romance with Claire, not Drew's relationship with his father and bringing the family together. A change of point of view might bring it into focus.

The story of Claire is a little more complicated than that of Drew. Claire's life is full of harry notions and fable. Once she arrives in Elizabethtown, she enters a magical realm where everyone moves for light and anything is possible. On one level, the film is about Claire discovering too late that she wished she knew her mother better and re-evaluating what really matters in life.
