Now UM-C it, now UM don’t

BY THOMAS NELSON
Design Editor

The Board of Curators met last week and amended UM-C’s policy to allow UM-C to drop the title of University of Missouri-Columbia in particular cases, mostly in fundraising functions.

The board of University of Missouri-Columbia has been discussing the name change for some time now, and the decision came by a vote of 12-0 to amend the current rule for the formal title of the university.

Quick Read

The board of SGA met last week and amended UM-C’s policy to allow UM-C to drop the title of University of Missouri-Columbia in particular cases, mostly in fundraising functions.

The board of SGA met last week and amended UM-C’s policy to allow UM-C to drop the title of University of Missouri-Columbia in particular cases, mostly in fundraising functions.

The board of SGA met last week and amended UM-C’s policy to allow UM-C to drop the title of University of Missouri-Columbia in particular cases, mostly in fundraising functions.

UM-C’s name was dropped last year for UM-C’s football game against Kansas, and the name was also dropped for UM-C’s basketball games against MU.

Inside SGA

Men drop two games, women claim first win

The Tritons basketball teams both went to Indianapolis last weekend, while the women’s team dominated Saint Joseph’s 61-47 on Saturday.

Men’s basketball lost two games and dropped to 8-5, while the women’s team improved to 8-7. The men’s team lost to the Panthers 85-78 and the women’s team beat the Blue Jays 86-75.

Inside the Board of Curators meeting on Wednesday, the Board of Curators announced that UM-C would no longer use the title University of Missouri-Columbia.

The Board of Curators granted the University of Missouri-Columbia permission to use the name University of Missouri for a limited time, beginning in the fall semester of 2007.

One year later: Campus remembers Brian Schlittler

BY PAUL MACHAITE
Editor-in-Chief

Last Thursday marked the one-year anniversary of the 500 fire at the Pi Kappa Alpha fraternity house, which killed the life of senior Brian Schlittler.

In remembrance of Schlittler, the campus held a memorial service behind the old house, now being rebuilt.

“[Schlittler] was a great student, a great friend,” said Eric Schlittler, Brian’s brother, who attended the memorial.

About 150 people, including fellow Pi Kappas, other fraternities and sororities, gathered around a bonfire with lit candles in their hands.

Several of Brian’s friends and family members spoke about their memories.

Quick Read

One year after a fire claimed the Pi Kappa Alpha fraternity house and killed 16 members, rebuilding has started on the house while the fraternity remains in its fraternal

UM-St. Louis’s award-winning float was at the tree lighting ceremony on Wednesday afternoon at the Main Circle outside of the Thomas Jefferson Library, North Campus.

The ceremony is held every year, and organizers unveiled the new float that will be in the parade this year.

CELEBRATION AT THE TOUHILL

Monday, November 26
Property Damage/8-400
FRIDAY'S FILE
Some time between 11:30 a.m. and 5:30 p.m. on Nov. 24, someone broke into the victim’s car, parked on the third floor of the West Drive Garage, and stole a 40-foot fiberglass sailboat. The victim, who was not identified, said they left when the male left the area. The victim is determined as a suspect in this incident.

Tuesday, November 27
Property Crimes—West Drive Garage
The victim reported some items stolen from her car. The victim indicated that her car was parked on the top level of the West Drive Garage between 1 p.m. and 5:30 p.m. The victim discovered two towels, one on the trunk and another on the back seat. There are no suspects in this incident.

Wednesday, November 28
Assault (300 Block)
Marshall Hills Apartments
Some time between Sept. 20 and Nov. 20, unknown unknown, male and female left the victim’s residence. The victim was not identified and there are no suspects in this incident.

Thursday, November 29
Stalking (500 Block)
Marshall Hills Apartments
The victim reported someone sending notes to her. The victim indicated that her car was parked in lot between 3:30 p.m. and 4:40 p.m. on Nov. 27. The victim discovered the damage (scratches on both passenger sides) to her vehicle. There are no suspects in this incident.

Friday, November 30
Non-Violent Residential
Some time between June 1 and Nov. 29, while the victim was at a full paid computer repair from on campus, someone broke into the victim’s computer. There are no suspects in this incident.

The UM-St. Louis Police Department is open 24 hours a day. If you witness or become aware of or are an eyewitness to any crime, contact theUM-St. Louis Police at 314-516-5111.

Newswise:

Kwanzaa is not just another Christmas

By Aaron Dickson

"Kwanzaa is not just a holiday to remember Christmas," said M.K. Stallworth, sownings editor for the Office of Student Life. "It’s about giving yourself a sense of purpose." Stallworth was at Kwanzaa at UM-St. Louis, held Tuesday in the Century Student Union, an event organized by Chairs of Cultural Awareness in honor of Matthew Hill.

"The very purpose of Kwanzaa is to bring us together, to be a reminder of who we are as a people," said Stallworth.

Stallworth explained that Kwanzaa, which was a college student at the time (she was in 1967, lived in California during the Watts Riots) said "psammmathy extended and the celebrations continued with a flash- in its mod- ern mod- ern format, Benne herself, Meghna Chowdary, Demitri Felix, sopheroh, accepting, Sean Sivils, Demitri Felix, sopheroh, studio art, and Benno Woodruff.

The flash show itself incor- porated African-American designed wear, such as Jean John and Rosa Wax by would feature contemporaneous Gemma Steele and Susan Carter, also known by her stage name Lily-T.

Sease Sill, junior, communication, broadcasts his show on "The U" with the theme of "Eating a Bruised from the Federal Communications Commission."

Each year, the National Association of Broadcasters recognizes the best in broadcasting.

The "U" offers for FCC license

Last week, members of "The U" station's student on-air staff and a station representatives in talks about the potential with the Federal Communications Commission. The station is classified as an educational non-commercial service and holds a license in the metropolitan area.

Facility adviser Charles Granger said in a press release the station is non-commercial and would like to be classified as an educational.Loss of the license would not affect the station if the station were able to find new funders and if the station were able to sell the license.

Granger said.

"He’d be the first to tell you, but if someone outside the University was teasing you, he’d be the first to stand up for you," said Colleen Reddy, fourth-year psychology major and student government president.

"If someone added that you were bad at basketball you’d have to defend yourself," said Reddy.

"It all started with a memory of her brother Charles," said Colleen Reddy, fourth-year psychology major and student government president.

"I’m not sure Emily Brooker handled it," said Gerda Rady, professor of history and Amnesty International adviser said. "I’ve never seen more than one or two conflicting ac­ counts of the event."

"The house is currently set by a specific gregarious procedure for every day of that week," in their intellectual complexes.

"You can always write your legislature and you’d have to call the Bradley’s, the house, the student's ways could always actually support or disrupt with the bill."

"I’d have to be there first, just because outside the University was teasing you, he’d be the first to stand up for you," said Colleen Reddy, fourth-year psychology major and student government president.

"If someone added that you were bad at basketball you’d have to defend yourself," said Reddy.

Restricting cyberbullying needs more Web enforcement, not laws
By Paul MacKenzie
Editor-in-chief

A cyberbully is like a teenager going to an online chat room or starting a page on a social networking site to tease, for the first time, Nobody knows who I was. No one knew how I would be的社会 media.

The problem with this escape from the real-world social networking sites is that it creates a false escape from reality and that cyberbullying creeps into the ruin of the world of video games, managers, and online futures.

Despite this, it is difficult to draw the line between free speech and peoples’ rights.

So why is it that critics argue that more cyberbullying like when parents of Megan’s bulbs exist. There is no U.S. Constitution and conduct that the bullies have that makes them different.

What really gets readers at UMSL talking? It doesn’t take much

By Danny Reise • Staff Photographer

Why would random individuals, like my stance on voting, when it comes to discussing the quality of news these days.

I want to be attractive. I want to be attractive. I want to be attractive.

“Anonymity can be a person’s best friend, but it also makes him up, like a character from the movie ‘Slippers.'”

I am an editor and leader to believe that journalism should take any of the blame for the quality of news these days.

Probation must be some logical.

What would you like the spirit of giving to bring you this holiday season?

This past November, Japanese and American scientists announced that they had, respectively, produced pluripotent embryonic-like cells from adult skin cells without the use of a human egg. The announcement was accompanied by a round of news articles proclaiming this as the breakthrough that would end opposition to stem cell research. It is probably not the end of such opposition, just a shifting of the line of argument. The truth is that a similar breakthrough was made last year, a preliminary step to this one. It was also accompanied by excitement that it meant the end of religious and political opposition. Scientists knew that since it eliminated the need for human eggs, any religious objections to pluripotent cell research would be dropped.

What did not happen. Many scientists were shocked to find that some biases opposed to stem cell research on religious grounds similarly modified their objections and continued to oppose pluripotent human cell research because of some religious groups will always find any use of any cell research objectionable, and the door is open and close to scientists “playing God.”

While some research groups also published improvements on that principle, thus producing an identical genetic match. Such a match would eliminate the issue of rejection for tissues transplanted.

However, much research remains before such applications can be developed, as is the case for all pluripotent human cell research. A number of issues and scientific hurdles must be overcome for practical applications, much as in drawing the cells to be discarded the kinds of tissues desired and presenting them from growing into cancers. However, more research can resolve these issues.

However, religious arguments against stem cell research are likely to continue. What continues to be curious to some of us in this whole debate is the remarkable lack of religious objection to the creation and destruction of embryos by the in vitro fertilization industry, activity that few get or better than twenty years. The destruction of embryos only become objectionable when someone speaks of using the cells to cure diseases and save lives of already living but sick or dying children and adults. If the destruction of embryos were only the issue, there would be protests outside in vitro fertilization facilities. Since there are not, something else appears to be at work. Scientists who hope for a quick and easy stem cell research opposition should take note.

MetroLink will not cost you $3 a gallon

Many people scoffed in 2005 when analysts predicted the price of a barrel of oil, meaning about $100, oil prices had recently reached a record high of $97 per barrel. According to the BBC News website, China is dumping barges of oil priced at below $40, Chinese oil prices have more than quadrupled since 2002, and are currently 40 percent higher than they were in January 2007. A large part of the spike in oil prices seems to be the result of political and economic reasons, such as the fact that China is consuming more oil due to its large population and economic growth. In response, the U.S. government has increased oil production to keep up with demand and keep prices low. Many analysts predict that oil prices will continue to rise in the future, but the exact price remains uncertain.

As a result of increased oil prices, drivers are facing higher gas prices. The average price of gasoline in the United States is currently $3.60 per gallon, up from $2.20 per gallon in 2005. With gas prices continuing to rise, many people are looking for ways to save money on fuel. One option is to reduce the number of miles driven, but this may not always be possible for people who rely on their cars for work or transportation. Another option is to improve the fuel efficiency of their vehicles by maintaining them properly and choosing cars with better gas mileage. Some people are also considering alternative modes of transportation, such as biking or walking, as a way to reduce their dependence on gas-powered vehicles.

In 2007, 1-44/40 construction has mainly focused on the 1-440 and 1-170 interchange, but St. Louis will soon see a shift in construction work. In January of 2009, the project from west exit to schuylkill is being shelved the actual highway. The interchange will be located near the interchange from I-64 to I-65, along with miscellaneous construction from I-170 to Kingshighway Boulevard. In 2009, 1-440 is expected to be almost the remaining distance from I-170 to Kingshighway Boulevard. St. Louis County’s Transportation Management Plan Task Force says: “No other piece of road is as important to St. Louis County as the I-440 construction.” The task force also argued, “St. Louis County will spare no effort to make sure the final project maximizes construction progress and long-term benefits to the St. Louis County Community while minimizing motorist inconvenience during road construction.”

No matter what St. Louis County promises in its resolution, this construction zone will be an ongoing struggle, not only on the interchange, but also on the road construction as well. With gas prices rising at astronomical rates, the MetroLink seems to be an expensive, but time efficient alternative to the average commuter.
Putting the act in practicums

BY U plana DURR-RogERS

Art Professor

Just about every major requires or offers electives, so why are there so many people afraid of the word internship? Prepare yourself. We are going to talk about the differences in practicums and internships and let us not forget internships. Yes, there is a difference.

A practicum is a school or college course, experience, or a course-related field of study created to give students a supervised application of previously studied classroom theory. As an internship is a unique aspect of many career fields where students go to gain business experience (not paid or paid “guaranteed employment”). All while receiving academic credit.

The reason behind internships and practicums is to develop and strengthen the student’s educational and professional capability.

There are just a few degrees that offer requirements or internships: nursing, police science, engineering, computer sciences. Sometimes a supervised work experience is an off-campus experience. It is (also) a paid internship opportunity.

The St. Louis Art Museum by the department of Art History, offers a practicum in the department and provides hands-on experience in a museum setting.

In Dance Department productions as with another approved independent study project site.

Both internships and practicums expose students in just some of the interpersonal relationships a real job requires. This experience helps students develop relationships with fellow workers and supervisors that are a large part of having a successful and fulfilling career.

Subjects that offer practicums

Some internships and practicums are on campus while others are off campus. Students interested in the location can must be approved by a school or college advisor or supervisor, and students have or can arrange their own. All with the approval of their internship or practicum professor.

Since there are so many different locations, they vary on their length of time. Some may last a couple of weeks, some last an entire class period. The practicum professor determines the length of time.

Putting the act in practicums

“Drawing the Line” is a play produced and performed by UM-St. Louis students, is a play to aware students of the procedures for establishing an harassment-free work environment.

The actor and author, Matthew Stein and Kristy Menlove respectively, put on an excellent theatrical presentation to get the audience to think visually and audibly.

The play focused on findings from the AAUW, a national organization that is one of the nation’s leading voices in promoting equity for women and girls with approximately 100,000 members and 500 college and university branches. AAUW is dedicated to helping women achieve their highest level of personal achievement.

Established in 1869, AAUW is an organization that is one of the nation’s leading voices in promoting education and equity for women and girls with approximately 100,000 members and 500 college and university branches. AAUW is dedicated to helping women achieve their highest level of personal achievement.

Students have the ability to participate in a conference or an internship by participating in the Blue Jays for youth, an organization that is one of the nation’s leading voices in promoting education and equity for women and girls with approximately 100,000 members and 500 college and university branches. AAUW is dedicated to helping women achieve their highest level of personal achievement.

Or, if nothing else, go ahead and sit in front of the Xbox or load up YouTube. It may make a break. You have earned it.

Putting the act in practicums
Q&A with the Hedgehog a.k.a. Ron Jeremy

The Current
goes one-one-one with the Porn King before ‘The Great Porn Debate’

BY STUART REEVS

Porn star Ron Jeremy visited UM-St. Louis Wednesday to participate in a debate about pornography and to affect in society with Craig Gross, porn pastor and the founder of http://www.XXXChurch.com.

The Current had the opportunity to sit down with the controversial and pop culture fixture nicknamed “the Hedgehog,” to talk about his career and views on the adult entertainment industry.

The Current: Ron Jeremy was born Ron Jeremy Hyatt. Are they the same person, or is Ron Jeremy a character for your adult and mainstream films?

Ron Jeremy: No, I play characters in movies. That ‘Ron Jeremy’ is my name for two-mainstream, adult movies and some lesser budget movies. I’ve used Ron Jeremy for some of the mainstream stuff. I consulted on “Boogie Nights,” and I think I was Ron Jeremy in “Boondocks Saints.” But I was Ron Jeremy Hyatt in “Killing Zzyx,” “Reefer Madness,” and “The Class.” If the studio wants “Ron Jeremy” out of the credits, I’ll use it.

They can tell me “Joe Shirt” for all I care. I just want to work.

The Current: Suspending any movie is a subject about pornography, has your career been hurt or negatively impacted on your perceived relationships?

Ron Jeremy: That’s tough. You travel a lot, and the philosophy of marriage is a little bit. It’s not even the sleeping with other woman that is the problem because most men have a problem with monogamy anyway.

I’ve been in international monogamy since Katrina (from playing basketball) and I predicted that same marriage a few weeks apart on The View. You have to live that life.

The Current: What if you had a daughter that wanted to become a pornographic performer?

Ron Jeremy: I would be a little surprised. Not surprisingly. I love my daughter but my daughter is Ron Jeremy Hyatt. Nothing is going to stop her from getting what she wants. But if my daughter had her heart and mind set to it, I would, of course, I would love her to do it, but I would not love her to do it in a smart way. It’s not fun, it’s not fun, she would stand to make $4 million in the business, but then quit and go on a different business.

The Current: Are you one of the few performers in pornography that have had crossover success?

Ron Jeremy: Yes, I have. I’m known as ‘Ron Jeremy’ to a certain audience and about the business, but I have dated people that understand the lifestyle.

The Current: How would you react if you had a daughter that wanted to become a pornographic performer?

Ron Jeremy: Well, everyone in college knows ‘Boondocks Saints.’ And I have made self-cutting out. A few reality television shows, and ‘National Lampoon: torment,' which is a comedy central, it’s a good one. I’ve got another show in production in Queens College. I work hard, I audition for parts. You don’t get paid unless you audition. You really have to kill yourself. I’ve had to kill yourself. You have to work hard.

Matthew MEI • Photo Editor

Adult film star Ron Jeremy faces off against anti-porn advocate Craig Gross at “The Great Porn Debate” Wednesday at the MSC.

"Maybe a best supporting actor award? I was a lead in "Organism"."

Ron Jeremy

The Current: If ‘Boondocks Saints’ had been released financially, I don’t know. Maybe a best supporting actor award? I was a lead in "Organism." I’ve been in some art house films that didn’t go far enough.

To get an Oscar, you have to be in a film that not only do you do a great job in, but the film has to get out there.

If you give a great performance and people don’t see it, it’s going to be a waste of time. Could it happen? I’d like to think so. But I’ve gotten a lot of AVN awards in the meanwhile.

Let The Current transform your life.

**TOUHILL PREVIEW**

**Warm up your winter with PAC's holiday favorites**

**Dr. Cate Marshall**

Grope Editor

Classes may be ending but the Touhill Performing Arts Center is still offering holiday concerts, shows, and the traditional Nutcracker ballet throughout December.

Here is a peek at what is going on at Touhill this holiday season, just in case you need a little break from finals, studying, and all that.

**Wednesday, Dec. 12 - Manhattan Trumpet for the Orchestra**

The usual divisi format gets a little twist last suicide at the theater. They are back again this year, with soloist Robert Nordman and former student Allicia Keys featuring in their performances.

**Friday, Dec. 14 - Jim Brickman**

Concert - 8 p.m. in Anheuser-Busch Hall. Tickets: $28-75. Pacific Lee Brickman offers aowell and gentle side to holiday pop music. The concert is a warm and easy concert experience, with a rising star in this style of music. For this concert tour, piano star Brickman is joined by Richard McDonald, the former lead singer and songwriter of the country band Sawyer Brown. If you like your holiday dreampy and symphonic, this is just the ticket. As a bonus, if you buy VIP tickets, you will receive Brickman’s latest CD, a one-year subscription, and get to meet him after the show.

**Saturday, Dec. 15 - An Evening with Mario Cantone**

Flamenco 8 p.m. in Anheuser-Busch Hall; Tickets: $25-50. It is all still at the Touhill - you get comedy two. Comedian Mario Cantone delivers multicolored comedic genius and his larger-than-life persona.

Cantone’s appearances include a special concert, show the Christmas Carol, a show on “Sin City: The City,” and an acclaimed one-man Broadway show “Laugh Whore,” described as “a one-man variety show.”

**Sunday, Dec. 16 - Great Russian Nutcracker**

PAC 3 p.m. and 8 p.m. in Anheuser-Busch Hall. Tickets: $23-65. What is the holiday season without a performance of Peter Ilyich Tchaikovsky’s famous Christmas ballet? The Moscow Ballet presents two performances of this holiday classic. The story is based on the E.T.A. Hoffman story “The Nutcracker and the King of Mice” written by Russian fairy tale author Alexander Pushkin. It tells the tale of a young girl who receives some of the most famous and beautiful classical tunes. This production features hand-painted sets, giant puppets, lush sets and costumes, and beautiful dancing. What more fitting way to enhance your holiday traditions.

For more information about any of the upcoming performances, call (314) 516-4049.

---

**THURSDAY, DEC. 6**

Anniversary Concert of Kathy Sledge Opening reception 6-7 p.m.

Widely acclaimed concert from world travelers by UMSL Louis area vocal and former student Allicia Keys featuring in their performances.

**FRIDAY, DEC. 7**

Antonin Dvorak’s Symphony in E minor, Op. 90, with soloist Allicia Keys featuring in their performances.

**DECEMBER 9**

Award-winning String quartet Four Strings from UMSL Louis area vocal and former student Allicia Keys featuring in their performances.

---

**TOP ITUNES DOWNLOADS**

1. - Flos Rico (national hit)
2. No One - Alicia Keys
3. Apologize - Timberlake featuring Out Loud

**GIVING MUSIC: WHEN YOU CAN’T AFFORD TO GIVE THEM AN iPAD**

By Elizabeth Stuart

It is that time of year again. What do I buy for Mario/Girlfriend/Brother/Best friend? For the music lover in the family, the choice may seem obvious: gift card! If you are into more personal gifts than music is a plastic digita, I may suggest one of the following options:

**The bonded coffee/teacup (consumer) won’t opt for the same choice an iPod or sound system. However, as all of us have little to money to our names, these CDs might be easier on the wallet.**

For the laid-back traveler or retired grandparent, check out Eddie Vedder’s “Eat the s*** and Die” warlock. It is folk rock, trip music at its finest. I must not have Thanksgiving day break we know it is great for listening to while traveling for the holidays as well.

If you aren’t from the St. Louis area and your friends from White Stripes, collect a copy of local band from St. Louis-based duct tape’s album “In the Fireworks Kitchen.” I hear they will show up at the show when it is all over, or it will be worth it. Baby Grand, second is located down in Wings Road in the Loop. Trust your Friends to a Red Water dog show if you can. Local stores generally cost less than the CDs.

All the rock bands out there do not have Machine Head’s latest album “The Blackening” but you will have your friends missing out on that. The Moscow Ballet will perform the Nutcracker Wednesdays, Dec. 6 at the PAC.

**December 3, 2007**
PHILHARMONIC FILLS UP PAC

The St. Louis Philharmonic Orchestra performs at the Twilstuff Friday night.

PHILHARMONIC FILLS UP PAC

The St. Louis Philharmonic Orchestra performs at the Twilstuff Friday night.

Finding the right gift for an avid gamer can be difficult, especially when shopping for a paner. But not to worry: here are just a few recommendations for some great gamer gifts.

For Wii:

- Wii Points Card ($10-$55): These points cards allow players to buy video games on the internet through the Wii. 2008 points equals a $2.30 Wii game, and there is potential to be more downloadable on the way.

- Game Patti ($19.99): This affordable gaming package includes Darts, Tic-Tac-Toe, Hoop Shots, Ski Bell, Ping Pong, and Trivia. It was just released on Nov. 6, 2007.

- Super Mario Galaxy ($49.99): This long awaited sequel makes a great gift, and with the padded Mario costumes being big this one is sure to be a hit.

Weinstein make it a little bit harder to get used to but it is the most 3D enhanced game on the market.

If you are looking for some separate Wii controllers to go with the Nintendo Wii system, the Wii Sensor Bar costs $75. You can also get them for the Xbox 360 and the PS3.

Runnerup is on the lighter side. Their sound is basic pop punk not that to be fun if not amazing. De s cribing themselves as "Tag!"

Maybe it is only odd to me because as far as local punk bands go, I do not have a problem with par tic ular street punk bands who like to slosh it all over and perform on the slippery mash pit area and people are going to fall and get hurt. Is it not and he is busy tying or getting smashed, but please, don’t do anything even if it might be only odd to me because of his involvement in the crowd.

While the show was not over, the show ended with Runnerup’s own rendition of Semi-Fuller’s certainly took the show with his vocal charisma and stage presence. The set included songs off of their 2007 album "Tag! You’re it!" and new tunes of their most recent record as well as their own rendition of Semi-Fuller’s "Chasing Time." The crowd certainly got into it with an added combination of hardcore dancing and a little moshing. One incredibly dynamic skater in a red and black shirt was Stallion’s main man.

Runnerup headlined the show — Still preceded Runnerup with what was back in April, kids — and they played their sets "I think it’s only one louche and he is in watching the hockey game on TV". I do not have a problem with people trying to get in and out of the venue. Keep the glass away from the fans and the girls of the band. They are not even related. I am a huge fan of this music and does not require a great graphic card, PCs and PS3 have them. Many fans PlayStation fans are sure to be great.

The bottle end up crashed in the slippery mash pit area and people are going to fall and get hurt. It is really that difficult to express how bad a deal thearon the fans who want to kill it all over the crowd.

I am surprised Van Patrick’s has not lost its lucrative licensing selling beer in bottles which can then be taken anywhere in the state. This does not work when there is one only louche and he is in watching the hockey game on TV. I do not have a problem with people trying to get in and out of the venue. Curliss-Taylor optimistic about season’s progress

BY SCOTT LAVELLOCK / Staff Writer

You’ve had a lot of seasons everywhere you’ve coached. What do you think you’ve had the biggest improvement in this season’s team?

Q: You’re having a lot of turnovers, a lot of that is because those girls have not played together before. They’re not used to when another person would be on the pass, or who is more effective in this role at that end. It’s a learning process.

Q: What have you been your impressions of the first game?

A: We’re having a lot of turnovers, a lot of that is because those girls have not played together before. They’re not used to when another person would be on the pass, or who is more effective in this role at that end. It’s a learning process.

A: We’re having a lot of turnovers, a lot of that is because those girls have not played together before. They’re not used to when another person would be on the pass, or who is more effective in this role at that end. It’s a learning process.

Q: And then we go up against Grand Valley State, but we were able to defend all those guys at a pretty high level.

A: We’re having a lot of turnovers, a lot of that is because those girls have not played together before. They’re not used to when another person would be on the pass, or who is more effective in this role at that end. It’s a learning process.

International journalist speaks on genocide

By CATIE MASON

Following the horrors of the Rwandan civil war, many people believed that genocide would never happen again in Europe. In the 1990s, the world was shocked when stories of genocide began to emerge from the former Yugoslavia.

The conflict gave rise to the term "ethnic cleansing" and focused renewed interest in Holocaust studies, especially Bnamese. Bosnia and Hercegovina, is an international issue. Catie Vaulin was one of the first journalists to report on concentration camps near Prijedor in 1982.

It was a middle-aged man with a British accent, wearing a dark blue Mao suit. "I have to get better everyday. We've had our ups and downs, but we're not going to get better everyday. We've had our ups and downs, but we're not..."

"The press is no longer just to report on news, but to inform the audience that white people know about the mass killings in Srebrenica. There are innocent people who are suffering in Srebrenica..." Vaulin told his audience that while many people knew about the mass killings in Srebrenica, there were still those who were unaware of the atrocities committed.

"The tension is no longer just to report on news, but to inform the audience that there are innocent people who are suffering in Srebrenica..." Vaulin told his audience that while many people knew about the mass killings in Srebrenica, there were still those who were unaware of the atrocities committed.

A wry, energetic middle-aged man with a British accent, wearing a dark blue Mao suit. "I have to get better everyday. We've had our ups and downs, but we're not going to..."

By LEANDRA FOX

St. Louis with 13 points in the Tritons’ 87-47 victory over the St. Joseph’s University in December.

The conference win was the first of the season for the Tritons with Carl T. Taylor-Clarke for The Tritons. The team’s overall record is 1-4 at the CVC record is 1-4. Carl T. Taylor-Clarke was also among the leading scorers in the game.

St. Louis finished the game with 10 points, shooting 5-for-9 from the field. Carl T. Taylor-Clarke scored 12 points in the second half and led by as much as 20 points in the first half.

St. Louis recorded more rebounds than St. Joseph’s 41-25. Want's not only led the Tritons with 13 points in the game but also led with nine rebounds and five assists. St. Louis shot 7-for-8 in the game and shot 8-for-8 from behind the three-point line.

Jeff Kelly led the Tritons with five rebounds and finished the game with eight total rebounds. Mitchell also had eight points, shooting 4-for-7 in the game.

The Tritons finished on 37 points off of the Puma’s 25 turnovers in the game. The Puma scored second points off of the Tritons’ 14 turnovers. St. Louis recorded a total of 11 steals in the game while St. Joseph’s only had three.

Sophomore Lacey Shalenko played minutes in the game and was pour from the field. Shalenko shot 1-for-3 in the game including one three-pointer and also had one assist and two rebounds.

By TAYLOR FOH

The team has four seniors that have been playing the game for the University of Louisville. Lisa Ricker, Courier, St. Louis, and Taylor Gagliano. Now have their leadership been to this team that they especially value.

A: You think it's difficult when being under massive. They've been through a lot of inconsistency, I'm understanding. I hear from them that the new point of view isn't that difficult for it's a difficult point...

But I think once they understand the basics and the fundamentals, it'll grow even more. Right now, they need to focus on their technique, being the other players.

For their defense, I think everyone's having to adjust to almost everything. I think we refer to our self study of the last game, we're really trying to get our defense back to our leaders that they need to.

Q: What would you tell the

UMSL student body as to why they should come out?

A: They're not a typical girls basketball team. They are going to...

- Place a number in the empty cells in such a way that each row across, each column down and each three space square contains all of the numbers from one to nine.

### WEEKLY PUZZLE

**THE ALL NEW BIO 1350**: Conservation of Biodiversity Offers a solution...

**B.C.H.S.**

by Blade Johnson & John McGinty

**B.C.H.S.** is drawn by Current cartoonists Blade Johnson and John A. McGinty.

### Snapshots at jessicaw.com

Professor Herman paused when he heard that unmistakable thud – another brain had imploded.

**ABRES**

(Week 27 to April 18)

You either let yourself be dazzled from what is really important, but the key finally gets your attention this week. However, it comes with a challenge that could mean a painful rebirth.

**SUNBAS**

(April 24 to May 20)

The key to not only getting others to follow your lead but also to flourish. Persuade, do not insist and you get the cooperation you need to move forward with your plans.

**GENI**

(Par 21 to June 20)

It is time to give up to dust your old boots and start down a new path. You, of course, are the leader, but do not let the other feel undue pressure. Remember: A former foe can become your best ally.

**CANCER**

(June 21 to July 22)

You might want to ponder the claim for making this holiday season special, but it is worth producing a lot of hurt feelings by reconvening what they need help? Think about it.

**LEO**

(July 23 to Aug. 22)

You can't grow to be mature without getting help from your friends. Be yourself, be your own project. There is a balance between work and your well-needed escape.

**VIRGO**

(Sept. 23 to Oct. 22)

Your holiday planning might look like a back for a bit so that you can handle a problem with a friend or family member. Your schedule might be so tight that you can't handle the holiday at all.

**SCORPIO**

(Oct. 23 to Nov. 21)

Relationships in general benefit from the end of the week, including in the workplace. Also, some important changes in a personal situation.

**SAGITTARIUS**

(Nov. 22 to Dec. 21)

"Prudence" should be your watchword this week. Be not too big about some of the things that are currently happening on your life.

**CAPRICORN**

(Dec. 22 to Jan. 19)

"Vita is a spur, mind, if you should ever remember we are spending. Take another look at that holiday budget and see where you can make adjustments.

**AQUARIUS**

(Jan. 20 to Feb. 18)

According to what you've got, your old friendships might still come from old wounds. Are you sure you want to risk that? Think through before making a commitment.

**PISCES**

( Feb. 19 to March 20)

You need to know more about what you're doing and need to some starting sentences. Here's a key: Keep a specific mind about what you want until the last minute you.

**NOTE THE WEEK:**

"Thank you so friends makes you a very special person to those whose lives you have touched.

RETAIL: The Best Offer

The University Bookstore will pay 50% of the new book price providing the textbook:

* Will be required for the next semester.
* Is needed to fill next semester enrollment.
* Is in reasonable condition.

EXAMPLE:
* You paid $64 for a new textbook. We will pay you up to $32 or 50% of the new book price.
* You paid $34.50 for a used book. We will pay you up to $33 or 50% of the new book price.

WHOLESALE: The Next Best Offer

* For books having national demand, the wholesale company will pay 10% to 40% of the new price.
* Discounted books are shipped to a wholesaler who recycles them to other colleges and universities where they are needed.
* Old editions have no national value.

REMEMBER:

Our goal is to buy back as many of your books as possible.

* Recycling books is good for the environment and lowers the price of textbooks.
* Book prices are determined by the authors and publishers.
* Wholesale prices are based on national supply and demand.
* Copies in poor condition will be deducted appropriately, or not bought back at all.
* Old editions have no value and cannot be purchased.
