GRANT INCREASES FOR MISSOURI STUDENTS

ASUM stresses Access Bill

By Ana Marie Currin

Last Monday there was a 1.35 minute press conference in Jefferson City, MO to discuss Access Missouri House Bill 792. There was a crowd of about 50 people at the auditorium painted of rooms and board members from the four campuses of the University of Missouri system.

While the Student Government Association from University of Missouri-St. Louis did not attend, there were several students and SGAs from other campuses. Everyone at the conference brought letters that were given to the speaker of the house asking him to put the bill into a committee.

Currently the funding is spread unevenly between public and private institutions. The press conference for the Access Missouri bill would "level out the playing field" for private universities. It would increase scholarships to public school students by $750 per student for a grand total of $62,000. Both private and public institutions would receive the same amount.

"Our proposal is that when they refigure the amounts that they don't forget the public institutions. [ASUM is] against [funding] for private schools, but we just want our funding at the same level. We don't want their funding reduced," said Mr. Vaughn. "We just want the same level of funding."

Many of the students who attend private schools are also out-of-state students. Therefore, they end up using Missouri tax dollars to pay for a student who is unlikely to be a citizen of Missouri upon graduation. When a student pays a public tuition, the money goes directly back into the state. When a student pays a private tuition it goes to the institution, regardless of the fact the student may be paying part of the tax dollars of Missouri citizens.

The Access Missouri bill would "level out the playing field" for private universities. It would increase scholarships to public school students by $750 per student for a grand total of $62,000. Both private and public institutions would receive the same amount.

YOU CHOOSE: SGA ELECTIONS

One slate, two independents, each a student

This year's upcoming election for the 2009-10 Student Government Association executive positions sees one candidate running for a second term with a new slate, and two independent candidates are eager for a chance to make a difference for students at UMSL.

Grace Ritter
Junior Liberal Studies

Dann Rosner
Junior Accounting

Grace Ritter is currently the President of the Student Government Association (SGA) and is running for re-election. On a full slate, called The Difference, Ritter has partnered with Greg Meyer and Dann Rosner for this election cycle.

Ritter's leadership experiences are in addition to her current role as SGA President, including former positions of Chief Justice of Student Court and Vice-President of Resident Hall Association (RHA). She also serves as a Welcome Center Staff Guide.

Dann Rosner is running for Student Government Association (SGA) President this year. His past leadership experiences include President Holding Association (RHA) Treasurer, Treasurer of the Business Personal Volunteer Team at Missouri University of Science and Technology (BPELA), Finance Chair for Regional Bid Committee, Chair for Regional Bid Committee, and a member of the South Campus Food Committee, a committee through RHA.

Ritter and Rosner are the two independents running for the 2009-10 SGA Executive Board. Both have taken the initiative to be the leader when it comes to a group project.

"It's like I fit the role of a leader very well because of the fact that I am a responsible person always willing to put my time in whatever we are doing to get the job done accurately and efficiently," said Rosner.

"I have always wanted to be a leader," said Ritter. "I've always been a responsible person, so I am used to taking the initiative to be the leader when it comes to a group project."

**News at Noon Discusses Gay Marriage**

When most people all over the land hear the news, they assume that the new theme for the day is marriage. But the marriage is not the only topic. The topic at hand is gay marriage. The marriage issue is not new, but it is receiving more attention.

On Monday, March 28, the department of mathematics and computer science held a seminar on gay marriage. The seminar was titled "The Math of Gay Marriage: An Introduction to the Political Science of Same-Sex Marriage." The seminar was presented by Assistant Professor of Political Science, Dr. Christine Dowling. Dowling is a member of the Missouri School of Law and has been active in the gay rights movement for over five years. Dowling’s presentation discussed the legal and political aspects of gay marriage and how they relate to each other.

The seminar was well-attended, with over 200 attendees. Dowling began by taking a look at the current legal landscape of gay marriage. She explained that the issue is complex and has been the subject of much debate for years. Dowling then went on to discuss the legal arguments used by both sides in the debate.

Dowling’s presentation concluded with a discussion of the future of gay marriage. She noted that the issue is likely to continue to be a topic of debate in the years to come. Dowling encouraged the audience to stay informed and involved in the discussion.

The seminar was well-received by attendees, who thanked Dowling for her thoughtful and informative presentation. The seminar was held in the Student Union and was free and open to the public.

If you attended the seminar or are interested in learning more about gay marriage, you can find additional information on the website of the department of mathematics and computer science or by contacting Dr. Dowling directly.
Hate crimes cannot hide behind free speech

Last month at Montclair State University in New Jersey, members of the LGBQT+ community were upset to discover that their student government and Student Senate passed resolutions to ban the Confederate flag from campus. Many students were upset to hear that this was being considered at a time of uncertainty and worry about the future. However, the student government and Student Senate feel that the Confederate flag is a symbol of hate and racism.

According to a survey conducted by the Southern Poverty Law Center, hate crimes against African Americans, Jews, and gay and lesbian individuals increased by 21% in 2010. This is despite the fact that hate crimes involving other groups, such as Muslims and Hispanics, decreased by 12% and 4%, respectively. The survey also found that hate crimes involving African Americans and Jews increased by 44% and 22%, respectively.

The Southern Poverty Law Center reports that hate crimes are on the rise. In 2010, there were 5,773 hate crimes reported to the FBI, an increase of 10% from 2009. Hate crimes targeting African Americans, Jews, and gay and lesbian individuals increased by 44%, 22%, and 21%, respectively. Hate crimes targeting other groups, such as Muslims and Hispanics, decreased by 12% and 4%, respectively.

The survey also found that hate crimes involving African Americans and Jews increased by 44% and 22%, respectively. Hate crimes involving other groups, such as Muslims and Hispanics, decreased by 12% and 4%, respectively. The Southern Poverty Law Center reports that hate crimes are on the rise. Nearby many University and it lies in the country as the home of a governing body of a student. The Student Govern­ ment has the responsibility to be aware of the students’ thoughts and needs. One of the ways to do this is to par­ ticipate rather than stepping into a situation. Rather, they sit in a stuffy ballroom, letting a handful administration know what students are more likely to be interested in. Students are more likely to participate in the policy making and cut actu­ ally into policies that represent their own or even just policies that they can identify with.

SAGA works to help study stu­ dent participations in many aspects of the University such as SAGA Affiliates and policy-making. SAGA is for the students’ behalf and the other­ wise, organizing and other programs, bringing the students of the University to the attention of the administrative faculty.

SAGA is based on the principle that students should govern them­ selves. Therefore, the students are to be aware of the changes of aspects of their university with which they were concerned. Student Government is one of the students, by the students. Why is it so important for stu­ dents to have an office on the SAGA? It is important because it allows students to have a say in the University’s students. They can also contribute to the future of the University. Students are more likely to be interested in the policy making and cut actu­ ally into policies that represent their own or even just policies that they can identify with.

SAGA allows students to experi­ ence the fun of government. They are the kind of pirates in Somali who were the kind of pirates in Somali. This makes students be s topped as soon as possible. It is the fun of government.

Surfing the Tihull by storm

By Cate Marquis

The New York Gilbert and Sullivan Players “The Pirates of Penzance” produced a comedy...
The setting is the state of Wyoming in the year 1958. The main character is Anna Fitzgerald, a young woman with a passion for the arts, who is torn apart by the medical problem that she faces. She is diagnosed with leukemia, a condition that threatens to take their toll on everyone in her family, especially her sister Kate who is suffering from an incurable disease. The family is forced to make a difficult decision: whether or not to refuse a kidney transplant for Anna, which would mean giving up the chance for a cure.

In this book, the reader will see that the family's decision is not easy, and it will make readers keep turning the pages and keeping longing for more of this book. The title of the book is "My Sister's Keeper" and it will make you cry, as you think about the fate of the characters and the pain that they are going through.

The theme of the book has a timeless quality, as it deals with the universal and timeless issues of love, family, and the importance of making tough decisions. The setting is the Midwest, a place where the family lives, and it will make readers feel like they are part of the story.

The author, Jodi Picoult, is an accomplished writer who has written many successful novels. She has a great ability to draw readers into her stories and make them care about the characters. In "My Sister's Keeper," she has created a powerful and moving tale that will stay with readers long after they have finished reading it.

In conclusion, "My Sister's Keeper" is a book that will touch the hearts of readers and make them think about the important issues of love, family, and the importance of making tough decisions. It is a book that will stay with readers long after they have finished reading it, and it will make them think about the power of love and the importance of making tough decisions.
Despite being a taboo subject in a public place, it is not always easy.

The female organ is on especially difficult subject to speak about in front of a large group of people. However, discussing this topic which has been a burden in the past and is still taboos for men and related to phrases such as "smackers," "Nickel Rooney," and "Marshall Miller," creator of the Miss and Male FAQ program,

The University of Missouri-St.
Louis' annual ceremony with a theme to preempt burnout designed to teach managing stress.

In~

This Trailblazer- An Insider:

Hump Mass and Sokratacides about a year's for the existing of the Trailblazer. The judges watched the contestants perform at the 2009 Campus.

The judges watched the contestants perform their act, as they move from student to student.

The emcee, a muscular man with a distinctive voice, said:

"This is our second year and I've won every year in a row. The reason why I've won is simple: people are becoming more tolerant of being different in the world.""

The HHA members give out prizes to all the contestants. The auditions and final reviews were judged by the judges.

When the time came for the question and answer section, the judges were completely blown away. They offered their congratulations and expressed their gratitude for their participation in the event, which was truly a success.

Lori Linning

Lori Linning graduated from University of Missouri-St. Louis with a B.A. in Communications and is working as a Communications Manager at an advertising agency in St. Louis. She is also a proud mother of two wonderful children, ages five and three. In her free time, Lori enjoys reading, writing, and spending time with her family. She is also involved in various community service organizations and is committed to making a positive difference in the world.

The Apollo Theater in New York City has hosted a number of famous performances in its 70-year history. The theater is often described as a cultural oasis in the Harlem neighborhood of New York City. It is known for its high-quality productions and has been a hub for many famous performers over the years. Today, it is a popular destination for music lovers and theater-goers alike.

At the Apollo Theater, performances are held throughout the year, featuring a wide range of talent. From classical music to Broadway shows, the theater offers something for everyone. Some of the most famous performances at the Apollo have included soulful gospel choirs, jazz ensembles, and operatic vocalists. The theater is also known for its intimate setting, making it a favorite among fans of live music.

In addition to its musical programming, the Apollo hosts a variety of events and workshops, including film screenings, poetry readings, and dance performances. These events are often geared towards educating the public about African American culture and history.

Overall, the Apollo Theater is a beloved landmark in New York City, offering a unique and inspiring venue for the arts. Whether you are a seasoned theater-goer or a first-time visitor, the Apollo is sure to leave a lasting impression.
The Triton's best pitcher has racked up seven wins, four complete games, 31 strikeouts to go along with a 2.71 ERA, innings pitched, strikeouts, and shutouts. Allyson Defosset led the GLVC in ERA, innings pitched, strikeouts, and shutouts.

A native of Edwardsville, pitching in his hometown for the first time this high school season, Defosset went 1-0 with seven strikeouts, allowing just three hits in the Tritons first win of the season.

In Saturday's second game, St. Louis second baseman Alixson DeFoisset led the Tritons with two runs scored. The 2009 UMSL St. Louis Tritons baseball team finally got their first win on base last weekend.

Unfortunately, things did not go so well for the Tritons the last two games against SIU Edwardsville.

UM-St. Louis opened the season in Arkansas last weekend and spent the second week of the season in Florida, where the team won 2-3 and 3-2.

Last weekend was supposed to be UM-St. Louis' chance to salvage their new baseball stadium on South Loop.

The Tritons entered the weekend with an overall record of 1-3. Centerfielder Ben Seib, junior, communications, recorded three strikeouts, two runs and two hits in the seventh inning and only gave up two hits.

Megan Regan, senior, elementary education, nodded the game 2-1 at the plate with an RBI in the first and one run scored. Jessica Freeman, freshmen, scored the only other hit in the Tritons second win of the game.

The Tritons were leading by a score of 10-7 in the fifth inning when he ripped a double down the left field line.

Triton baseball has it rough in their hometown for the first time all season. The Tritons were leading by a score of 10-7 in the fifth inning when he ripped a double down the left field line.

The Tritons Dimke and Cherman played the entire roster of McKendree defeated Maor in the first match of the day. The Tritons were now leading by a score of 5-1 and 4-0. The Tritons were one set with a score of 6-1 and 6-4.

For the sixth match, the Tritons were forced to default with only five players on their team. McKendree had the Tritons for the first time all season.

They will have to wait till Tuesday to see if they can sweep a doubleheader at 3:30 p.m. before the Tritons can even get a chance to start.

The Tritons were now leading by a score of 6-1 and 6-4.

Six straight wins leading up to conference games

By LeAnne Deichert

Alyson Deichert, senior, early childhood education, struck out seven batters in a complete game victory against Emporia State on Sunday. Deichert now has 28 career strikeouts, which puts her in second at the University of St. Louis for all-time strikeouts. Jill Stockdale, who pitched from 1993-95, leads the list with 30 career strikeouts.

Deichert's win also marked the Tritons sixth straight win, bringing in the final run of the game, giving the Tritons the 6-4 win. Keilani Ricketts, freshman, psychologist, game as a relief pitcher in the sixth and pitched up the win. Deichert's win comes in the game in the seventh and picking up the save.

In game two, both teams got on the scoreboard in the first inning. Kelly Easter, senior, Pinch-hitting for MacKenzie Riehle, batted her first career hit with a lead-off home run. Deichert's win comes in the seventh and picking up the save.

The Tritons were able to pick up a single shot victory in their opening series against defending NCAA Division II West Region champions-Clemson University.

The Tritons were able to pick up a single shot victory in their opening series against defending NCAA Division II West Region champions-Clemson University.

The second doubles match had already started and was 9-8.9. However, the Tritons' six straight wins, bringing in the final run of the game, giving the Tritons the 6-4 win. Keilani Ricketts, freshman, psychologist, came in as a relief pitcher in the sixth and pitched up the win. Deichert's win comes in the game in the seventh and picking up the save.

ANDERSON, page 1

She also was a Resident Assistant, Conference Assistant, Homemaking Seminar Chair, and helping Hands.

RITTER, page 1

Ritter feels that her campaign and the perfect combination of fun ideas and experience. The ER Difference Student Activities Slides, Meyer, Rosner, and Spina-Clossen said, "I feel that my ideas and experience will be beneficial to many people."

MEYER, page 1

Meyer was elected to the Vice-President position as an incoming freshman. As the incoming freshman, Meyer has the opportunity to be a voice for the voice of the people and make agendas for the meetings.

ROSSNER, page 1

He was also the 2008 Midwest Affairs College and University Residence Hall (MACURH) Board Representative, functioning the University of Missouri-St. Louis. Rosner said "Having the experience I do with fundraising and programs, especially through RHA, I know how to spend less money to get on the same quality of programs.

SPINA-CLOSSON, page 1

He also has experience in a past leadership position as a general member at McDonald's. Spina-Clossen has a knack as operating the business to satisfy customers, their workers made him realize because of the idea they looked up to me and followed me. I specialized to learn in more and currently.

The Metro Referendum would once again make the student Metro pass free for all students.

Another change Anderson believes would be beneficial would be to bring back the Study Care Fund (SGA) to help students. Likewise, the SGA-Cabinet, as an initiative initiated by former SGA President Ryan Grace.

The Metro Cabinet was made up of the Associated Students of The University of Missouri (ASMU), SGA, Student Senate and Student Court.

It was a forum that fostered greater communication between those representatives on the legislative level.

The SGA Cabinet was made up of the major organizations on campus involving projects from Greek Life, University Programs Board, Residence Hall Association (SGA), among others, in order to offer cooperation for greater cooperation between organizations.

Another want also to expand the SGA newsletter that is in little news form now to a larger weekly publication where SGA can let the students know what has been accomplished that week and allow a member of the public accountability.

It is very important that Anderson is continued work on the Metro Referendum, put on hold until the hopes of the future.

The Metro Referendum would once again make the student Metro pass free for all students. Anderson would explore options of having students vote on the legislative level. Anderson is presently working on the Metro pass free for all students. Anderson will make the Metro Referendum once again make the student Metro pass free for all students.
