JAMES MILLER (standing at right) directs the Early Music Society in their concert Monday, December 17.

The St. Louis Early Music Society, directed by James Miller, presented the second in the Campus Monday Evening Concert Series to a near-capacity crowd Monday December 17, at 8:30 p.m. The concert contained selections of medieval, Renaissance and Baroque music appropriate for the Christmas season.

The concert began with an introduction by director James Miller in which he related the history of the church's role in the development of the music. Miller also mentioned that a series of personal misfortunes, especially the arrival of a new baby, had caused "Lo The Angel Said" to be deleted from the program. Another change in the announced presentation was the absence of translations of the foreign selections sung by the group. Dr. Andrew K. Rule, pastor of St. Louis Early Music Society and member of the Early Music Society, reported that he had planned to provide them but that the broken leg suffered in last week's icy weather prevented this.

The choir, which consisted of five sopranos, six altos, five tenors, three basses, a harpsichord, and a cellist, used a variety of ancient and unusual instruments in achieving authenticity in their presentations. These instruments included recorders, cornets, viola da gambas and panpipes. An interesting sidelight to the accompaniment is that Mr. Armbruster personally built the choir's harpsichord. The next concert in the series will be presented February 25 and will feature William Maul in a solo concert for the harpsichord. Mr. Maul's instrument, 9 1/2 feet long with two manuals and six pedals, was built in 1960 by G. Rutekav of New York and is conservatively valued at $6500.

On the underprivileged children's party will begin at 3:30 p.m. in the St. Louis Campus student lounge. Members of the Student Association and party committee will entertain approximately 25 underprivileged youngsters at the party. Gifts for the children have been contributed by two stores in the Normandy Shopping Center, Walgreen's and Anderson's Music Store and by Stix, Baer and Fuller. Stix, Baer and Fuller spokesman reported that the two stores in the twenty-five children. Cullen-Bryant Funeral Home contributed $150 in cash, and $800 in clothing.

Laura Now Planned for January; Volunteers Needed for Stage Work

The St. Louis Campus Drama Club has tentatively planned the last week-end in January as the date for their presentation of "Laura." Student tickets for the play are priced at sixty cents. All other tickets will be seventy-five cents. The production will be fully staged with all props donated or furnished by members of the cast. Rehearsals are being held every afternoon in the lecture hall, room 101. Students are asked not to come into the hall while the play is being rehearsed.

Dennis Deters will be in charge of lighting and other aspects of stage work. Students are needed to assist in this work and anyone interested in helping should contact Dennis or John Dudash, the club's president.

Volunteers are needed to make posters for the production. Anyone who is willing to make them should contact any member of the club.

The Drama Club is also going to need a publicity agent. This person will have to publicize the play by use of posters, newspapers, advertisements, and word-of-mouth.
Dating Questionnaire Gives Insight to Campus Problem

Sixty-seven percent of the students responding to a recent dating questionnaire indicated that they would date students from the St. Louis Campus if circumstances and facilities were provided. The questionnaire was originated by Miss Edith Larkin, Campus Sociology teacher. Margie Doerr, chairman of the SA Social Committee, wrote, distributed and tabulated them.

The questionnaire was distributed by the Social Committee in the hope that the results might provide some insight into the methods of improving the Campus social life. Of the 125 students answering the form, 98 said they would date other students from the Campus if the opportunity were present.

Twenty-one students cited inability to find anyone on Campus whom they would like to date as their major dating problem. Seventeen answered that they were going steady with someone outside of school. No time for dates was the reply from 16 students and 10 said they would like to date students from this school but didn't have the money. Eight girls expressed the desire to date but with their homes too far away, and six students replied that they were too shy.

The answers to the question “Who do you date?” were sharply divided. Fifty-four students said that they sometimes or always date students from the Campus, while 68 reported that they never did. Other campuses supply dates for 70 students, while 68 say they’ve never dated from other colleges. Fifty-four students date high school students while 82 replied in the negative. One hundred and eleven students never date members of their own church while 36 students do and 36 choose their dates from work compared to 107 who don’t.

In releasing these statistics, Miss Larkin emphasized that a more detailed analysis of the results will be made later and that any conclusions which the above figures imply may be disproved at that time.

Mixed Chorus Planned For Campus Next Semester

Mr. Charles Armbruster, St. Louis Campus chemistry teacher, plans to organize a mixed chorus next semester. This choir will be modeled after the traveling choir in Columbia. The chorus will be largely student governed with officers elected to precede over all functions of the group. The most important of these elected officers will be the Business Manager whose job will be to arrange concerts throughout the St. Louis area as well as for the students on the Campus.

Mr. Armbruster hopes for at least forty voices in the chorus. No experience is necessary to join. The choir will practice two times a week at the convenience of the choir members.

According to Mr. Armbruster, the choir is being organized to fill the need for such music on campus, to provide a casual outlet for students and to bring greater recognition to the Campus.

There will be a called meeting after the Christmas vacation for all those interested. For those unable to attend the meeting but wishing to join, applications will be available in the office.

Engineer’s Club Elects Nelson First President

At their first meeting, the St. Louis Campus Engineer’s Club elected Randy Nelson president. Future meetings have been scheduled for 7:30 on the second Wednesday of each month in room 216. Nelson was elected Wednesday, December 12.

Other officers elected were: Vice President Donald Cunningham, Secretary Jim Griesemer and Treasurer James Tucker. Also at this time a film on Jet Propulsion was shown. The history, design, and speed of jets prior to the United States’ entry into World War II. Tentative plans were then laid for the January 9 visit of Dr. Morgan, Dean of the Engineering School and Dr. Milo Bolstead, Dean of Mechanical Engineering on the Campus at Columbia. The visitors will address the club on digital computers.

Officials O.K. Skating, Sledding for Students

While others battle crowded slopes and ponds for their sledding and skating pleasure, Campus students will have the opportunity to enjoy the ponds and pond ice on campus in a more relaxed fashion. According to officials here, students may use the Campus grounds and pond for skating and sledding when the weatherman cooperates. However, no supervision for either activity is planned.

Officials suggested that students check the announcements concerning the safety of skating on city ponds and lakes as a general indication of the condition of the pond here. However, they cautioned against relying too heavily on these announcements because of the possibility of varying conditions. Ice is generally considered safe for skating when it is 12” to 18” thick.

The Campus will be open from 8 a.m. to 4:30 p.m., every day except December 24, 25, 31 and January 1 during the Christmas holidays.
Here & Now Normandy

I would like to thank all those students who have brought contributions for this column to the Tiger Club office. I would like to thank them, but since none one brought any contributions, I can't.

Sharon Stephenson: What's this rumor about you and the little brother, and the fire tree? Just say a little "bird" told me, do birds wear glasses.

Personal to Mr. Woodard: If you think your American Government lab classes have been a little cool toward you lately, I have a suggestion on how you can remedy the situation. Just close the windows.

Note to members of the cafeteria Wine and Dine Society: Certain members of the student body don't feel that F.M. stands for Funny Man, especially when disappearing ink is involved. Correction on an item: Those notes that were stolen were American Government notes, not American History notes. By the way, more government notes have been stolen during the past week. Those sticky-fingered frauds must have formed a club. They'd have to -- nobody else would want to associate with them.

Meanwhile . . . Mizzou

Little things that happened this month in Mizzou that must be an indication of something or the other . . .

The band playing for the Interfraternity Fudge Council dance got a small surprise when they returned from their 10:30 break. Not only was no one left on the dance floor, there wasn't even anyone left in the hall. Ah well, fillers, that's the danger of taking those long breaks.

The Maneater carried the following headline: (Dean) Mathews. Things are looking up for the political groups on campus. This year political parties have stuck to titles such as B.A.R.F. and U.S.A., and M.I.U., in contrast with the titles of political parties last year such as B.A.R.F. and P.U.K.E.

Bookstore To Open

The University of Missouri Bookstore will operate a branch on the St. Louis Campus starting next semester. The store will carry a complete line of books for all St. Louis Campus courses, a wide variety of paperback books, a large supply of notebooks and student supplies, school-name sweatshirts and many novelties as space permits.

During the Christmas vacation, construction of partitions for the store will begin in the west side of the student lounge. The store will be open at least three days a week, and in the future, give a percentage of its profits to the Student Association.

Campus' First Homecoming

Planned For January 29

Plans for the Campus' first homecoming celebration were unanimously approved by the St. Louis Campus senate in its regular meeting Monday, December 17.

The celebrations will be built around the January 29 home game against Logan and will include an informal dance after the game and the crowning of the Campus' first homecoming queen.

January 29 is the Tuesday after final examinations and before final registration. To overcome the publicity problem posed by the fact that Campus students will not have been in class for over 10 days, the Senate also voted to mimeograph small announcements to be sent to all Campus students and to some alumni.

As all home games, the Logan contest will be played in the Normandy Junior High gym and will start at 8 p.m. Although no specific plans have been announced yet, it is probably that the dance after the game and the crowning of the queen will be held about 10:15.

The January 29 date was chosen because of its combination of a league game and a home game with a suitable date. The January 7 game against Harris Junior Varsity was unsuitable because of classes the following day and because Harris is not a league team. Both the January 11 game against Eden and the January 14 contest against Sanford-Brown are not home games and the next two contests, against St. Louis Baptist the 18th and McDonnell the 25th, were ruled out because they are non-league games.

The election of the homecoming queen will be conducted by the Student Association Rules and Elections Committee. The TIGER CUB went to press, the committee had not decided on the method of nomination, the number of candidates or the date of the voting. Watch the bulletin boards and the next issue of the TIGER CUB for complete information.
A Promising Contribution

In keeping with the expansion of activities on Campus this year, the Student Association has followed a program aimed at furthering student activities. Two upcoming SA endeavors, however, merit special recognition.

The Snow Ball tomorrow night at 8 p.m. represents the welcome continuation to one of the Campus' most delightful traditions. In each of the three years since the school's birth, a semi-formal dance has been held at this time with notable success. Tomorrow night's dance should be no exception.

Earlier tomorrow another tradition may be inaugurated; an annual Christmas party for underprivileged children. It is our hope that future SA bodies will add this party to their activities list. It is also our hope that the procedure of appointing non-senate members to committee positions will be taken as a precedent for future activities. This innovation in Senate organization, largely the result of President Mike Lindhorst's foresight, is a most effective way to increase student interest and participation in Senate affairs.

Also deserving recognition are the administration and faculty for their generous co-operation in this past student activities.

It becomes apparent that more individuals then we have space or time to name here deserve recognition. For these people, Senators, executive officers, administrators, faculty and interested students, have begun the most promising tradition of all - co-operation. It is this that we congratulate them most heartily, for it is here that the best hope for the future of the St. Louis Campus rests.

The Holiday Threat

It has been stated, perhaps over-stated, that safe-driving is a necessity. During a long holiday, however, it is important to repeat this phrase, because safe driving means the difference between life and death.

But if you don't care about your future, at least think of others. If that sounds trite, see how trite this sounds. A family of five were driving along the highway two years ago. Five minutes later, what had been a normal happy family was transformed into a bloody mess strewn over the highway. If you're inclined to take this lightly, remember the high school senior who hit a Lucas-Hunt and died of a broken neck, or recall the students killed returning from the Missouri-Kansas game - who's laughing? In all these cases, someone else's carelessness brought unnecessary misery into dozens of lives. Why?

Keep these things in mind when driving during the holidays. If you must drink and drive, keep in mind that alcohol is a depressant which slows down reflexes. If you insist on driving after drinking, at least be fair enough to others to drive slowly. Speed does kill; that's not just a phrase. Remember when you are behind the wheel you have a responsibility, Be mature enough to accept it.

In the last general election, Mr. Robert Young was elected to re-present the new 24th State Senate District. This district, recently created by state-wide reapportionment, consists of the Normandy, Airport and Washington Townships. This campus is in the Normandy Township. Senator Young is a well qualified representative with a proud background. There are many reasons why we may feel fortunate that we have this Senator as our representative. Most important of these are the past efforts made by the Senator to aid the advancement of this school. In his past terms of office as a state representative, Senator Young has co-sponsored the initial bill which inaugurated this school, and the Junior College Bill.

In a previous issue I quoted Senator Young as saying that he, when on the first day that the Senate convenes, "introduce a bill calling for a four year branch of the University of Missouri in the St. Louis area, and possibly one in Kansas City, at the direction of the Board of Curators, under President Ellis." I recently interviewed Senator Young to learn of any changes in his plans. He informed me that it has proven necessary to amend the Junior College Bill before any actions concerning this school may be taken. The portion of the Junior College Bill which was previously found to be unconstitutional by the Supreme Court of Missouri in Stature 150-85. This statute states that any school district in this state may sell property to an institution of higher learning without public auction.

If this statute were constitutional, then this property could be released by the Normandy School District to the University of Missouri. But this is not the case, and the property must be auctioned publicly.

Senator Young optimistically stated that if the statute were amended to read, "with or without monetary consideration," that Normandy would constitutionally give the property to the state or sell it in a closed deal - without public auction. He also stated that this action would be taken immediately on the convening of the Senate.

Let us wish the Senator and his colleagues good fortune in obtaining the approval of the Legislature for this venture to aid the cause of higher education in Missouri.

Experiences Are Topic of Lecture

The life of Ernest Hemingway, in respect to his writing and the unique manner in which his personal experiences prepared him for it, was the topic of the final lecture in the Daytime Lecture Series for this semester. Mr. William Hamlin delivered the address on Thursday, December 13 in room 108.

Mr. Hamlin stated that Hemingway wrote about his experiences to effect objectivity, although paradoxically he was also imaginatively subjective in his approach to life. The speaker then discussed Hemingway's experiences, which included driving an ambulance during World War 1, participating in the Lost Generation group, hunting wild game, marrying four times and studying bull fighting.

Hamlin emphatically stated that Hemingway did not believe in moral or religious, other than in living naturally, pursuing impulses, but not exclusively for this led to chaos. His wish to avoid chaos accounts for his fascination with bull fighting, which provided him with an orderly code and included such feelings as pain, death, violence and courage.

Thus Mr. Hamlin presented Hemingway not as a drunkard or a heretic, but as a man of keen perception and as a man intensely interested in many aspects of life.

In My Opinion

By JIM ROSENFELD

The TIGER CUB wishes you a Joyous Holiday and a Meaningful New Year
Of Word and Thought

A Practical Consideration
By LARRY EGLEY

The United States of America is unquestionably the most dynamic country on earth. The great, unbroken clouds of dark gray smoke which overhang her cities arise from the most awesome industrial complex on earth. But it is not only in the physical sense that America is dynamic. The spiritual currents of America are more complex than those of any other country. The history of all races and nations contribute to them on a scale which reaches from the finest materialism to the highest idealism, but materialism seems to be well on the road to triumph.

One of the chief accusations made against the Soviet Union is that it has condemned spiritual ideals and substituted materialism, i.e., the Communist doctrine that "all good things are materialistic," "We will bury you," (referring to economy) we are delighted to take up the challenge, since it is one we shall be equipped to meet. The President cited our standard of living, economic growth, buying power and Russia's economic failures. After he is through, there can be no doubt about it. We are winning Rock Island.

Another reason that materialism is advancing in America is that very often we are only too well aware of the idea of education for financial security and "success." Since these are related to the only thing they are striving for, they are told, they feel they will be failures if they do not acquire a "suit" salary. Anyone who does not select a major in college that is certain to result in a high-paying job immediately upon graduation is "naive,"...by pressures such as these, the high school student is subjected to his self. But to society would seem to be the very antithesis of materialism, and since America is reputed to be the most materialistic nation, we should ask how such two such unlike bedfellows get along so well together. This is at the very least a sticky question, and most of the time we feel more comfortable if the inquisitive heathens who asked it would modernize their attitudes. It does seem, however, that there is a rather direct Biblical injunction against materialism which goes something like this: "Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt."...perhaps it is only an excerpt from Greek Mythology. But since any conclusions drawn from these facts would be old-fashioned, and therefore, of course, invalid, it would be inexpedient to press the subject further.

This leaves us with two major causes for materialism in America: U.S. materialism and the success of its accompanying "security." Now we still speak of materialism as a disease of materialism. It is rather strongly established. The solution, therefore, may be found to the emphasis on one of the causes chosen: To race, rather than by self. For the sake of consistency, perhaps we should consider the idea of "all good things are materialistic."
CUBS CLUB PHARMACY, 72-59

Open Conference With Win: Meet Harris JV Tonite

By JOHN WAELLEN

The Topcats of the Topcats, Tiger Cubs, will attempt to make Harris Teachers College Junior Varsity their second victory tonight in a 6:00 p.m. game at Hadley Technical High School.

The Cubs rallied from a cold start to snatch the St. Louis College of Pharmacy, 72-59, for their first triumph of the season December 18 at Concordia Seminary in their opening conference game.

Overcome Deficit

Coach Bob Meyers' squad bounced back from a 9-0 disadvantage in the opening minutes of the contest to out the Pharmacy College's lead to 13-12. The Cubs stayed in contention until they lost the score at 33-33 on a three point play by Steve Shangnessy. Shortly later the Black and Gold taggers grabbed the lead for the first time on a goal by Dave Willson. The half ended with the Cubs on top, 37-34.

The Cubs strengthened their lead in the early stages of the second half, but had to fight off a Pharmacy rally which reduced their lead to three with half the period left to play. The Tiger Cubs' largest lead of the contest was at 11 points. A balanced scoring attack was a key factor in the Cubs' victory.

Dave Willson topped all scorers with 20 points, while Tom Harding and Steve Shangnessy played strong supporting roles with 17 and 15 markers respectively.

Lose to Concordia

Concordia Seminary's Junior Varsity squad nipped the St. Louis Campus cagers, 61-56, in a hard-fought battle December 11 at Concordia.

The Cubs vaulted to an early lead on a basket by Tom Jacobs, but found themselves on the short end of the scoreboard in the last two minutes of the half. Behind by more than eight points, the Cubs trailed at the half, 32-25, and by only two with 10 minutes to play.

Dave Willson led the Cubs in scoring with 16 points, while Tom Harding contributed 10.

On Tuesday, December 6, St. Louis Baptist jumped out to a come earlier lead and the closest the Cubs came after that was three down with 7:10 left to go in the first half. The Baptist club then pulled away for good.

Dave Willson was high scorer for the St. Louis Campus with 20 markers. Aman Evans paced St. Louis Baptist with 20 points.

1962-63 CUBS with Coach Bob Meyers standing at left and triple-captains Haddican, Jacobs and Theole kneeling in front.

Bowl ravs Move Into Second Place Behind Concordia

After winning a forfeit victory over St. Louis University last Saturday, December 15, and dropping two out of three to Concordia last week, the Campus bowlers will have a well deserved rest until after the Christmas holidays. The team record now stands at 15 and 9, second only to Concordia.

Despite the failure of the St. Louis University squad to appear, the Campus bowlers rolled three games to keep their averages up to date. High scoring honors for the first and second games went to Jerry Brooks with 192 and 193 respectively, Mike McCruden's 187 round led the squad in the third frame, Brooks turned in the high series for the day with a 555. He has raised his average 10 pins in the last two weeks.

Mike McCruden turned in the high score for the second round--170, and tied with Mike Sheppard at 166 for the third game. High for the three games was Jerry Brooks with a 501.

The bowlers began wearing their white shirts with black Missouri College of Pharmacy logo on them.

Volleyball Planned for January IM's

Inttramural volleyball will begin the week of January 7, after the Christmas holidays. The games will be played at three o'clock in the Norman Senior High Gym. The Gym is on the Senior High grounds located at Lucas Hunt and Easton Avenues. The day on which the games will be played will be decided later.

Anyone (teams are open to both men and women) interested in playing should sign one of the papers posted on the bulletin boards in the cafeteria, on the second floor, or by the front entrance.

It had been announced that there would be no further intermural matches until the Student Association's standing committee on Intramurals said further activities, such as volleyball, were being organized not because the football had been returned but rather because, "Mike Lindhorst, president of the Student Association has gotten on my back.''

First Home Game Change To January 4

Tonight the Cubs will meet Harris Junior Varsity at Hadley Tech at 6:30 p.m. This game was changed to an away game due to the fact that Eden Seminary could not contract the gym at Plymouth Junior High School and the complete basketball schedule had to be reordered. Now Eden Seminary will play the Cubs January 4 at 6:00 p.m., in the Normandy Junior High Gym.

The Coca Cola posters showed the schedule that was originally planned. The original posters were corrected by a Tiger Cub staff member.

Coach Bob Myers is trying to get the Coca Cola Bottling Company to reprint the corrected schedules. The corrected schedule is as follows:

Jan 1. Harris JV - 8:00
Jan 4. Eden Sem. - 8:00
Jan 8. Eden Sem. - 8:00
Jan 15. Sanford-Brown - ?
Jan 22. S. Louis Baptist - 8:00
Jan 29. McCartell - 8:00
Feb 5. Logan College - 8:00
Feb 15. Logan College - 8:00
Feb 19. Logan College - 8:00

Another correction made on the schedule was the league games. St. Louis Baptist is not a league game as noted on the posters. St. Louis Pharmacy replaces Covemant College this year to round the league out to five teams. The other league teams are Eden Seminary, Logan College and Sanford Brown.

Coach Meyers also revealed tentative plans for a league tournament sometime in March. Time and place will be announced later.
