FOUR-YEAR EXPANSION APPROVED

"The Wedding" Featured in Last Concert

Igor Stravinsky's cantata "The Wedding" was presented on Monday, April 8 by the St. Louis Chamber Orchestra and Chorus in the St. Louis Campus auditorium. This was the final concert in the Campus Monday Evening Series.

The cantata, a portrayal of a Russian peasant wedding, was presented twice, first in Russian than in English. The two performances were prepared by a special Orchestra Director Arnatt on Russian peasant wedding customs and on the music and text of the cantata.

The St. Louis Chamber Orchestra and Chorus consists of twenty-five vocalists, six percussionists, and four pianists. The group, well known organization of active professional musicians, rehearsed the difficult Stravinsky cantata for four months preceding its presentation here.

Arnatt, who directs the Chamber Orchestra and Chorus,

among his numerous musical activities, his position as music instructor at Mary Institute, he is also well known as an organist, composer and conductor.

Stravinsky's cantata was the last in the Concert Series organized by Mr. Charles Arndtster, St. Louis Campus Chemistry professor. Mr. Arndtster has said this first Concert series was received much better than he had ever expected.

Legislature Votes Sales Tax Hike: Gov. Dalton Signs Transferal Bill

The way has been cleared for the expansion of the St. Louis Campus into a full, four-year branch of the University of Missouri with the passage of a revenue bill to raise the state sales tax from 3 per cent without exempting food and drugs, transferal bill by Governor Dalton.

The revenue bill, which was passed last Wednesday, April 3 by a vote of 90 to 68 in the House and 33 to 9 in the Senate, will produce an estimated $83,000,000 to $94,000,000 in new revenue during the next two years. By February 1, 1964, the first of the new money will reach the state Treasury. The extra revenue is needed for use in the governor's budget of increased services in education and mental health and welfare.

The inclusion of food and drugs in the tax increase has particular importance for the St. Louis Campus. Without this inclusion, it seemed unlikely that enough revenue would have been available to expand this campus into a full, four-year branch of the University.

The sales tax proposal has been held up since March 1963 because of the controversy over the areas to be covered by or excluded from the increase continued, Wednesday's decision removed more than three weeks of committee hearings on the matter. The appropriations committees in both houses can now be put to work on the allocation of funds. In the House, committee action had been held up until the disposal of the sales tax bill.

At the same time that House and Senate approval was given to the revenue bill, Governor Dalton gave his approval to a bill permitting the Normandy School District to transfer its junior college property to the University. The bill signed by the Governor was sponsored by Representative Wayne Goode and Senator Robert Young of St. Louis County. Sale of the property to the University at a bargain price had been included in a statute requiring the school district to take bids and accept the highest offer. With the signing of the transberal bill, this obstacle to St. Louis Campus expansion was removed.

The governor, in signing the bill, said that the board of curators of the University now has the authority to convert the junior college into a full, four-year branch. However, a bill to permit the establishment of the branch has also been introduced into the House to insure the legality of such an action, Governor Dalton has requested $7,750,000 for capital improvements for the branch and $685,000 for operating purposes in the coming two years.

The sale price of this property, formerly the Bellville Country Club, will be $700,000, although the Normandy School District purchased it two years ago at a cost of $900,000. The site contains 25 acres. C.E. Potter, St. Louis Campus administrator, was extremely pleased with the results of the April 3 voting. He expressed the hope that this would be the first step toward quick action by the University to convert the St. Louis Campus into a four-year branch.

### Variety Show Planned for April 27; Banquet, May 11

Plans for the Honors Banquet to be held at the Ramada Inn on May 11 have moved forward. Sharon unmoved, Stephenman explained at the Student Senate meeting on April 1 that with the help of her Committee, consisting of Mary Hildebrand and Jane Woods, they were able to get the dinner for $5.25 a plate not including tax. The Senate has agreed to pay the state and gratuity tax.

125 people are expected to attend the Honors Banquet with approximately 110 guests invited. Mr. Potter has stated that some of the dignitaries which will be present as special guests are Dr. Francis English, Dean of Arts and Sciences, Dr. Edward Palomar, Assistant Dean of Arts and Music; Senator Robert Young; Representative Wayne Goode and Dr. Amos Smith, Assistant Dean of the University Extension Division. Also attending the banquet as guests will be the faculty, the Office Staff, the Board of Directors, the senior making SA Officers, the four newly inaugurated officers and students nominated for honors, (See Nomination story, page 3).

In other Student Senate action a proposal was approved for a Student Variety Show to be produced on the St. Louis Campus. It will be headed by Mary Hildebrand with the help of Gene Herman, student Senate Member. The show is set for April 27 and will be held in Room 108. No admission will be charged and dress will be informal.

An amendment to Article 5 Section 2 of the Constitution was also passed. The new amendment, introduced by Bill Ebbinghaus reads: "Senate Representatives shall be elected at large from and by each group, each group to be determined by the general election and the number of representatives elected from each group shall be of an equal proportion of Association members from each class. Ebbinghaus' stated two reasons for the revision: 1) Each senator will represent the same number of students regardless of his classification of Freshman or Sophomore, and 2) There will be representation for Junior and Senior Class when this College becomes a four year University.

### Easter Break Begins After Classes Today

Easter vacation for the St. Louis Campus begins today at the conclusion of classes. The grounds and Library will be open as usual tomorrow, but will be closed for the remainder of the week.

Classes will resume at 8 a.m. Monday, April 15. Negative hours will be given for absences on both Monday and Tuesday of next week.
**Many Ahead to 4 on the 3rd**

Wednesday, April 3, will take its place as one of the most significant dates in the history of the St. Louis Community College. On this date, Governor Dalton signed the property transferal measure by which the University will acquire this property, and the Missouri Legislature passed the 1¢ increase in the sales tax, by which the funds necessary to expand this property will be raised.

In reflecting on the outcome of the Legislature’s actions we should remember Senator Robert A. Young and Representative Wayne Goode, who sponsored the property bill in their respective houses. Though the bill itself is a minor one compared with the sales tax measure, it is nevertheless a most vital step in our plans, and we owe both these gentlemen a vote of thanks for their efforts. We congratulate the SA on the special note of thanks which it sent to those legislators.

For the sales tax measure we are indebted to those far-sighted members of the House Conference Committee who refused to allow food and drugs to be exempted from the new tax, for it is these items that promise to produce the extra revenue needed for our expansion.

Thus the future of this campus is no longer in doubt—it stands on the threshold of becoming an important addition to the educational structure of the state of Missouri. The significance of April 3 in bringing us to this threshold should long be remembered.

**The Paradoxical Tournament Turn-out**

The SA Tennis Tournament is now being organized and is meeting with what seems to be the least possible interest from campus students. This is highly paradoxical since throughout the year we have formed the opinion that one of the activities most desired by the students is an expanded intramural program, an opinion reinforced by the inclusion of that point in both the parties and the independent’s platforms.

It would seem that a tournament of this kind is a practical answer for this need, since we have adequate facilities for tennis here on the Campus. Surely the nominal entry fee—50¢—cannot be the drawback, nor do we feel that the time of the competition is an obstacle since the entry blanks allow the student to choose the time at which he wishes to play.

Instead, we hope the problem lies in the fact that too few of the students are aware of the opportunity—a problem which should be easily solved by posters and articles such as this. However, if publicity is not the problem and the students are consciously ignoring the tournament, then indeed we can draw no other conclusion but that the Campus student body doesn’t really have any idea WHAT it wants.

**In My Opinion**

_by Jim Rosenfeld_

Ask anyone here what disappointing him most and he will probably voice his disgust with the cafeteria, a problem with a history almost as long as the school itself. I believe the problem resides not only in the University and Spot Sales, but in the basic attitude of many students here.

First, there are many things that the former two parties should do. As you remember, work began over the Xmas break to correct the cafeteria deficiencies and shortly thereafter the Health Department inspected, but Spot Sales has still not received their rating because many things still remain to be corrected, such as: drain repair, ice cream dipper well installation, wash sink with towels and floor repairs. Surely, we were impressed with the new cooking facility, but that was not the problem.

Four months ago, the School District was to install screen doors at both entrances to the cafeteria to combat the fly problem. Yet there are still no screen doors, and it appears that the most basic of our cafeteria sanitation problems have not been solved.

Second, in importance, but most spectacular of all, is the shabby mess which exists in the lounge portion of the cafeteria. Since the beginning of this school year, the TIGER CUB has constantly tried to create student cooperation in keeping the cafeteria in some form of a suitable living condition. It seems as though all of these past attempts have been futile, however, the blame for the present condition only rests on those people who not only threw their buttons on the floor, but their plates, cups, papers, trash and even the contents of the ash trays. It is pitiful that this condition not only prevails but is accepted.

Second, in importance, but most spectacular of all, is the shabby mess which exists in the lounge portion of the cafeteria. Since the beginning of this school year, the TIGER CUB has constantly tried to create student cooperation in keeping the cafeteria in some form of a suitable living condition. It seems as though all of these past attempts have been futile, however, the blame for the present condition only rests on those people who not only threw their buttons on the floor, but their plates, cups, papers, trash and even the contents of the ash trays. It is pitiful that this condition not only prevails but is accepted.

Then treat us as college students and not as if we were located in a "cold" between high school and college. One way to start is to stop this uncalled for and repres-

(Editors Note: this letter was accompanied by 92 other signatures.)_
Yes 'olde peiron. That's what I like six-eight time since it was written drill, or how I ate my opinion, this is not the April Fool's in the cafeteria during remodel period. That's what I like about ye'olde St. Louis Campus; there is always the right kind of atmosphere for every activity.

And contrary to popular belief, mainly the editor's popular opinion, this is not the April Fool's issue.

Quoth Curt Brown: You mean there is somebody ELSE in this school?

Spring madness runs rampant on the St. Louis Campus as cafeteria talk turns to plans for raids on the office in the morning to demand more heat, which are vetoed by the afternoon into plans for a raid on the office to demand less heat. At last report, plans have definitely been set for a raid on the office for no reason at all, which, considering the state of mind of certain students, sounds like the most logical reason they have come up with yet.

Maybe we could convince them to unite with the rebellious members of the upstairs lounge society for a riot outside the office and then tip off the janitors and nightwatchmen who can be waiting in the office with a fire hose and some paper bags. The fire hose could be used to knock the rioters down and then they could be put in the paper bags, because, knowing these people, they couldn't even get out of a wet paper bag.

Debate Club Meets on Problem Of Continuing Aid to Satellites

By Sharon Hutson

"Resolved: The United States Should Continue Aid to Satellite Countries." was the subject of the April 2 debate. Speakers were Tom Thompson and Jim Lafitasika. The negative side defended by Jim Lafitasika, won by a small majority, Sharon Hutson was critic, and Pat Kelley was moderator.

"Would you," asked Jim Lafitasika, "put your head into the cage of a hungry lion?" This, he feels, is what foreign aid does when it is given to satellite countries. Further, we are in a struggle with these people and to aid them financially we are actually frustrating our whole purpose in building U.S. defense.

Tom Thompson for the affirmative said that our aid to these countries actually helps the U.S. financially. For example, his statistics showed that in trade carried on with them U.S. exports exceed by a considerable extent what she buys from them. Again, if it were not for this aid, they would have no money to trade for our produce. Finally, Polunski was cited as an example of a country that has and is still trying to break with Russia. If it were not for U.S. aid, they would not have enough strength to consider such a venture.

On May 7, "Hat Night" will again be presented. At this meeting topics are placed in a hat at the beginning of the meeting, the topic is read, a name is read, and this speaker has one minute to prepare. The topics he may have to speak on can be anything from baseball to who he thinks will be the next president of the U.S.

The meeting will be held at 5 pm in room 123.

Mr. Armbruster Disbands Chorus

Lack of attendance has caused the St. Louis Campus Chorus to disband. In announcing the action, chorus director Charles Armbruster recalled that out of the 35 members who originally composed the choral group, only an average of 15 had attended the final meetings. The small attendance prevented starting any new songs and thus the Chorus' plan for presenting a cabaret in the spring impossible.

Mr. Armbruster thanked the faithful members of the choral group and said that next year he would start anew with a normal plan for the recruiting.

Normandy Bank welcomes accounts from students (and faculty, too, of course) of the University of Missouri. Stop in or phone for information. We'll be happy to open your account by mail, if you prefer.

Campus Bowlers Drop 2 out of 3 To Harris Teachers Five Saturday

By Larry Ryan

The St. Louis Campus bowlers dropped two out of three to Harris Teachers College last Saturday, April 6, at the Arena Bowl. The Harris squad outbowed the Campus in total pins 2893 to 2938 in taking the series.

The first game saw the Campus on the short end of a 1000-956 total pin decision. Keith Ellerman led the team with a 170 game, followed by Mike Ferguson in the second spot with a 167. The Harris five was led by Vallina's 199 and Compton's 192.

The second game featured a rally by the Campus and a 15 pin victory -- 1017 to 1004. Leading the team again was Ellerman with a 197, followed by Henry McClintock with a 196. Vallina again topped the Harris entry with his second 199 while Compton turned in a 182.

In the third and deciding contest Harris rolled up a big 1022 to 864 victory to take the game and the series. They were led by a big 200 by Fleishman and 1874 by Vallina and Berman. Ellerman again paced the Campus in 1708.

The third contest turned out to be such an off game for the Campus bowlers that in the second spot for the team was the blind, with a 156.

The Harris club out-bowed the Campus squad by a considerable margin on a man-to-man basis. Ellerman was the top pin man for the Campus with a 545-three-game total, but he was topped by both Vallina and Fleishman with 585 and 552 respectively. The next high series for the Campus was Barry McClintock's 468, which was bested by all three of the remaining Harris bowlers -- Compton, 534; Berman, 531; Belleville, 457. Following McClintock in Campus scoring were Mike Ferguson, 459 and Jerry Brooks, 458.

Ellerman leads the team in overall average this season with 170. He is followed by Jerry Brooks' 174, Barry McClintock's 168, Mike Ferguson's 143. Only three more weeks remain in the competition for the Greatest Campus Bowler trophy. All matches are bowed at the Arena 5200 Oakland avenue.

Campus Crests Now Being Made in N. Y.

The twenty crests for the basketball players, bowlers and Coach Bob Meyers are now in the process of being manufactured.

Ken Marx, sophomore senator, sent the pattern of the crest to the Generare Uniform Company in New York last week. He hopes to hear from the company within the next two weeks.

Mike Lindhorst commented that no plans are being made for a special assembly in which the crests will be awarded because of the unknown date of their arrival from New York. Marx will distribute the crests to the basketball players and bowlers.

The crests, which are yellow and white, are embossed in the usual manner of athletic letters. Marx estimated the cost of each crest at $7.50.

Entries For SA Tourney Close Today

Today is the final day for submitting entry blanks for the Intramural Tennis Tournament. The entrance fee is fifty cents per person.

The SA Tennis Tournament Committee will award three individual trophies for each of the following: men's singles, women's singles, and mixed doubles. Entry blanks may be obtained from any member of the SA Intramural Committee: Gene Herman, Larry Ryan and Bill Bazicka.

"Students interested in competing in the tournament are urged to turn in their entry blanks today," stated Larry Ryan. The Intramural Committee set a minimum of ten participants in each of the singles matches and a minimum of five partners in the doubles in order for competition to be held in each of these divisions.

The tournament will begin on the first week after Easter Vacation, April 15.

The elimination board for the tournament listing the students who will oppose each other in the first round of play will be posted on the front courts and in the downstairs bulletin board.

Campus to Enter Softball Tourney; First Practice to Be Next Monday

The St. Louis Campus will enter a team in the College Softball Tournament, sponsored by Concordia Seminary, SA President Mike Lindhorst announced Monday. The tournament will be played on May 6, 7 and 10 (Wednesday, Thursday and Friday nights) on the lighted fields at Forest Park.

Lindhorst appointed Stan Shanker, former captain of University City High School's baseball squad, to head a joint SA-student committee for organizing and selecting the entry. Shanker immediately scheduled the first try-outs for the squad for next Monday, April 15. Interested students should meet in the cafeteria at 3.

All games in the tournament will be played in the evening between 6 and 11 p.m. No admission will be charged for any of the contests. No college varsity baseball players will be eligible to compete. Although tournament rules allow for the entry of two teams from each school, the Campus will concentrate on putting together only one team.

In announcing the tournament, Eldon E. Pederson, Athletic Director of Concordia, stated that all teams will play at least two games, six will play three games. Trophies will be awarded to the Championshhip Team and to second, third and consolation squads.

Commenting on the tournament, C.K. Potter, resident administrator, stated that the entry would have the full support of the school. He stated that the Campus would pay the entry fee ($15.00) and buy bats and balls for the club.
