The 1963-64 school year at the St. Louis Campus of the University of Missouri has officially begun Monday, September 16, with the Convocation conducted for all students.

Mr. Bill Ebbinghaus, President of the Student Association, opened the ceremony by greeting the students. He then introduced Mr. C. E. Potter, Principal of the Normandy High School and past administrator of the Universty, Mr. Potter commenced with a challenge to all students. He mentioned the elementary school which place the previous day and noted that the St. Louis Campus would be a great place of education.

Ebbinghaus then introduced Dr. James L. Bugg, Jr., Dean of the St. Louis Campus. Mr. Bugg stated that the organization had admitted the credentials of the incoming class; the first being their initial steps in college together and the second being their reception by the president. He then presented the first graduating class of the St. Louis Campus.

Dean Bugg predicted the school to be a community of scholars, professors, and students who make an effort that will consist of work for his fellow man. Advancement in education lies in enlightenment, and genuine scholarship hard work and drudgery, aid in this effort. He then emphasized that responsibility and freedom go hand in hand, one must become responsible in order to be free.

The organization, the Student Association, was founded by Dr. Hamlin in order to bring the students together. The organization has the responsibility of setting up a governing system, which all members of the Association are obliged to follow. This system is divided into three main branches: the executive (student officers), legislative (the Senate) and judicial (the Supreme Court). Also included in this governmental system will be a Student Advisory to whom members of the Association can bring their problems.

Student Organizations

Emily Massa, secretary of the Student Association, explained the expectations of this year's cheerleading staff. Miss Massa was followed by Sophomore Carole Kurnal who briefly described the operations of the school newspaper, the TIGER CUB, which endeavors to act as the corresponding link among the students and between the students and teachers of the St. Louis Campus.

Sophomores Rich Bichard and Bill Fustner followed with a report on the yearbook, LANDMARK, and the progress which has been made to assure a 1964 publication. Next on the agenda was Al Beeker, President of the Dramatic Club, who presented plans for a play each semester coupled with a talent show for other student activities.

Dr. William Hamlin, Director of the English Department, emphasized in his talk the importance of maintaining a steady climate for knowledge. He went on to further state in his opinion the six main qualifications for attaining this desired status, integrating student attitude as the primary objective.

The remaining five points of Dr. William Hamlin's were: humility, congeniality, academic honesty, assimilation of student knowledge and the necessity in the use of student facilities, such as the library, comprising his qualifications in obtaining this goal.

During the first part of the Second week in October students will elect Student Senate members, with voting from 8:00 a.m. to 3:00 p.m. in the main lounge. At this time an equal number of freshmen and sophomores will be elected to the Student Senate. An equal percentage of freshmen and an equal percentage of sophomores will be represented in the Student Senate at the end of last semester, is ratified by the Student Association and is shown in the election.

First week of the last day interested students could pick up Senate petitions...The petitions were turned in Room 127, and had to be signed by at least ten men and the same is true for sophomores. Ballots were turned in to sign only two petition sheets.

After the petitions are turned in and before the Senate Election, the Student Senate will have to fill in a miniature sheet stating their qualifications. Both freshmen candidates will then be placed on the ballot.

Bill Ebbinghaus, President of the Student Association, urges everyone interested in student politics to run for the Senate and everyone to let his voice be heard by voting in Senate Elections. The Senate will hold its meetings on alternate Monday nights at 8 o'clock.

One of the nine changes made in the by-laws of the Constitutions for the Second semester are: "Any Senate Member having won an election or a total of three absences, excused or unexcused, during that semester shall be impeached by a majority vote of the Senate members present at a meeting in which a quorum is represented, and "The power to elect a President of the Senate shall be invested in the President..."

The purpose of these two revisions is to guarantee better attendance at Senate meetings.

Dr. Hamlin's six qualifications were then reviewed by a peroration of the entire membership of the S.A.

Library Book Sales

During the early part of October the library will sponsor a book sale. As in previous years the money will be used to buy books that the library could otherwise not afford.

Student donations for this sale may be either paperback or hard bound and can deal with any subject, fact or fiction, as long as they are in good condition. A few days before the sale is to begin large boxes will be placed around the building for the deposit of these books. The books will then be sorted for the deposit of these books. The books will then be sorted for the deposit of these books.

Last year's proceeds purchased a book sale. As in previous years the money was used to buy books that the library could otherwise not afford. The first few days before receiving his paper. Papers may be picked up in Room 127 from 8 a.m. to 3:30 p.m.

Non-attending students may not only enlarge the library collection of books, but will also allow the students to enjoy a larger scope of literature.

The key word for this book sale is donations. The sale will benefit you alone and the success of it depends upon you.

Details concerning the sale of these books will be published in the next issue of TIGER CUB.

Circulation of Campus Buzz Book Forseen

Bill Ebbinghaus, president, and Gerald Slimon, vice-president of the Student Association have stated that the St. Louis Campus Buzz Book was planned for circulation soon. The Buzz Book, a twice a year publication, will be the outlet of the St. Louis Campus students through an IBM machine.

In addition to a book sale, the Buzz Book should be a means of information to the students. It should be used to meet the S.A.'s time limits, the first two weeks of October being the time period to meet the Buzz Book with the help of the S.A., chosen, an assistant editor has already been announced, Freshman Judy Zahner, Miss Jane Parks, English instructor will serve as the LANDMARK's advisor.

Two more books may be purchased in the Lobby September 30, and October 1-2 for $4.50, $5.00 down during the first week of the semester. Beginning October 3, the new book can only be purchased in the S.A. office. Both the TIGER CUB staff and the LANDMARK staff had meetings last week to meet with the new members of their staffs. The staffs for both the yearbook and newspaper will be printed in the next issue of the TIGER CUB.

80% of Student Body

As a Commuter college the percentage of those students living on campus is approximately 20%. However, over the years, at the St. Louis Campus of the University of Missouri, Columbia, offered its services to students living in the St. Louis Campus students through an IBM machine.

Student Apathy

Students of the St. Louis Campus seemed to be indifferent to the happenings which occurred at school during the first few days. The things which usually cause excitement to students upon entering college life appeared to be thought of as a task instead of something new and exciting to the majority of students. In past years they were a mature group who had grown out of the high school stage and graduated to the college level. They recognized the importance of their behavior on campus and their courtesy toward the faculty and student officials.

The first expression of this new trend toward apathy could be seen at the New Student Orientation in the purely high-schoolish atmosphere which prevailed among the audience who appeared as a restless mass of high school students cast into the awesome reality of campus life. The whispering and giggling during speeches coupled with the disturbance caused near the end of the Orientation, when everyone decided to walk out has lessened the opinion of many student officials as to the maturity of the freshman class.

While the lack of response and courtesy toward the speakers, who had spent many hours of preparation to present to the new students the broad aspects of college life, or the prevailing air of disrespect for the student officers which prompted them to react, were all of those who have attended the college for either one or two years feel that this change has downgraded the status which has been established by previous students. The first sense of ingratitude had been dealt at Orientation but it was quickly followed by another demonstration, the Pool and Patio party. It seemed like something much different from that expected of college students, similar, in fact, to a high school teen-town. Students of both sexes gathered into their own little groups on each of the dance floor, and had it not been for a few minutes of folk singing the party could have been a flop. Translated down from the stage and graduated to the college level. They realized the importance of their behavior on campus.

Many students feel that the money they spend for their education does not equal the benefits they receive. This is an important point to think about, for it is best for those students to invest their money wisely.

Objectivism: The Philosophy of Ayn Rand

The Nathaniel Branden Institute is an organization that offers lecture courses on "Objectivism" and its application to the social sciences. At present, courses on "Objectivism" are given by the Institute in more than thirty cities in the United States and Canada. Outside New York City, these courses are offered through tape transcription division.

In addition to "Basic Principles of Objectivism," given by Mr. Branden, there are also courses as "Basic Principles of Objectivist Psychology," "A Critical Analysis of Contemporary Psychology," "Principles of Efficient Thinking," "The Economics of a Free Society," "A Critical History of Philosophy," and "The Esthetics of the Visual Arts." Since 1958, more than 5,000 students have taken courses at Nathaniel Branden Institute. Analysis of enrollment statistics indicates that the average age of students is the early 30s. About 25% are college students; 56% are professional adults; teachers, lawyers, doctors, business managers, writers, artists, actors, psychologists, psychiatrists, and scientists.

To date, 30,000 people are on the mailing list of the Institute and regularly receive reports on its activities. The Institute publishes books and lectures on philosophy and the social sciences.

"Objectivism: The Philosophy of Ayn Rand" is the title of a new series of lectures to be presented in St. Louis. Nathaniel Branden is the author of "WHO IS AYN RAND," a study of Miss Rand's work from the standpoint of ethics, psychology and esthetics; the book also contains a biographical essay on Miss Rand written by Barbara Branden, Mr. Branden is the founder of Nathaniel Branden Institute, and is also co-editor, with Miss Rand, of "Objectivist Newsletter," a monthly journal of ideas.

Mr. Branden's lecture will deal with such ideas as What is Philosophy? The roots of today's culture--The nature of Objectivism. It is the first in a series of twenty lectures to be presented in St. Louis.

Students of the St. Louis Campus, interested in the philosophy of objectivism, are encouraged to attend the prime source of action.
Student Support

For Lecture Series
To Begin Soon

The "Daytime Lecture Series," headed by Mr. Armbruster, will soon begin its second year of operation. This series of lectures and discussions was started last year upon request by students for more intellectual activities on campus.

The Newcomen Club offers the student a religious intellectual, and social program which will increase his knowledge and enable him to discuss religious matters socially. You are invited to join, attend and participate.

Friday night, from 8 to 9:30, the program will be held in the Social Hall. Members of the St. Louis Chapter are invited to participate.

Letters to Editor

Welcomed by T.C.

The Tiger Cub welcomes letters on any subject from the student body. These letters should not be over two hundred words in length and must be signed. The Tiger Cub regrets that it will not be able to publish any unsigned letters. Although the Tiger Cub will not publish any unsigned letters, it will accept the signatures of those who sign. All letters addressed to the newspaper may be placed in the Tiger Cub box in the office, or it may be brought directly to the Student Association office.

Student Religious Organizations

Students attending the St. Louis Campus have the opportunity of attending any of the group classes held on campus. Two of the groups meeting on campus are the Newman Club for Catholic students and Gamma Phi Club for social work students.

The Newcomen Club offers the student a religious intellectual, and social program which will increase his knowledge and enable him to discuss religious matters socially. You are invited to join, attend and participate.

This year a completely new program of activities has been adopted for the Newman Club. Each semester, there will be three major group classes. Each group will concentrate on a particular religious problem for the purpose of analyzing and understanding it from one or all of three disciplines: 1) philosophical, 2) cultural-scientific. Each session will last four weeks, during which classes will be held on a particular problem. At the end of this time, a general assembly will be held, and the student will attend the discussion and panel, so that the three "disciplines" can be broadened to include all.

In the First Semester, social discipline will be the major theme. The second semester the choice for the social question is integration, for the moral question, Nuclear War and Disarmament, and for the political question, Communism.

The Newman Club agenda includes a Newman Club Icebreaker at the Olin Dorm Penthouse, 8-10 p.m., on Friday, Oct. 1, featuring the Raindrops. On Sat., Nov. 3, students may attend Miss Jacqueline Lone's "A Part of the Story," a program of three one act plays.

"Student Support" is an open forum of the St. Louis Campus. The Tiger Cub welcomes letters on any subject from the student body. These letters should not be over two hundred words in length and must be signed.

Due to the research of the past editor of the TIGER in Way Walkenhurst, the St. Louis campus can trace its history back to the Revolutionary War.

The Revolutionary War in Connecticut produced a young soldier scarsly old enough to shoulder a musket, Daniel Bissell, who eventually became the military commandant of all the Missouri and Illinois territory in the Louisiana Purchase. After his retirement he built an empire that eventually encompassed 5,200 acres. On part of this estate the Bellerive Country Club was born. It was called the St. Louis Field Club.

Incorporated on December 8, 1897, the Field Club was the first club to move the old Field Club from the Bellerive Estate of John Natural Bridge. It was way out in the fields. Even in 1897, the Field Club was the commandant of all the Missouri and Louisiana Purchase. After his retirement he built an empire that eventually encompassed 5,200 acres. On part of this estate the Bellerive Country Club was born. It was called the St. Louis Field Club.

St. Louis Campus Plans Unveiled by Missouri U.

This sketch of the future sight of the St. Louis Campus includes, (1) three-story classroom-lab, (2) administration building, (3) library, (4) communications and fine arts building, and (5) student center. The plan was prepared by St. Louis architects Hellmuth, Obata and Kassabaum Inc.

Three Story Classroom-Lab Building
And Library Highlight Improvements

The launching of a four year branch of Missouri University led to the unveiling of Campus plans on Sunday, September 15. The three dimensional model was on display during the dedication ceremonies.

The nucleus of the master plan is the 53 year old clubhouse of the old Bellerive Country Club which was converted, four years ago, into the Missouri University-Normandy Residence Center.

From this modest beginning the architects of Hellmuth, Obata and Kassabaum predict a gradual but tremendous growth to a full scale campus.

A three-story classroom-laboratory building will be erected before September of 1965. The capacity enrollment for this time will be approximately 4,000 students. Plans have also been made for a 1,000,000 volume library with study facilities for 20 per cent of the student body.

An administration building, housing offices and data processing center coupled with a student center with dining facilities for 50 per cent of the students add to the grandeur of the envisioned campus.

Bowling Team Begins with High Standards

The St. Louis Campus bowling team will begin its fourth and most highly competitive league season during the week of October seventh. As the new regular season gets underway, the league will include teams from the University of Missouri and the University of Illinois. New members are being invited to join the team.

 Tears can be seen among the members of the cheerleading squad. The girls are practicing with a list of techniques that are necessary for the performance of the routine. Judges of the tryouts will be chosen, however, there will be no substitutes for the regular cheerleaders. The members of last year's cheerleading squad were Barbara Bilder, Tammy Borrowise, Jan Finnaz, Cookie Fitzgerald, Emily Massa, Leslie Schiller, Kathy Vargen. The cheerleaders will be practicing with a new list of techniques that are necessary for the performance of the routine. Judges of the tryouts will be chosen, however, there will be no substitutes for the regular cheerleaders. Army ROTC

Mr. Wheeler forms Jazz Discussion Group

Air Force ROTC

At Washington U.

All male students in good standing at the St. Louis Campus of the University of Missouri are eligible to participate in the Army Air Force ROTC. Registration at Washington University and payment of fees is no longer required in order to take ROTC courses. Classes started September 23. Students interested in joining may call 334-3100, ext. 4552. Students are reminded their ROTC obligation is not precluded by their attendance at the St. Louis Campus. They will be subject to the same requirements as all incoming students upon transfer to any other college or university. Advisors should be contacted for details or any specific information.
