Greetings!

The Fall semester General Staff meeting for all staff will be held on Wednesday November 10, 2010. The meeting will be held in the JC Penny Summit Lounge from 12:00p-1:00p. Chancellor George will give a presentation and then he will be available to answer questions. We will also have an opportunity to meet and hear from our new Police Chief Forrest Van Ness. The Summit will be set up with tables and chairs, so bring your lunch, and enjoy the hour. I look forward to seeing you there!

Congratulations and thanks to everyone that worked on and participated with the Staff Association Homecoming Parade Shopping Cart. It looked great, and took 2nd Place!

We will also have a Fall Staff Social on Tuesday November 9th in Ferguson, from 5:00pm-7:00pm, we hope to see you there as we visit a few of the local businesses.

The first Discover UMSL event of the year will be on Friday November 12th at 11:00am. If you’ve ever been curious what it is like to be backstage at the Touhill join fellow staff for this tour.

Finally I wanted to give you an update on the Retirement Plan Project. On Monday November 1st, the Compensation & Human Resources Committee of the Board of Curators met via the TelePresence Rooms. There were several presentations given by Segal, Towers Watson, TIAA-CREF, Rocaton, and Betsy Rodriguez that were very informative. The entire meeting and the presentations given are available on the UM System website at http://www.umsystem.edu/ums/curators/audio/#nov2010 for you to review. President Forsee also announced that he will be visiting each of the campuses in the coming weeks for Town Hall meetings on the Retirement Plan Project. As dates and times are available we will get the information out to everyone.

Meet the Staff Council—Theresa Keuss

What is your position on Staff Council?
As MSC building reps we try to make sure staff members working in the MSC are up to date on all the latest staff association upcoming events, news and issues. We also act as a liaison between the employees of MSC and the staff council, making sure they are represented and their concerns and issues are addressed at council.

Why is the staff association important to you?
Staff Association is important because they always have great happy hours and fun social events...ha! Of course that is not the only reason it is important.... I feel it is essential to get involved in every area of your life, whether it is your community, your school, or your place of employment. Serving on Staff Council is an excellent way to meet people outside of your department and to contribute in making the university an even better institution.

What is your position at the University?
My current position at the University is Assistant to the Registrar. Since one of my main tasks is coordinating the preparation of the course schedule, I get the privilege of communicating with many different departments on campus, an aspect I thoroughly enjoy! I have also held positions at MS&T, (back when it was the University of Missouri-Rolla), in the Finance Department, and in the Accounting Office in Woods Hall...ages ago.

What are your hobbies and interests?
I am married with three sons, a lovely daughter-in-law and an adorable granddaughter. My eldest son, Paul, graduated from Rolla with a computer science degree and is now pursuing a second Bachelor’s through the joint UMSL/WashU engineering program in electrical engineering. He met his wife, Leslie, while attending MS&T, and she is a geologist....they lived a care-free nomadic lifestyle roaming the country out west for a few years, but have since moved back to the area, (yay), and I often tease them that their house could easily be mistaken for a “rock or geode museum.”
My middle son, Scott, graduated from Missouri State with an Entertainment Mgt degree and hopes to own or manage a venue someday. But in the mean time, he recently accepted a job at a ski resort in Colorado......so I guess this winter I will be crashing at his place and hitting the slopes....can’t wait! My youngest, Daniel, graduated from University of Wisconsin-Stevens Point with a dual GIS/Geosciences degree. He lives in Florida and works under government contract mapping flight simulators for pilots. Not his dream job, but you have to start somewhere...and he is an avid Packers fan. Finally, I have a sweet four-legged buddy, Nala, who actually acts more like a cat than a dog.

I am one of those freaks that LOVES winter and the more snow the better! I enjoy hiking and my perfect day would be spent on top of a mountain somewhere......in the winter of course! This summer I was fortunate enough to go backcountry backpacking in Glacier National Park. The gorgeous scenery made up for sleeping on the ground, the primitive, (or maybe I should say “complete lack of”), facilities, filtering drinking water out of streams and lakes, and carrying 30lbs on my back for 3 days up a 2300 ft incline clapping every step of the way in the hope of preventing potential bear attacks. (I’d do it again in a heartbeat though....and there was even snow in July.....perfect)!

**Stress Reduction Meditation**
University Health, Wellness and Counseling Services is offering meditations sessions **Wednesdays, 12:15 to 12:45 pm, in 225 MSC- Student Success Center, Conference Room.** They would like to invite new members to join them in what they have found to be a wonderful antidote to the stress in their lives. The half-hour weekly sessions include a brief introduction, a 20-minute guided mindfulness meditation, followed by brief discussion. This group is designed for beginning, as well as experienced meditators. New members are welcome at any time during the semester. Call Wellness and Counseling Services at 516-5711 with questions.

**Share your Success Story**
Do you have wellness success story that may motivate others to become healthier? Have you stopped smoking, lost weight, or decreased stress in your life? If so, we would love to hear about it! E-mail Wellness@umsystem.edu.

**Chili Cook-off**

When most people hear the words “Graveyard Smash,” they undoubtedly think of the hit Halloween song “Monster Mash” by Bobby Pickett. But if you work in the MSC and took part in the annual chili cook off, you know that “Graveyard Smash” is not just a song, but a spicy and delicious pot of chili created by Janelle Brimer of Student Services. Janelle tied for first place this year along with Chartwell’s employee Nancy Taylor who entered her “Fiesta Chili.”

The MSC chili cook off has been going on longer than the MSC has been in existence. The tradition began over 13 years ago in the Admissions department and is still going strong. Every October many of the departments in the MSC gather together to share their chili dishes and vote on their favorite recipes. Mickey Williams, (Admissions), does a great job of organizing the event and making sure a good time is had by all. The event gives staff members the opportunity to gather together with fellow co-workers and enjoy a delicious cup or two or three of chili along with a variety of side dishes and desserts. There is always a friendly competition among the participants ranging from who can come up with the craziest chili name to who created the spiciest dish. The winners receive a certificate, but more importantly, they are entitled to bragging rights for the year.

- Theresa Keuss

The staff association would like to know: does your department do anything similar that you would like to tell us about? Please share your story with us and encourage more team building events among fellow staffers! Please email Christopher Boyce at boycech@ums.edu with ideas!
Online Training Opportunities

SkillPort

The University of Missouri System recently completed a 90 day pilot of an online learning program provided by SkillSoft. Employees participating in the pilot provided very positive feedback on the program. The University, upon the recommendation of the HR Council, has decided to purchase the program for a three-year period. We are pleased to announce that the SkillSoft on line training program provides a wide variety of educational resources and topics to meet the diverse training needs of employees – from highly technical topics to software application instruction, business skills development and legal compliance awareness.

A team of training professionals from across the campuses are developing a plan to fully implement the system, which will be available to all faculty and staff of the University. The implementation will begin on October 15 with full roll-out by November 8 (accessible through myHR). For new users or pilot users that would like a walkthrough of this new training resource, there will be online demonstrations beginning on 11/8/10. Instructions to sign up for the online demonstrations will be making their way to inboxes in the next few days.

Did You Know…

that daylight saving time was extended in 2007 as part of the 2005 Energy Policy Act which has resulted in a 0.5% savings in household electrical usage?

that adding daylight has been shown to benefit retailers and nation’s economy?

that not every part of the U.S. observes Daylight savings?

Daylight Savings Ends 11-7-2010

This Sunday, I personally will be enjoying one extra hour of much needed sleep.

As the familiar saying goes, time will “fall back” one hour at 1 a.m. Sunday morning, marking the end of Daylight Saving Time.

The practice was introduced by the New Zealand entomologist George Vernon Hudson in 1895 as a means of extending daylight hours during the summer months.

Some people I know also use this time of year to remind themselves to change the batteries in their smoke alarms and carbon monoxide detectors, or to go through their medicine cabinet and dispose of any expired prescriptions or medications. My mother decides this is a good time to purge her fridge by creating some interesting meals.

By the way, just how old is that jar of pickles, Mom?
