11:45-12:00 Panel Questions

12:00-12:45 Session 3

12:45-1:00 Panel Questions

1:00-2:30 Lunch

2:30 Optional tour of the Children’s Advocacy Center

Description
Missouri’s metropolitan areas, like many large US cities, face significant social challenges. These problems are often amplified in rural areas of the state. However, because of population density, severity of problems, and critical mass of providers, urban areas provide ideal laboratories for researching society’s biggest problems. The University of Missouri as a system has significant depth in the social sciences to inform solutions to these challenges through funded, collaborative, interdisciplinary work that effectively translates research into practice.
Area 1. Addiction, Trauma, and Gun Violence

Rachel Winograd, Research Assistant Professor, MIMH, University of Missouri-St. Louis. rachel.winograd@mimh.edu

“Missouri’s Response to our Opioid Crisis: What we’re doing and Why”
