INVITES PROSPECTIVE GRADUATE STUDENTS TO BECOME LEADERS IN ECOLOGY & CONSERVATION

Students (MSc & PhD) will JOIN a global network of biologists and conservationists spanning 29 countries and 12 U.S. states.

You can work with faculty at the University of Missouri- Saint Louis whose RESEARCH interests include:

- Biogeography
- Community ecology
- Molecular systematics
- Animal behavior
- Disease ecology
- Microbial ecology
- Plant-animal interactions
- Conservation biology
- Invasive species biology
- Evolution

You can also COLLABORATE with the Saint Louis Zoo and the Missouri Botanical Garden and access:

- Experts in conservation medicine, endocrinology, climate change, plant systematics, and ethnobotany
- 12 WildCare Institute centers dedicated to conserving threatened wildlife
- A herbarium with over 6.5 million specimens

The Harris Center also offers FULLY FUNDED FELLOWSHIPS and SCHOLARSHIPS for research and training courses.

GRADUATE APPLICATIONS due December 15th
