Criminal Justice Study Tour in GERMANY

July 17 - August 2, 2009

Program

The Criminal Justice Studies program in Germany will consist of an 17-day stay in two German states (Laenders): Rhineland-Palatinate (Rheinland-Pfalz) and Bavaria (Freistaat Bayern). This summer study tour is designed as an introduction to German culture, using the justice system as a focal point. Lectures during the first half of the tour will introduce students to the German justice system while the second half of the tour will consist of a joint seminar with German students. Topics to be discussed during the joint seminar include restorative justice, youth violence, and the role of comparative criminology in contemporary criminology. There are no prerequisites and participation is open to all interested in learning about German culture. Knowledge of German is not necessary - all lectures and tours will be conducted in English.
