Utilizing table classes
Creating Red or Gray table styles

Use of “red-table” result

<table>
<thead>
<tr>
<th>Important Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application Deadline</td>
</tr>
<tr>
<td>First Day of Class</td>
</tr>
</tbody>
</table>

Use of “gray-table” result

<table>
<thead>
<tr>
<th>Important Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application Deadline</td>
</tr>
<tr>
<td>First Day of Class</td>
</tr>
</tbody>
</table>

From the dropdown menu choose **(value)**

Enter “red-table” or “gray-table” as your value.
Utilizing table classes
Creating Red or Gray table styles

Use the “HTML” button located in the WYSIWYG toolbar

To create the red or gray header of your table you must write the table code in the correct format

```
<table class="red-table">
  <thead>
    <tr>
      <th>HEADING</th>
    </tr>
  </thead>
  <tbody>
    <tr>
      ....</tr>
  </tbody>
</table>
```

```
<table class="gray-table">
  <thead>
    <tr>
      <th>Important Dates</th>
    </tr>
  </thead>
  <tbody>
    <tr>
      Application Deadline</tr>
    <tr>
      May 2, 2014</tr>
    <tr>
      First Day of Class</tr>
    <tr>
      August 12, 2014</tr>
  </tbody>
</table>
```
Utilizing table classes
Horizontally scrolling table content

Table data can be displayed in a horizontal scrolling style when viewed on a mobile device.

```
<div class="table-responsive">
  <table class="table red-table">
    <thead>
      <tr>
        <th>HEADING</th>
      </tr>
    </thead>
    <tbody>
      <tr>
        <td>...</td>
        <td>...</td>
      </tr>
    </tbody>
  </table>
</div>
```

**NOTE:**
You must write a DIV with the class “table-responsive” FIRST.
Utilizing table classes

Block style table

Table data can also be displayed in “block” style when viewed on a mobile device.

To create the block style table use the class “block-table”.

```html
<table class="block-table red-table">
  <thead>
    <tr>
      <th>HEADING</th>
    </tr>
  </thead>
  <tbody>
    <tr>
      <td>....</td>
    </tr>
  </tbody>
</table>
```
